LETTER OF TRANSMITTAL

TO THE MEMBERS OF THE VANCE COUNTY BOARD OF EDUCATION AND CITIZENS OF VANCE COUNTY, NORTH CAROLINA

January 13, 2021

In compliance with the Public School Laws of North Carolina, the Comprehensive Annual Financial Report of the Vance County Board of Education (Board), operating as “Vance County Schools,” for the fiscal year ended June 30, 2020, is herewith submitted. The accuracy, completeness and clarity of the financial report are the responsibility of the Board. The accompanying financial report has been prepared in accordance with Generally Accepted Accounting Principles. We believe the data presented in this financial report is accurate in all material respects and is presented in a manner designed to fairly reflect the financial position and results of operations of the Board. All disclosures necessary to enable the reader to gain a complete understanding of the Board’s financial activities have been included.

The comprehensive annual financial report is presented in four sections: Introductory, Financial, Statistical and Compliance. The Introductory section, which is unaudited, contains this transmittal letter, a list of the Board members and principal officials and the organizational chart. The Financial section includes the auditor’s opinion, management’s discussion and analysis, the basic financial statements and the combining and individual fund financial statements and schedules arranged by fund type. The Statistical section includes several tables of unaudited data providing a ten-year financial history of the Board. Finally, the Compliance section includes reports and schedules required by Government Auditing Standards, US Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and the State of North Carolina’s Single Audit Implementation Act.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Vance County Board of Education’s MD&A can be found immediately following the report of the independent auditors.

PROFILE OF REPORTING ENTITY

The Board, a local education agency empowered by the North Carolina General Statutes, has responsibility and control over all activities related to public school education in Vance County, North Carolina with the exception of the public Charter School entities located within. The seven members of the Board are elected officials of Vance County and have the authority to designate management. They have the ability to significantly influence operations and are primarily accountable for fiscal matters. The Board is recognized as a separate governmental

reporting entity under definition by the Governmental Accounting Standards Board. The Board has limited borrowing authority, cannot levy taxes and is required to maintain accounting records in a uniform state format established by the State's General Assembly. The Board receives government funding from local, state, and federal sources and must comply with established legal requirement of each funding entity.

Vance County Schools has an enrollment of 5,289 which was a decrease of 155 students from the prior fiscal year. Vance County has 2 charter schools that reside within the county limits that comprise 85.7% of the total Vance students attending charter schools. There are 2,042 charter school students attending 13 different charter schools in the surrounding counties. The projection for FY 2020-2021 is that Vance County Schools will remain flat at 5,289 students. The resident charter schools completed their grade level expansion with the FY 2019-2020 school year, however there is a non-resident charter school in an adjoining county that will have a grade level expansion in FY 2020-2021 that could impact the district by 75-100 students. For FY 2019-2020 total charter school students comprised 27.9% of the total Vance County enrollment for public schools and as such receive that same pro-rata share of the Local County Appropriation for operations. This continues to decrease the per-pupil share of local funding annually for the district by \$10 per pupil on average.

ECONOMIC CONDITION AND FUTURE OUTLOOK

The US Census has created the community classification, the Micropolitan Area. Micropolitan areas have a core city or cities with a population of 10,000 to 50,000 and include a central county that contains a core city. Vance County, population currently at 44,911 per the U.S. Census Bureau, is classified as a micropolitan area, serving as a regional hub for health care, professional services and shopping for neighboring counties. We would also consider our area rural-urban in that we have much of the concerns in our city center (Henderson) as urban areas while still being primarily a rural county geographically.

Vance County's economy has transitioned from a predominately agricultural and textile manufacturing community prior to 2005 to a more diverse economy of retail sales, tourism, health-care and transportation-related businesses. Vance County has two industrial parks with remaining capacity to attract new industry and a planned expansion in progress. The school district continues to be the largest employer for the county. The local economy continues to recover at a slower rate than other areas in North Carolina. Unemployment rates increased by the end of the fiscal year, primarily due to the coronavirus pandemic, to 10.10% which is still well above the overall state average of 7.6%.

Vance County is the home of Kerr Lake. In the 1950's Kerr Lake, the largest man-made lake east of the Mississippi river; was built as a means of flood control for eastern North Carolina. Since that time it has become one of the State's largest parks and tourist attractions. Interstate 85 provides a major transportation corridor from Montgomery, Alabama through Atlanta, Georgia, to Charlotte, North Carolina, and on through Vance County to Richmond, Virginia, terminated at Interstate 95. Because of this corridor Vance County offers an exceptional location for distribution operations, warehouse facilities, truck terminal, and other transportation-related businesses.

