Dear 6th grade families,

I cannot believe it is already October! Wow, the school year is off to a great start for 6th graders. Currently, 6th graders are working hard in academics practicing fractions, order of operations, writing narratives, learning about latitude and longitude and also experimenting with matter, water and thermal energy. Please see some celebrations, reminders of expectations and announcements.

## Celebrations

6th graders have engaged in “Huddle Up’s” every week! They participate in “minute to win it” challenges with their teachers and for students earning raffle tickets, we have had 6 winners! Students can earn many things for their raffle tickets. Most recently students chose “Uber with Ms. Murphy”, a game of PIG against a teacher of choice and lunch outside on our balcony with friends!

## Reminder of Expectations

- Learning is key to success. It is important for 6th graders to be on time to class. They have 5 minute passing periods, so they should be able to attend classes on time.
- Students need their chrome book charged every day they come to school. Teachers are working hard at providing thoughtful, well planned lessons incorporating technology and we want your students to be able to participate, learn and show success!

## Announcements

### 6th grade parent meeting:

Come join me virtually on October 4th from 5:45-6:45pm for a 6th grade parent session and Spanish interpretation will be provided. During this session we will celebrate students and dialogue about kindness, empathy and building a strong community. We need your voice! Your thoughts and ideas make a difference for our system and your student’s experience at Thornton Middle School!

If you are able to join, here is the link to join virtually: [OCTOBER 4 Parent Session](#)

If your student arrives more than five minutes late for school, please have them stop at the Attendance Office to get a late pass. They should do this as soon as they walk in the school building. The reason this is an important step is to make sure that your student's attendance is updated and corrected.

## Checking Your Student Out Early

We understand that there will be times you will need to check out your student from school early. When doing this you **MUST** come inside to the main office window to sign them out. You will need a **picture ID** and you must be on the authorized pick-up list for the student you are checking out in the Infinite Campus system.

## Testing Information

**MAP testing** is a computer adaptive test ALL TMS students will take 3 times this year (fall, winter, and spring). This is a district required interim test that students in grades 1 - 9 complete to track growth on reading and mathematics skills.

### Resources for families:

Family Toolkit: <https://www.nwea.org/family-toolkit/>

MAP Commonly Asked Questions <https://www.nwea.org/the-map-suite/common-questions-families/>

**CMAS testing** is a state required test that is administered in the spring testing students' grade level knowledge on the standards. ALL students take the English Language Arts and Mathematics. 8th grade students also take the Science test.

### Resources for families:

**ACCESS testing** is a series of English language proficiency assessments that is administered annually to monitor progress in listening, speaking, reading, and writing. Only students who are monitored for ELD services are tested for ACCESS.

## Testing Information For Parents/Students

### **Day of testing:**

Encourage your student to have a goodnight sleep the night before.

Encourage your student to have breakfast on the days of testing, whether it is at home, or getting free breakfast in the TMS cafeteria!

Remind students to bring their charged chromebook AND charger the days of testing.

Encourage your student to do the best they can that day and to be mindful of the other students taking the test so that they can also do the best they can. TRY on every question. We want to know what you know of the standards. It's okay if you are unsure, the best thing you can do in any situation is try.

### **Why do these scores matter?**

CMAS and MAP scores are used as a data point for placement into high school programs such as advanced classes, remedial courses, as well entry into tech programs (Future Forward and Bollman)

The state uses CMAS scores to rate schools and for funding purposes.

MAP scores are used for teacher evaluations.

ACCESS scores can help students test out of ELD courses.

### **What supports are in place at TMS to support students with CMAS?**

Teachers are teaching and assessing the standards set out by the state of Colorado in classes daily. These are the standards that are assessed on CMAS.

Students take fall, winter, and spring MAP in reading and Math. These tests support students in experiencing a testing environment. This also provides standardized data to teachers to help support student learning.

### **How can families support their student(s) in CMAS and MAP scores and their education in general?**

Encourage students to complete all assignments and learning activities in all their classes, especially making sure that students make up all assessment opportunities.

Be involved in the student's academics. Ask questions about what students are learning and ask to see work sent home. Log into Infinite Campus and ask about scores.

Remind students of your expectations for their learning and to follow school expectations so that all students are able to learn and grow.

Reach out to teachers and the school with any questions around your student's education. We are all here to partner to support students in learning and growing.

Remind students to bring a charged chromebook to school EVERY DAY.

Reading at home makes a BIG difference in students' learning!

The Colorado Office of Behavioral Health and its partners have launched IMatter, a program that provides up to three free counseling sessions for Colorado youth.

### Get Connected

Youth and their parents can visit the I Matter platform to take a confidential online survey about their mental health and schedule sessions with a licensed behavioral health clinician, primarily online over telehealth. All Colorado youth ages 18 or younger—or 21 and younger if receiving special education services—are eligible to receive free services.
