

January 10, 2022

Dear School Leaders:

The California Department of Public Health has established that over-the-counter COVID-19 home test kits may be used to make determinations about eligibility to exit quarantine or isolation.

Sacramento County Public Health strongly encourages schools choosing to accept home test kit results for these purposes to require individuals to self-attest that the test specimen was obtained from the individual represented on the form, including the date the specimen was collected and that the test was processed according to the instructions provided.

Sincerely,

Olivia Kasirye, MD, MS  
Public Health Officer
