## SIGNATURE PROGRAMS

**EDIE Program** In order to equip our students to be innovators and leaders in this unprecedented age of global change, we offer the EDIE (Engineering, Design, Innovation, Entrepreneurship) Pathway. In this unique and holistically interdisciplinary curriculum, we immerse students in our area's landscape, heritage, and experiences to provide tangible opportunities to solve problems related to technology, community-building, ecology, food systems, and health and wellness.

**Horizon Grand Prix Program** Students build their own hydrogen-powered remote control car while learning and engaging with the future of sustainable automobile technology. The Horizon Grand Prix is a comprehensive science and engineering program sponsored by worldwide industry leaders such as Toyota and Hyundai that empowers students to work in a team as they become the problem solvers of tomorrow, today.

**The Maine Experience/Outdoor Education** Through inspiring wilderness adventures, Hebron students build confidence, character, and community. Our diverse landscapes create opportunities for student growth beyond the classroom while they develop confidence throughout the fall as they strengthen their endurance and fitness levels through activities such as trail running, hiking, mountain biking, skiing, and trail work.

**Hebron Words Program** Public speaking skills are taught with a unique focus for each grade level and are practiced in every classroom. Students are guided to speak with confidence, voice, and life through a familiar common language. The Hebron Words Program includes "Last Word," a capstone speech given to the entire student body during senior year.

## ABOUT US:

Chartered in 1804, Hebron opened its doors to students in 1805. From its beginning, Hebron has been an inclusive, supportive educational community that values individuality and respects individual differences.

For more than two centuries our mission and core values have remained consistent with the school's original charter—that our students be taught liberal arts and sciences and educated to revere life and to respect and honor individuality.
