

**FORM 470#: 220007983**  
**Questions and Answers**  
**February 8, 2022**

---

**DATE:** February 8, 2022  
**PROJECT NAME:** E-rate Eligible Purchase and Installation Services of Network Hardware and Wireless Infrastructure  
**RFP IDENTIFIER:** 2022-RLAS116-RFP-NETWORK REFRESH  
**FORM 470 #:** 220007983

Please note the following information has been provided in response to the questions received.

**Question 1:**

As a follow-up to the request this morning to mark ISP and MSP on the building maps. For each IDF and MDF we need not only the location marked, we also need the number of switches and the port count in each.

**Response:** *All IDFs and MDFs at all locations were available during the optional walkthroughs as part of the RFP.*

**Question 2:**

Do you have an existing network diagram you can share with us to help with your network design?

- Showing MDF/IDF closets for each building
- Types of connections between your closets?
- Equipment in each MDF/IDF

**Response** *All IDFs and MDFs at all locations were available during the optional walkthroughs as part of the RFP.*

**Question 3:**

What is the type of fiber you have between closets – Multimode OM1/OM2/OM3/OM4 or Single Mode fiber?

- 10 GB has specific distance limitations based on Fiber cable type

**Response** *All IDFs and MDFs at all locations were available during the optional walkthrough as part of the RFP. Vendors should refer to the Attachment A - Pricing Sheet for minimum hardware specifications.*

**Question 4:**

Upon selection of vendor, will you have some sort of Access Point Location Map to provide?

**FORM 470#: 220007983**  
**Questions and Answers**  
**February 8, 2022**

---

- We will know the Access Point count per building and could get an AP name from existing controller, but this may not provide location for access point to replace
- Vendors would need to do a lot of hunt and searching with a map

**Response** *Vendor will be Provided the Necessary Access Point information regarding AP locations and names.*
