- Your career future is in your hands, but knowing where to start can be overwhelming. The **ASVAB (Armed Services Vocational Aptitude Battery)** is designed to help all students in 10th grade and above answer the burning question, “What job is right for me?” Planning for a bright future starts with career literacy. Career Literacy is knowing facts about yourself and the world of work. It’s what every student needs to make informed career decisions. A student who knows their strengths, skills, and interests is better prepared to make decisions about their future goals.

The ASVAB Career Exploration Program will be offered on Wednesday October 11 at 8:00 AM in the athletic training room. This is a GREAT opportunity to be informed about your future. For more information, stop by Mrs. Holt’s office!
