

# Athletics

At SPA we believe the Athletics program is an important and integral part of a comprehensive education that helps develop productive, well-rounded citizens. Athletics are a key part of teaching students to work in teams, overcome obstacles, lead, and set and achieve individual and collective goals. Competition is an essential ingredient of the Athletics program; it enhances work ethic, skill development, personal responsibility, attention to detail, concentration, enjoyment, and self-confidence.

We strive to provide an opportunity for all students to participate in athletics. Whether they are novices trying a new sport or seasoned varsity athletes, all student-athletes are given opportunities to build their athletic skills and experience the camaraderie of being members of a team. While not mandatory, team sports are strongly encouraged and are an important facet of the SPA experience.

SPA student-athletes are expected to challenge themselves, play their best, and respect the efforts of their opponents. Members of the SPA community enthusiastically support student-athletes and consistently cheer them on as they compete. SPA students begin exploring team sports in Grade 3 and compete interscholastically starting in Grade 6. Each year, we average 90 teams in 17 sports.

SPA has a tradition of developing national-caliber collegiate student-athletes. We have done this through excellent coaching, top-notch strength and conditioning training, use of advanced technology, quality facilities, and specific support and counseling for students interested in pursuing college athletics.

**INDEPENDENT METRO ATHLETIC CONFERENCE (IMAC)**

- The Blake School
- Breck School
- Minnehaha Academy
- Mounds Park Academy
- Providence Academy
- St. Paul Academy and Summit School
