

Installing the Skyward Mobile App on your phone for Shawnee Mission Schools

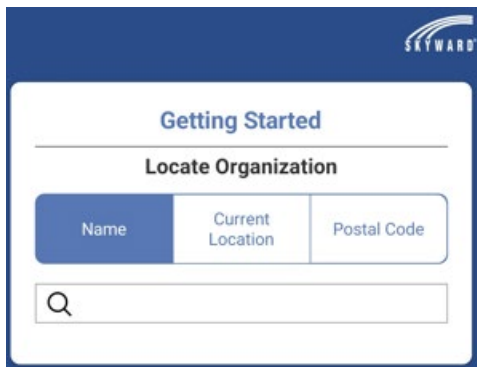

In your iPhone App Store, search for **Skyward Mobile Access** and click the install button. In Google Play, search for Skyward Family Access Mobile App.

Once installed, you will get a Getting Started - Create Passcode.

You will need to create and enter a 4 digit passcode for the Skyward Mobile Access App.

The same screen will display again so that you can re-enter the same 4 digit passcode.

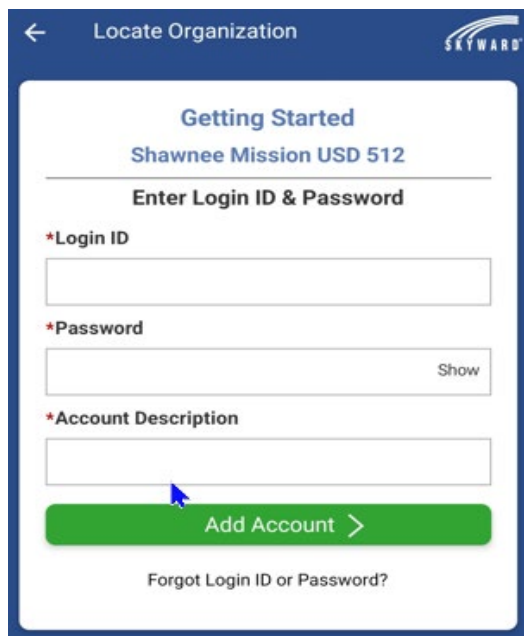

You see the Getting Started - Locate Organization-

In the  search area, type Shawnee Mission and the Shawnee Mission USD 512 will display.

Tap on the Shawnee Mission USD 512 and wait.....

The screen will not change at this time until it connects with the Shawnee Mission Skyward system.

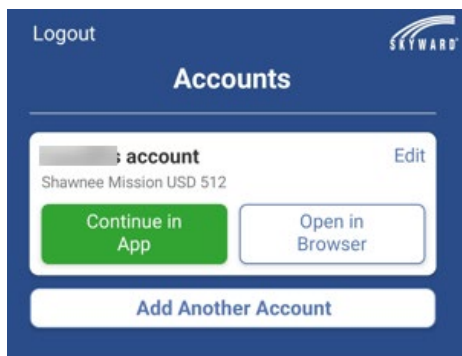

Once connected to the Shawnee Mission Skyward system, it will show the Getting Started - Enter Login ID & Password-

Please enter your Skyward Login ID and Password. You should have received this from your student's school.

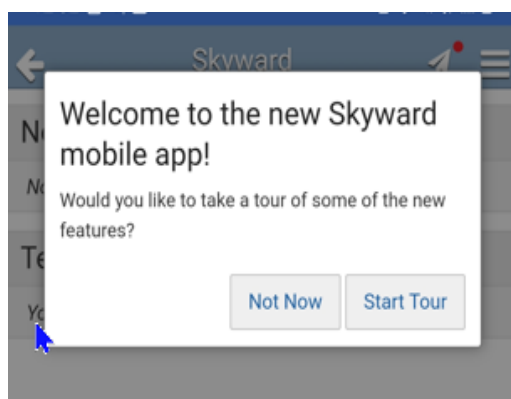

The Account Description will default to your Login ID but you can change the Account Description.

Then click "Add Account".

The next screen will ask if you would like Skyward to send you notifications. Click "Don't Allow" or "Allow".

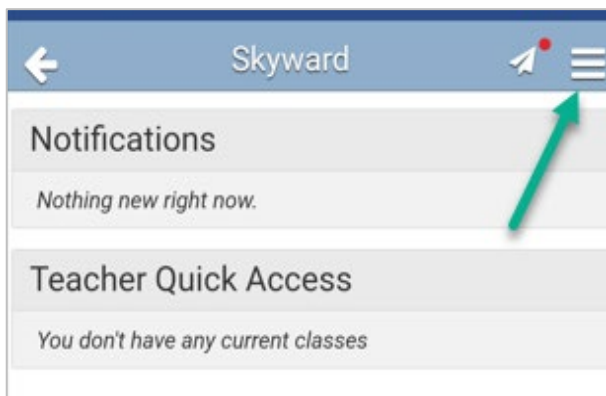

To use the Skyward Mobile App version, click "Continue in App".

If you are logging into the Skyward Mobile app for the first time, you may get this screen. You can choose to Tour the app by clicking "Start Tour."

If you click "Not Now", you will go into the Skyward Mobile App.

Click on the triple lines (pancakes) to select either Attendance, Calendar, Gradebook, Message Center, Grade Cards or Student information. Schedules are available for grades 7-12.
