

Standards Based Reporting

Progression to Mastery Scale			
Scale	Score	Teacher Rubric	Student Friendly
Excels	E	An E indicates the student has advanced understanding and exceeds grade-level expectations. A student receiving an E demonstrates academically superior skills on that specific topic. The student provides evidence of advanced knowledge or skill. Not all students will attain this level on the scale.	I can demonstrate learning that goes above and beyond what was taught.
Mastery	M	A M indicates the student has proficient understanding and meets grade level expectations. We want all students to reach this level on the scale. A student receiving a M is right on track with our academic expectations.	I have mastered my learning.
Partial Mastery	PM	A PM indicates the student has foundational understanding and is partially proficient at meeting grade-level expectations. A student receiving a PM understands the foundational concepts or skills, but has not yet reached the proficient level. A PM indicates that the students' performance varies in consistency with regard to accuracy, quality, and level of support needed.	I can sometimes do it by myself, but sometimes I need help.
Beginning	Beg	A Beg indicates the student has minimal understanding and needs significant guidance and support to show what he or she knows about the content on the scale.	I need help to do it.
