

Medications:

New York State Law requires that School Nurses administer medications to students only if they are accompanied by a written order from the physician and a signed consent from the parent. This applies to all medications including antibiotics, aspirin, Tylenol, allergy medications, inhalers and over the counter medications.

If a student needs to take medications in school, please have the Hewlett-Woodmere Public Schools Parent and Prescriber's Authorization for the Administration of Medication in School Form completed. The medication must be brought to the Health Office by the parent/guardian in the original container with clear and proper labeling.

The Hewlett-Woodmere Public Schools SELF-MEDICATION Release Form for Inhalers and Epi-Pens only must be completed for students to be permitted to carry Inhalers and Epi-Pens on his/her person or to keep in their locker. These students must be considered as responsible and have been instructed in, and understands the purpose and appropriate method and frequency of use of these medications

.Under NO CIRCUMSTANCE should a student carry unauthorized medication to school to be taken by their selves. Disciplinary action will be taken.

*Feel free to call the Health Office @ 792-4110 for any special needs for questions.
