As such, the MYP presented with the 2021-2022 Proposed Budget is based on best known information at this time and is expected to change with each reporting period.

- The General Fund MYP is based on a COLA of 6.65% for 2022-2023; 6.65% for 2023-2024; 6.65% for 2024-25.
- ➤ District ADA for 2022-2023 and 2024-2025 are projected to be 8,714 and 8,092 respectively, plus County educated ADA.

- LCFF funding is based on the greater of prior year ADA for all years.
- ➤ No reduction in force actions is included in the 2022-2023 or 2023-2024 projections.
- > Step and Column increases are projected to be 1.5% for Certificated and Classified staff each year.
- > STRS and PERS rates have been increased to match State projections for all years.
- All other employer benefits remain static except for Health and Welfare contribution caps which have been increased by the appropriate COLA each year.

### **BUDGET CERTIFICATION**

Within the file there are many factors that have a check point and if the standard is not met an explanation is required. There are 11 criteria and standards that are reviewed as well as 11 supplemental information questions and 9 additional factors for review in the budget certification. Currently. 8 criteria and standards, 11 supplemental information questions and 9 additional factors meet the requirement. The 3 criteria and standards that did not meet are:

- Local Control Funding Formula: the change in the revenue source was based on the most recent LCFF calculator provided on 5/24/22.
- Salaries and Benefits: Current budget salaries and benefits compared to all expenses is not within the range. These expenses are monitored throughout the year to meet the projected range.
- Other Revenues: The loss of one-time funding created a drop in future revenues that needs to be monitored for future stability.

#### Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

#### A. Salaries and Benefits - Other General Administration and Centralized Data Processing

Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)

## Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

### A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

### B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

Part IV - Carry-forward Adjustment	
The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect	
cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates	
the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the	
approved rate was based.	
Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for	
use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,	
or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than	
the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.	
A. Indirect costs incurred in the current year (Part III, Line A8)	9,725,517,31

D. Preliminary carry-forward adjustment (Line C1 or C2)	(500,011.07)
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which	
the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that	
the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more	
than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward	5.0407
adjustment is applied to the current year calculation:	5.24%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward	
adjustment (\$-250305.83) is applied to the current year calculation and the remainder

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)¹ and its economic recovery target payment, plus or minus one percent.						
For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.						

¹ Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount

by more than the district's gap funding or COLA1 and its economic recovery target payment, plus or minus one percent.

STANDARD NOT MET - Projected change in LCFF revenue is outside the standard in one or more of the budget or two subsequent fiscal years. Provide reasons why the projection(s) exceed the standard(s) and a description of the methods and assumptions used in projecting LCFF revenue.

Explanation:

(required if NOT met)

LCFF revenue is based on the LACOE calculator that was provided on 5/24/22. The calculator included the new three year ADA avergae calculation as well as an increase in additional LCFF investment, the grade span adjustment and in increase in COLA revenue. These assumptions lead to the revenue being apportioned.

Provide reasons why the projection(s) exceed the standard, a description of the methods and assumptions used in projecting salaries and benefits, and what changes, if any, will be made to bring the projected salary and benefit costs within the standard.

## Explanation:

(required if NOT met)

Projected ratios of unrestricted salary and benefit costs total unrestricted expenditures are outside the standard in on or more of the budget or two subsequent fiscal years due to current expenditure needs at the time of the proposed budget. Sites and departments have allocated more funding in the areas of materials and supplies based on action and goal needs. Revisions in expenditures are made during the year, the trend is that this met by year end closing.

6. CRITERION: Other Revenues and Expenditures

STANDARD: Projected operating revenues (including federal, other state, and other local) or expenditures (including books and supplies, and services and other operating), for any of the budget year or two subsequent fiscal years, have not changed from the prior fiscal year amount by more than the percentage change in population and the funded cost-of-living adjustment (COLA) plus or minus ten percent.

9. CRITERION: Fund Balance

STANDARD: Budgeted beginning unrestricted general fund balance has not been overestimated for two out of three prior fiscal years by more than the following percentage levels:

Percentage Level 1	District AD	A
1.7%	0	to 300
1.3%	301	to 1,000
1.0%	1,001	to 30,000
0.7%	30,001	to 400,000
0.3%	400,001	and over

¹ Percentage levels equate to a rate of deficit spending which would eliminate recommended reserves for economic uncertainties over a three year period.

## S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the district governing board and superintendent.