Vance County understands the obstacles and challenges they face in creating a new economic future. The community knows that education and life-long learning opportunities are critical to their future. The Board of County Commissioners has responded to the needs of the county's school children by adopting the 2019-2020 fiscal budget in which \$7.2 million is appropriated for general fund expenditures, \$1.2 million for teacher supplements, and \$1 million of capital funds. Like the school district the county is facing the same pressures as the school district related to additional financial investments in safety and infection control mitigation. This is likely to impact available resources for other services for the next few years as the world deals with the

coronavirus pandemic. However, the partnership between the Board and the County remains strong and resolute in the importance of education for our children.

In October of 2019 the Board of Education and County commissioners agreed to the sale/purchase of one of our vacant school facilities which resulted in the commitment from the County for the Board's five-year Capital Investment Plan (CIP). This commitment will provide an extra \$5.2 million of capital investment funds for our district over the five-year period ending June 30, 2024, in addition to our annual operating capital funds of \$625 thousand. The annual operating capital funds include separate funding for technology (\$200 thousand) to help ensure our teachers all have current laptop equipment for their work and our students have access to current technology. The technology investment by the county of the years and continuing has proven critical given the recent coronavirus pandemic gripping the world. This commitment will enable the district to replace crucial HVAC systems in three of our largest elementary schools as well as other preventive maintenance work. We are also able to use these funds to redesign portions of our facilities to meet the 21st century needs for our students and staff. In recent years the CIP has provided funds for school safety measures that included bus camera systems, school digital camera systems, access door control systems and identification systems for visitors. The county commissioners have been working with the school district to ensure our buildings stay current and are well maintained with the limited funding available. With the declining enrollment, however, there is no need for any new facilities at this time.

MAJOR INITIATIVES

The Board of Education in Vance County adopted a Strategic Roadmap in August 2016 which outlines six Strategic Priorities. These priorities align with the Board's Vision, Mission, and Belief statements as well as the North Carolina State Board of Education's five goals. The Board completed Master Board Training in June 2018 and continues to educate themselves to be effective leaders for the school district and the community.

The Board's Mission statement reads as "The Vance County School System is committed to providing a world-class education, focused on preparing ALL students for success, life-long learning and living as contributing, productive global citizens."

The Boards Belief Statements are:

1. Excellence is an attitude, a belief and an action embedded in everything we do.
2. Educators set high expectations that drive learning and coursework to be rigorous, engaging, and aligned with college and career readiness.
3. Student achievement and success should not be predictable by race, ethnicity, gender, or socio economic status.
4. Educators believe in and share the responsibility for the development of the whole child.
5. All stakeholders share responsibility for promoting a culture of integrity, honor and respect.
6. Effective family and community partnerships are a cornerstone of the educational experience.

The Boards Strategic Priorities are:

1. Every Vance County Schools' student receives a personalized education in order to graduate from high school prepared for work, further education and citizenship.
2. Every Vance County Schools' student, every day has excellent educators.

3. Vance County Schools will establish and maintain up-to-date financial, business, and technology systems to serve our students, parents and educators.
4. Vance County Schools will promote student health, safety, and responsibility.
5. Vance County Schools' families, businesses, and community stakeholders are engaged and valued partners with our schools.
6. Every Vance County Schools' student has a healthy and safe learning environment consistent with the system's instructional goals.

Expectations and accountability has been raised for students, staff and leadership. The administration is working to improve student achievement throughout the school system with an emphasis on modern learning environments and skills. Administration has revised the district's *Instructional Framework* to define what teaching and learning looks like in the district's classrooms. It emphasizes a commitment to the students and their academic, social and emotional needs. The district has been working with Modern Teacher and NC State for professional growth for staff focused on futuristic thinking and innovative pathways of personalized learning for students in traditional schools through our WeINSPIRE program. This training is paying huge dividends for our district given the sudden emersion into remote and very futuristic learning opportunities due to the coronavirus pandemic that hit the world this past spring. Staff is committed to providing the knowledge, skills, and opportunities for our students to compete in an ever-changing instructional environment. The district continued its growth and development of options and pathways at our Advance Academy for alternative and innovate educational options for our most at-risk youth. The district's website has expanded its social media outreach and other data tools to allow the community to engage with the district and examine how our schools are doing and how they are meeting the Board's priorities. Leadership continues to develop more transparency with the community in relation to the schools data and performance.

