

# All of your Student Health Information in One Place.

Magnus Health is the leading provider of Student Health Record (SHR) solutions for private and independent K-12 and higher education schools in the United States and Canada.

"Less tracking of paper forms and fewer calls to parents figuring out what forms are missing at the beginning of each school year – now nurse can run reports tracking form status by students and Magnus sends email reminders to families."

**Digitally Collect Student  
Data from Anywhere on  
Any Device**

**Communicate with  
Families and Track  
Down Necessary Forms**

**Hospital-Grade  
Security to Protect your  
Data**

**Keep your School  
Prepared  
for Emergencies**

## SECURE ACCESS ANYTIME

# Security is priority.

Our secure, online SHR platform enables schools to digitally collect, track, and manage student health and medical information across immunizations, sports physicals, allergies, emergencies, and more.

# State-of-the-Art Data Security

A recent survey ranked Magnus Health #1 for state-of-the-art data security and HIPAA compliance compared to other school health record software systems. We've served the private and independent school market for more than 15 years and are always innovating to better assist our customers and protect their data.

We support your **entire school**, not just the health office.

Administration

Nurses

Teachers & Chaperones

IT

Coaches & Trainers

Counselors

Families

## We abide by 4 key principles:

### 01 CONFIDENTIALITY

Preventing unauthorized access to ensure data is private and secure through AWS and SSO.

### 02 INTEGRITY

Guaranteeing your data is accurate, authentic, and reliable through built-in protections, encryptions, and active security monitoring.

### 03 AVAILABILITY

Ensuring schools have reliable access to our platform when they need it with 99.9% uptime.

### 04 SHARED RESPONSIBILITY

Prioritizing data privacy and security above all through employee training, role-based accounts, and continuous education.
