INDEPENDENT AUDITORS' REPORT

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the North Kansas City School District No. 74 (the "School District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the School District, as of June 30, 2018, and the respective change in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 18 and other information on pages 72 through 78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The supplementary information as listed in the table of contents on pages 79 through 93 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and is also not a required part of the basic financial statements.

The supplementary information, including the schedule of expenditures of federal awards, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2018, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2018

Management's Discussion and Analysis (MD&A) of the North Kansas City School District No. 74's (School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2018. The purpose of this MD&A is to communicate the overall financial performance of the School District including how the School District has performed in the past, the School District's current financial condition, and its outlook for the future. The MD&A, in combination with the financial statements, provides the opportunity for the School District to communicate the effectiveness of management's stewardship of resources, and, further, progress towards the School District's and the Board of Education's stated strategic objectives. Readers should also review the financial statements and the accompanying notes to the financial statements to enhance their understanding of the School District's financial performance.

The MD&A is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board (GASB) Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999.

Financial Highlights

Key financial highlights for the Fiscal Year 2017-2018 include the following:

- Beginning fiscal year 2014-2015, GASB 68 requires the School District to recognize the School District's portion of the state-wide pension liability associated with the Public School & Education Employee Retirement Systems of Missouri (PSRS & PEERS) and GASB 65 requires the School District to recognize debt issuance costs as an expense in the period incurred. The School District's ending Net Position is \$33.0 million which reflects a decrease in Net Position of \$7.4 million.
- The net position decrease of \$7.4 million for the year ended June 30, 2018 was comprised of the following elements:

(dollars in millions)

| | June 30, | | | | \$ Increase/ | | % Increase/ | |
|-----------------------------|----------|---------|----|---------|--------------|---------|-------------|--|

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2018

Financial Highlights (continued)

The unrestricted net position increased \$45.9 million mainly due to changes in the deferred outflows and inflows related to pension plans as well as changes in the actuarially determined pension liability. Debt service decreased by \$38.6 million due to scheduled principal payments.

• Total assets decreased by \$46.9 million attributed to the following elements:

(dollars in millions)

| | June 30, | | | | \$ Increase/ | | % Increase/ | |
|--------------------------------------|----------|-------|----|-------|--------------|----------|-------------|--|
| | | 2018 | | 2017 | (De | ecrease) | (Decrease) | |

| Capital assets, net of depreciation | | 373.9 | | 318.2 | | 55.7 | 17.5% | |
| Total Assets | \$ | 552.7 | \$ | 599.6 | \$ | (46.9) | (7.8%) | |

The decrease in cash and investments of \$102.9 million is mainly due to the timing of bond proceeds versus capital expenditures. The net increase in capital assets of \$55.7 million is due to construction and remodeling of schools.

• Total liabilities decreased by \$48.8 million due to the following items:

(dollars in millions)

| | June 30, | | | | \$ In | cre as e/ | % Increase/ | |
|---------------------------------------|----------|-------|------|-------|------------|-----------|-------------|--|
| | 2018 | | 2017 | | (Decrease) | | (Decrease) | |

| Current portion of Long-term Debt | | 31.4 | | 64.8 | | (33.4) | (51.5%) | |
| Noncurrent portion of Long-term Debt | | 301.3 | | 327.1 | | (25.8) | (7.9%) | |
| Total Liabilities (excluding GASB 68) | | 383.3 | | 427.7 | | (44.4) | (10.4%) | |
| Share of PSRS/PEERS Pension Liability | | 190.6 | | 195.0 | | (4.4) | (2.3%) | |
| Total Liabilities | \$ | 573.9 | \$ | 622.7 | \$ | (48.8) | (7.8%) | |

Scheduled principal payments account for the decrease in current and noncurrent portions of Long-Term Debt. The current year net pension liability is \$190.6 million which is down \$4.4 million from the prior year net pension liability of \$195.0 million. The share of the Missouri State Pension Liability is a result of the adoption of GASB 68.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2018

Financial Highlights (continued)

Other financial highlights are as follows:

- Total revenues of \$274.8 million consisted of general revenues of \$239.8 million which accounted for 87.3% of all revenues while program specific revenues (in the form of charges for services and operating grants and contributions) of \$35.0 million accounted for 12.7% of total revenues.
- The largest source of general revenue for the School District continues to be locally assessed property taxes. In fiscal year 2018, the assessed valuation increased \$66.5 million or 2.9% to \$2,149.6 million from the prior year. The collection rate, on a full accrual basis of accounting, decreased slightly to 99.4% from 99.5% in the prior year. Total property tax revenue received amounted to \$137.3 million. Property taxes collected, exclusive of all other taxes collected, were \$4.1 million higher than the prior year.
- The second largest source of general revenue for the School District comes from Missouri State Aid including the Missouri K-12 Foundation Formula and the Classroom Trust Fund. The School District received \$63.7 million from these sources in the current year, a decrease of \$1.0 million from the prior year.
- Prop C sales taxes are collected and distributed by the State Department of Revenue. These taxes accounted for \$20.0 million in revenue, an increase of \$0.6 million over the prior year due to increased retail sales.
- Other local tax revenues, such as surtax, financial institution taxes and railroad and utility taxes are collected and distributed by the Clay County Department of Revenue and accounted for \$13.5 million in general revenues, a decrease of \$1.0 million from the prior year.
- The School District had \$270.3 million in expenses, partially offset by \$35.0 million of program specific charges for services, grants and contributions. General revenues of \$239.8 million were adequate to provide for these programs.
- The General Fund had \$108.6 million in revenues and \$97.6 million in expenditures. A \$5.6 million transfer from the General Fund to the Capital Projects fund primarily consists of \$2.5 million for maintenance and upkeep of equipment, \$2.2 million to maintain the apple lease, and \$0.6 million to continue to service bus leases. A \$0.7 million transfer was made from the General Fund to the Special Revenue fund to cover expenditures. The operating fund balance increased \$4.7 million as the School District worked to keep operating expenditures in line with operating revenues in order to meet the Board of Education's fund balance goal of 16% of operating expenditures.
- Program revenue offsets costs associated with operations and is made up of Charges for services and grants and contributions. Charges for services revenues increased \$319,700 due to increased Student Activity revenues of \$298,017, increased Community Services revenues of \$55,835, increased Transportation revenues of \$23,595, and decreased Food Services revenues of \$57,747. The School District received \$4.5 million in revenue from Community Services, \$4.4 million from Food Services, \$2.9 million from Student Activities and \$0.6 million from Transportation. Grants and contributions account for \$22.6 million in program revenues, an increase of \$1.4 million from the prior year.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2018

The School District as a Whole

The Statement of Net Position and Statement of Activities

The Statement of Net Position and the Statement of Activities present an aggregate view of the School District's financial standing as well as a more in-depth view of the School District's current financial standing than would normally be seen in the Governmental Fund Type statements. These statements include all assets and liabilities using the full accrual basis of accounting. Accrual basis of accounting recognizes revenues when earned and expenses when incurred regardless of when the School District physically receives funds or writes checks for goods and services.

These two statements report the School District's year ended net position and changes in that net position during the year. The change in net position helps readers determine whether the financial condition of the School District has improved or diminished over the course of the year. The change in net position may be the result of both financial and non-financial factors. Non-financial factors include the School District's property tax base, current property tax laws in Missouri, student enrollment, facility conditions and required educational programs for which little or no funding is provided.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to, instruction, support services, operations and maintenance of buildings, pupil transportation and extracurricular activities. The School District does not have any business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2018

The School District as a Whole (continued)

Fund Financial Statements

The School District's financial statements for major funds provide more in-depth information about the School District's financial position and results of operations. The School District uses numerous funds to account for a multitude of financial transactions; however, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General (Incidental) Fund, Special Revenue (Teachers) Fund, Debt Service Fund, and Capital Projects Fund.

Governmental Funds

Most of the School District's activities are reported in governmental funds format. This format focuses on how money flows in and out of these funds and provides the reader with remaining fiscal year-end balances available for future use. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a short-term view of the School District's general governmental operations and the basic services the School District provides. Governmental fund information helps the reader determine the changes in financial resources in order to understand what can be spent in the near future. The relationship between governmental activities (as reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Governmental Activities

As reported in the Statement of Activities, the cost of the School District's governmental activities for the year ended June 30, 2018 was \$270.2 million. The Statement of Activities shows the cost of program services, the charges for services and the operating grants and contributions offsetting some of these services. Grants and contributions totaled \$22.6 million and helped reduce expenses for certain programs. Charges for services offset expenses by \$12.4 million and include items such as tuition reimbursement, activity fees, school lunch fees and facility use charges. The remaining program expenses are financed primarily by the taxpayers of the School District through property tax, sales tax, and other ad valorem tax revenue totaling \$170.8 million. State aid accounted for \$63.7 million. The "net cost" statement, on the following page, details the remaining cost of the various categories and informs the reader how much each program is funded by proceeds other than charges for services and operating grants and contributions.

