

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Santa Barbara Charter School

CDS Code: 42767866111603

School Year: 2023-24

LEA contact information:

Laura Donner

Director of Education

ldonner@sbunified.org

8059676522

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023-24 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Santa Barbara Charter School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Santa Barbara Charter School is \$3,146,391, of which \$2,897,854 is Local Control Funding Formula (LCFF), \$89,747 is other state funds, \$103,887 is local funds, and \$54,903 is federal funds. Of the \$2,897,854 in LCFF Funds, \$113,952 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Santa Barbara Charter School plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Santa Barbara Charter School plans to spend \$3,843,379 for the 2023-24 school year. Of that amount, \$2,599,243 is tied to actions/services in the LCAP and \$1,244,136 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Rent for second campus, custodial costs, office staff (reception, CBO), gardening, books and supplies, employee benefits, contracted services

Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Santa Barbara Charter School is projecting it will receive \$113,952 based on the enrollment of foster youth, English learner, and low-income students. Santa Barbara Charter School must describe how it intends to increase or improve services for high needs students in the LCAP. Santa Barbara Charter School plans to spend \$114,175 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what Santa Barbara Charter School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Santa Barbara Charter School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Santa Barbara Charter School's LCAP budgeted \$106,500 for planned actions to increase or improve services for high needs students. Santa Barbara Charter School actually spent \$107,175 for actions to increase or improve services for high needs students in 2022-23.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone

Plan Summary [2023-24]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Santa Barbara Charter School is a classroom-based charter school which enrolls approximately 300 students in grades TK-8 in a classroom-based or HomeBased educational program.

Our students come from all over the county, with the majority of students residing in Santa Barbara and Goleta. In 2022-23 we have 25% Hispanic or Latino students, 59% White, 11% two or more races, 5% Asian, 2% not reported, and 1% African American students enrolled.

Due to the COVID-19 pandemic, state law has suspended the reporting of state and local indicators on the 2021 Dashboard. However, available data that would have been included in the Dashboard are reported on the Department’s website if they were determined to be valid and reliable.

The CA Data Quest student count for 2022-23 shows 3% English Language Learners, and 24% Socioeconomically Disadvantaged. In 2022-23 we had 30 students who are formally identified as students with disabilities, which is 11% of our population.

We have six different home languages reported in 2021-22.

Our Mission statement reads: Santa Barbara Charter School nurtures lifelong learners by cultivating the interests and building the skills of both students and their families in the Arts, Academics, and Relationships. Working together, the staff, parents, and students at SBCS create a responsive and innovative educational program.

At SBCS we recognize that learning takes place everywhere and all the time. We nurture the physical, intellectual, social, and emotional development of the child and help students achieve academic goals through multi-sensory experiences. We value student-led learning and are committed to building a child’s sense of self by allowing each student to experience academic and social success. For more information,

please visit: <https://sbcharter.org/curriculum/>

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Greatest Progress/Successes from 22-23:

School climate and student connectedness was measured in part by a survey of 5th and 6th students in May 2023. 5th and 6th grade students, for the most part, indicate that they are happy at school and included in the school community. There are strong and significant relationships with teachers and other grownups at SBCS, as students feel seen, heard, and known. Students see that teachers set high expectations for students and also support them in doing their best. These numbers remain consistent year-to-year.

Building Partnerships for Student Outcomes:

Santa Barbara Charter School teachers worked mightily to build and maintain family/student/school partnerships during the 2022-23 school year. The teachers at SBCS take student opinions and feedback seriously. Classroom-based students were surveyed in an ongoing manner through informal methods, such as with daily check-ins. Teachers met one-on-one with students to check-in and support their well-being, while also gauging overall student emotional health and growth. Teachers held student/parent/teacher conferences three times during the school year, with 100% family participation.

Parents also share their child's perspective with teachers and the SBCS administration. Parent and stakeholder feedback regarding classroom-based programming also directly influenced this year's plan in relationship to the attendance, engagement, and accountability elements, as well as community connection.

