INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq
New Mexico State Auditor
U.S. Office of Management and Budget
Board of Education and Management
Los Lunas Schools
Los Lunas, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the General Fund of Los Lunas Schools (the Schools), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the Schools' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Schools' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Schools' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the General Fund of Los Lunas Schools, as of June 30, 2019, and the respective changes in financial position thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 11 through 24 and Schedules A-1 and A-2, the notes to the Required Supplementary Information and Schedules B-1 and B-2 on pages 80 through 87 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Schools' basic financial statements. The introductory section, the combining and individual fund financial statements, the combining financial statements for the general fund and related budgetary comparisons, the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and Supporting Schedules I through IV required by 2.2.2 NMAC are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, the combining financial statements for the general fund and related budgetary comparisons, the Schedule of Expenditures of Federal Awards, and Supporting Schedules I through IV required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, the combining financial statements for the general fund and related budgetary comparisons, the Schedule of Expenditures of Federal Awards, and Supporting Schedules I through IV required by 2.2.2 NMAC are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2019, on our consideration of the Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Schools' internal control over financial reporting and compliance.

LOS LUNAS SCHOOLS
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019

The Management Discussion and Analysis is a required part of the School District's financial reporting and is an objective and easily readable discussion of the School District's financial activities. The reader will see two statements, a Statement of Net Position and a Statement of Activities. These statements provide the overall view of the financial activities of the School District. This discussion and analysis will provide a review of the School District's *overall* financial activities, using the accrual basis of accounting, for the year ending June 30, 2019. Fund financial statements are reported on a modified accrual basis of accounting. Rather than looking at specific areas of performance, this discussion and analysis focuses on the financial performance of the School District, as a whole. Whenever possible this discussion and analysis will provide the reader multi-year pictures of financial performance and other pertinent information through the use of tables and other graphics information.

This annual report consists of a series of detailed, audited financial statements and the notes to those statements. Also included is the Independent Auditor's Report; Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements performed in accordance with Government Auditing Standards; Report on Compliance with Requirements Applicable to each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133; and the Schedule of Findings and Questioned Costs.

LOS LUNAS SCHOOLS ACCOUNTING AND FINANCE

We believe this written analysis and the accompanying financial report will indicate to the reader that the Los Lunas Schools is in good financial health. Even though the economy has not fully recovered from the past few years, we are working to be able to maintain our fund balances, and cash on hand. This means our efforts have held strong with annual adjustments to our revenues and expenditures accordingly and we continue to take every precaution to stay ahead of the down turn in the economy. We are making a conscious effort to continue to maintain fund balance and cash on hand in the operational fund. We are also still dealing with factors of continual budget declines due to loss of enrollment. Regardless of the difficult economic hard times, the School District maintains a financial and accounting staff with strong levels of technical experience and education.

In order to define and support internal controls, the School Business Office utilizes a comptrollership model organizational structure. A written Business Office Policies and Procedures Manual is in place to guide School District staff through the daily fiscal and business routines.

As an integral part of the School District accountability process, the Los Lunas Schools Board of Education monitors School District expenditures and budgets through a formal monthly reporting process to a Finance Committee and the full Board of Education. This reportage is provided at public meetings and becomes a part of the Los Lunas Schools Board of Education's permanent public record. These reports are public documents and through this public process, the financial reporting information is provided to the community and open to public inspection.

SIGNIFICANT FINANCIAL HIGHLIGHTS FOR THE YEAR ENDING JUNE 30, 2019

- The voters approved a \$25,000,000 bond election in February 2016. The voter approval was over 80%. The money will be used for funding the next wave of bond projects, which includes various site improvement projects. The Community continues to be supportive of all our bond and mil levy elections.
- Capital Outlay expenses decreased from \$9,823,307 in the year ending June 30, 2018 to \$9,166,178 for the year ending June 30, 2019. This slight decrease in construction expenditures is due to the district saving for the Peralta Elementary renovation project to start moving forward. In addition, we had prioritized several smaller site improvement projects district wide. We funded a renovation

bleacher/press box project at both our High Schools. The district has applied for money from the Public School Capital Outlay funds to match our local dollars to maximize the construction dollars available to the school district. We applied and were approved funding for Peralta Elementary and Los Lunas Middle School system based funding. We also applied for security system upgrades at all of our elementary schools; our current match from the Public School Facility Authority (PSFA) is 76%. The means we only pay 24% of the dollars allocated to capital projects approved by the PSFA. Projects we have participated in include a Classroom Addition at Katherine Gallegos Elementary, Sundance Elementary, renovation for Bosque Farms Elementary, and renovation for Los Lunas High School. Expenditures in capital outlay are expected to rise, as new projects are funded.

- As shown in the three-year comparison of the Statement of Net Position, total net position decreased from (\$14,577,975) in the year ending June 30, 2018 to (\$40,242,201) in the year ending June 30, 2019. The overall decrease in net position of (\$25,664,226) is due to long term liabilities related to retirement and retiree health implementation of GASB statement No. 75.
- The overall adjusted fund balance shown in the Statement of Revenues and Expenditures and Changes in Fund Balances (GAAP), increased from \$25,979,889 for the year ending June 30, 2018 to \$27,981,974 for the period ending June 30, 2019. The Fund Balance of the General (Operations) Fund decreased from \$6,966,632 to \$6,734,530 during the same period. A result of mindful reduction in cash balance in our Operational fund.
- The State Equalization Guarantee Formula Unit Value increased overall by \$31.62. for the fiscal year ending June 30, 2019. Revenues from the State Equalization Guarantee Formula (SEG) for the fiscal year ending June 30, 2018 were \$56,388,197; revenues for the fiscal year ending June 30, 2019 were \$60,673,518. The reason revenue increase is due to increase in units and increase in unit value. We keep careful watch of the fluctuations in revenue.
- Total expenditures, *inclusive of all capital expenditures from general obligation bond proceeds*, increased from \$90,154,290 for the year ending June 30, 2018 to \$93,952,387 for the year ending June 30, 2019, representing a 4.21% Increase.
- The School District's overall cash assets increased from \$22,975,526 on June 30, 2018 to \$24,930,672 on June 30, 2019. The largest cash balances were reflected in Debt Service (41000), Operational (11000), Bond Building (31100), and HB-33 (31600).
- The Operations Emergency Reserve was \$1,500,000 during the 2017/2018 fiscal year. This reserve account was decreased slightly to \$1,310,000 for the 2018/2019 fiscal year. The District will try to continue to work to maintain a healthy level of emergency reserves, and cash balance in the operational account.
- This was the ninth year in a row that the Operational budget had to supplement the transportation budget to avoid a negative balance. The District Transportation budget continues to not able to sustain itself without the support of operational funding. The District has taken several measures to reduce the expenditures in Transportation including operating a New Eastside Transportation Dept., reducing bus routes, and reducing bus driver contracts.

GOVERNMENT WIDE FINANCIAL STATEMENTS

STATEMENT OF NET POSITION

This statement shows that as of June 30, 2019, the School District has total net position of (\$40,242,201) as compared to net position of (\$14,577,975) as of June 30, 2018, and \$59,607,154 as of June 30, 2017. The School District had \$32,049,529 in cash and current assets on hand as of June 30, 2019 compared to \$28,787,119 as of June 30, 2018, and accounts payable/current liabilities and current long-term debt of \$11,557,621 compared to \$12,400,163 as of June 30, 2018. Cash Assets increased by \$1,955,146 while Other Current Assets increased by \$1,307,264. Long-term liabilities have increased from \$247,763,492 as of June 30, 2018 to \$265,733,799 as of June 30, 2019.

The School District retains maximum allowable levels of debt related to its assessed valuation; therefore, the increase in long-term liabilities is due to a relatively stagnant valuation. Net Assets totaling \$16,997,252 are “restricted” for debt service and capital projects.

FUND FINANCIAL STATEMENTS

STATEMENT OF REVENUES AND EXPENDITURES AND CHANGES IN FUND BALANCES

Fund financial statements are based on a *modified accrual* basis of accounting. The Statement of Revenues and Expenditures and Changes in Fund Balances is *not a* new statement to the School District's annual financial reports. This report guides the reader to a meaningful, overall, view of the District's revenues, expenditures and fund balance and changes to the fund balance. This report also shows the revenue and expenditure activities of each major fund and the total of all "other" Governmental Funds. Total revenues from State, Local and Federal sources were \$91,190,439. Total expenditures for the School District was \$93,952,387. The total ending Fund Balance was \$32,776,251; an increase of \$4,794,277 from the prior year.