The School District as a Whole (continued)

Governmental Activities (continued)

General Administration and Central Services includes expenses associated with administrative and financial supervision of the School District. It also includes expenses related to planning, research, development, and evaluation of support services, as well as the reporting of this information internally and to the public.

Operation of Plant involves keeping the school grounds, buildings, and equipment in an effective working condition.

Transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Food Service includes the preparation, delivery, and servicing of lunches, snacks and other incidental meals to students and school staff in connection with school activities.

Community Services includes expense related to parents as teachers, adult literacy education, adult continuing education, community education programs, and school age childcare program.

Facility Acquisition and Construction includes remodeling buildings, the construction of buildings and additions to buildings, initial installation and extensions of service systems and other built-in equipment, acquisition of land and buildings, and improvements to sites.

Interest and Fiscal Charges involves the transactions associated with the payment of interest and other related charges to debt of the School District.

The dependence upon tax revenues is apparent. Over 87% of instruction activities are supported through taxes and other general revenues; for all activities, general revenue support is 87%. The local community as a whole is the primary support for the North Kansas City School District No. 74.

Reporting the School District's Most Significant Funds

School District Funds

The School District's funds are accounted for using the modified accrual basis of accounting. Governmental funds total revenues were \$274.7 million and total expenditures were \$381.3 million. The net change in fund balance for the year in the General Fund was an increase of \$4.7 million. The unrestricted operating fund balance was \$49.9 million at year-end and was 21.5% of total expenditures of the General and Special Revenue Funds. This fund balance would exclusively sustain the School District for approximately 56 days of operations. The Operating Fund balance consisted of \$1.2 million non-spendable, leaving \$48.7 million operating fund balance unassigned and assigned.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2018

Budgeting Highlights

Operating Funds (General Fund and Special Revenue Fund) Budgeting Highlights

The School District's budget is prepared according to Missouri law and is based on accounting for certain transactions on the modified accrual basis recognizing cash receipts, disbursements, and encumbrances. During the course of the fiscal year, the School Board has the opportunity to approve budget adjustments on two separate occasions, once in the fall and again in the spring. Missouri Revised Statute 67.030 permits budget amendments to the expenditure budget as long as the changes do not exceed estimated revenues to be received during the year plus the unencumbered balance at the beginning of the fiscal year. The original budget for the School District was adopted June 13, 2017 with amendments being approved on August 29, 2017 and June 12, 2018. The most significant budgeted fund is the General Fund, followed by the Special Revenue Fund.

The School District uses site-based budgeting and the budgeting systems are designed to tightly control the overall site budget but also provide some flexibility for site administration within program functions.

During the fiscal year 2018 the School District amended its operating budget to reflect \$237.3 million for revenue and \$236.7 million for expenditures. Local revenue came in \$4.9 million higher than budget. With prudent spending and conservative budgeting the actual operating expenditures were \$6.1 million below the final budget.

Capital Assets and Long-term Liabilities Administration

Capital Assets

As of June 30, 2018, the School District had \$516.4 million invested in land, buildings, furniture and equipment, and vehicles with accumulated depreciation of \$142.5 million, resulting in net investment in capital assets at year-end of \$373.9 million.

Net capital assets ended at \$373.9 million, an increase of \$55.7 million due to the addition of capital assets of \$62.5 million partially offset by depreciation expense of \$6.6 million. In August 2016, the community authorized the School District to issue \$114 million in bonds which allowed the School District to build two new elementary schools and remodel and add on to North Kansas City High School in the current year.

Missouri statute allows School Districts to incur debt up to an amount equal to 15% of the most current assessed valuation, which includes abated TIF, abated Chapter 135 property, and abated Chapter 353 property. At June 30, 2018, the School District's overall legal debt margin was \$348.3 million, of which \$261.8 million has been issued, offset by a debt service fund balance of \$35.3 million leaving the un-voted debt margin at \$121.8 million.

In August, 2016 the District's community voted overwhelmingly (82%) to approve the issuance of \$114 million in new general obligation debt to fund the construction of two new elementary schools, renovate the 100-year-old North Kansas City High School, and provide additional repairs and upgrades throughout the District.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2018

Capital Assets and Long-term Liabilities Administration (continued)

In November, 2016 the District held a voter and Board of Education approved competitive sale to issue \$114 million of new GO Bonds. The result of the competitive sale yielded a true interest cost of 2.72% and keeps the District's promise of a "No Tax Increase" bond issue. The new debt includes bonds with maturity dates ranging from March 1, 2020 through March 1, 2036, Coupons ranging from 2.0% to 4.0%, an average life of approximately 13 years, and on average are priced at \$107.95. The District began making debt service payments March 1, 2017 with a final scheduled payment on March 1, 2036.

Both the Series 2016A refunding and the Series 2016B GO bonds received a rating from Moody's of Aa2. The Aa2 rating reflects the district's large and growing tax base, average wealth indices and modestly growing enrollment. The rating also reflects stable financial performance and reserves, and high yet manageable debt and pension profiles.

The stable outlook reflects an expectation of stable credit fundamentals supported by structurally balanced operations, healthy reserves, no medium-term plans for additional debt and conservative management. Additionally, continued growth is expected in the district's tax base given new development and its location within the growing Kansas City, MO metropolitan area.

The rating and the stability demonstrate that the District exhibits strong financial management with a tenured financial staff, multi-year planning and conservative budgeting.

At June 30, 2018, the outstanding balance for the School District on Capital Lease Obligations is \$24.8 million in principal and \$2.4 million in interest for a total of \$27.2 million.

Capital Assets and Long-term Liabilities Administration (continued)

The School District implemented Governmental Accounting Standards Board (GASB) Statement No. 68 Accounting and Financial Reporting for Pensions commencing with the fiscal year ending June 30, 2015. The School District is required to address accounting and financial reporting for pensions that are provided to the employees of state and local governmental employers through pension plans that are administered through trusts and must recognize liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures related to such pension plans. The current year net pension liability is \$190.6 million, a decrease of \$4.4 million dollars. Additionally, the School District recorded deferred outflows related to the pension plan of \$112.1 million dollars and deferred inflows related to pension plans of \$57.9 million dollars. See Notes to Financial Statements for additional details.

The School District implemented Governmental Accounting Standards Board (GASB) Statement No. 75 Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions (OPEB) commencing with the fiscal year ending June 30, 2018. The School District is required to provide a systematic, accrual-basis measurement of an annual OPEB Cost. In accordance with the change in accounting principal necessitated by GASB Statement No. 75, the School District recognized a prior period adjustment to its Net OPEB obligation of \$11.9 million resulting in an adjusted Net OPEB liability on July 1, 2017 of \$19.1 million. During fiscal year 2018, the School Districted recognized a \$0.1 million increase in OPEB liability consisting of increases in service cost and interest on total OPEB liability of \$0.9 million and \$0.8 million respectively, offset by the effect of assumption changes and benefit payments of \$(0.7) million and \$(0.9) million respectively. See Notes to Financial Statements for additional details.

Economic Factors and Next Year's Budget

The North Kansas City School District No. 74 is financially stable; however, we must continually monitor the national, state, and local economic trends in order to maintain that stability. The School District has begun to see a slight increase in local property values and corresponding tax revenues. Our 2017 local assessed property valuation is 2.9% higher than values reported by the Clay County Assessor's office in 2008. The 2017 assessment figures are based on reassessments as of January 1, 2017.

As part of the normal budgeting process, long-range projections are developed and continually updated. This process allows the School District to determine how much of the available resources can be used for on-going projects, such as new programs or initiatives, versus one-time projects, such as facility repairs.

In addition to balancing the revenue and expenditure budgets, School District policy sets beginning of the fiscal year minimum cash requirements. Based upon parameters established by the Board of Education, the year-end operating fund balance must be equal to 16% of the operating expenditure budget plus or minus 2%. Due to the cyclical nature of School District revenues and expenditures, this reserve is designed to cover cash flow needs during the period of October thru December, just prior to the collection of property tax revenues in late December and January, eliminating the need to utilize short-term borrowing to cover School District cash requirements.

The community support for the School District is strong. In August of 2016 the community voted with a resounding 82% approval of our new money bond issue. The School District is proud of the community support for public schools. As the preceding information shows, the School District continues to provide quality educational programming, while simultaneously making necessary improvements to facilities to serve a growing student enrollment.

Economic Factors and Next Year's Budget (continued)

The North Kansas City School District No. 74 has committed itself to financial excellence for many years as demonstrated by our consistently strong financial performance. In addition, the School District's system of financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenges of the future.

