

School Quality Survey

Results and Analysis

Hewlett-Woodmere Union Free School District

School Year: 2018-2019

Overview

Positive school climate is an essential component of successful and effective schools. It is defined as shared beliefs, values, and attitudes that shape interactions between students, teachers, and administrators, while setting the parameters of acceptable behavior and norms for the school.

The Hewlett-Woodmere Public Schools School Quality Survey asked parents, school staff members, and students in grades 6-12 for feedback on school climate.

K12 *Insight* partnered with district team members to develop the surveys, which addressed the following topics:

- Academic Support
- Student Support
- School Leadership
- Family Involvement
- Safety and Behavior

Details of the Study and Understanding the Results

The surveys were open April 1-May 3.

Parents, school staff members, and students in grades 6-12 received email invitations with a link to take the survey. Parents could also participate via a public URL on the district's website. Parents were able to take the survey again for additional schools. Reminders were sent on April 4, 10, 12, 17, 29, and May 1.

This report summarizes survey results and breaks them down by participant group. Results do not reflect random sampling; therefore, they should not be generalized to all Hewlett-Woodmere Public School parents, staff members, and students in grades 6-12. Rather, results reflect only the perceptions and opinions of survey participants. School-level reports are also included in this project.

Findings for each item in the report exclude participants who did not answer. In charts and graphs, data labels less than 5 percent are not shown. Percentages may not total 100 due to rounding.

Net Promoter Score — District

The net promoter score (NPS) serves as a proxy for public confidence in the district and can potentially be connected to district growth. It is calculated by subtracting the percentage of detractors from the percentage of promoters, which gives a value between -100 to +100. A positive score means there are more people promoting the district than detracting from it.

How likely are you to recommend Hewlett-Woodmere Public Schools to a friend or colleague?

Note: Participants were asked how likely they were to recommend Hewlett-Woodmere Public Schools to a friend or colleague on a scale of zero to 10, with zero being Not at All Likely and 10 being Extremely Likely. The scores are clustered into promoters, passives, and detractors based on the rating. The net promoter score is calculated by subtracting the percentage of detractors from the percentage of promoters.