MULTI-YEAR DISTRICT REVENUES AND EXPENDITURES

During the 2018/2019 fiscal year, revenues as shown in the chart below increased from prior year balances, revenue, increased by \$7,208,293 and expenditures increased by \$3,798,097. This revenue increase is mainly due to an increase in State Direct funding and Other Governmental Funds. The decrease in expenditures is a direct relation to a decrease in capital outlay projects.

THE BUDGET

The State of New Mexico school budget process is defined under New Mexico State Statutes (Section 22-8, Public School Finance) and the New Mexico Administrative Code (Section 6). To enhance the process of developing a budget at the school district level, the Los Lunas School District utilizes goals and objectives defined by the Los Lunas School Board, community/parent input meetings, the district's five-year facility master plan, long term planning and input from various staff groups to develop the School District budget. School District priorities are well defined through this process.

GASB 34 does not require a statement presenting the overall result of the budget for each year. However, all major budgetary funds are required to be reported as separate statements.

Major budgetary funds in these reports are; The Operational Fund that includes the General, Transportation, and Instructional Materials funds (Operational Funds), Debt Service, Bond Building, and Other Governmental Funds.

Non-major Capital Project funds include HB33 (3 Mill levy), and SB-9 (2 Mill Levy). The following graphics and tables show the fiscal relationship of the major funds and the combined non-major funds.

The reader will note that the General Fund Final Expenditures represents 68.29% of the total fund dollar amount compared to 68.04% in FY 2017/2018. This fund provides the salary and benefits for the significant majority of the Instructional, Instructional Support and School Support, Maintenance and Administrative staff as well as classroom materials, special education consulting staff and fixed utility costs. Revenue from this fund is substantially derived from the State Equalization Guarantee, which is the funding formula appropriated for education by the State Legislature. The Operations Fund is explored later in the Management Discussion and Analysis.

The following table examines the summary budget performance of the major funds for the fiscal year ending June 30, 2019. Detail budget performance is examined through the Statement of Revenues and Expenditures, Budget and Actual for each major and non-major fund.

The General (Operations) Fund

The Operations Fund serves as the School District General (Operations) Fund and is the largest Fund. Because the Operations Fund revenues represent \$63,882,961 of the total \$91,190,439 of School District revenues (inclusive of bond proceeds), the significant impact of this fund on School District Operations must be kept in context.

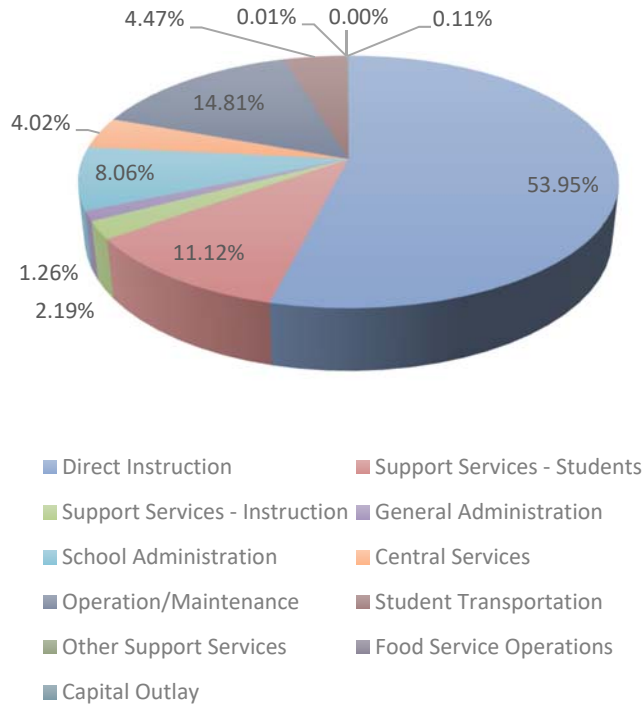

The General (Operations) Fund is predominately funded by revenues from the State of New Mexico Equalization Guarantee Formula. This fund pays for teaching staff, teaching support staff, special education support staff, maintenance staff and administrative staff. The General (Operations) Fund provides the predominant funding for athletics and student activities.

Because the General (Operations) Fund is the main fund in which expenditures are significantly related to the educational process, \$64,157,613 was expended in the year ending June 30, 2019. The most significant inter-fund expense was for the function noted as "Instruction" (Direct Instruction). This expenditure was \$34,610,629 or 53.95% of all General (Operations) Fund expenditures, compared with fiscal year 2017/2018 of \$33,107,663 (53.98%). Expenditures included in this function are Regular Education, Special Education and Early Childhood Education teachers and educational assistants, benefits, payroll taxes, school supplies, training and miscellaneous instructional related contract services. Approximately 86% of all General (Operations) Fund expenditures are for employee salaries, payroll taxes and benefits.

General Fund Expenditures by Function

The following discussion on the General (Operations) Fund budget will relate functional expenditures for the year ending June 30, 2019, exclusive of Capital Outlay expenditures, for the Operations Fund. Direct Instruction represents 53.95% of all General (Operations) Fund expenditures. This represents a .03% decrease compared to the year fiscal ending June 30, 2018. Direct Instruction expenditures account for regular education, vocational education, bilingual education, special education and kindergarten teachers and educational assistants' salaries, payroll taxes and benefits.

Note 1: Percentage of expenditure to total expenditures. Statement of Revenues, Expenditures, and Changes in fund Balance

Instructional Support represents 22.15% (compared to 21.95% last fiscal year 2017/2018) of General (Operations) Fund expenditures, and accounts for expenditures for school principals, program coordinators, counselors, school nursing staff, librarians, special education ancillary staff and significant support to special education programs through contract ancillary support staff and contract programs. The Office of the Superintendent and the Business Office represent the overhead support for the entire operations of the School District; these programs combined represent 5.49% of the total General (Operations) Fund. Maintenance and Operations account for 15.34% of the General (Operations) Fund expenditures. Included in the Maintenance and Operations expenditures are salaries and benefits for maintenance staff, school custodians, fixed utility costs, maintenance and repairs, maintenance supplies/equipment, school custodial supplies/equipment, and safety and security staff and equipment. Because of the expansion/addition of school facilities and increases to the utility costs, this functional expenditure will need to be increased to meet school needs. Additional support for maintenance supplies and projects comes from the voter approved Two-Mill Levy Fund, which is also given a state matching grant. The General (Operations) Fund also supports expenditures for school athletics and student activities and Transportation.

OPERATIONS BUDGET RESERVE FUNDS

The School District maintains a Non-Operating function within the General (Operations) Fund as a reserve against unexpected emergency expenses or unexpected and unpredicted reductions in revenues. Most unexpected emergency expenses are those related to legal settlements or facility repairs. Facility issues can be addressed through the School District Two-Mill Levy Fund or insurance coverage that lessens the need for the School District to maintain a high Operations Fund reserve. The budget for the 2018/2019 fiscal year reflects a reserve fund of \$1,310,000. The budget for the 2017/2018 school year reflected a reserve amount of \$1,750,000. This is a budget decrease of \$440,000. The decrease was mainly due to a reduction in our Cash Reserves.

CAPITAL ASSETS

GASB 34 requires public entities to depreciate capital assets. As of June 30, 2019, the School District capital assets were valued at \$162,878,793 after depreciation. This statement includes total accumulated depreciation of the School District's capital assets in the amount of \$84,293,594. The School District utilizes a "straight line" depreciation method in all cases and standardized lifetime tables in calculating this depreciation. Utilization of depreciation concepts by public entities allows the reader to know if the entity is replacing its assets at a rate in which they are being used. In accordance with State Statute, State Regulations and School Board Policy, all assets with a value in excess of \$5,000 are capitalized.

Because of past student growth and certain aging facilities, the School District has taken a planned and focused approach towards investing in equipment, and building new facilities as well as adding to and maintaining existing facilities. This effort is evidenced by the substantial and continuous investment in the "Capital Outlay" account. This planning includes applications for additional capital funding support from the Public School Capital Outlay Council (PSCOC).

In addition to construction, the School District continued planned efforts to replace old vehicles, enhance technology, and replace outdated school furnishings and equipment. In order to assure that aged equipment and vehicles are replaced on a routine basis, the Board of Education enacted a policy mandating that the replacement of equipment be funded, yearly, as a matter of routine. Schedules for equipment replacement will be included in future G.O. Bond elections and/or the Two Mill Levy.

The following table illustrates the three-year history of year-end balances for the School District's investment in all capital assets:

CAPITAL ASSETS

Asset Type	Balance June 30, 2017	Balance June 30, 2018	Balance June 30, 2019
Land and Land Improvements	13,382,821	\$13,850,898	\$14,948,697

Net Change in Assets	\$5,353,661	(\$487,695)	(\$3,911,209)

This table shows that the School District is, despite operational decreases and loss of students, still diligently replacing assets and building facilities to accommodate the student needs. As indicated with an increase in Total Assets of \$2,287,418 as of June 30, 2019.