This report is designed to provide our citizens, taxpayers, investors, and creditors with a full and complete disclosure of the School District's finances and to show the School District's accountability for the money it receives. NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Entity

The North Kansas City School District No. 74 (the "School District") was established in 1913 under the statutes of the State of Missouri. The School District operates under the regulations pursuant to Section 162.092 RSMo of the Public School Laws of Missouri which designates a Board of Education to act as the governing authority.

The School District, located in Clay County, serves an area of approximately 82 square miles. It is staffed by 1,482 non-certificated employees, 1,517 certificated, full-time teaching personnel and 143 administrative employees who provide services to 19,604 students and other community members. The School District currently operates 21 elementary schools (grades K-5), five middle schools (grades 6-8), four high schools (grades 9-12) and six other education centers.

B. Principles Used to Determine Scope of Entity

The School District has implemented Governmental Accounting Standards Board ("GASB") Statement No. 39, *Determining Whether Certain Organizations are Component Units*. GASB Statement No. 39, which amended GASB Statement No. 14, provides specific criteria which must be met in order for an organization to be included in the School District's financial statements.

The School District has developed criteria to determine whether outside agencies with activities which benefit the citizens of the School District, including joint agreements which serve students from numerous school districts, should be included within its financial reporting entity. The criteria include, but are not limited to, whether the School District exercises oversight responsibility, which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters, scope of public service and special financing relationships.

The School District has determined that no other outside agency meets the above criteria and, therefore, no other agency has been included as a component unit in the School District's financial statements. In addition, the School District is not aware of any entity which could exercise such oversight which would result in the School District being considered a component unit of the entity.

C. Basis of Presentation

The School District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The GASB is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) (when applicable) that do not conflict with or contradict GASB pronouncements.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basis of Presentation (continued)

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information. Both the government-wide and fund-financial statements categorize primary activities as either governmental or business type. For the Year Ended June 30, 2018, all of the School District's activities are classified as governmental type.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the School District as a whole. They include all funds of the School District. The School District has only governmental activities which are financed through taxes, intergovernmental revenues and other revenues.

The statement of net position presents the financial condition of the governmental activities of the School District at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirement of a particular program and interest earned on grants that is required to be used to support a particular program.

Fund Financial Statements

Fund financial statements of the School District are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures. An emphasis is placed on major funds within the governmental categories. In accordance with the State law, the School District has designated all of the following funds as major funds.

Governmental Fund Types

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition, use and balances of the School District's expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the School District's governmental fund types.

General (Incidental) Fund

Accounts for general activities of the School District, including student activities, transportation, community activities and food service which are not required to be accounted for in a separate fund.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basis of Presentation (continued)

Special Revenue (Teacher's) Fund

Accounts for expenditures for certified employees who are involved in administration and instruction. It includes revenues restricted by the state and local tax levy for the payment of teacher salaries and certain employee benefits.

Debt Service Fund

Accounts for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on long-term debt.

Capital Projects (Building) Fund

Accounts for the proceeds of bond issues, taxes and other revenue restricted for acquisition or construction of major capital assets.

D. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe what transactions or events are recorded within the various financial statements. Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, recording of deferred revenue, presentation of expenses versus expenditures, and recording of long-term liabilities. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

In the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources' measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the related liability is incurred, regardless of the timing of related cash flows.

Governmental fund statements are reported using the "current financial resources" measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The School District considers revenues to be available if they are collected within 30 days after the end of the current fiscal period. Property taxes, state and federal grants and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Expenditures are recorded when the liability is incurred, except for claims and judgments, compensated absences and interest on long-term debt which are recorded when normally expected to be liquidated with expendable available financial resources. Proceeds from issuance of long-term debt are recognized when received and payment of long-term debt principal is reported as an expenditure when paid. Capital asset purchases are recorded as expenditures and depreciation is not recognized.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Measurement Focus and Basis of Accounting (continued)

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenues from property taxes are recognized in the period for which the taxes are levied. Revenues from grants, entitlements and donations are recognized when all eligibility requirements imposed by the provider have been satisfied.

Eligibility requirements include timing requirements, which specify the year the resources require use, or the year when use is first permitted, matching requirements and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenues from nonexchange transactions must also be available before they are recognized.

E. Assets, Liabilities and Equity

Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds, except for the debt service fund, are maintained in this pool. Individual fund integrity is maintained through School District records. (State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the School District.) Each fund type's portion of this pool is displayed in these financial statements as "Cash and Cash Equivalents" under each fund's caption.

Escrowed Cash with Fiscal Agents

The School District utilizes a financial institution to service bonded debt as principal and interest payments come due. The balance in this account is presented on the financial statements as "Escrowed Cash with Fiscal Agents" and represents deposits.

Investments

The School District's investment policy allows the purchase of any investments allowed by the Missouri State Treasurer. These include obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than five years from the date of purchase; repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity; or commercial paper issued by U.S. or domestic corporations and have two of the highest ratings issued from Moody's Investor Services, Inc. (Moody's), Standard and Poor's Corporation (S&P) or Fitch Group (Fitch).

Investment Valuation

The School District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The School District does not have any investments that are measured using Level 3 inputs.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Liabilities and Equity (continued)

Prepaid Items

Payments made to vendors for services that will benefit a period beyond June 30, 2018, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which the services are consumed.

<u>Inventory</u>

On government-wide financial statements, inventories are presented using the average cost basis and are expensed when used. On fund-financial statements, inventories of governmental funds are stated at cost. Inventory in governmental funds consists of expendable supplies held for consumption.

Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund-financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$1,000.

The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, except for land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

| <u>Description</u> | Estimated Lives |
|----------------------------|-----------------|
| Land Improvements | 20 years |
| Buildings and Improvements | 25-50 years |
| Furniture and Equipment | 5-20 years |
| Vehicles | 8-15 years |

Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position and the governmental funds balance sheet will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position / fund balance that applies to a future period and so will not be recognized as an expense or expenditure until then. In addition to liabilities, the Statement of Net Position can also report a separate section for deferred inflows of resources. This separate element, Deferred Inflows of Resources, represents an acquisition of net position / fund balance that applies to a future period and so will not be recognized as revenue until then.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Liabilities and Equity (continued)

Bond Premium / Discount and Bond Issuance Cost

Initial issue bond premiums and discounts are capitalized and amortized over the life of the related debt issues using the straight-line method, which approximates the effective interest method. Bond premiums are reported with long-term liabilities net of the unamortized portion of applicable premium or discount in the government-wide financial statements. Amortization of bond premiums or discounts is included in interest expense and reported as debt service expenditures. In the governmental funds, the bond premiums are recognized as other financing sources in the period when the bonds were issued. Issuance costs, including underwriters' discount, are expensed when incurred.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, payables and accrued liabilities that, once incurred, are paid on a timely manner and in full from current financial resources are reported as obligations of the governmental funds. However, compensated absences and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. The general obligation bonds, the notes payable and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due.

Accrued Salaries - Wages

Payroll expense for 2017-2018 school year contracts paid in July and August 2018 was included in accrued salaries and wages at June 30, 2018. The option to receive the July and August payment in June was not offered to the employee in the current year.

Accrued Vacation and Comp Time

Various certified and non-certified employees receive vacation and comp time which can be accrued. Each year a calculation of these accrued benefits is prepared based upon carryover hours at the employee's current rate. This liability is included in the government-wide financial statements.

Net Position

Net position represents the difference between assets, deferred outflows, liabilities, and deferred inflows. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for acquisition, construction or improvement of those assets including the unamortized premiums of the borrowings. Net position balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position amounts are available.

Fund Balance Reporting

The School District has implemented GASB 54 with the intention to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the School District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

For committed fund balances (as defined in GASB 54), the School District's highest level of decision-making authority is the Board of Education. The Board delegates the authority to assign amounts for specific purpose(s) to either the Assistant Superintendent – Finance and Operations or the Superintendent. The following is a list of classifications of fund balances and definitions as described in GASB 54.

Nonspendable Fund Balance

Represents amounts that cannot be spent due to form (such as inventory) or are required to be maintained intact.

Restricted Fund Balance

Represents amounts constrained for a specific purpose (restricted expenditure use).

Committed Fund Balance

Represents amounts designated for a special purpose by a government using its highest level of decision-making authority. The Board would make the commitment and only the Board can remove such a commitment. As of June 30, 2018, the School District did not have fund balances classified as committed.

Assigned Fund Balance

For all governmental funds other than the general fund. The amount reported as assigned should not result in a deficit in unassigned fund balance.

Unassigned Fund Balance

Represents only the general fund and all remaining fund balances not classified in the first four levels.

In addition, the order of spending is as follows: 1) when restricted, committed, assigned and unassigned funds are available for expenditure, restricted funds should be spent first (if applicable); 2) committed funds (if applicable) should be spent second; 3) assigned funds (if applicable) third; and 4) unassigned funds last.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Liabilities and Equity (continued)

Retirement Pension Plans (continued)

The fiduciary net position, as well as additions to and deductions from the fiduciary net position, of PSRS and PEERS have been determined on the same basis as they are reported by the Systems. The financial statements were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing the Systems. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value. The fiduciary net position is reflected in the measurement of the School District's net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense. A Comprehensive Annual Financial Report ("CAFR") can be obtained at www.psrs-peers.org.

