## Detectives on Vandalizing Case Get Major Breakthrough *Hobbs and Harris Give Testimony*

Detectives interviewed two teachers today. Surprisingly, Mr. Hobbs waited for a while before accepting the interview. The experts think that in that approximately fifteen minutes he set up fake evidence incriminating the librarian, Mrs. Harris. As the above picture shows, the bit of paper that came off the poster maker exactly matches the graffiti on Mr. Horne's room. Mrs. Harris states that the poster maker was jammed at the start of last week. The paper, although not seen in the picture, has ink lines on the other side of the image, as though it was pulled from, guess what, a jammed printer. The detectives state that currently, Mr. Hobbs is the main suspect, although that is subject to change when more information is found.

### Major Events That Happened Years Ago Today

Thursday, October 4, 2012: NASA/ESA Hubble Space Telescope photographed the globular cluster Messier 69 (M69), a dense collection of old stars. M69 is one of the most metal-rich globular clusters, though they are lower in metals than recently formed stars such as the sun.

### Teacher of the Week

#### **Mrs. NEAL**

Interviewer: What grades have you taught?

Mrs. Neal: Kindergarten, 1st, 2nd, 3rd, 4th, and 5th

Interviewer: Did you always want to be a teacher?

Mrs. Neal: Well I always wanted to be one, but I also wanted to be a astronaut to but then my dad said he didn't want me to go to space

Interviewer: As a reading teacher, what's your favorite book?

Mrs. Neal: My favorite book to read to the class is "Because Of Winn-Dixie" but my favorite book is " To Kill A Mockingbird".

Interviewer: What accomplishment fills you with pride this year?

Mrs. Neal: I would say the the biggest accomplishment is that how much my students love coming to my class and how much they love writing.

Interviewer: Finally, How do you show your school spirit?

Mrs. Neal: I try to show my school spirit everywhere I go!

### Major Events That Happened Years Ago Today

On this day, October 4, 65 years ago, the world's first artificial satellite was launched. The successful launch of Sputnik spurred the Space Race – a race between Cold War rivals USSR and US to gain supremacy in spaceflight.

### Major Events That Happened Years Ago Today

Hurricane Matthew struck Haiti on October 4, 2016, as a Category 4 hurricane. The combined effects of wind, coastal flooding and rain caused heavy flooding, landslides, and the destruction of a great deal of infrastructure, agricultural crops and natural ecosystems.

### Upcoming events
