presents

8th Grade FAMILY STEM INFO NIGHT NOVEMBER 16 6-8 PM

**Student
activities
throughout the
evening!**

MTHS WEBSITE

RSVP INFO NIGHT

- STEM Honors Diploma offers rigorous academics in all subjects
- Introducing the Exploratory Diploma: customized coursework between Aerospace, Biotechnology, and Computer Science pathways.
- An immersive 4-year experience for future STEM careers
- Culminating projects prepare students for local, state, national, and international competitions
- Student projects follow the university model of capstone projects
- Integrated with music, sports, and extracurricular activities
- More than a program, MTHS STEM is a community!

“Because of MTHS STEM, I was able to discover what I wanted to pursue in life through its flexible pathways and plethora of hands-on resources. Additionally, I was well prepared for the rigors of a highly respected computer science program and ultimately the skills needed in the professional world.”

Raiden Chea | Class of 2019 | BS, UW Paul G. Allen School of Computer Science, Class of 2022
Current: FT Level 2 Software Engineer at SeekOut, while pursuing an MS.CS at Georgia Institute of Technology