Post-Employment Benefits

In addition to the retirement pension benefits described above and in Notes 4.A., the School District provides post-retirement healthcare benefits to all employees who retire from the School District. The monthly premium is paid fully by the retiree for the next period's coverage. There is no associated cost to the School District under this program.

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the School District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid by the insured monthly for the next period's coverage. This program is offered for a duration of 18 months after the termination date. There is no associated cost to the School District under this program.

F. Revenues and Expenditures

Revenues are classified by their source.

Local Revenues

Includes property taxes that are levied and collected at the county level for the School District, a percentage sales tax collected by local merchants and collections for services provided to students and patrons.

County Revenues

The county by law collects and passes through to the School District specified revenues.

State Revenues

The School District receives state aid money from the state based upon the state basic formula and for various other state educational programs.

Federal Revenues

The School District receives federal aid for various educational programs and grants in which they participate.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. Revenues and Expenditures (continued)

Investment Income

Interest earned on invested funds is a material amount annually.

Other Sources

The issuance of bonds is a source of revenue in the year of issuance in the governmental fund statements.

Program Receipts

Amounts reported as program receipts include 1) charges to students or others for goods, services or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions. All other governmental receipts are reported as general receipts. All taxes are classified as general receipts even if restricted for a specific purpose.

Expenditures are classified by their use.

Instruction

This category includes the payment of salaries to and benefits for all instructional staff along with needed supplies and aides.

Support Services

This category includes all the services that are provided for the support of the students and/or teachers, the management team, the facilities' expenses and the transporting of students.

Acquisition/Construction

This category represents the expenditures of major new construction or furnishing and the upgrading of existing facilities.

Debt Service

The payment of principal and interest on bonds payable or long-term capital leases.

G. Use of Estimates

The preparation of the financial statements in conformity with the U.S. generally accepted accounting principles require management to make estimates and assumptions that affect the amounts reported in the final statements and accompanying notes. Actual results may differ from those estimates.

NOTE 1: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

H. Change in Accounting Principle

For the year ended June 30, 2018, the School District adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB), effective for fiscal years beginning after June 30, 2017. The objective of this statement is to establish standards for measurement, recognition, and display of other postemployment benefits expense and related liabilities, note disclosures, and required supplementary information in the financial reports. The pronouncement requires employers offering OPEB benefits to record OPEB expense, OPEB liabilities or assets and deferred inflows of resources related to the OPEB benefits offered annually. See Note 4.B. Other Notes: Post-employment Healthcare Plan and Note O Restatement.

I. Recently Adopted Statements Issued by the Governmental Accounting Standards Board

GASB Statement No. 86

For the year ended June 30, 2018, the School District adopted GASB Statement No. 86, *Certain Debt Extinguishment Issues*, effective for fiscal years beginning after June 15, 2017. The objective of this statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources (other than the proceeds of refunding debt) are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Under previous guidance, debt could only be considered defeased if there was a refunding. This statement allows defeasance treatment even if the government uses existing assets and does not issue new debt. The adoption of this statement had no impact on these School District's financial statements.

GASB Statement No. 85

For the year ended June 30, 2018, the School District adopted GASB Statement No. 85, *Omnibus* 2017, effective for fiscal years beginning after June 15, 2017. The requirements of this Statement will enhance consistency in the application of accounting and financial reporting requirements, including issues related to goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). Consistent reporting will improve the usefulness of information for users of state and local government financial statements. The adoption of this statement had no impact on these School District's financial statements.

GASB Statement No. 82

For the year ended June 30, 2018, the School District adopted GASB Statement No. 82, *Pension Issues – an amendment of GASB No. 67, No. 68 and No. 73*, effective for first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. This Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an actuarial standard of practice for financial reporting purposes and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The adoption of this statement had no impact on these School District's financial statements. Note disclosures and RSI were incorporated to comply with the statement.

I. Recently Adopted Statements Issued by the Governmental Accounting Standards Board (continued)

GASB Statement No. 81

For the year ended June 30, 2018, the School District adopted GASB Statement No. 81, *Irrevocable Split-Interest Agreements*, effective for fiscal years beginning after December 15, 2016. The objective of this statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The adoption of this statement had no impact on these School District's financial statements.

NOTE 2: COMPLIANCE AND ACCOUNTABILITY

By its nature as a local government, the School District is subject to various federal, state and local laws and regulations. An analysis of the School District's compliance with significant laws, regulations, grants and contracts over School District resources follows.

A. Uninsured and Uncollateralized Deposits

In accordance with state law, all uninsured deposits of municipal funds in financial institutions must be secured with acceptable collateral. Acceptable collateral includes certain U.S. government governmental agency securities and certain state or political subdivision debt obligations. At June 30, 2018, all School District funds were covered with FDIC insurance or acceptable collateral.

B. Property Tax Requirements

Property taxes attach as an enforceable lien on the property each year as of January 1. Taxes are levied on November 1 and payable by December 31. The county collects the property tax and remits it to the School District on a monthly basis.

The School District also receives sales tax collected by the state and remitted based on prior year weighted average daily attendance. The state requires the School District to reduce its property tax levy by one-half the amount of sales tax estimated to be received in the subsequent calendar year. However, in April 1994 the voters of the School District approved a Prop C rollback wavier.

NOTE 2: <u>COMPLIANCE AND ACCOUNTABILITY</u> (continued)

B. Property Tax Requirements (continued)

The assessed valuation of the tangible property for calendar year 2017 for purposes of local taxation, excluding tax increment financing assessed valuation, and abated Chapter 135 and Chapter 353 properties, as follows.

| | Assessed | | Estimated | % of Total |
|---------------------|-------------------------|------------|-------------------------|------------------|
| | Valuation as of | Assessment | Actual | Estimated |
| | 12/31/2017 | Rate | <u>Valuation</u> | Actual Valuation |
| Real Property | | | | |
| Residential | \$ 1,246,430,972 | 19.0% | \$ 6,560,163,011 | 70.33% |
| Agricultural | 2,592,376 | 12.0% | 21,603,133 | 0.23% |
| Commercial | 358,364,446 | 32.0% | <u>1,119,888,894</u> | <u>12.01%</u> |
| Total Real Property | 1,607,387,794 | | 7,701,655,038 | 82.57% |
| | | | | |
| Personal Property | 542,175,195 | 33.3% (1) | <u>1,626,525,585</u> | <u>17.43%</u> |
| Total Property | \$ <u>2,149,562,989</u> | | \$ <u>9,328,180,623</u> | 100.00% |

⁽¹⁾ Assumes all personal property is assessed at 33 1/3%. Because certain subclasses of tangible personal property are assessed at less than 33 1/3%, the estimated actual valuation for personal property would likely be greater than that shown above.

The tax levy per \$100 of the assessed valuation of tangible taxable property for the calendar year 2017 for purposes of local taxation was as follows:

| General (Incidental) Fund | \$ 2.7635 |
|---------------------------------|-----------|
| Special Revenue (Teachers) Fund | 2.2400 |
| Debt Service Fund | 1.2900 |
| Capital Projects Fund | 0.1300 |
| Total | \$ 6.4235 |

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2018, aggregated 99.4% of the current assessment computed on the basis of the levy as shown above.

C. Net Position/Fund Balance Restrictions

State law prohibits the creation of a deficit fund balance in any individual fund. For the year ended June 30, 2018, the School District incurred no fund balance deficits in any individual fund.

D. Budgetary Law

State law requires that expenditures not exceed final budgeted expenditures as approved by the Board of Education. For the fiscal year ended June 30, 2018, no budgets had been exceeded.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 3: DETAIL NOTES - TRANSACTION CLASSES/ACCOUNTS

The following information is presented to support the amounts reported in the basic financial statements for its various assets, liabilities, equity, revenues and expenditures/expenses.

A. Custodial Credit Risk - Deposits and Investments

Deposits

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. The funds of the School District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the School District's agent bank in an amount sufficient to protect the School District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (the "FDIC") insurance.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a failure of a depository financial institution, the School District's deposits may not be returned or the School District will not be able to recover collateral securities in the possession of an outside party. The School District's policy required deposits to be 100% secured by collateral valued at market less the amount covered by the FDIC. As of June 30, 2018, none of the School District's bank balances with financial institutions was exposed to custodial credit risk.

Investments

Authorized Investments

The School District is authorized to invest in U.S. obligation, U.S. government agency securities and instrumentalities of government-sponsored corporations, repurchase agreements secured by U.S. obligations or obligations of U.S. government agencies or instrumentalities, certificates of deposit and commercial paper having two of the highest ratings issued from Moody's, S&P or Fitch.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, the School District's investment policy requires operating funds to be invested to coincide with projected cash flow needs, thereby avoiding the need to sell securities on the open market prior to maturity.