Vance County Schools has continued to show substantial improvements over the years. Due to the coronavirus pandemic all accountability measures were suspended for the FY 2019-2020 school year. We expected to continue to show gains. Under the covid-19 initiated remote learning for our students; leadership and the Board retain faith in our instructional efforts due to the purposeful investment in professional development on blended and digital learning strategies over the past few years.

The four-year cohort graduation rate for the district also improved to 90.3 percent in 2019-2020 from 86.7 percent in 2018-2019. The dropout rate fell to 4.0%. The district has an alternative program AdVance Academy which provides mostly online course work on a flexible schedule from 8 am to 8 pm to help students who are academically behind stay engaged in learning and to get back on course to graduation.

RELEVANT FINANCIAL POLICIES

The Board of Education completely updated all of their policies in 2017-2018 and they are reviewed annually and updated to ensure compliance with any changes in federal and state legislation and to ensure they are current with all applicable accounting requirements. The have comprehensive financial policies which meet all applicable federal and North Carolina statutory requirements.

In accordance with North Carolina School Budget and Fiscal Control Act, all governmental units are required to adopt a balanced budget by July 1 of each year. The Board approves the annual budget by fund and purpose code on a modified accrual basis. The budget is then allocated by line item for internal management by the finance (business) department. Staffing and Non-Instructional funding is allocated based on formulas to each school site within the total resources available and approved by the Board. The final budget amount as

amended for the fiscal year is reflected in the financial and individual statement sections of this report. Also as required by state statutes, an encumbrance system is used to record encumbrances when obligations are incurred. The encumbrance system helps to ensure that budgeted amounts are not exceeded.

When establishing and evaluating its financial accounting system, the Board ensures that adequate internal accounting controls are in place. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets and the reliability of financial records. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits to be derived. We believe that the Vance County Board of Education adequately safeguards the assets and provides reasonable assurance of proper recording of financial transactions through its internal controls.

The school system invests cash in only fully guaranteed sources. The majority of these investments are deposited in the North Carolina State Treasurer's Short Term Investment Fund (STIF), where interest rates are significantly higher than those offered by commercial banking institutions. Special Revenue Funds are not under the depository control of the school system and therefore are not available for investment by the system. The Board follows state statute and guidance as it pertains to the use and investment of cash instruments.

The Board carries various forms of insurance including, but not limited to, general liability, automobile liability with comprehensive and collision, hazard and theft insurance on property and contents, and blanket finance and forgery bonds, student accident, data protection, workers compensation, and unfortunately active shooter protection. The Board participates in the North Carolina School Boards Insurance Trust for general and professional liability insurance. The Division of Insurance for the State Board of Education provides the Vance County Schools with hazard and theft insurance on all buildings and contents. Other agencies handle the other insurance needs for the district.

INDEPENDENT AUDIT

The state statutes require an annual audit by independent certified public accountant and the Board has selected the firm of Dixon Hughes Goodman LLP. In addition to meeting the requirements set forth in state statutes, the auditor designed their audit to meet the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the North Carolina Single Audit Implementation Act. The auditors conducted the engagement in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

FINANCIAL REPORTING AWARDS

The Board was awarded the Certificate of Excellence in Financial Reporting from the Association of School Business Official International and the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for fiscal years 2017-2018 and 2018-2019. The Board is committed to financial excellence in reporting and budgeted and will be submitting their financial reports for consideration again with the fiscal year 2019-2020 reporting cycle.

ACKNOWLEDGMENTS

The preparation of the Comprehensive Annual Financial Report could not have been accomplished without the efforts and dedication of the staff, finance department, county finance officer, and our independent audit firm, Dixon Hughes Goodman, LLP. We would like to express our appreciation to all of the employees who contributed in the development of this report, and to the Vance County government in providing information from their financial statements for the statistical data section.

Also, we would like to thank the members of the Vance County Board of Education for their interest and dedication in the planning and conducting of the financial operations of the school system.

