

## Folsom-Cordova Moves to a New Web System

### *SchoolWires Registration Information*

Dear Parents/Guardians,

Folsom-Cordova Unified School District is restructuring the district & school websites to make navigation and searching easier for parents, students & community members. One of the new changes for the SchoolWires system is that you are no longer required to sign into the system in order to view school or teacher web pages. General information will be more organized and consolidated. The school websites will be more interactive and friendly.

The SchoolWires system will also provide an additional communication tool for parents. You may sign up to receive E-Alerts (email or text message alerts) by subscribing to specific pages that interest you. E-Alerts are messages sent to you by staff at your School District. There are two types of E-Alerts you can receive: Broadcast E-Alerts and Content E-Alerts. You must be a registered user to receive E-Alerts.

#### **Broadcast E-Alerts**

Broadcast E-Alerts are typically sent to groups of registered users and contain information such as newsletters, emergency closings, cancellations, meeting notices and the like. A Broadcast E-Alert can be delivered as an email message or you may opt to have it sent to your mobile phone as a Short Message Service (SMS) text message.

#### **Content E-Alerts**

Content E-Alerts are sent to registered users who have subscribed to a homepage (which includes the homepage calendar) or website sections of interest. For example, you might subscribe to your School District's homepage or to the section of your child's teacher. When the District homepage or the teacher's section is updated and a content E-Alert is sent, you will receive email notification that content has modified. The email contains a link that you click to navigate to the subscription location.

For information about how to register as a parent, please visit our new website after **July 15** at:

<http://www.fcusd.org>

Click on the new **FOR PARENTS** menu and view the **HOW DO I... SELF-REGISTER FOR E-ALERTS?** article.