NOTE 3: <u>DETAIL NOTES - TRANSACTION CLASSES/ACCOUNTS</u> (continued)

A. Custodial Credit Risk - Deposits and Investments (continued)

Investments (continued)

As of June 30, 2018, the School District had the following investments and original maturities.

| Investment Type | < 1 Year | 1-5 Years | <u>Total</u> |
|----------------------------|----------------------|---------------------|----------------------|
| U.S. Government Agencies | \$ 8,154,624 | \$ 0 | \$ 8,154,624 |
| U.S. Treasury bonds, notes | 9,050,996 | 0 | 9,050,996 |
| Certificates of Deposit | 0 | 1,952,000 | 1,952,000 |
| Commercial Paper | 53,923,532 | 0 | 53,923,532 |
| Totals | \$ <u>71,129,152</u> | \$ <u>1,952,000</u> | \$ <u>73,081,152</u> |

The School District categorized its fair value measurements within the fair value hierarchy established by general accepted accounting principles. The School District has the following recurring fair value measurements as of June 30,2018:

| | Not subject | | | |
|----------------------------|---------------------|---------------|--------------|---------------|
| Investment Type | to Fair Value | Level 1 | Level 2 | <u>Total</u> |
| U.S. Government Agencies | \$ 0 | \$ 0 | \$ 8,154,624 | \$ 8,154,624 |
| U.S. Treasury bonds, notes | 0 | 9,050,996 | 0 | 9,050,996 |
| Certificates of Deposit | 1,952,000 | 0 | 0 | 1,952,000 |
| Commercial Paper | 0 | 53,923,532 | 0 | 53,923,532 |
| Totals | \$ <u>1,952,000</u> | \$ 62,974,528 | \$ 8,154,624 | \$ 73,081,152 |

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Concentration of Credit Risk

The School District's investment policy is to apply the prudent-person rule: Investments will be made with judgment and care, under the circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering probable safety of their capital as well as the probable income to be derived.

The School District also has deposits and investments held by the Missouri Direct Deposit Program and the Missouri Securities Investment Program. These investments and deposits are not classified by credit risk category.

Capital Lease Obligations

Apple MacBook computers

On March 27, 2012, the Board of Education approved and signed a master lease purchase agreement with Apple Inc. Financial Services ("Apple") effective April 28, 2012 to purchase new computer technology equipment through capital lease purchase transactions. The School District signed individual contract agreements with specific funding and repayment schedules for each purchase.

Effective October 23, 2014, the School District purchased 6,200 new MacBook Air laptops for high school students through a lease purchase contract with Apple. Beginning July 2015, the agreement requires four annual payments of \$1,518,627 due on July 5th of every year totaling \$6,074,507, which includes total interest of \$129,856 and principal of \$5,944,651. During the year ended June 30, 2018, the School District sold the computer equipment and used the proceeds to pay off the \$2,992,766 outstanding balance owed on the agreement.

Effective May 20, 2016, an additional lease purchase contract was signed with Apple for 2,000 MacBook Air laptops for staff and 150 MacBook Air laptops for the Northland Innovation Center. Beginning July 2016, the agreement requires four annual payments of \$568,774 due on July 1st of every year totaling \$2,275,095, which includes total interest of \$42,845 and principal of \$2,232,250. During the year ended June 30, 2018, the School District sold the computer equipment and used the proceeds to pay off the \$1,666,502 outstanding balance owed on the agreement.

Effective September 29, 2017, an additional lease purchase contract was signed with Apple for 15,000 iPads for students, 6,000 MacBook Air 11-in laptops for students, and 2,000 MacBook Air 13-in laptops for staff. The lease agreement includes a discounted purchase price totaling \$9,079,296, which includes \$364,507 of calculated interest using a stated rate of 1.940%. A one-time required payment was made on December 1, 2017 totaling principal of \$1,007,246 and interest expense of \$30,402. Beginning July 2018, the agreement requires four annual payments of \$2,101,539 due on July 15th of every year, which includes total interest of \$334,105 and principal of \$8,072,050.

Transportation – CNG Buses and Infrastructure

On March 10, 2015, the Board of Education approved the Transportation Committee's recommendation and signed a master installment purchase agreement with Mercedes-Benz Financial Services (MBFS) effective April 15, 2015 to purchase new buses and facility infrastructure through a combination of operating leases and capital lease purchase transactions. The School District signed individual contract agreements with specific funding and repayment schedules for each purchase. The three capital lease purchase agreements are outlined below.

Effective April 5, 2016, the School District purchased 94 CNG school buses for a term of 10 years through a lease purchase contract with MBFS. The School District will capitalize the 94 CNG school buses. Beginning July 2016, the agreement requires 10 annual payments of \$1,338,218 due on July 1st of every year totaling \$13,382,184, which includes total interest of \$1,231,833 and principal of \$12,150,351.

Effective April 5, 2016, the School District purchased a CNG fueling truck for a term of five years through a lease purchase contract with MBFS. The School District will capitalize the CNG fueling truck. Beginning July 2016, the agreement requires five annual payments of \$9,750 due on July 1st of every year totaling \$48,748, which includes total interest of \$1,753 and principal of \$46,995.

Effective April 5, 2016, the School District purchased CNG infrastructure and building modifications for a term of 10 years through a lease purchase contract with MBFS. The School District will capitalize the CNG infrastructure and building modifications. Beginning July 2016, the agreement requires 10 annual payments of \$271,848 due on July 1st of every year totaling \$2,718,483, which includes total interest of \$250,237 and principal of \$2,468,246.

Energy Cost Savings Improvements – Phase IV

On November 11, 2014, the Board of Education approved entry into an Energy Savings Performance Contract with Navitas, LLC as authorized under Section 8.231 of the Revised Statutes of Missouri, as amended. The contract includes a written guarantee from Navitas, LLC that either the energy savings or operational savings, or both, achieved by the School District will meet or exceed amounts specified in the contract on an annual basis for a period of 15 years. The School District, in agreement with the contract, issued Certificates of Participation (COPs) as noted below in Note 3.B. (Phases I, II, and III). In addition, the District entered into a base lease purchase agreement with Bank of America for energy cost savings improvements in the amount of \$4,999,000 on March 14, 2017. The following is a schedule of future payments related to the lease purchased agreement for Phase IV and related guaranteed energy and operational savings.

D. Inter-fund Transfers

Exchange transactions between funds are reported as receipts in the seller funds and as expenditures/ expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in governmental funds.

Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Those transfers made by the School District at June 30, 2018, are as follows.

Food Service

The School District transferred from the general fund food service revenue the amount spent for food service equipment to the capital projects fund.

Student Activities

This is a transfer from the general fund to the capital projects' fund for capital projects' expenses pertaining to student activities.

7% x State Adequacy Target x Prior Year Weighted Average Daily Attendance

This is a legal transfer from the general fund to the capital projects fund for specified projects as approved by the board of education. The amount transferred is less than the maximum amount calculated on the state formula.

Transportation Calculation Cost

This is a transfer from the general fund to the capital projects' fund for an amount based on prior year allowable transportation capital outlay expenditures, including school bus and facility depreciation.

"Zero" Teachers' Fund

This fund allows the School District to transfer from the general fund an amount necessary to bring a negative special revenue fund balance to "zero".

The following is a detail of the transfers.

E. Short-term Medical Leave Policy

This policy allows employees to continue to be paid up to thirty days for approved specified approved paid leave conditions after the employee has exhausted all available approved paid leave and vacation. The policy states that the employee will reimburse the School District by forfeiting four days annual approved paid leave (AAPL) and one half of any unused AAPL days at the end of each year until the employee has repaid short-term leave days.

If the employee leaves employment for other than permanent disability or death, the amount due to the School District is collected from their final paychecks. As of June 30, 2018, the estimated amount owed to the School District was \$327,502 of which \$32,750 was reserved for uncollectability.

General Information about the Pension Plan

Plan Description. Public School Retirement System of Missouri (PSRS) is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of PSRS, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989. The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "2/3's statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

Public Education Employee Retirement System of Missouri (PEERS) is a mandatory cost-sharing multiple employer retirement system for all public school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the PSRS must contribute to PEERS. Employees of PSRS who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of the Public School Retirement System of Missouri.

General Information about the Pension Plan (continued)

Benefits Provided. PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Beginning July 1, 2001, and ending July 1, 2014, a 2.55% benefit factor was used to calculate benefits for members who have 31 or more years of service at retirement. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

PEERS is a defined benefit plan providing service retirement and disability benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary benefit until reaching minimum Social Security age (currently age 62), which is calculated using a 0.8% benefit factor. Actuarially age-reduced retirement benefits are available with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems' website at www.psrs-peers.org.