Academic Supports and Student Successes:

The teachers and Director of Education at Santa Barbara Charter School examined the curriculum and frameworks in use at school, and also examined our progress in making instructional materials align to the most current standards. Teachers work as a Professional Learning Community on a weekly basis, and the teachers collectively determine areas of improvement and select professional learning needs. Teachers referenced the LCFF reflection tool provided, and opted to complete this narrative summary, as it allows us to more clearly describe our progress and next steps.

Classroom-based teachers continued developing systems and practices in order to build mathematical logic, develop convincing mathematical arguments, and critique and benefit from others' reasoning. Teachers in the HomeBased Partnership continued working with

families of identified students to improve their CCSS math curriculum delivery to develop students' standards-aligned mathematical fluency. All teachers are using diagnostic assessments, formative assessments, and teacher-created assessments to monitor student progress.

Individual students continued to receive additional tutoring support in areas of need and unfinished learning--particularly math and reading--through our Response to Intervention (RTI) programming. RTI support was also offered for children with behavioral needs. Our school psychologist and behavior support staff increased their hours for direct student support.

Analysis of 2022 CAASPP scores:

Our CAASPP scores from 2021/2022 suggest both encouragement and challenge. Overall, our students' performance once again compares favorably with both the district as a whole and with the state as a whole. This also holds true in each individual grade from third through sixth, in both language arts and mathematics, and for significant subgroups (white, Latino, and low income). Our special education data is particularly favorable. However, while we acknowledge the potentially limited relevance of comparing a grade-level cohort from one year to its counterpart in another year, due to the small sample sizes and the impact even one or two student scores may have on a comparative basis, we do believe we can see some potential impact of the COVID years when we compare 2019 scores with 2022 scores. We see a similar impact in district and state scores.

Seeking Input in Decision Making:

Through electronic surveys and feedback forms, parental input is gathered and used to inform activities and decisions. The information from the parent budget survey went directly to Teachers Council and the Budget Advisory Group for inclusion in the budgeting process. Weekly newsletters on topics of importance for parents, such as child development, conflict resolution, culturally responsive teaching, and more are sent to parents from the classroom teachers as well as from the Director of Education. Parent input from these activities informed the LCAP drafting process.

Parents of Unduplicated Students: This year we offered free after school tutoring. Full scholarships to our After School Program will continue to be offered to students with a financial need. Parents of Unduplicated Students were surveyed and included in planning and programming.

Teachers and parents prioritized the hiring of support staff such as instructional aides, specialists, math support, and more, so individual student needs can be met more successfully. School-wide and program-wide priority scheduling remained important during the 2022-23 school year.

Academic Response to Intervention (RTI) is implemented with fidelity in order to more consistently provide tier 1, tier 2, and tier 3 behavioral RTI for all students. We will continue training parents on how to help build skills of resilience in themselves and their children. This will support our development of trauma-informed practices, as well as furthering our social, emotional, and behavioral MTSS. Additionally, we plan to expand our offerings of education events for caregivers and parents on how children learn to read. We plan to train parent and community volunteers towards supporting students with learning to read in grades K-3.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Greatest Needs after 2022-23:

We need to maintain our implementation of Next Generation Science Standards (NGSS). Classroom-based teachers will work with our science consultant to implement grade-level NGSS standards, with a particular focus on key standards within the scope and sequence across grades.

Our overall achievement, based on the 2019 CAASPP assessment, improved in increments, and remained above the state and district average in English Language Arts (ELA), math and science. However, our school continues to experience performance gaps with our students who are identified as Hispanic and socio-economically disadvantaged.

One of our strengths regarding CAASPP data is our ability to monitor student academic performance data and address the learning needs of individual students. We continue to monitor, evaluate, and refine the “whole subgroup” strategies in place to address these goals in terms of instructional design and delivery, additional support in the classroom, and support with independent assignments and projects. Based on the small sample size of the subgroups, we will closely analyze student-by-student data based on CAASPP results, with an eye toward individual intervention and/or support in addition to our sub-group level strategies. We also will compare CAASPP results with other performance indicators (such as classwork and homework completion, teacher-created assessments, student work portfolios, and participation) to determine whether more test-specific training/practice seems advisable. Due to COVID-19 disruption we do not have a current CAASPP score baseline.