GENERAL LONG-TERM DEBT

Article IX, Section 11 of the New Mexico Constitution limits the powers of a school district to incur general obligation debt beyond a school year. The School District can incur such debt for “the purpose of erecting, remodeling, making additions, and furnishing buildings or purchasing or improving school grounds or purchasing computer software or hardware for student use in public classrooms or any combination of these purposes”. The approval of the debt is subject to a vote of the local electors and may not exceed 6% of the assessed valuation of the taxable property within the School District. Total Long-Term Debt, on June 30, 2019 was \$49,917,824.

The School District has maintained a level of indebtedness to the maximum extent allowed. The policy to maintain this amount of debt is largely due to the need to add additional facilities in order to meet student population requirements upgrade and expand existing facilities, and to leverage additional funds available from Public School Capital Outlay. Public School Capital Outlay Fund awards give higher funding priorities to school districts with lower assessed valuations and higher levels of indebtedness. The most recent general obligation bond election was held on February 2, 2016 in which the School District’s voters approved a \$25.0 million, four-year, General Obligation Bond initiative by a margin exceeding 80%.

During the fiscal year ending June 30, 2019, the School District made one sale of General Obligation Bonds in the amount of \$7,500,000 in September 2018. The sale included \$7,500,000 for new debt. This bond sale was the third issuance of the 2016 General Obligation Bond election. As a result, of action taken by the 2002 legislature, a statute was enacted to allow school districts to complete sales of Bond Anticipation Notes (BANs). This legislation allows school districts to enter into short-term borrowing agreements and make repayments with the proceeds of future general obligation bond sales. Borrowing may not be longer than a one-year term

and limited to the amount of the principal retirement for that year. The district did not enter into any BAN agreements for the fiscal year 2018-2019.

The School District maintained an A1 underlying rating for the September 2018 bond sale. Effective July 1, 2003 School District bonds also carry the *enhanced* State of New Mexico bond rating of Aa1. This action was authorized in Senate Bill 847. The effect of this bill will be to reduce the risk to bond holders and, as a consequence, reduce the interest costs to the taxpayer. The School District has never defaulted on any of its debt or other obligations. Listed below is the School District’s total general obligation debt as of June 30, 2019.

In addition to the sale of General Obligation Bonds, the School District is eligible to receive awards from the Public Schools Capital Outlay Council (PSCOC) in accordance with Senate Bill 513, Chapter 147 Section 10(b) NMSA. The impact of these various awards is discussed throughout this [Management Discussion and Analysis](#).

FIDUCIARY FUNDS

The School District, as a custodian, maintains and monitors special funds on behalf of the schools and school activity groups. Agency funds maintained by the School District are to benefit a specific activity or interest and are generally raised by students for student use.

While each school site is responsible for the administration of the agency funds, the custody and use of these funds are in accordance with Public Education Department Regulations and School District Policy. The management of these funds is in accordance with Business Office procedures and all banking is performed through School District accounts. The funds are also subject to annual review by the School District’s Independent Auditor. The year ending June 30, 2019 states, the accumulated balance of all agency funds was \$686,282.

FUTURE TRENDS

The district continues to closely monitor positions and other expenditures in order to survive the fluctuations of enrollment and still try to increase our level of reserves in our Operational fund. The District was hopeful that we would enter the new fiscal year with additional students enrolled, however within the first weeks of school the opposite trend has occurred. The district will continue to look for saving opportunity and work to maintain within our budget constraints.

Local Assessments General and Obligation Bonds: Local property taxes serve as the revenue source for the repayment of general obligation bonds. Because of the slowed growth of both residential and commercial

assessed valuation for properties in the Los Lunas School District, the School District has been able to concentrate on renovating older buildings, security upgrades for existing buildings, and HVAC upgrades to existing facilities as supposed to needing more new classroom space. The following table illustrates the slowed growth of the assessed valuation for both the Los Lunas Schools and Valencia County.

Because of slow moving development in both the residential and commercial properties in the School District, it is expected that future assessed valuations will continue a flat or very small growth pattern. It is also expected that voter support for the Los Lunas Schools will continue to be strong and revenues from General Obligation Bond proceeds will continue to be an integral part of the School District Master Plan.

Community Growth: In the past year, the community has seen a minimal number of residential growth in our district. Most of the growth and homebuilding is focused on the West side of the District. We expect this trend to continue for the upcoming 2019/2020 fiscal year due to the current economic conditions in NM and the nation in general. All near future projections are expected to include, flat projected gas and oil revenues, a flat growth pattern in assessed valuation of taxable property within the School District, slight growth in student population and a cautious eye toward future bond and Mill Levy initiatives for the next two-five years.

District Master Planning: The District has contracted with Greer Stafford/SJCF Inc. to provide master planning for the Los Lunas School District. This project will help the District plan new school locations and provide analytical data for use by the District and the Public Schools Capital Outlay Council that will affect future capital funding needs. The District’s current Master Plan was updated and Board approved in January 2017 approval will be good through 2017-2021.

Reconciliation of the Statement of Revenues, Expenditures, and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2019

Amounts reported for governmental activities in the Statement of Activities
are different because:

Net change in fund balances - total governmental funds	\$ 4,794,277
--	--------------

Governmental funds report capital outlays as expenditures. However, in the Statement
of Activities, the cost of those assets is allocated over their estimated useful lives
and reported as depreciation expense:

Capital expenditures	3,360,483
Depreciation expense	(7,172,757)
Book value of assets disposed of during the year	(98,935)

Revenues in the Statement of Activities that do not provide current financial resources
are not reported as revenue in the funds:

Change in unavailable revenue related to property taxes receivable	70,170
--	--------

Governmental funds report District pension and OPEB contributions as expenditures. However
in the Statement of Activities, the cost of pension and OPEB benefits earned net of employee
contributions is reported as pension and OPEB expense:

Schools pension contributions subsequent to the measurement date	6,255,543
Schools OPEB contributions subsequent to the measurement date	900,209
Net pension expense	(31,864,909)
Net OPEB expense	(131,207)

The issuance of long-term debt (e.g. bonds, notes, leases) provides current financial
resources to governmental funds, while the repayment of the principal of long-term
debt consumes the current financial resources of governmental funds. Neither
transaction, however, has any effect on net position. Also, governmental funds
report the effect of premiums, discounts, and similar items when debt is first issued,
whereas these amounts are deferred and amortized in the Statement of Activities:

Current year amortization of bond premium	119,355
Bond proceeds	(7,500,000)
Increase in accrued compensated absences not due and payable	(40,449)
Increase in accrued interest payable	(26,006)

Notes to Financial Statements
June 30, 2019

NOTE 1. Summary of Significant Accounting Policies

Los Lunas Schools was created under the provision of Chapter 22 Article 5, Paragraph 4, New Mexico Statutes 1978 to provide public education for the children within the local area. The School Board is authorized to establish policies and regulations for its own government consistent with the laws of the state of New Mexico and the regulations of the State Board of Education and the Legislative Finance Committee. The School Board is comprised of five members who are elected for terms of four years.

The School Board operates seventeen schools with a total enrollment of more than 8,500 pupils. In conjunction with the regular educational programs, some of these schools offer special education. In addition, the School Board provides transportation and school food services for the students.

The summary of significant accounting policies of the Schools is presented to assist in the understanding of Los Lunas Schools (the "Schools") financial statements. The financial statements and notes are the representation of Los Lunas Schools' management, who is responsible for their integrity and objectivity. The financial statements of the Schools have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standard Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of the Schools' accounting policies are described below.

During the year ended June 30, 2019, the Schools adopted GASB Statements No. 83, *Certain Asset Retirement Obligations*, No. 84, *Fiduciary Activities*, No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements* as required by GAAP. None of these pronouncements have a significant impact on these financial statements.

A. Financial Reporting Entity

In evaluating how to define the Schools, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statement No. 14 as amended by GASB Statement No. 39. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic – but not the only – criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens.

STATE OF NEW MEXICO
Los Lunas Schools
Notes to Financial Statements
June 30, 2019

NOTE 1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (Continued)

A third criterion used to evaluate the potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

Based upon the application of these criteria, there are no other primary governments with which the School Board Members are financially accountable. There are no other primary governments with which the Schools has a significant relationship.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The Schools do not have business-type activities as of June 30, 2019 .

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Schools' net position is reported in three parts – Net investment in capital assets, restricted net position and unrestricted net position.

When both restricted and unrestricted resources are available for use, it is the Schools' policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise fund are reported as separate columns in the fund financial statements. The School does not have any enterprise funds.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*. Property taxes are recognized as revenues in the year for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (Continued)

For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Ad valorem taxes (property taxes) and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

The *fiduciary funds* are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Fiduciary funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the School holds for others in a custodial capacity.