Cost-of-Living Adjustments ("COLA"). The Board of Trustees has established a policy of providing COLAs to both PSRS and PEERS members as follows:

- If the June to June change in the Consumer Price Index for All Urban Consumers (CPI-U) is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 4: OTHER NOTES (continued)

A. Public School and Education Employee Retirement Systems of Missouri (PSRS/PEERS) (continued)

General Information about the Pension Plan (continued)

- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions . PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2016, 2017, and 2018. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal years 2016, 2017, and 2018. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The School District's contributions to PSRS and PEERS were \$16,049,091 and \$3,224,721, respectively, for the year ended June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the School District recorded a liability of \$168,832,038 for its proportionate share of PSRS' net pension liability and \$21,722,737 for its proportionate share of PEERS' net pension liability. In total the School District recorded net pension liabilities of \$190,554,775. The net pension liability for the plans in total was measured as of June 30, 2017, and determined by an actuarial valuation as of that date. The School District's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$15,992,950 and \$3,138,926, respectively, for the year ended June 30, 2017, relative to the actual contributions of \$684,085,861 for PSRS and \$110,244,418 for PEERS from all participating employers. At June 30, 2017, the School District's proportionate share was 2.3379% for PSRS and 2.8472% for PEERS.

For the year ended June 30, 2018, the School District recognized pension expense of \$19,210,886 for PSRS and \$4,334,940 for PEERS, its proportionate share of the total pension expense.

Actuarial Assumptions

Actuarial valuations of the Systems involve assumptions about probability of occurrence of events far into the future in order to estimate the reported amounts. Examples include assumptions about future employment, salary increases, and mortality. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Board of Trustees adopts actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience for the Systems, derived from experience studies conducted every fifth year and from Board policies concerning investments and COLAs. The most recent comprehensive experience studies were completed in June 2016. All economic and demographic assumptions were reviewed and updated, where appropriate, based on the results of the studies and effective with the June 30, 2016 valuation. For the June 30, 2017 valuations, the investment rate of return was reduced from 7.75% to 7.60% and the assumption for the annual cost-of-living adjustments was updated in accordance with the funding policies amended by the Board of Trustees at their November 2017 meeting. Significant actuarial assumption and methods, including changes from the prior year resulting from changes in Board policy, are detailed below. For additional information please refer to the Systems' Comprehensive Annual Financial Report (CAFR). The next experience studies are scheduled for 2021.

Actuarial Assumptions (continued)

- Cost-of-Living Increases

PSRS & PEERS The annual COLA assumed in the valuation increases from 1.20% to 1.65% over nine years, beginning January 1, 2019. The COLA reflected for January 1, 2018 is 1.63%, in accordance with the actual COLA approved by the Board. This COLA assumption reflects an assumption that general inflation will increase from 1.80% to a normative inflation assumption of 2.25% over nine years. It is also based on the current policy of the Board to grant a COLA on each January 1 as follows:

- If the June to June change in the CPI-U is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost- of-living increase is granted.
- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

The COLA applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age 60), and does not apply to the spouse with children pre-retirement death benefit, the dependent children pre-retirement death benefit, or the dependent parent death benefit. The total lifetime COLA cannot exceed 80% of the original benefit. PSRS members receive a COLA on the second January after retirement, while PEERS members receive a COLA on the fourth January after retirement.

- Changes in Actuarial Assumptions and Methods

PSRS The investment return and COLA assumptions were & updated by the Board as follows based on changes to the PEERS Board's funding policy adopted at the November 3, 2017 meeting:

- The investment return assumption was lowered from 7.75% to 7.60% per year.
- The Board adopted a new COLA policy on November 3, 2017 resulting in a change to the future COLA assumption from an increasing assumption of 1.05%-1.50% over nine years to an increasing assumption of 1.20%-1.65% over nine years, beginning January 1, 2019.
- Fiduciary Net Position The Systems issue a publicly available financial report (CAFR) that can be obtained at www.psrs-peers.org

Actuarial Assumptions (continued)

- Expected Rate of Return

The long-term expected rate of return on investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed rate of return. The long-term expected rate of return on the Systems' investments was determined using a building-block method in which best-estimate ranges of expected future real rates of returns (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems' target allocation as of June 30, 2017 are summarized below along with the long-term geometric return. Geometric return (also referred to as the time weighted return) is considered standard practice within the investment management industry. Geometric returns represent the compounded rate of growth of a portfolio. The method eliminates the effects created by cashflows.

Actuarial Assumptions (continued)

- Discount Rate

The long-term expected rate of return used to measure the total pension liability was 7.6% as of June 30, 2017, and is consistent with the long-term expected geometric return on plan investments. The actuarial assumed rate of return was 8.0% from 1980 through fiscal year 2016. The Board of Trustees adopted a new actuarial assumed rate of return of 7.75% effective with the June 30, 2016 valuation based on the actuarial experience studies and asset-liability study conducted during the 2016 fiscal year. As previously discussed, the Board of Trustees further reduced the assumed rate of return to 7.6% effective with the June 30, 2017 valuation. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarial accrued liability in level percent of employee payroll installments over 30 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

- Discount Rate Sensitivity

The sensitivity of the district's net pension liabilities to changes in the discount rate is presented below. The district's net pension liabilities calculated using the discount rate of 7.60% is presented as well as the net pension liabilities using a discount rate that is 1.0% lower (6.60%) or 1.0% higher (8.60%) than the current rate.

| | Discount Rate | 1% Decrease (6.60%) | Current Rate (7.60%) | 1% Increase (8.60%) |

| PEERS | Proportionate share of the Net Pension Liability/(Asset) | \$ 40,015,985 | \$ 21,722,737 | \$ 6,378,527 |

As of June 30, 2018, the School District reported a payable for legally required contributions of \$346,016 and \$84,367 to PSRS and PEERS, respectively.

B. Post-employment Healthcare Plan

General Information about the OPEB Plan

Plan Description. The School District's post-employment healthcare plan is a single-employer defined benefit healthcare plan (North Kansas City School District Other Post-Employment Benefits (OPEB) Program). As mandated by Section 169.590 of the Missouri Revised Statutes, the School District's qualified retirees and current employees are insured together as a group. Eligible participants receive benefits in the form of an implicit rate subsidy, where participants receive health insurance coverage by paying a blended retiree/active rate.

Funding Policy. The plan's premium rates are determined by the Board of Education in their selection of benefit plan proposals submitted by various benefit providing entities. The current plan offers four different types of plans, each with a different premium. Current contribution requirements require participants to pay the full blended premium. The School District does not pre-fund benefits. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis and there is not a trust for accumulating plan assets.

Eligibility. To be eligible for participation in the plan, employees must meet the retirement eligibility requirements for normal or early retirement under one of the state retirement plans for public employees (PSRS or PEERS). Normal retirement age is the earlier of age 60 with 5 years of service, age plus service equal to 80 points ("Rule of 80"), or any age with 30 years of service. Early retirement is age 55 with 5 years of service. Retirees may cover spouses and eligible dependent children, and surviving spouses can continue coverage after retiree's death.

Employees Covered by Benefit Terms. As of June 30, 2018, membership consisted of the following:

| Active participants | 2,717 |
|---|-------|
| Retired employees and surviving spouses | 192 |
| Spouses of current retired employees | 38 |
| | 2,947 |

OPEB Benefits. All medical benefits are provided through the School District's selected medical and dental care plans with medical coverage to include prescription drugs for retirees and their dependents. Retirees and related dependents can continue coverage past Medicare eligibility age (age 65) as a secondary insurance.

Total OPEB Liability

The School District's total OPEB liability of \$19,165,051 was measured as of June 30, 2018, and was determined by an actuarial valuation as of that date.

B. Post-employment Healthcare Plan (continued)

Actuarial Assumptions and Other Inputs. The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following key actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate 3.87% per annum based on the 20-year bond GO index

Inflation Rate 2.30% per annum Salary Increases Rate 3.00% per annum

Mortality RP-2014 Mortality for Employees and Healthy

Annuitants, with generational projection per Scale

MP-2017

Actuarial Cost Method Entry Age Normal

Healthcare Cost Trend Rates Medical cost trend rate of 5.8% for 2018, gradually

decreasing to an ultimate rate of 4.1% for 2078 and

beyond.

The healthcare trends used in the valuation are based on long term healthcare trends generated by the Getzen Model. The Getzen Model is the result of research sponsored by the Society of Actuaries and completed by a committee of economists and actuaries. This model is the current industry standard for projecting long term

medical trends.

Inputs to the model are consistent with the assumptions used in deriving the discount rate used in the valuation.

used in deriving the discount rate used in the valuation.

Plan Participation %

The participation percentage is the assumed rate of future

eligible retirees who elect to continue medical coverage at retirement. It is assumed that 40% of employees who retire prior to age 65 will participate in the retiree medical

plan.