Our CAASPP scores from 2021/2022 suggest both encouragement and challenge. The most significant reduction in scores came in early grades (3rd for CAASPP) and in Latino and low income students. This is perhaps not surprising based on the challenges of Zoom-based learning at home for some family dynamics, and given our strong focus on social emotional learning (weighted even against purely academic goals) when we returned to in-person instruction, particularly in lower grades (K-2).

We have identified several areas where we can continue to adjust our program to address the inequity in the impact of these challenging pandemic instructional years. We believe some of this impact is due to actual learning challenges, and some is due to the challenge of testing itself.

We intend to:

- +Increase Response To Intervention (RTI) capabilities and offerings, particularly for impacted students in lower grades. Our RTI program has had great success with both individual students and small groups, and we currently have four staff members dedicated to RTI instruction.
- +Enhance keyboarding/typing instruction beginning in first grade, and build earlier familiarity with electronic devices (Chromebooks, etc.).

+Implementation of weekly practice tests in both ELA and math for third and fourth graders, will be considered, including the use of scratch paper. Formal testing is a relatively new experience for our younger students, as we use many other forms of assessment as well. Formal testing becomes much more familiar to our students in the upper grades, and particularly in sixth grade as they prepare for junior high school.

+Increase single-sitting, in-class writing tasks in grades 3-5.

While we are gratified that our sixth grade performance generally suggests that our educational philosophy and program is very successful over time, we believe this focus on lower and middle elementary grades will most effectively address the challenges that arose upon our return from extended remote learning. We look forward to being able to once again track longitudinal data from each grade-level cohort, which we believe is a more useful and accurate metric for our school's size and composition.

We need to improve mathematics performance for significant subgroups on CAASPP and with in-class performance. We will continue implementing the newly adopted Illustrative Mathematics curriculum in grades K-5 classroom-based program; identify and remediate any learning gaps; and use differentiated instruction in order to meet the needs of all learners.

Due to COVID-19 disruption we do not have a ELPAC score baseline.

We need to systematically identify the students who need social, emotional, and behavioral support throughout the school, in order to implement Multi-Tiered Systems of Support (MTSS).

School staff needs to continue to understand how students and families feel about the school environment, academic performance, and staff interactions.

Based on parent, staff, and community feedback, SBCS needs to establish a framework for Justice, Equity, Diversity, and Inclusion (JEDI) curriculum.

SBCS needs to ensure access to all SBCS events, education and enrichment opportunities, and information for all students and parents, regardless of family's home language or financial status.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

Overall, we want to continue to maintain our high level of implementation of the Common Core State Standards while also realizing the COVID-19 pandemic has disrupted many elements of schooling for students and their families.

Our commitment to Emergent Multilingual Learners (EMLs), Socio-Economically Disadvantaged Students (free/reduced lunch program), and Foster Youth will continue. We plan to strengthen our implementation of academic curriculum for all learners, foster prosocial behaviors, increase opportunities for academic support, and promote and nurture diversity, inclusion, and equity for all learners.

Our academic goals have us continuing our work in CCSS math and NGSS science specifically. We are continuing implementation of the new Illustrative Mathematics curriculum in grades K-5 classroom-based program; identifying and remediating any learning gaps from 2020/21 and 2021/22 distance/hybrid instruction; and using differentiated instruction in order to meet the needs of all learners. Classroom-based teachers will work with our science consultant to articulate and implement grade-level NGSS standards, with a particular focus on key standards within the scope and sequence across grades.