Governmental funds are used to account for the Schools' general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt.

Under the requirements of GASB Statement No. 34, the School is required to present certain of its governmental funds as major funds based upon certain criteria. The major funds presented in the fund financial statements include the following (in addition to the General Fund), which may include funds that were not required to be presented as major but were at the discretion of management:

General Fund:

The *Operational Fund* is used to account for the State Equalization Guarantee from the NM State Legislature and is the primary operating fund of the School, and accounts for all financial resources, except those required to be accounted for in other funds. Authority for the creation of this fund is the New Mexico Public Education Department.

The *Transportation Fund* is used to account for the costs associated with transporting school age children. Authority for the creation of this fund is the New Mexico Public Education Department.

The *Instructional Materials Fund* is used to account for the monies received from the State Department of Education for the purposes of purchasing instructional materials (books, manuals, periodicals, etc.) used in the education of students. Authority for the creation of this fund is the New Mexico Public Education Department.

Capital Projects Funds:

The *Bond Building Capital Projects Fund* is used to account for bond proceeds and any income earned thereon. The proceeds are restricted for the purpose of making additions to and furnishing of school buildings, or purchasing or improving school grounds or any combination thereof, as approved by the voters of the School. Authority for the creation of this fund is the New Mexico Public Education Department.

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Debt Service Funds:

The *Debt Service Fund* is used to account for the accumulation of resources for the payment of General Long-Term Debt principal and interest. Authority for the creation of this fund is the New Mexico Public Education Department.

Additionally, the government reports the following fund types:

Fiduciary Funds:

The fiduciary funds are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. These funds account for assets held by the School in a trustee capacity or as an agent for individuals or student organizations.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the Schools' taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the Schools' general revenues. Program revenues are categorized as (a) charges for services, which include revenues collected for cafeteria fees and lost books, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources such as Title I and IDEA-B to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from the state resources such as SB-9 and HB-33 funding to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes and other items not properly included among program revenues.

The School reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with the function. The School does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function, except for that portion of depreciation that is identified as unallocated in the Statement of Activities. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Assets, Liabilities and Net Position or Equity

Cash and Cash Equivalents: The Schools' cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of twelve months or less from the date of acquisition.

State statutes authorize the School to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the School are reported at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the Pool is the same as the fair value of the pool shares. As of June 30, 2019, the School did not hold any pool shares in the State Treasurer's Investment Pool.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

Fair Value Measurements: The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). As of June 30, 2019, there are no items are required to be valued using valuation techniques.

Restricted Assets: Restricted assets are those that are set aside for restrictions resulting from enabling legislation for future capital outlay expenditures and debt service payments. The Schools' restricted assets are made up of all debt service funds and unspent bond proceeds held at the New Mexico Finance Authority.

Receivables and Payables: Inter-fund activity is reported either as loans, services provided, reimbursements, or transfers. Loans are reported as inter-fund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related costs as a reimbursement. All other inter-fund transactions are treated as transfers.

Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements. All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

The School receives monthly income from a tax levy in Valencia County. The funds are collected by the County Treasurer and are remitted to the School in the following month. Under the modified accrual method of accounting, the amount remitted by the Valencia County Treasurer in July and August is considered 'measurable and available' and, accordingly, is recorded as revenue in the governmental fund financial statements during the year ended June 30, 2019 . Period of availability is deemed to be sixty days subsequent to year end for property taxes and ninety days subsequent to year end for other nonexchange revenues.

Certain Special Revenue funds are administered on a reimbursement method of funding; other funds are operated on a cash advance method of funding. The funds incurred the cost and submitted the necessary request for reimbursement or advance, respectively.

Inventory: The Schools' method of accounting for inventory is the consumption method. Under the consumption approach, governments report inventories they purchase as an asset and defer the recognition of the expenditures until the period in which the inventories are actually consumed. Inventory is valued at cost. In the General Fund, inventory consists of expendable supplies held for consumption. Inventory in the Food Service Fund consists of U.S.D.A. commodities and other purchased food and non-food supplies.

The cost of purchased inventory is recorded as an expenditure at the time individual inventory items are consumed. Commodities consumed during the year are reported as revenues and expenditures; unused commodities are reported as inventories.

Capital Assets: Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000, per section 12-6-10 NMSA 1978, and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are to be included as part of the governmental capital assets reported in the government wide statements. Donated capital assets are recorded at estimated fair market value at the date of donation. Information Technology Equipment including software is being capitalized and included in furniture, fixtures, and equipment in accordance with NMAC 2.20.1.9 C (5).

The Schools was a phase II government for purposes of implementing GASB Statement No. 34. However, the Schools does not have any infrastructure assets to report.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Library books are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. No interest was included as part of the cost of capital assets under construction during the year ended June 30, 2019.

Capital expenditures made on the Schools' building construction projects by the New Mexico Public School Facilities Authority are included in the Schools' capital assets as appropriate.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	20 years
Buildings/building improvements	10-50 years
Equipment and furniture	5-20 years
Vehicles	5-7 years

Accrued Payroll Liabilities: In the fund financial statements, governmental fund types recognize the accrual of unpaid salaries, wages, and benefits that employees earned prior to the end of the fiscal year. The amount recognized in the fund financial statements represents the amounts due to employees or due to third parties for the employee benefits.

Deferred Outflows of Resources: In addition to assets, the balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a use of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until that time. The has four types of items that qualify for reporting in this category related to the pension and OPEB plans which are discussed at Notes 10 and 11.

Deferred Inflows of Resources: In addition to liabilities, the balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources. The School has one type of item, which arises under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue – property taxes, are reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The School has recorded \$2,038,021 related to property taxes that are considered “unavailable”. The District also has items related to the pension and OPEB plans which are discussed at Notes 10 and 11.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

Compensated Absences: Qualified employees are entitled to earn and accumulate annual leave according to a graduated leave schedule of up to 40 days per year, depending on length of service, the employee's hire date, and employment status. Employees may accumulate and carry forward, from one fiscal year to the next, up to 40 days of annual leave. Upon termination, employees will be paid for up to 40 days of accrued annual leave depending on employment status.

Qualified employees are entitled to accumulate general leave according to a graduated leave schedule of up to 15 days per year with no limit on the amount to be carried forward, depending on length of service, the employee's hire date, and employment status. Effective May 2013, employees will be paid for unused general leave upon retirement, on a graduated scale for accumulated days over 30, provided they meet specific criteria based on years of service.

Vested or accumulated leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

Long-term Obligations: In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method or the straight-line method if the difference from the effective interest method is inconsequential.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the period the bonds are issued. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt services expenditures.

Net Position and Fund Equity: Governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The detail of the Schools' fund balances is presented on the face of the fund financial statements.

In the government-wide financial statements, fund equity is classified as net position and is displayed in three components:

Net investment in capital assets: Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position: Consist of net position with "legally enforceable" constraints placed on the use, either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Legally enforceable means that a government can be compelled by an external party – such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation, only for the purposes specified by the legislation. Generally, the enforceability of an enabling legislation restriction is determined by professional judgment.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

If it is determined that the restrictions continue to be legally enforceable, then for the purposes of financial reporting, the restricted net position should not reflect any reduction for resources used for purposes not stipulated by the enabling legislation. Descriptions for the related restrictions for net position are restricted for “debt service or capital projects.”

Unrestricted Net Position: All other net positions that do not meet the definition of “restricted” or “net investment in capital assets”.

The government-wide Statement of Net Position reports \$16,997,252 of restricted net position related to grants, capital projects and debt service.

Fund Balance: In the fund financial statements, governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the School is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. For committed and assigned fund balance, the Schools’ highest level of decision-making authority is the Board of Education. Formal action by the Board of Education is required to establish a fund balance commitment or assignment.

For the classification of fund balances, the School considers restricted or unrestricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Also, for the classification of fund balances, the School considers committed, assigned or unassigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

In the governmental fund financial statements, fund balance is classified and displayed in five components, as displayed below:

Nonspendable: Consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. At June 30, 2019, the nonspendable fund balance of the School is comprised of inventory in the General and Food Service funds in the amounts of, \$40,336 and \$411,257, respectively, which are not in spendable form.

Restricted: Consists of amounts that are restricted to specific purposes as a result of a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed: Consist of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Schools’ Board of Education. Those committed amounts cannot be used for any other purpose unless the Schools’ Board of Education removes or changes the specified use by taking formal action.

Assigned: Consist of amounts that are constrained by the Schools’ *intent* to be used for specific purposes, but are neither restricted nor committed. Formal action by the Schools’ Board of Education is required to assign amounts to be used for specific purposes.