Plan Participation % - Medicare eligible Medicare eligible retirees and dependents are assumed to

discontinue coverage when they reach age 65.

Plan Participation % - Non-Medicare

eligible

25% of teachers hired prior to 1986 are assumed to never be eligible for Medicare. These employees are assumed to continue coverage under the plan after age 65. 5% of retired teachers currently under age 65 are assumed to not be eligible for Medicare. These retirees are assumed to

continue coverage under the plan after age 65

OPEB Expense and Deferred Outflows / Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the School District recognized OPEB expense of \$1,534,489. At June 30, 2018, the School District reported deferred inflows of resources related to OPEB from changes in assumptions/inputs in the amount of \$591,599.

Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending June 30, | |
|----------------------|-----------------------|
| 2019 | \$ (70,095) |
| 2020 | (70,095) |

C. Deferred Compensation Plan

The School District has a deferred compensation plan under the provision of Internal Revenue Code Section 457B (Deferred Compensation Plans with Respect to Service for State and Local Governments). Those employees electing to defer a portion of their salary avoided paying income taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency.

The deferred compensation plans of these employees are administered by unrelated financial institutions. Under the terms of IRC Section 457 Deferred Compensation Plan, all deferred compensation amounts held by these financial institutions, until paid or made available to the employee or beneficiary, are the property of the School District and subject to the claims of the School District's general creditors. In addition, the participant in the plan has rights equal to those of the general creditors of the School District and each participant's rights are equal to his or her share of the fair market value of the plan assets.

The School District believes that it is unlikely that plan assets will be needed to satisfy claims of general creditors that might arise. As part of a fiduciary role, the School District has an obligation of due care in selecting the third-party administrator.

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 4: OTHER NOTES (continued)

D. Section 125 Cafeteria Plan and Health Savings Account

The School District has a Section 125 Cafeteria Plan that includes the Health Savings Account (HSA) option. Under the Plan, School District employees may elect to withhold from their payroll amounts which can be used to pay for various medical and dependent care expenses not covered by insurance. Any balance that remains in the employee account at September 30 of each year (plan year-end) is not carried over to the subsequent plan year. The employee forfeits all rights with respect to the balance, and the forfeited balance reverts to the School District.

As of October 1, 2013, the School District began offering a Qualified-High Deductible Plan (QHDP) with an HSA for pre-tax contributions. Under the QHDP Plan, School District employees may elect to withhold from their payroll amounts which can be used to pay for various medical and dependent care expenses not covered by insurance and the School District contributes \$50 per month to each account. Any balance remaining in the employee's HSA account at the end of any plan year will be carried forward and used to fund such benefits in any subsequent plan year.

E. Claims and Adjustments

The School District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Disbursements financed by grants are subject to audit by the appropriate grantor government. If disbursements are disallowed due to noncompliance with grant program regulation, the School District may be required to reimburse the grantor government. As of June 30, 2018, disbursements have not been audited by grantor governments, but the School District believes that disallowed disbursements, if any, based on subsequent audits will not have a material effect on any of the individual government funds or the overall position of the School District.

F. Lease - Operating

The School District has entered into various operating leases for the use of passenger school buses, parking facilities, office space and equipment. Each lease contains separate and varying provisions with regard to cancellation and renewal. For the year ended June 30, 2018, the School District recognized expense related to these agreements totaling \$1,313,536.

The following is a schedule of the future minimum lease payments under the lease (assuming noncancellation).

| For the Year Ended June 30, | Amount |

G. Facilities Use Agreement

In September 2005, the School District entered into an agreement with the City of Gladstone, Missouri. The City agreed to finance the planning, development and construction of a water-related recreational facility (Natatorium) and to operate the facility after completion. The School District agreed to use the Natatorium and pay a user fee of \$525,000 per year commencing in February 2007 and lasting through February 2026. In February 2018, \$525,000 was paid to the City of which \$306,250 was recorded as prepaid expense.

The School District also agreed to pay the City an annual payment for maintenance usage. These maintenance usage fees will be recalculated every five years during the lease term. Beginning in fiscal year ending June 30, 2018 through fiscal year ending June 30, 2022, the maintenance fee was recalculated to \$175,000, of which \$87,500 was recorded as prepaid expense as of June 30, 2018.

The following is a schedule of future minimum use payments and maintenance agreements as per agreement.

| For the Year Ended June 30, | <u>Usage Fees</u> | Maintenance Fees |
|-----------------------------|---------------------|------------------|
| 2019 | \$ 525,000 | \$ 175,000 |
| 2020 | 525,000 | \$ 175,000 |

| 2024-2026 | <u>1,575,000</u> | Adjusted |

H. Impact Fee Credits

New construction within the city limits of Kansas City, Missouri, require specified fees be paid to Kansas City. As the project is completed, benefitting the City, the City issues credits which have value and can be used in the future for fees on construction projects or sold if a willing buyer can be located. Through the years, the School District has accumulated, used and sold these credits. Even though the City assigns a value to these credits, a fair value can never be easily estimated as there is very little market for such credits. Therefore, the School District has never booked a value for such credits. The following is the summary of the current year's transactions of impact fee credits at City value.

I. Litigation

As of June 30, 2018, the School District had several unsettled claims of various natures. These claims are at various stages of litigation and at this time, outcomes cannot be predicted. The School District is vigorously defending against each claim.

J. Risk Management

The School District is exposed to various risks of loss from torts, theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

K. North Kansas City School District Foundation

The North Kansas City School District Foundation is a 501(c)(3) corporation that was organized to provide support to the School District through classroom grants to teachers and scholarships to students graduated from the School District. The Foundation has a separate board of directors to include School District management and has the final approval on the distribution of funds. The Foundation is not controlled by the Board of Education and therefore not considered a component unit by management.

L. Northland CAPS Program

The Northland CAPS (Northland Center for Advanced Professional Studies) program is a partnership with surrounding school districts that started with the 2014-15 school year. Each district is required to pay tuition for their students to attend the program. The program operates with its own Board of Directors and the North Kansas City School District serves as the fiscal agent.

Participating school districts include: Excelsior Springs, Kearney, Liberty, North Kansas City, Park Hill, Platte County R-III, and Smithville.

The program provides high school students the opportunity to deeply explore professions of interest through a profession-based, inquiry learning method. Local and global business partners participate with highly skilled instructors to provide authentic exposure and skill acquisition in high demand/high skill 21st century professions.

The program served 353 students during the 2017-2018 school year and is reported as an agency fund.

M. Northland Innovation Center

On October 7, 2014, the School District entered into a lease agreement with the CBC Real Estate Group ("CBC") based on a development agreement between the City of Gladstone, Missouri and the CBC to finance the planning, development and construction of a 90,000 square foot office building (Northland Innovation Center, the "Center"). CBC will be the landlord for the facility upon completion. The School District agreed to use 60,000 square feet of the Center for educational purposes, including the location for the Northland CAPS program (see Note 4.L.) and the Gifted and Talented program. The base rent has an escalator every 60 months beginning with \$90,000 per month commencing 90 days from the completion of the building. The commence date of the lease was May 1, 2016. The following is a schedule of the future escalation payments as per agreement.

N. Tax Abatement

As of the issuance date of this report, the following governmental entities are within or partially within the boundaries of the School District and were likely to enter into tax abatement agreements with individuals or entities including the School District; City of Kansas City, City of Gladstone, City of North Kansas City, City of Pleasant Valley, and Village of Claycomo. The School District was able to obtain sufficient information in order to adhere to the requirements of GASB Statement 77 from the following governmental entities for the year ended June 30, 2018:

NOTES TO FINANCIAL STATEMENTS June 30, 2018

NOTE 4: OTHER NOTES (continued)

N. Tax Abatement (continued)

City of Kansas City, Missouri Tax Abatement Programs

The City of Kansas City, Missouri and its component units (collectively the "City") provide tax redirection through the following four programs:

- 1. Tax Increment Financing (TIF)
- 2. "Super" TIF
- 3. Land Bank
- 4. Various City Council Initiatives

The City also provide tax abatement through the following six programs:

- 1. Chapter 100 RSMo
- 2. Chapter 353 RSMo,
- 3. Missouri Works Enhanced Enterprise Zones
- 4. Sale/Leaseback Land Clearance for Redevelopment Authority (LCRA)
- 5. Sale/Leaseback Port KC
- 6. Urban Renewal Program.

