

YORKSHIRE ACADEMY

300 STUDENTS

18 MONTHS TO
5TH GRADE

40 Years
of Wonder
(and counting)

“When we enrolled our daughter in Yorkshire, we found a family. We are so blessed to have spent 7 years in such a warm, creative and supportive environment. We are grateful for the educational foundation our daughter received and the community we were able to foster.”

This year Yorkshire Academy celebrates its 40th year. We are proud of this milestone and our indelible legacy – not because we want to look back, but because we got to this point by persistently pushing forward. Yorkshire has always been at the forefront of modern educational practices and social development for children. We nurture the minds, hearts and souls of our students – so they can move up to other outstanding schools, and more importantly, so they can become confident and compassionate citizens of the world.

You are
what you
learn.

While Yorkshire Academy is known for advanced academics, we are equally known for creating an open atmosphere where kids are encouraged to explore, make mistakes, and find better answers on their own. We stimulate students' natural curiosity because we know this kind of joyful and playful discovery is a magical place where learning is loved, embraced, absorbed, and actively used by your child for life.

“ We knew about Yorkshire from my positive experience as a student and loved to see they had maintained the welcoming, family-like atmosphere while continuing to expand, adapt and grow, offering new educational experiences to further enrich each student, including our son. ”

Yorkshire uses the most progressive approaches to building children's knowledge, but that's only half of our mission. We also believe in building our students' character. Ours is an atmosphere of kindness, community, integrity, and grit. Yorkshire students learn that doing the right thing best serves themselves and the greater good. We help prepare them for a life of positive action, leadership, and accomplishment. Our role as Houston's first Ocean Guardian School is one excellent example of how we are preparing our students to forge a better future for our world.

Yorkshire Academy has strong core programs in math, science, technology, language, and humanities, modeled upon the most innovative educational research and development. We also believe that an abundant life includes art, culture, sport, and creativity. We immerse our students in all facets of learning and social-emotional development, so they can begin their journey to becoming well-rounded individuals who are excellent problem solvers and insightful contributors to the world we live in.

“Yorkshire’s challenging academic curriculum, top-rate arts program, and nurturing school culture fostered my life-long love of learning.”

“ We hope you can join us
for Yorkshire Academy’s
40th year. ”

Choosing the right school for your child can be an agonizing decision. But if you've read this far, there's a good chance our values resonate with yours, and you've found the right place.
