____

Length of time student will be on medication: _________________________

Signature of Physician: ____________________________
Name of Physician (print or type) ________________________
Address: ____
Telephone: ____
Date: ____________________________

MJB/16

Note from the Health Office

July 2018

Dear Parents/Guardians,

As part of a required school health examination, a student is weighed, and his/her height is measured. These numbers are used to figure out the student's body mass index or "BMI". The BMI helps the doctor or nurse know if the student's weight is in a healthy range or is too high or too low. The New York State Education Law requires that your child's BMI and weight status group be included as part of their school health examination.

The Amagansett School has been selected to take part in a survey conducted by the New York State Department of Health. Since our school will be part of this survey, we will be reporting our student's weight status group to New York State Department of Health. The information that will be submitted will contain no names or other information about individual students. However, you may choose to have your child's information excluded from this survey report.

The information sent to the New York State Department of Health will help health officials develop programs that make it easier for children to be healthier.

If you **do not** wish to have your child's weight status group information included as part of the Health Department's survey this year, please print and sign your name below and return this form to the Amagansett Health Office by October 4, 2018. Please contact Mary Jo Bennett at 631-267-3572 with any questions.

Please **do not** include my child's weight status information in the 2018-2019 School Survey.