The Tax Increment Financing Commission of Kansas City (TIFC) administers the TIF program which allows for future real property taxes paid in the form of payments in lieu of taxes (PILOTs) and economic activity taxes (EATs) to be utilized to pay for costs of construction, public infrastructure, and other improvements per Sections 99.800 - 99.865 Revised Statutes of Missouri (RSMo). A proposed TIF Plan includes a cost-benefit analysis, a finding that the redevelopment project would not occur "but-for" the assistance of TIF, and a determination that the TIF Plan is a "blighted area," "conservation area," and/or "economic development area." Plans and projects must be approved by the City Council. EATs generated within TIF project areas are calculated annually and compared to the EATs calculated within the project area in the calendar year prior to the adoption of TIF. Fifty percent (50%) off the local incremental EATs (i.e., earnings, sales, use, convention & tourism, and utility taxes) are redirected for up to 23 years to reimburse specific costs related to the TIF project. Taxable assessed value within TIF project area is frozen at the value in place on January 1st of the year TIF is adopted. One hundred percent (100%) of local incremental real property taxes are redirected for up to 23 years to reimburse specific costs related to the TIF project. Minority, Women and Disadvantaged Business Enterprise (MWDBE) utilization goals for TIF projects are set and monitored by the City's Human Relations Department and enforced by the TIFC. The City has made financial commitments related to infrastructure projects which utilize TIF revenues as well as other funding sources. These projects include road and trail construction, floodwater management, land acquisition, and neighborhood housing programs.

N. Tax Abatement (continued)

City of Kansas City, Missouri Tax Abatement Programs (continued)

Chapter 100 RSMo. The program provides property tax abatement and sales tax exemption to purchase, construct, improve and equip certain industrial development projects through the issuance of industrial development bonds per Sections 100.010 - 100.200 RSMo. Eligible types of projects include warehouses, distribution facilities, office industries and others listed within Section 100.010 RSMo. The City's policy for the use of Chapter 100 bonds, per Committee Substitute for Resolution No. 041033, requires a minimum issuance of \$5 million for businesses located within Kansas City and \$100 million for businesses relocating to Kansas City. Project improvements and equipment financed with Chapter 100 bonds are deeded to City, and exempt from ad valorem taxes per Section 137.100 RSMo, as long as the bonds are outstanding. Companies commit to operational standards for payroll and investment. Failing to meet those standards may result in the company repaying a portion of the abated taxes. The City received PILOTs in the amount of \$562,000 and \$27,000 of administrative fees during the fiscal year.

Chapter 353 RSMo. The program provides property tax abatement to encourage developers to improve and/or remove blight (e.g., renovating abandoned buildings for new uses) per Chapter 353 RSMo. A financial need analysis, proof of a blight study and a plan approved by City Council are required. The program also requires the formation of an Urban Redevelopment Corporation, rezoning to an Urban Revitalization District, compliance with MWDBE and Prevailing Wage requirements, and submission of annual project reports. Developers under this program are normally granted 25 years of property tax abatement on improvements made to real property. Abatements generally occur in two phases (Phase I - 100% abatement of property taxes on the assessed value of the improved property, followed by a Phase II - 50% abatement of property taxes for 15 years). Recapture of abated taxes may occur if the recipient does not fulfill their commitments under the redevelopment plan agreements. The development agreement may also require an annual PILOT during the first phase. The City received PILOTs of approximately \$91,000 during the fiscal year.

The School District's property tax revenues for 2017 were reduced by \$8,023,000 as part of the above-mentioned City's Tax Abatement programs.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULES For the Year Ended June 30, 2018

BUDGETARY ACCOUNTING

The School District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In accordance with Chapter 67, RSMo, the School District adopts a budget for each major fund.
- 2. Prior to June 30, the superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues, proposed expenditures and transfers for all School District governmental type funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- 3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4. Prior to July 1, the budget is legally enacted by a vote of the Board of Education.
- 5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in these financial statements. Budgeted amounts in the financial statements are as originally adopted or as amended by the Board of Education.
- 6. The School District prepares its budget for all governmental funds on the modified accrual basis of accounting. This basis is consistent with the basis of accounting used in preparing and presenting the governmental fund statements. The financial statements include a reconciliation between the modified accrual basis of accounting and the accrual basis of accounting.
- 6. Actual expenditures may not legally exceed the budgeted expenditures in any budgeted fund. For the fiscal year ended June 30, 2018, no budgets had been exceeded using the modified accrual basis of accounting.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2018

NOTE 1: BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of North Kansas City School District No. 74 (the "School District") under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the School District.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in Note 1 to the School District's financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years

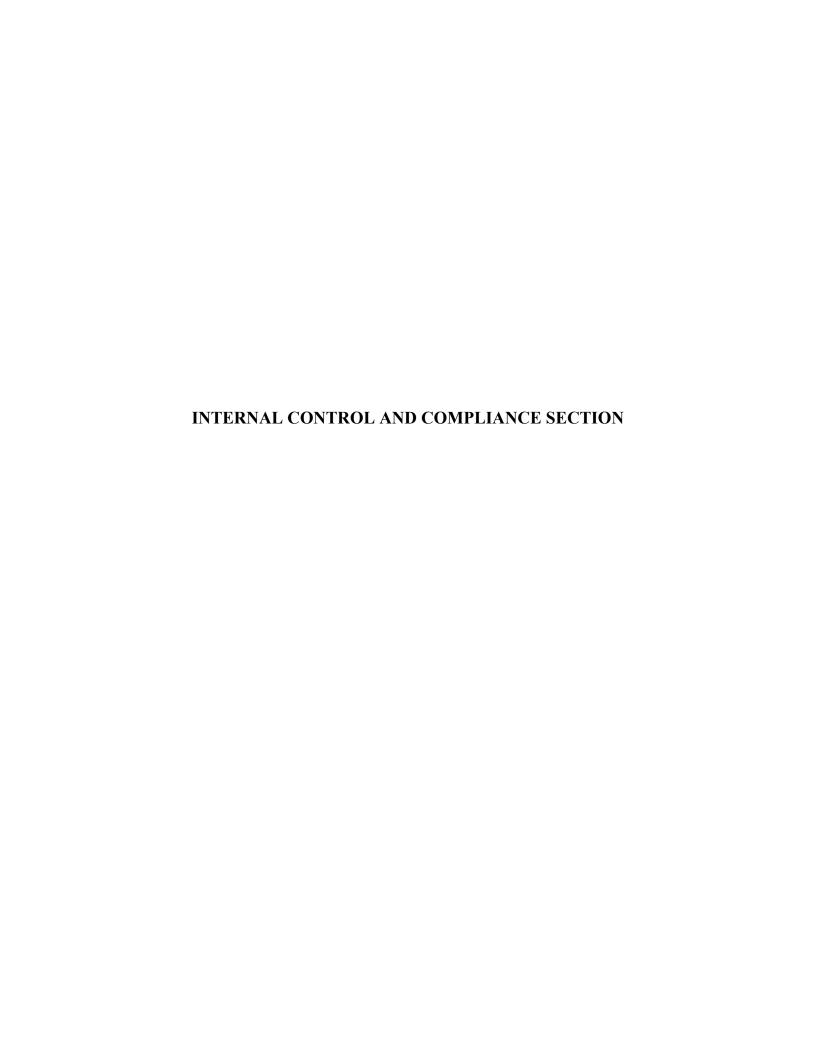

The Schedule presents both Type A and Type B federal assistance programs administered by the School District. The Uniform Guidance establishes the formula for determining the level of expenditures of disbursements to be used in defining Type A and Type B federal financial assistance programs. For the District, Type A programs are those which exceed \$750,000 in disbursements, expenditures, or distributions. The determination of major and nonmajor programs is based on the risk-based approach outlined in Uniform Guidance.

NOTE 3: SUBRECIPIENTS

The School District did not provide funds to subrecipients in the current fiscal year.

NOTE 4: <u>INDIRECT COST RATE</u>

The School District elected not use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the North Kansas City School District No. 74 (the "School District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated December 7, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

Report on Compliance for Each Major Federal Program

We have audited the North Kansas City School District No. 74's (the "School District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2018. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT ACCOUNTANTS' REPORT ON MANAGEMENT'S ASSERTIONS ABOUT COMPLIANCE WITH SPECIFIED REQUIREMENTS OF MISSOURI LAWS AND REGULATIONS

Board of Education North Kansas City School District No. 74 Kansas City, Missouri

We have examined management's assertion, included in its representation letter dated December 7, 2018, that the North Kansas City School District No. 74 (the "School District") complied with the requirements of Missouri laws and regulations regarding budgetary and disbursement procedures, accurate disclosure of the School District's records of average daily attendance and average daily transportation of pupils, and other statutory requirements as listed in the Schedule of Selected Statistics for the year ended June 30, 2018. Management is responsible for its assertion that the School District complied with the aforementioned requirements. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the School District's compliance with specified requirements.

In our opinion, management's assertion that the North Kansas City School District No. 74 complied with the aforementioned requirements included in the Schedule of Selected Statistics for the year ended June 30, 2018, are fairly stated, in all material respects.

This report is intended for the information and use of the Board of Education, School District management, the Missouri Department of Elementary and Secondary Education and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.
