

# Getting Students to Line Up

Following are some suggestions for getting students lined up at the door. To make things a little more fun, you may want to time the students to see how fast they can do it.

- Line up in alphabetical order by first or last name.
- Line up in order of birthday starting in January.
- Line up in height order, shortest to tallest.

For a little variety, you may want to try one of the following:

Line up if you can tell me:

- The name of a country and its capital.
- A kind of grain.
- A type of tree.
- A type of cloud.
- An animal that is found in the wetlands, on a farm, in the jungle, etc.
- A type of flower.
- One thing you learned at school today.
- A mode of transportation.

Line up if you have:

- A tooth missing.
- Khaki pants on.
- Been to the emergency room.
- Participated in a play.
- A dog, cat, mouse, etc.
- A "Z" in your name, an "M", etc.
- Helped your parents mow the lawn, cleaned the kitchen, washed the car, etc.
- Sneakers, flip-flops, boots, etc.
- Stood on your head, done a cartwheel, ran a mile, etc.