Unassigned: Represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund except for those other governmental funds reflecting a deficit.

Inter-fund Transactions: Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other inter-fund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Non-recurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other inter-fund transfers are reported as operating transfers.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates affecting the Schools' financials include management's estimate of the useful lives of capital assets and the net pension and OPEB liabilities (including the related components).

E. Revenues

State Equalization Guarantee: School districts in the State of New Mexico receive a 'state equalization guarantee distribution' which is defined as "that amount of money distributed to each school district to ensure that the school district's operating revenue, including its local and federal revenues as defined (in Chapter 22, Section 825, NMSA 1978) is at least equal to the school district's program cost.

A school district's program costs are determined through the use of various formulas using 'program units' which take into consideration 1) early childhood education; 2) basic education; 3) special education; 4) bilingual-multicultural education; 5) size, etc. Payment is made from the public school fund under the authority of the Secretary of the Public Education Department. The School received \$60,673,518 in state equalization guarantee distributions during the year ended June 30, 2019.

Tax Revenues: The School receives mill levy and ad-valorem tax revenues primarily for debt service and capital outlay purposes. Tax revenues are recognized when they are in the hands of the collecting agency. The School records only the portion of the taxes considered to be 'measurable' and 'available' on a modified accrual basis. The School recognized \$11,753,234 in tax revenues during the year ended June 30, 2019. Descriptions of the individual debt service and capital outlay funds contained in these financial statements include information regarding the authority for the collection and use of these taxes.

Property taxes attach an enforceable lien on property as of January 1. Tax notices are sent to property owners by November 1st of each year to be paid in whole or in two installments by November 10th and April 10th of each year. Valencia County collects County, City, and School taxes and distributes them to each fund once per month except in June when the taxes are distributed twice to close out the fiscal year.

Transportation Distribution: School districts in the State of New Mexico receive student transportation distributions. The transportation distribution is allocated to each school district in accordance with formulas developed by the State Transportation Director and the Secretary of the Public Education Department. The funds shall be used only for the purpose of making payments to each school district for the to-and-from school transportation costs of students in grades K through twelve attending public school within the school district. The Schools received \$2,076,182 in transportation distributions during the year ended June 30, 2019.

Instructional Materials: The New Mexico Public Education Department (PED) receives federal mineral leasing funds from which it makes annual allocations to the various school districts for the purchase of educational materials. Of each allocation, fifty percent is restricted to the purchase of materials listed in the PED "Multiple List", while fifty percent of each allocation is available for purchases directly from vendors. Allocations received from the State for the year ended June 30, 2019 totaled \$283,028.

Public School Capital Outlay: Under the provisions of Chapter 22, Article 24, a public school capital outlay fund was created. The money in the fund may be used only for capital expenditures deemed by the public school capital outlay council necessary for an adequate educational program, and the capital outlay expenditures are limited to the purchase, or construction of temporary or permanent classrooms.

The council shall approve an application for grant assistance from the fund when the council determines that:

1. A critical need exists requiring action;
2. The residents of the school districts have provided all available resources to the district to meet its capital outlay requirements;
3. The school district has used its resources in a prudent manner;
4. The school district is in a county or counties which have participated in the reappraisal program and the reappraised values are on the tax rolls, or will be used for the tax year 1979 as certified by the property tax division; and
5. The school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978.

The council shall consider all applications for assistance from the fund and after public hearing shall either approve or deny the application. Applications for grant assistance shall only be accepted by the council after a district has complied with the provisions of this section. The council shall list all applications in order of priority and all allocations shall be made on a priority basis.

Money in the fund shall be disbursed by warrant of the Department of Finance and Administration on vouchers signed by the Secretary of Finance and Administration following certification by the council that the application has been approved.

During fiscal year 2019, the Schools received \$99,999 in special capital outlay funds.

E. Revenues (Continued)

SB-9 State Match: The Director shall distribute to any school district that has imposed a tax under the Public School Capital Outlay Improvements Act (22-25-1 to 22-25-10 NMSA 1978) an amount from the public school capital improvements fund that is equal to the amount by which the revenue estimated to be received from the imposed tax as specified in Subsection B of section 22-25-3 NMSA 1978, assuming a one hundred percent collection rate, is less than an amount calculated by multiplying the product obtained by the rate imposed in the School under the Public School Capital Improvements Act. The distribution shall be made by December 1, of each year that the tax is imposed in accordance with Section 22-25-3 NMSA 1978. Provided, however, in the event that sufficient funds are not available in the public school capital improvement funds to make the state distribution provided for in this section, the dollar per program unit figure shall be reduced as necessary.

The Schools received \$1,267,239 in state SB-9 matching during the year end June 30, 2019.

Federal Grants: The Schools receives revenues from various Federal departments (both direct and indirect), which are legally restricted to expenditures for specific purposes. These programs are reported as Special Revenue Funds. Each program is operated under its own budget, which has been approved by the Federal Department or the flow-through agency (usually the New Mexico Public Education Department). The various budgets are approved by the Local School Board and the New Mexico Public Education Department.

The Schools also receives revenues from Federal departments which are unrestricted to expenditures for special purposes. These revenues are reported in the Operational Fund.

F. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Educational Retirement Board Plan (ERB) and additions to/deductions from ERB's fiduciary net position have been determined on the same basis as they are reported by ERB, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payment (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

G. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2. Stewardship, Compliance and Accountability

Budgetary Information

Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are prepared by management and are approved by the local Board of Education and the School Budget and Planning Unit of the Public Education Department. Auxiliary student activity accounts are not budgeted.

These budgets are prepared on the Non-GAAP (Cash) budgetary basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year. Because the budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year, such appropriated balance is legally restricted and is therefore presented as a designated portion of the fund balance.

Actual expenditures may not exceed the budget at the function level. Budgets may be amended in two ways. If a budget transfer is necessary within a major category called a 'function,' this may be accomplished with only local Board of Education approval. If a transfer between 'functions' or a budget increase is required, approval must also be obtained from the New Mexico Public Education Department.

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

The Schools follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In April or May, the local school board submits to the School Budget and Finance Analysis Bureau (SBFAB) of the New Mexico Public Education Department, a proposed operating budget for the ensuing fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them. All budgets submitted to the State of New Mexico Public Education Department (PED) by the Schools shall contain headings and details as described by law and have been approved by the New Mexico Public Education Department.
2. In May or June of each year, the proposed "operating" budget will be reviewed and approved by the SBFAB and certified and approved by the local school board at a public hearing of which notice has been published by the local school board who fixes the estimated budget for the Schools for the ensuing fiscal year.
3. The school board meeting, while not intended for the general public, is open for the general public unless a closed meeting has been called.
4. The "operating" budget will be used by the Schools until they have been notified that the budget has been approved by the SBFAB and the local school board. The budget shall be integrated formally into the accounting system. Encumbrances shall be used as an element of control and shall be integrated into the budget system.
5. The Schools shall make corrections, revisions and amendments to the estimated budgets fixed by the local school board to recognize actual cash balances and carryover funds, if any. These adjustments shall be reviewed and approved by the SBFAB.
6. The superintendent is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the school board and the New Mexico Public Education Department.

NOTE 2. Stewardship, Compliance and Accountability (continued)

Budgetary Information - (Continued)

7. Budget change requests are processed in accordance with Supplement 1 (Budget Preparation and Maintenance) of the Manual of Procedures Public School Accounting and Budgeting. Such changes are initiated by the Schools and approved by the SBFAB.
8. Legal budget control for expenditures is by function.
9. Appropriations lapse at fiscal year-end. Funds unused during the fiscal year may be carried over into the next fiscal year by budgeting those in the subsequent fiscal year's budget. The budget of the Schools has been amended during the current fiscal year in accordance with these procedures. The budget schedules included in the accompanying financial statements reflect the approved budget and amendments thereto.
10. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Capital Projects Funds and Debt Service Funds.
11. Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are adopted on a basis not consistent with generally accepted accounting principles (GAAP). Encumbrances are treated the same way for GAAP purposes and for budget purposes.

The Board of Education may approve amendments to the appropriated budget, which are required when a change is made affecting budgeted ending fund balance. New Mexico state law prohibits a Governmental Agency from exceeding an individual function. The accompanying Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual present comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with generally accepted accounting principles, a reconciliation of resultant basis, perspective, equity, and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2019, is presented. The appropriated budget for the year ended June 30, 2019, was properly amended by the Board of Education throughout the year. These amendments resulted in the following changes:

	Excess (deficiency) of revenues over expenditures	
	Original Budget	Final Budget
Budgeted Funds:		
Operational Funds	\$ (4,789,611)	\$ (6,909,383)
Transportation Funds	\$ -	\$ (25,180)
Instructional Materials Fund	\$ (34,841)	\$ (34,126)

The Schools is required to balance its budgets each year. Accordingly, amounts in excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures. The reconciliation between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis for each governmental fund is included in the individual budgetary comparison. The Schools budgets on a modified cash basis with respect to payroll or held checks being accrued and expensed, therefore, fund balances on the budget statements do not reconcile to cash due to the Schools' accrued payroll which is presented on the accrual basis.