As we strive to have our students actively engaged, encouraged, and supported in high-quality, purposeful learning, in addition to our historical range of assessments, we will monitor our student progress by regularly analyzing data of ELA and Math performance for all SBCS students in grades 3-8. We will continue to implement a Multi-Tiered System of Support (MTSS) for academic, behavioral, and social supports for all SBCS students, and we want to have 100% of the students with academic, social, or emotional needs identified and supported through the Student Study Team process.

During the 2022-23 school year, social and emotional growth and well-being continued to be a priority, in addition to CCSS curricular focus on the key academic standards. Much of our curriculum was delivered as anticipated.

Students who have an Individualized Education Plan (IEP) are given a range of supports according to their needs. This could include modification of high-quality learning opportunities, sessions with a resource teacher, sessions with a speech teacher, support from an occupational therapist, or support from an instructional assistant. Annual IEP Meetings continue, including transitional IEPs for our 6th grade and 8th grade students. In this way, all students with special needs are well served.

Our reflection on the past three years helps us focus our 2023-24 school year efforts on the continuing needs for all learners:

- Strengthening implementation of academic curriculum, specifically math and writing
- Increasing opportunities for academic support
- Fostering prosocial behaviors
- Promoting and nurturing diversity, inclusion, and equity for all

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Not Applicable

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not Applicable

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Family engagement is one of the strongest predictors of children’s school success, according to more than 40 years of steadily accumulating evidence. (California Department of Education, 2011; Weiss, Bouffard, Bridglall, & Gordon, 2009)

Process: During monthly Circle of Trustees (CoT) meetings, beginning in February 2023, the LCAP elements were reviewed and discussed at this regularly scheduled public meeting. Information was sent to parents via Parent Square for their review, and parents also were encouraged to attend the meetings. Parent feedback is received on an ongoing basis, through both formal and informal means. The Director of Operations and Director of Education offered open meeting hours to parents and caregivers, both in person and on Zoom. Student/parent/teacher conference happen three times per year (August, November, and May).

Formal surveys guided budget priorities, and preferred interventions from a parent perspective were gathered this spring. Informal conversations offered feedback about what was and wasn’t working for a parent’s individual child. Teachers Council meets weekly throughout the school year to reflect on previous topics and to determine next steps for students, with a focus on all aspects of social, emotional, and academic learning. Teachers discussed many of the elements that informed the LCAP throughout the year, and worked collaboratively to set goals. Parents are informed of goals and progress through weekly posts on Parent Square, short video clips from staff, and by attending meetings such as CoT and Parent Alliance.

SBCS consulted with SBSELPA regarding serving our Special Education students, related to the LCAP.

A summary of the feedback provided by specific educational partners.

The parents and staff from the Diversity, Equity, and Inclusion Alliance provided ongoing feedback toward visioning and next steps with Diversity, Equity, Justice, and Inclusion (JEDI). A small group of parents participated in a focus group with our outside consultant, toward informing the school staff about concerns and goals, and to have an important voice in next steps.

Parent Alliance collects parent feedback through their monthly meetings, and staff liaisons bring that information to the administration and teachers. Survey data also was collected and analyzed.

Parents provided feedback regarding student learning and future planning.

Parents completed surveys related to budget priorities, additional spending, and overall preferences.

Students in grades 5 and 6 completed a school climate survey.

Teachers Council provided a great deal of information to inform the LCAP and future planning, including a desire to continue to improve their teaching of mathematics and to offer an increasingly robust science curriculum. Teachers were thrilled to reestablish connections between students and the local community through field trips.

Teachers Council list of Accomplishments for 2022-23:

- +Parent communication
- +Academic screenings, data collection, and data presentation
- +Teacher collaboration on reading instruction (both curriculum/tools)
- +Implementation of language arts centers where students can work at their own pace, independently and successfully
- +Created project-based learning materials
- +Safe and friendly classroom environment; Partnership with classroom aide (co-teacher)
- +Supporting other teachers and their students

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Mathematics and science goals were directly influenced by teacher, specialist, and parent input, and were crafted after consideration of all the input.

