Policy #0420

SCHOOL PLANS/SITE COUNCILS

The Governing Board encourages district employees, students, parents/guardians and other members of the school community to develop school plans designed to meet the specific needs at individual school sites. The Board may approve or disapprove school plans as necessary in order to fulfill the district's mission, accomplish the Board's adopted goals and/or comply with legal requirements.

The Superintendent or designee shall ensure that schools desiring to participate in state-funded school-based programs establish and maintain a school site council. Such councils shall be responsible for the development, review and modification of school plans within their program area and for other duties as prescribed by law.
