NEW! 7 Steps to Reverse

Diabetes

Instructor: Janice Novak

Diabetes is a condition in which too much belly fat leads a person to symptoms ranging from mild blood sugar imbalance to full blown diabetes. Whether you have a little extra weight around the middle, insulin resistance or type 2 diabetes, the root cause of ALL these conditions are the same - problems with our diet, lifestyle and exposure to environmental toxins. Most treatments focus on the downstream symptoms (elevated levels of glucose, cholesterol, blood pressure, triglycerides) and never get to WHY your levels are too high and how to change it. The good news is all of this can be reversed. Learn how to work with your doctor to help restore your body to health.

NEW! Child's Play Theater: **Twinderella (Gr. 2-12)**

Instructor: Andy Velishek

We've all heard the story of Cinderella a thousand times, but we've never heard about Bob, her long lost twin brother! Living in the same kingdom with different wicked stepfamilies, Cinderella's cruel stepmother and evil stepsisters make her rotate tires and polish bowling trophies while Bob's evil stepfather and cruel stepbrothers force him to make dried herb wreaths and organize their sock drawers. When Lou the UPS Guy arrives with invitations from the Kingdom of Wychwood-under-Ooze, Cinderella and Bob are both thrilled but forbidden to attend the festivities. With the help of the Fairy Godmother, the Godfather (he ain't no fairy!), two enchanted gerbils and a lot of luck, they find a way! On the night that Cinderella crashes Princess Petunia's birthday ball, Bob has similar designs on Prince Percy's kingdom-wide baseball game. When the two strangers disappear at midnight after Cinderella hits a game winning homerun, the search is on to find the feet that fit the glass slipper and the muddy cleat! Students will improve communication, reading and acting skills as they work to put on this production of a fun variation of the Cinderella story.

Early Childhood Family Education
Prior Lake-Savage Area Schools

What is ECFE?

ECFE is a program that strengthens families with young children through play, education and support. It is unique to Minnesota.

Did you Know?

ECFE is not just for parents! All special grown-ups are invited to participate in ECFE! Grandparents, nannies, aunts and uncles all enjoy and participate in classes. All participants need to be registered to attend.

Parent/Caregiver Perks:

- Support and encouragement in your role as a parent or caregiver
- Current research-based information on child development
- Peer connection: We are in this together!
- Community connections: Awareness of community resources and support services
- Dedicated time together with your special little one

Child Benefits:

- Forming friendships
- School readiness support
- Dedicated time together with your special grown-up

ECFE Fees:

ECFE uses a sliding-fee scale based upon your household's annual gross income. Scholarships are available for families who live in Prior Lake-Savage Area School District.

Childcare is available during most classes for siblings from 7 weeks to age 6. A child under 7 weeks old may stay with their parent. Register for sibling care at the same time you register for a class. This is a family per session fee, not an individual fee per child.

Early Childhood Screening

All children between the ages 3 and 5 years old need to participate in a screening before kindergarten. Sign up for a screening appointment online at www.priorlakesavagece.com or call 952-226-0975. We look forward to meeting your family.

All residents of the district are required to be listed on the census, including new babies, all preschoolers and new families in the district. Call the District Services Center at 952-226-0000. Having your name on the census will ensure that you receive information about Early Childhood Family Education and Screening, kindergarten registration and other pertinent district news as your child reaches school age.

Class Separation Explanation

Non-separating: Parent educators support interactions in the classroom.

Gradually separating: Grown-ups and parent educators begin the separation
process slowly, being sensitive to the readiness of the children.

Flexible separating: Parents and educators decide separation timing together
based upon the needs of the group.

Separating: Children spend time with their teacher while grown-ups gather
with a parent educator for part of the class in a different room.

EARLY CHILDHOOD SCREENING

Minnesota requires all children to be screened before entering public school kindergarten. The screening is most valuable soon after your child's third birthday and gives you and your child an early connection to PLSAS.

Screening is FREE and includes growth, development, and immunization checks. Your child will be assessed in preschool concepts, communication skills, motor skills and social-emotional skills.

If your child has already been screened in HeadStart, in another school district, or your own medical resource, please provide the screening report. Children only need to be screened one time. Children do not need to be screened if they have an active Individualized Education Program (IEP).

Parents can choose to conscientiously object to screening for their child. If you object, please provide a signed statement indicating your conscientious objection to screening.

- ✓ Screening is FREE
- ✓ Get your questions answered
- ✓ Discuss important information

Early childhood development milestones to age 5

Every child is unique. No two children develop, grow and learn at exactly the same pace. And yet children develop in predictable ways. Take notes as your little one learns. Babies and toddlers are growing, learning and changing all the time. It's fun to watch! We suggest you keep track of the new things they do and the milestones they reach. If you are concerned about your child's growth, development or learning, we encourage you to contact us at Help-MeGrowMN.org or 1-866-693-4769

Community Education Advisory Council

Our Mission The mission of the Prior Lake-Savage Area Community Education Services Program is to enhance the quality of life for all citizens by helping to provide opportunities for individuals to reach their full potential and contribute to their communities. To accomplish this mission requires that parents, family, schools, faith communities, businesses, community organizations and all people living within our community work together. This can be done through a cooperative effort in meeting the recreational, educational, social and cultural needs and wants of the community.

Advisory Councils are active task-oriented groups who make recommendations about policies, procedures, program offerings, budgets, and more for ISD 719 Community Education Services programs. Together these groups determine what resources could be utilized to meet the needs and interests of community members without duplicating the efforts provided by others.

If you would be interested in working with a council to address the lifelong learning needs of our district, please call Joel Dahl, Director at 952-226-0312 or email joeldahl@plsas.org to request an application for membership.
