Open letter to the Town of Danville

As President of the Danville Community School Corporation Board of School Trustees, I am making the following statement on behalf of your elected school board:

To the leaders of the Town of Danville and our constituents, Greetings!

Our role as your School Board is to effectively navigate the hurdles and effectively prepare for the growth as new developments are proposed and approved. Within that role, this Board will not engage in agreeing or disagreeing with development plans submitted to government bodies.

When conducting our responsibilities as your elected officials, personal opinions are set aside to make decisions and focus on developing an effective plan for DCSC as growth in our community happens.

Cory B. Mason, President
Danville Community School Corporation
Board of School Trustees