Articulation of how to educate parents about K-3 reading instruction was created after input from parents and teachers.

Prioritization of mental health needs and support was received from all groups.

Major social trends and issues in the wider world influenced our vision for improving our social justice teachings, which is wholly supported by teachers and staff, as well as by many parents.

Goals and Actions

Goal

Goal #	Description
1	Santa Barbara Charter School will deliver a rigorous, standards-aligned curriculum supported by appropriate material resources and highly qualified staff committed to continuous improvement.

An explanation of why the LEA has developed this goal.

Need: Classroom-based teachers will work with our science consultant to articulate and implement grade-level NGSS standards, with a particular focus on key standards within the scope and sequence across grades.

Need: We need 100% of teachers appropriately assigned and fully credentialed
 Students need to have access to instructional materials
 Facilities are maintained

Need: Continue implementing the new Illustrative Mathematics curriculum in grades K-5 classroom-based program; ensure that students access the complete curriculum; identify and remediate any learning gaps from 2020/21 distance/hybrid instruction, and use differentiated instruction in order to meet the needs of all learners.

State Priorities:
 Priority 1: Basic Services
 Priority 2: Implementation of State Standards
 Priority 7: Course Access

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Our goals and actions aligned well with our implementation. We will continue with these plans as a "maintenance" goal in the upcoming year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Budgeted and actual expenses were quite close. Minor differences due to pay rates for certificated staff. We worked with our science consultant, but the cost was paid out of general LCFF funds, not funds for high needs students.

An explanation of how effective the specific actions were in making progress toward the goal.

Our academic goals have us continuing our work in CCSS math and NGSS science specifically. We are continuing implementation of the new Illustrative Mathematics curriculum in grades K-5 classroom-based program; ensuring that students access the complete curriculum during 2023/24 academic year; identifying and remediating any learning gaps from 2020/21 and 2021/22 distance/hybrid instruction; and using differentiated instruction in order to meet the needs of all learners. Classroom-based teachers will work with our science consultant to articulate and implement grade-level NGSS standards, with a particular focus on key standards within the scope and sequence across grades.

As we strive to have our students actively engaged, encouraged, and supported in high-quality, purposeful learning, in addition to our historical range of assessments, we will monitor our student progress by regularly analyzing data for ELA and Math for all SBCS students in grades 3-8. We will continue to implement a Multi-Tiered System of Support (MTSS) for academic, behavioral, and social supports for all SBCS students, and we want to have 100% of the students with academic, social, or emotional needs identified and supported through the Student Study Team process.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Our goals and actions aligned well with our implementation. We will continue with these plans as a "maintenance" goal in the upcoming year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	All students will be actively engaged, encouraged, and supported in high-quality, purposeful learning to achieve at least a full year of developmentally appropriate academic and social progress.

An explanation of why the LEA has developed this goal.

Need: After piloting in Spring 2021, regularly administer STAR 360 testing and analyze data for structured progress-monitoring of ELA and Math to align with year-end CAASPP administration for 21-22 school year for all SBCS students in grades 3-8.
 Need: Continue to implement MTSS for academic, behavioral, and social supports for all SBCS students--100% of the students with academic, social, or emotional needs will be identified and supported through the Student Study Team process.

- State Priorities:
 Priority 3: Parental Involvement
 Priority 4: Pupil Achievement
 Priority 5: Pupil Engagement
 Priority 7: Course Access
 Priority 8: Pupil Outcomes

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Implement pre-assessment and progress monitoring assessment, and use MTSS for supporting student needs in reading and math	Implement pre-assessment and progress monitoring assessment, and use MTSS for supporting student needs		No
2.2	RTI teacher 50%	Maximize the skillset of an experienced RTI teacher at dedicated 50% FTE to serve unduplicated pupils in academic, behavioral, and social needs	\$50,670.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.3	Math tutoring, ELL tutors, and reading tutors	Provide in class and tutoring and supports for unduplicated students in math, reading, English as a second language, and more.	\$54,041.00	Yes
2.4	Instructional Aides	Classroom and playground support staff to support student needs (academic, social, emotional)	\$321,687.00	No
2.5	Behavior aide to assist school psychologist	Support implementation of behavior supports, monitor students, support yard staff	\$10,000.00	No

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The main difference in this goal area is that teachers did not find STAR360 information to be directly relevant to inform their teaching. Teachers utilized unit assessments and previously designed pre-test data to inform instruction. The RTI teacher and special education teacher assisted teachers with this task. The work of monitoring student progress continued, but with different tools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Similar expenditures to budget. No material differences.

