

Hamlin Robinson School

WHERE LEARNING HAS NO LIMITS

WHO WE ARE

The mission of Hamlin Robinson School (HRS) is to ignite the academic and creative potential of students with dyslexia and other language-based learning differences. Since its founding in 1983, HRS stands as the only school in the state of Washington exclusively serving the unique academic and social/emotional needs of students with dyslexia. It is our vision for students who struggle in traditional settings to experience the classroom as a welcoming and safe place for learning.

OUR STORY

Hamlin Robinson School has been at the forefront of serving students with dyslexia and other language-based learning differences for 40 years. Our purpose is to fill an unaddressed gap in the K-12 education system failing to adequately address the learning needs of up to 20% of the student population; those with dyslexia and unexplained reading challenges.

Our program is in high demand because of our reputation and record of success with students who learn differently, and our specially trained faculty who teach students accordingly. HRS utilizes the most effective known method of whole-class literacy instruction, which is a comprehensive, multi-sensory approach adaptive to the full curriculum of the school. Most importantly, students learn in the way best suited to their needs. For many, HRS is the first place they experience success, confidence, pride, and a sense of belonging in school. And for parents, it is often the first time they witness their student enjoying school.

Hamlin Robinson School values diversity and welcomes the unique contributions of people from all backgrounds, gender identities, learning styles, physical abilities, and sexual orientations.

WHO YOU ARE

- You have a degree in education, special education, educational psychology, or related field.
- You maintain current knowledge of best practices in education and take advantage of professional development opportunities.