NOTE 3. Deposits

State statutes authorize the investment of the Schools' funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. All invested funds of the Schools properly followed State investment requirements as of June 30, 2019 .

Deposits of funds may be made in interest or non-interest-bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the Schools. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

The collateral pledged is listed on Schedule II of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, district or political subdivision of the State of New Mexico.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution.

Deposits:

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure, the Schools' deposits may not be returned to it. The Schools does not have a deposit policy for custodial credit risk, other than the following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978.) At June 30, 2019, \$27,214,820 of the Schools' deposits of \$27,714,820 was exposed to custodial credit risk. \$27,070,962 of the uninsured funds were collateralized by collateral held by the pledging bank's trust department, not in the Schools' name. As of June 30, 2019, \$143,858 was uninsured and uncollateralized. As of June 30, 2019, the carrying amount of these deposits was \$26,676,649; total amount of deposits of \$27,714,820 less outstanding items of \$1,038,171. New Mexico State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the District for a least one half of the amount on deposit with the institution. The schedule listed below will meet the State of New Mexico, Office of the State Auditor's requirements in reporting the insured portion of the deposits.

	\$ 48,300,000	\$ 6,277,964	\$ 54,577,964

In prior years, the general fund was typically used to liquidate long-term liabilities other than general obligation bonds.

Compensated Absences – Administrative employees of the Schools are able to accrue a limited amount of annual leave and all employees are able to accrue an unlimited amount of general leave during the year. During fiscal year June 30, 2019, compensated absences increased \$40,449 for annual leave over the prior year accrual. See Note 1 for more details.

Operating Leases – The Schools leases office equipment under short-term cancelable operating leases. Rental costs for the year ended June 30, 2019 was \$208,669.

NOTE 8. Risk Management

The Schools is a member of the New Mexico Public Schools Insurance Authority (NMPSIA). The Authority was created to provide comprehensive core insurance programs by expanding the pool of subscribers to maximize cost containment opportunities for required insurance coverage. The Schools pays an annual premium to the NMPSIA based on claim experience and the status of the pool. The Risk Management Program includes Workers Compensation, General and Automobile Liability, Automobile Physical Damage, and Property and Crime coverage. Also included under the risk management program are Boiler and Machinery, Underground Storage Tanks and Catastrophic Student Accident Insurance.

NOTE 8. Risk Management (continued)

The NMPSIA provides coverage for up to a maximum of \$750,000,000 for each property damage claim with a \$25,000 deductible for each building. General liability coverage is afforded to all employees, volunteers and school board members and the limit is subject to the NMSA Tort Claims Act on a per occurrence basis. The automobile and property liability limit is subject to the provisions of the Tort Claims Act. The crime limit is \$1,250,000 per occurrence for Faithful Performance. A limit of \$1,250,000 applies to Depositor's Forgery, Credit Card Forgery and Money Orders. A limit of \$100,000 applies to Money and Security, with all crime coverage subject to a \$750 deductible.

In case the NMPSIA's assets are not sufficient to meet its liability claims, the agreement provides that subscribers, including the Schools, cannot be assessed additional premiums to cover the shortfall. As of June 30, 2019, there have been no claims that have exceeded insurance coverage.

NOTE 9. Other Required Individual Fund Disclosures

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

- A. Deficit fund balance of individual funds: The Schools reported the following deficit fund balance at June 30, 2019:

Student Support Academic Achievement Title IV	\$ 518
GEAR UP NM State Initiatives	2,313
Indian Education Act	5,188
GRADS Instructional	<u>94</u>
Total	<u><u>\$ 8,113</u></u>

- B. Excess of expenditures over appropriations: No funds of the Schools exceeded approved budgetary authority at the fund level for the year ended June 30, 2019.
- C. Designated cash appropriations in excess of available balance: No funds of the Schools exceeded the budgeted cash appropriations for the year ended June 30, 2019.

NOTE 10. Pension Plan – Educational Retirement Board

General Information about the Pension Plan

Plan description. The New Mexico Educational Retirement Act (ERA) was enacted in 1957. The act created the Educational Employees Retirement Plan (Plan) and, to administer it, the New Mexico Educational Retirement Board (NMERB). The Plan is included in NMERB's comprehensive annual financial report. The report can be found on NMERB's Web site at https://www.nmerb.org/Annual_reports.html.

The Plan is a cost-sharing, multiple-employer pension plan established to provide retirement and disability benefits for certified teachers and other employees of the state's public schools, institutions of higher learning, and state agencies providing educational programs. Additional tenets of the ERA can be found in Section 22-11-1 through 22-11-52, NMSA 1978, as amended.

NOTE 10. Pension Plan – Educational Retirement Board (continued)

The Plan is a pension trust fund of the State of New Mexico. The ERA assigns the authority to establish and amend benefit provisions to a seven-member Board of Trustees (Board); the state legislature has the authority to set or amend contribution rates and other terms of the Plan. NMERB is self-funded through investment income and educational employer contributions. The Plan does not receive General Fund Appropriations from the State of New Mexico.

All accumulated assets are held by the Plan in trust to pay benefits, including refunds of contributions as defined in the terms of the Plan. Eligibility for membership in the Plan is a condition of employment, as defined Section 22-11- 2, NMSA 1978. Employees of public schools, universities, colleges, junior colleges, technical-vocational institutions, state special schools, charter schools, and state agencies providing an educational program, who are employed more than 25% of a full-time equivalency, are required to be members of the Plan, unless specifically excluded.

Pension Benefit – A member’s retirement benefit is determined by a formula which includes three component parts: 1) the member’s final average salary (FAS), 2) the number of years of service credit, and 3) a 0.0235 multiplier. The FAS is the average of the member’s salaries for the last five years of service or any other consecutive five-year period, whichever is greater.

Summary of Plan Provisions for Retirement Eligibility – For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member’s age and earned service credit add up to the sum of 75 or more,
- The member is at least sixty-five years of age and has five or more years of earned service credit, or
- The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on, or after, July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 refunded all member and then becomes re-employed after July 1, 2010 is as follows:

- The member’s age and earned service credit add up to the sum of 80 or more,
- The member is at least sixty-seven years of age and has five or more years of earned service credit, or
- The member has service credit totaling 30 years or more.

Section 2-11-23.2, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2013. These members must meet one of the following requirements.

- The member’s minimum age is 55, and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55.
- The member’s minimum age and earned service credit add up to the sum of 80 or more. Those who retire under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced retirement benefits
- The member’s age is 67, and has earned 5 or more years of service credit.

Forms of Payment – The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member’s accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member’s surviving beneficiary.

NOTE 10. Pension Plan – Educational Retirement Board (continued)

Benefit Options – The Plan has three benefit options available.

- **Option A – Straight Life Benefit** – The single life annuity option has no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of member contributions plus interest less benefits paid prior to the member's death.
- **Option B – Joint 100% Survivor Benefit** – The single life annuity monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.
- **Option C – Joint 50% Survivor Benefit** – The single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the reduced 50% benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Disability Benefit – An NMERB member is eligible for disability benefits if they have acquired at least ten years of earned service credit and is found totally disabled. The disability benefit is equal to 2% of the member's Final Average Salary (FAS) multiplied by the number of years of total service credits. However, the disability benefit shall not be less than the smaller of (a) one-third of the member's FAS or (b) 2% of the member's FAS multiplied by total years of service credit projected to age 60.

Cost of Living Adjustment (COLA) – All retired members and beneficiaries receiving benefits receive an automatic adjustment in their benefit on July 1 following the later of 1) the year a member retires, or 2) the year a member reaches age 65 (Tier 1 and Tier 2) or age 67 (Tier 3).

- Tier 1 membership is comprised of employees who became members prior to July 1, 2010
- Tier 2 membership is comprised of employees who became members after July 1, 2010, but prior to July 1, 2013
- Tier 3 membership is comprised of employees who became members on or after July 1, 2013

As of July 1, 2013, for current and future retirees the COLA is immediately reduced until the Plan is 100% funded. The COLA reduction is based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.5%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.7%.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

Refund of Contributions – Members may withdraw their contributions only when they terminate covered employment in the State and their former employer(s) certification determination has been received by NMERB. Interest is paid to members when they withdraw their contributions following termination of employment at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or for contributions held for less than one year.