An explanation of how effective the specific actions were in making progress toward the goal.

During the 2022-23 school year, social and emotional growth and well-being continued to be a priority. Academic subjects were fully taught while monitoring social, emotional, and behavioral needs of the students.

As we strive to have our students actively engaged, encouraged, and supported in high-quality, purposeful learning, in addition to our historical range of assessments, we will monitor our student progress by regularly analyzing data for ELA and Math for all SBCS students in grades 3-8. We will continue to implement a Multi-Tiered System of Support (MTSS) for academic, behavioral, and social supports for all

SBCS students, and we will continue to have students with academic, social, or emotional needs identified and supported through the Student Study Team process.

Extended Learning Opportunities Program (ELO-P) with after school enrichment (SBCS ASP)--will continue to be offered through our ASP.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We will continue our goals and actions. An additional support will be provided with coaching and mentoring for instructional aides. Students will have additional support with behavior learning from the school psychologist or school-based counselor.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	Santa Barbara Charter School will foster and promote a school climate and community that actively involves, welcomes, and responds to the needs of all stakeholders, especially including parents/families, and continues to promote and nurture diversity

An explanation of why the LEA has developed this goal.

Need: Based on parent, staff, and community feedback, SBCS needs to establish a framework for Justice, Equity, Diversity, and Inclusion (JEDI) curriculum.
 Need: Ensure access to all SBCS events, education and enrichment opportunities, and information for all students and parents, regardless of student’s home language or financial status.

Priority 3: Parental Involvement
 Priority 5: Pupil Engagement
 Priority 6: School Climate

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Local: pre-test and post-test data; survey; interviews with parents, interviews with teachers, written report from consultant	Teachers willing to revise curriculum and participate in self-examination toward establishing a framework for Justice, Equity, Diversity, and Inclusion (JEDI) curriculum.	Teachers began examining social studies curriculum with Learning for Justice lens of Identity, Action, Diversity, Justice. This work will continue. Forth/fifth teachers implemented a new social studies curriculum.	Teachers continuing to examine social studies curriculum with Learning for Justice lens of Identity, Action, Diversity, Justice. This work will continue.		Work on scope and sequence for grades K-6 with social justice curriculum, and identify embedded social justice elements in other subjects.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	SBCS will host monthly meetings with the leadership team for Justice, Equity, Diversity, and Inclusion (JEDI) work. Teachers Council will outline a framework for curriculum articulation, as well as ongoing JEDI staff and teacher training.	SBCS will host monthly meetings with the leadership team for Justice, Equity, Diversity, and Inclusion (JEDI) work. Teachers Council will outline a framework for curriculum articulation, as well as ongoing JEDI staff and teacher training.	\$25,000.00	No

Action #	Title	Description	Total Funds	Contributing
3.2	Continue providing interpreters for meetings and parent education events, and maintain and update translation of website and key documents in Spanish.	Continue providing interpreters for meetings and parent education events, and maintain and update translation of website and key documents in Spanish.	\$6,000.00	No
3.3	Continue providing free childcare for parent education events.	Continue providing free childcare for parent education events.	\$1,000.00	No
3.4	Continue offering scholarships for enrichment programs and school-based field trips	Continue offering scholarships for enrichment programs and school-based field trips	\$3,500.00	No
3.5	instructional supplies	We want to ensure that all students have high quality materials and instructional supplies, regardless of their level of income, and this funding will level the playing field.	\$10,000.00	Yes

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

This work continued throughout the school year. Teachers Council and 96% of all staff participated in the IDI process with consultant Sara Wicht. 15 parents also participated in a JEDI focus group with Sara Wicht.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

More money was spent with Sara Wicht, the consultant, for all staff.