Independent Auditors' Report

Board of Education
Vance County Schools
Henderson, North Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of Vance County Schools, North Carolina ("Board"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Board as of June 30, 2020, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General, State Public School, Other Restricted, and Federal Grants funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 9 and the Schedules of the Board's Proportionate Share of the Net Pension Liability and OPEB Asset and Liability and the Schedules of Board Contributions on pages 45 through 50, respectively be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Board's basic financial statements. The individual fund schedules and the accompanying schedule of expenditures of federal and state awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the State Single Audit Implementation Act, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund schedules and the accompanying schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund schedules, and the accompanying schedule of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 13, 2021 on our consideration of the Board's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

Board of Education of Vance County Schools Management's Discussion and Analysis

This section of the Board of Education of Vance County Schools' (the "Board") financial report represents our discussion and analysis of the financial performance of the Board for the year ended June 30, 2020. This information should be read in conjunction with the audited financial statements included in this report.

Financial Highlights

- Local funding for the district comprises 12% of the operating revenues and remained relatively flat. Of the local operating funds; 28% is provided to Charter Schools for those Vance County students who attend those schools. Charter School growth was 216 as they continue their grade level expansions. Overall the total students served by the public schools in Vance County increased by 72 students in FY 2019-20. That combination actually decreased overall per-pupil funding for the traditional public schools by \$9.74 per-pupil. There continues to be a shift in those local funds moving to the charter schools to align directly with the students served by each school. The grade level expansion for the Charter Schools will end with the FY 2020-2021 school year at which time the County should see this stabilize.
- Fund Balance in the General Fund for the district increased to \$1.1 million prior to accounting for a pre-paid hospitalization insurance bill due to required timing, leaving an unassigned fund balance of \$553 thousand. The district continues to resize its staffing and expenditures to match its revenues and student numbers.

Overview of the Financial Statements

The audited financial statements of the Board consist of four components. They are as follows:

- Independent Auditors' Report
- Management's Discussion and Analysis (required supplementary information)
- Basic Financial Statements
- Required supplemental information section presents schedules for Teachers' and State Employees' Retirement System, Retiree Health Benefit Fund, Disability Income Plan of North Carolina and budgetary statements for the governmental and proprietary funds.

The *Basic Financial Statements* include two types of statements that present different views of the Board's finances. The first is the *government-wide statements*. The government-wide statements are presented on the full accrual basis of accounting and include the Statement of Net Position (Deficit) and the Statement of Activities. The Statement of Net Position (Deficit) includes all of the Board's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Assets and liabilities are classified in the order of relative liquidity for assets and due date for liabilities. This statement provides a summary of the Board's investment in assets, deferred outflows of resources, obligations to creditors, and deferred inflows of resources. Liquidity and financial flexibility can be evaluated using the information contained in this statement. The Statement of Activities summarizes the Board's revenues and expenses for the current year. A net (expense) revenue format is used to indicate to what extent each function is self-sufficient.

The second set of statements included in the basic financial statements is the *Fund Financial Statements*, which are presented for the Board's governmental funds and proprietary funds. These statements present the governmental funds on the modified accrual basis of accounting, measuring the near term inflows and outflows of financial resources and what is available at year-end to spend in the next fiscal year. The proprietary funds are presented on the full accrual basis of accounting. The fund financial statements focus on the Board's most significant funds. Because a different basis of accounting is used in the government-wide statements, reconciliation from the governmental fund financial statements to the government-wide statements is required. The government-wide statements provide information about the Board as an economic unit while the fund financial statements provide information on each of the financial resources of each of the Board's major funds.

Board of Education of Vance County Schools Management's Discussion and Analysis

Government-wide Statements

The government-wide statements report information about the unit as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position (Deficit) includes all of the Board's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the Board's net position (deficit) and how they have changed. Net position (deficit) - the difference between the total of the Board's assets and deferred outflows of resources and the total of the liabilities and deferred inflows of resources - is one way to measure the unit's financial health or position.

- Over time, increases or decreases in the Board's net position (deficit) are an indicator of whether its financial position is improving or deteriorating.
- To assess the Board's overall health, you need to consider additional non-financial factors such as changes in the County's property tax base and the condition of its school buildings and other physical assets.

The unit's activities are divided into two categories in the government-wide statements:

- **Governmental activities:** Most of the Board's basic services are included here, such as regular and special education, transportation, and administration. County funding and state and federal aid finance most of these activities.
- **Business-type activities:** The Board charges fees to help it cover the costs of certain services it provides. School food service is included here.