Contributions – For the fiscal year ended June 30, 2019 and 2018 educational employers contributed to the Plan based on the following rate schedule.

Fiscal Year	Date Range	Wage Category	Member Rate	Employer Rate	Combined Rate	Increase Over Prior Year
2019	7-1-18 to 6-30-19	Over \$20K	10.70%	13.90%	24.60%	0.00%
2019	7-1-18 to 6-30-19	\$20K or less	7.90%	13.90%	21.80%	0.00%
2018	7-1-17 to 6-30-18	Over \$20K	10.70%	13.90%	24.60%	0.00%
2018	7-1-17 to 6-30-18	\$20K or less	7.90%	13.90%	21.80%	0.00%

The contribution requirements are established in statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the New Mexico Legislature. For the fiscal years ended June 30, 2019 and 2018, the Schools paid employee and employer contributions of \$10,855,046 and \$10,138,402, which equal the amount of the required contributions for each fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2019, the Schools reported a liability of \$179,424,726 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2018 using generally accepted actuarial principles. The roll-forward incorporates the impact of the new assumptions adopted by the Board on April 21, 2017. There were no other significant events of changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2018. Therefore, the employer’s portion was established as of the measurement date of June 30, 2018. The Schools’ proportion of the net pension liability was based on a projection of the Schools’ long-term share of contributions to the pension plan relative to the projected contributions of all participating educational institutions, actuarially determined. At June 30, 2018, the Schools’ proportion was 1.50887% percent, which was an increase of .05216% percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the Schools recognized pension expense of \$31,864,909. At June 30, 2019, the Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial assumptions. The total pension liability as of June 30, 2018 was based on an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 and was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry age normal
Inflation	2.50%
Salary Increases	Composed of 2.50% inflation, plus 0.75% productivity increase rate, plus step-rate promotional increases for less than 10 years of service
Investment Rate of Return	7.25%
Single Discount Rate	5.69%
Retirement Age	Experience based table of rates based on age and service. Adopted by NMERB on April 21, 2017 in conjunction with the six-year experience study for the period ended June 30, 2016.

NOTE 10. Pension Plan – Educational Retirement Board (continued)

Healthy Females – GRS Southwest Region Teacher Mortality Table, set back one-year, generational mortality improvements in accordance with scale BB from the table's base year of 2012.

Actuarial assumptions and methods are set by the Board of Trustees (Board), based upon recommendations made by the plan's actuary. The Board adopted new assumptions on April 21, 2017 in conjunction with the six-year actuarial experience study period ending June 30, 2016. At that time, the Board adopted a number of economic assumption changes, including a decrease in the inflation assumption from 3.00% to 2.50%. The 0.50% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.75% to 7.25%, the assumed annual wage inflation rate from 3.75% to 3.25%, the payroll growth assumption from 3.50% to 3.00%, and the annual assumed COLA from 2.00% to 1.90%.

Basis for Allocation – The employers' proportionate share, reported in the Schedule of Employer Allocations, is calculated using employer contributions for employers that were members of NMERB, as of June 30, 2018.

Rate of Return – The long-term expected rate of return on pension plan investments is determined annually using a building-block approach that includes the following: 1) rate of return projections are the sum of current yield plus projected changes in price (valuation, defaults, etc.); 2) application of key economic projections (inflation, real growth, dividends, etc.); and 3) structural themes (supply and demand imbalances, capital flows, etc.) developed for each major asset class.

Discount Rate – A single discount rate of 5.69% was used to measure the total pension liability as of June 30, 2018. This single discount rate was based on an expected rate of return on pension plan investments of 7.25% and a municipal bond rate of 3.62%. Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2050. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the 2050 fiscal year, and the municipal bond rate was applied to all benefit payments after that date.

Sensitivity of the Net Pension Liability – The following table shows the sensitivity of the net pension liability to changes in the discount rate as of June 30, 2018. In particular, the table presents the Plan's net pension liability if it were calculated using a discount rate one percentage point lower (4.69%) or one percentage point higher (6.69%) than the single discount rate.

	1% Decrease (4.69%)	Current Discount Rate (5.69%)	1% Increase (6.69%)
School's proportionate share of the net pension liability	\$ 233,183,424	\$ 179,424,726	\$ 135,560,983

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued separately issued NMERB'S financial reports. The reports can be found on NMERB's Web site at https://www.nmerb.org/Annual_reports.html.

Payables to the pension plan. At June 30, 2019, the Schools owed the ERB \$1,778,359 for the contributions withheld in the month of June 2019.

NOTE 11. Post-Employment Benefits – State Retiree Health Care Plan

General Information about the OPEB

Plan description. Employees of the Schools are provided with OPEB through the Retiree Health Care Fund (the Fund)—a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act (the Act) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA’s financial information is included with the financial presentation of the State of New Mexico.

Benefits provided. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

Employees covered by benefit terms – At June 30, 2018, the Fund’s measurement date, the following employees were covered by the benefit terms:

Plan membership	
Current retirees and surviving spouses	51,205
Inactive and eligible for deferred benefit	11,471
Current active members	93,349
	<u>156,025</u>
Active membership	
State general	19,593
State police and corrections	1,886
Municipal general	17,004
Municipal police	3,820
Municipal FTRE	2,290
Educational Retirement Board	48,756
	<u>93,349</u>

Contributions – Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee’s salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer’s participation in the Fund. Contributions to the Fund from the Schools were \$1,354,063 for the year ended June 30, 2019.

NOTE 11. Post-Employment Benefits – State Retiree Health Care Plan (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the Schools reported a liability of \$42,893,042 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Schools' proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2018. At June 30, 2018, the Schools' proportion was 0.98642 percent.

For the year ended June 30, 2019, the Schools recognized OPEB expense of \$131,207. At June 30, 2019 the Schools reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflow of Resources</u>	<u>Deferred Inflow of Resources</u>
Differences between expected and actual experience	\$ -	\$ 2,539,543
Net difference between expected and actual investments on OPEB plan investments	-	535,289
Change of assumptions	-	8,007,940

Schools' contributions subsequent to the measurement date	<u>900,209</u>	<u>-</u>
Total	<u>\$ 1,800,867</u>	<u>\$ 11,082,772</u>

Deferred outflows of resources totaling \$900,209 represent the Schools contributions to the Fund made subsequent to the measurement date and will be recognized as a reduction of net OPEB liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

2019	\$ (2,625,076)
2020	(2,625,076)

Actuarial assumptions. The total OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017 that was rolled forward to a measurement date of June 30, 2018. The mortality, retirement, disability, turnover and salary increase assumptions for PERA members are based on the PERA annual valuation as of June 30, 2016 and for ERB members are based on the ERB actuarial experience study as of June 30, 2016. The following actuarial assumptions were applied to the actuary’s measurement:

Valuation Date	June 30, 2017
Actuarial cost method	Entry age normal, level percent of pay, calculated on individual employee basis
Asset valuation method	Market value of assets
Actuarial assumptions:	
Inflation	2.50% for ERB; 2.25% for PERA
Projected payroll increases	3.50% to 12.50% based on years of service, including inflation
Investment rate of return	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Health care cost trend rate	8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 for Medicare medical plan costs
Mortality	ERB members: RP-2000 Combined Healthy Mortality Table with White Collar Adjustment (males) and GRS Southwest Region Teacher Mortality Table (females) PERA members: RP-2000 Combined Healthy Mortality

Rate of Return. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

The best estimates for the long-term expected rate of return is summarized as follows:

Asset Class	Long-Term Rate of Return
U.S. core fixed income	2.1%
U.S. equity - large cap	7.1
Non U.S. - emerging markets	10.2
Non U.S. - developed equities	7.8
Private equity	11.8
Credit and structured finance	5.3
Real estate	4.9
Absolute return	4.1
U.S. equity - small/mid cap	7.1

NOTE 11. Post-Employment Benefits – State Retiree Health Care Plan (continued)

Discount Rate. The discount rate used to measure the Fund’s total OPEB liability is 4.08% as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2029. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2029, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher (3.87%) was applied. Thus, 4.08% is the blended discount rate.

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB liability of the Schools, as well as what the Schools’ net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.08 percent) or 1-percentage-point higher (5.08 percent) than the current discount rate:

	1% Decrease (3.08%)	Current Discount Rate (4.08%)	1% Increase (5.08%)
Schools' proportionate share of the net OPEB liability	\$ 51,910,681	\$ 42,893,042	\$ 35,785,132

The following presents the net OPEB liability of the Schools, as well as what the Schools’ net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Trend Rate Sensitivity Analysis		
	1% Decrease	Rate	1% Increase
Schools' proportionate share of the net OPEB liability	\$ 36,259,658	\$ 42,893,042	\$ 48,093,763

The Schools has also committed to pay for design professional services for the Peralta Elementary School, but the project has not started and the contract amount is unknown.