Why instructional supplies:

We want to ensure that all students have high quality materials and instructional supplies, regardless of their level of income, and this funding will level the playing field.

We have removed the following line items from the high needs student funding area. We have not eliminated any of these services; rather, we have designated them to serve “all students” and not specifically “high needs” students.

Science specialist \$12,000

Maintaining bilingual website \$5,000

Field Trip Subsidies \$3,000

Childcare for parent meetings \$500

Translator/interpreter \$1,000

An explanation of how effective the specific actions were in making progress toward the goal.

These goals are ongoing and the efforts will be maintained.

SBCS hosted monthly meetings with the leadership team for Justice, Equity, Diversity, and Inclusion (JEDI) work.

Teachers Council will outline a framework for curriculum articulation, as well as ongoing JEDI staff and teacher training.

Continue providing interpreters for meetings and parent education events, and maintain and update translation of website and key documents in Spanish.

Continue offering scholarships for enrichment programs and school-based field trips.

Continue providing free childcare for parent education events.

Continue providing interpreters for meetings and parent education events, and maintain and update translation of website and key documents in Spanish.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

More focus related to the work with the framework for curriculum articulation, as well as ongoing JEDI staff and teacher training.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
113952	0

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
3.93%	0.00%	\$0.00	3.93%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

How the school increased the quality and/or quantity of services in proportion to the amount of LCFF Supplemental and Concentration funding received for high needs students, and how the spending principally benefits high needs students:
 Services for high-needs pupils: We plan to continue to provide targeted in school tutoring to reinforce standards-based instruction, especially in mathematics and science. We will continue to provide EL students with direct instruction in areas of identified weakness as assessed on teacher-created tests, the ADEPT test, ELPAC, and classroom-based performance. In addition, after examining data, we will continue to refine classroom-based strategies that promote performance equity.

Services are increased qualitatively by hiring a certificated intervention teacher to provide mathematics support in the classrooms. We added a reading specialist position for the 2023-24 school year, as the early intervention reading program the previous year successfully served over 40 students.

High Needs Students funding:

RTI teacher (50%): \$50,670

Reading specialist, behavior support specialist, and math specialist: \$54,041

Instructional supplies: \$10,000

Why in school tutoring and RTI teacher:

Money has been allocated to support services to students who are English Language Learners, or on Free and Reduced Lunch, or who are foster youth, because students in these sub-groups often struggle with academic achievement. We are looking for ways to provide students in these sub-groups access to opportunities to which other students have access already. There are two principal areas where opportunities seem to differ most: Participation in Enrichment Activities and Tutorial Help. Our goal is to raise the academic performance of students in these sub-groups by providing enrichment opportunities that build language and an experience base, and by providing tutorial support during school time. We can best meet individual student needs by developing/providing the supports that are specific for their individual strengths and weaknesses.

Why intervention teacher:

Our Hispanic students, as well as our High Needs students, need more direct support in the area of mathematics. While we will have a math consultant working with all the teachers to support all students (Lower Performing and High Needs) with a focus on best practices in mathematics, we also need a credentialed teacher to work directly with RTI students in small groups.

Why instructional supplies:

We want to ensure that all students have high quality materials and instructional supplies, regardless of their level of income, and this funding will level the playing field.

We have removed the following line items from the high needs student funding area. We have not eliminated any of these services; rather, we have designated them to serve “all students” and not specifically “high needs” students.

Science specialist \$12,000

Maintaining bilingual website \$5,000

Field Trip Subsidies \$3,000

Childcare for parent meetings \$500

Translator/interpreter \$1,000

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	16:1	
Staff-to-student ratio of certificated staff providing direct services to students	22:1

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