NOTE 13. Concentrations

The Schools depends on financial resources flowing from, or associated with, both the Federal Government and the State of New Mexico. Because of this dependency, the Schools is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State Appropriations.

NOTE 14. Subsequent Events

The date to which events occurring after June 30, 2019, the date of the most recent Statement of Net Position, have been evaluated for possible adjustment to the financial statements or disclosures is November 7, 2019.

NOTE 15. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Schools expects such amount, if any, to be immaterial.

The Schools is involved in various claims and lawsuits arising in the normal course of business. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Schools' legal counsel that resolution of these matters will not have a material adverse effect on the financial condition of the Schools.

Changes in benefit provisions. There were no modifications to the benefit provisions that were reflected in the actuarial valuation as of June 30, 2018.

Changes in assumptions and methods. Actuarial assumptions and methods are set by the Board of Trustee, based upon recommendation made by the Plan's actuary. The Board adopted new assumptions on April 21, 2017 in conjunction with the six-year actuarial experience study period ending June 30, 2016. At that time, The Board adopted a number of economic assumption changes, including a decrease in the inflation assumption from 3.00% to 2.50%. The 0.50% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.75% to 7.25%, the assumed annual wage inflation rate from 3.75% to 3.25%, the payroll growth assumption from 3.5% to 3.00%, and the annual assumed COLA from 2.00% to 1.90%.

COMPLIANCE SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq.
New Mexico State Auditor
U.S. Office of Management and Budget
Board of Education and Management
Los Lunas Schools
Los Lunas, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the General Fund of Los Lunas Schools (the Schools), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Schools' basic financial statements, and have issued our report thereon dated November 7, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Schools' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Schools' internal control. Accordingly, we do not express an opinion on the effectiveness of the Schools' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Schools' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that are required to be reported per section 12-6-5 NMSA 1978 that we have described in the accompanying schedule of Section 12-6-5 NMSA 1978 findings as items 2019-002 and 2019-003.

Schools' Responses to Findings

The Schools' responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The Schools' responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Schools' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Schools' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FEDERAL FINANCIAL ASSISTANCE

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Brian S. Colón, Esq.
New Mexico State Auditor
U.S. Office of Management and Budget
Board of Education and Management
Los Lunas Schools
Los Lunas, New Mexico

Report on Compliance for Each Major Federal Program

We have audited Los Lunas Schools' (the Schools) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Schools' major federal programs for the year ended June 30, 2019. The Schools' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Schools' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Schools' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Schools' compliance.

Opinion on Each Major Federal Program

In our opinion, the Schools complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the Schools is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Schools' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Schools' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2019-001, that we consider to be a significant deficiency.

Los Lunas Schools' response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Los Lunas Schools' response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION III. FEDERAL AWARD FINDINGS

2019-001 Program Income Controls (Significant Deficiency)

Federal program information:

Funding agency:	U.S. Department of Agriculture
Title:	National School Lunch Program
CFDA number:	10.553 & 10.555
Award year:	July 1, 2018 to June 30, 2019
Compliance Requirement:	Program Income

Condition: In our testwork over program income we noted the following exceptions:

- There were two schools tested in which there was a day where the schools reported an amount of student meals to be reimbursed, however the amount reported on the basic claim reports was incorrect and did not agree to the actual meal count.
- There were three days at two different schools in which no evidence of the cashier's reconciliation of cash was reviewed by a manager.

Criteria: According to 2 CFR part 200 section 307 of the OMB Uniform Guidance, program income must be deducted from total allowable costs to determine the net allowable costs. In order for the District to be in compliance with this requirement, the District has implemented internal controls to ensure that the District is correctly reporting the correct number of student meals to be reimbursed.

Questioned Costs: None

Cause: The meal counts for the two schools were entered incorrectly and were not reviewed to ensure accuracy of reporting for the basic claim reporting. Also, proper internal controls were not in place to ensure reviews of the cashier's reconciliation were completed.

Effect: The Schools did not receive an accurate amount of reimbursements for the meals served due to the incorrect reporting. The Schools was also out of compliance with its own policies of reviewing the cashier's reconciliation of cash on a daily basis.

Auditor's Recommendations: We recommend that the Schools review the counts of all schools from the count sheets and ensure they are properly entered into the system for reporting. We also recommend that the Schools ensures that a thorough documented review is performed over the cashier's reconciliation of cash at all schools for all days.

Agency Response:

Corrective Action for Condition #1:

- Each day the kitchen manager will add the number of meals that have been counted on the tick sheet to Newton, the Student Nutrition software. After all the daily numbers have been added for breakfast and/or lunch, the manager will print the Federal Edit Check to verify that the numbers that were added to Newton match the tick sheet(s). The manager will sign and date both the tick sheets and the Federal Edit check.
- The Federal Edit Check and the tick sheets will be sent to the Student Nutrition Office daily along with the rest of the daily paperwork.
- The Student Nutrition Office will file the daily paperwork by school by day.
- The Director of Student Nutrition and/or the Supervisor of Student Nutrition will review each day for each school before the monthly claim is submitted to PED. The Director/Supervisor will initial and date the daily Federal Edit Check as they are checked.

Implementation Timeline:

The daily counts will reviewed by the director and supervisor starting immediately.
The kitchen managers will be informed of the new requirements at the November manager's meeting.
All systems will be in place no later than 1 December 2019.

Corrective Action for Condition #2:

- All cash reports will be signed by two persons every day.
- Director and Supervisor of Student Nutrition will check the cash reports as they are checking the Federal Edit Checks to ensure that two people have signed the cash reports.

Implementation Timeline:

- Managers will be informed by email before 15 November that all cash reports must be signed by two individuals every day.
- Managers will also be instructed that two signatures are required at the November manager's meeting.
- All cash reports will be reviewed by the Director and/or Supervisor by 1 December 2019.

SECTION IV. SECTION 12-6-5 NMSA FINDINGS

2019-002 Indirect Costs Calculation (Other Compliance)

Condition: The Schools computed indirect costs without removing capital purchases which resulted in an overcharge to the program in the amount of \$333.

Criteria: The New Mexico Public Education Department provides a mandated indirect cost rate that is to be used for computing indirect costs. These are formulated at the state level according to 2 CFR part 200 of the OMB Uniform Guidance, a restricted indirect cost rate must be used for programs administered by State and local governments and their governmental subgrantees that have a statutory requirement prohibiting the use of Federal funds to supplant non-federal funds. Indirect costs charged to a grant are determined by applying the restricted indirect cost rate (RICR) to total direct costs of the grant minus capital outlays, subgrants, and other distorting or unallowable items as specified in the grantee's indirect cost rate agreement.

Cause: The Schools inadvertently did not reduce the base for capital expenditures as a reduction to apply the designated percentage by NMPED.

Effect: The Schools is not in compliance with the indirect cost requirements and overcharged the grant by \$333.

Auditor's Recommendations: We recommend that the District review the computation and ensure the calculation is accurate prior to the financial close.

Agency Response: The calculation was just a mistake that was not caught. Fixed Assets purchased with Federal Funds is not a frequent occurrence and therefore I believe that is why the mistake happened. To keep from happening again when the indirect costs are calculated two separate reports will be used to be completed in two steps: The first report will run just capital assets those asset expenses will then be filled in on the indirect expense calculation form. The second report will then be for all the Year to date expenses to use for the calculation. After all calculations are complete, a supervisor will review amounts for a second set of eyes.

2019-003 Travel and per diem compliance (Other Noncompliance)

Condition: During our audit, we noted one out of ten travel transactions tested where the Schools paid a mileage reimbursement at a rate of \$1.00 per mile instead of their policy rate of \$0.43.

Criteria: The Schools is required to comply with the Per Diem and Mileage Act, Sections 10-8-1 through 10-8-8, for all per diem and reimbursement rates.

Effect: The Schools has paid for reimbursements using public funds that are not in compliance with State Per Diem and Mileage Act.

Cause: There was a mistake during the processing of the transaction and was not discovered during review.

Auditors' Recommendation: We recommend that the Schools follow the Per Diem and Mileage Act when paying mileage reimbursements and ensure thorough review takes place prior to disbursing travel and per diem expenditures.

Agency Response: There was a mistake in the processing of a mileage payment and was not caught by the reviewers. Everyone involved in the mistake and everyone who reviews this type of payment have been reminded to be careful of this type of error. Los Lunas Schools will continue with our review processes and use this as a reminder that mistakes can happen regardless of multiple reviewers.