The government-wide statements are shown as Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the Board's funds, focusing on its most significant or "major" funds - not the unit as a whole. Funds are accounting devices the Board uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by State law, such as the State Public School Fund.
- The Board has established other funds to control and manage money for a particular purpose or to show that it is properly using certain revenues, such as in the Federal Grants fund.

The Board has two types of funds:

Governmental funds: Most of the Board's basic services are included in the governmental funds, which generally focus on two things – 1) how cash and other assets that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. As a result of this focus, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the coming year to finance the Board's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental fund statements, in the form of a reconciliation, explains the relationship (or differences) between the government-wide and the fund financial statements. The Board has several governmental funds: the General Fund, the State Public School Fund, the Individual Schools Fund, the Capital Outlay Fund, the Other Restricted Fund, and the Federal Grants Fund.

The governmental fund statements are shown as Exhibits 3, 4, 5, and 6 of this report.

Proprietary funds: Services for which the Board charges a fee are generally reported in the proprietary funds. The proprietary fund statements are reported on the same full accrual basis of accounting as the government-wide statements. The Board's only proprietary fund is an enterprise fund, School Food Service.

The proprietary fund statements are shown as Exhibits 7, 8, and 9 of this report.

**Board of Education of Vance County Schools
Management's Discussion and Analysis**

Financial Analysis of the Board as a Whole

Net deficit is an indicator of the fiscal health of the Board. Liabilities and deferred inflows exceeded assets and deferred outflows by \$57.9 million as of June 30, 2020. The largest positive component of net deficit is net investment in capital assets of \$40 million. Restricted and unrestricted net position (deficit) amounted to \$1.2 million and (\$99) million, respectively. The primary reason for the total net deficit and unrestricted net deficit in the current year is the presentation of the board's proportionate share of the net pension liability and net OPEB liability in accordance with Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*, and Governmental Accounting Standards Board Statement No 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The net pension liability, net OPEB liability, and related components has a \$91.7 million negative effect to the Board's overall net deficit.

Following is a summary of the Statement of Net Position (Deficit):

**Table 1
Condensed Statement of Net Position (Deficit)
as of June 30, 2020 and 2019**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2020	2019	2020	2019	2020	2019
Current assets	\$ 5,996,996	\$ 5,270,918	\$ 1,413,073	\$ 1,129,117	\$ 7,410,069	\$ 6,400,035
Capital assets	40,161,971	41,678,268	178,316	100,345	40,340,287	41,778,613
Total assets	46,158,967	46,949,186	1,591,389	1,229,462	47,750,356	48,178,648
Deferred outflows of resources	12,885,244	13,843,248	565,037	603,105	13,450,281	14,446,353
Current liabilities	3,410,445	3,868,934	94,451	84,366	3,504,896	3,953,300
Long-term liabilities	79,825,606	80,544,287	3,252,527	3,264,027	83,078,133	83,808,314
Total liabilities	83,236,051	84,413,221	3,346,978	3,348,393	86,583,029	87,761,614
Deferred inflows of resources	31,129,877	33,884,568	1,366,129	1,475,592	32,496,006	35,360,160
Invested in capital assets, net of related debt	39,776,920	40,913,332	178,316	100,345	39,955,236	41,013,677
Restricted net position	1,154,144	883,324	3,200	2,461	1,157,344	885,785
Unrestricted net deficit	(96,252,781)	(99,302,011)	(2,738,197)	(3,094,224)	(98,990,978)	(102,396,235)
Total net deficit	\$ (55,321,717)	\$ (57,505,355)	\$ (2,556,681)	\$ (2,991,418)	\$ (57,878,398)	\$ (60,496,773)

The net deficit of the Board's governmental activities decreased from \$57.5 million at June 30, 2019 to \$55.3 million at June 30, 2020, a decrease of \$2.2 million. The Board's net investment in capital assets decreased by \$1.1 million during the year primarily due to depreciation in excess of capital additions. Restricted net position increased by \$270 thousand due to increases in the restricted amounts for school capital outlay. Unrestricted net deficit decreased by \$3 million as a result of the changes in the proportionate share of the Teachers' and State Employees' Retirement System plan net pension liability as well as changes to the proportionate share of the Retiree Health Benefit Fund net OPEB liability and deferred outflows and inflows of resources. Restrictions to net position are related to stabilization by state statute, reserves for school capital outlay, and reserves for individual schools. The Board does not believe there are any other restrictions, commitments, or other limitations that will significantly affect fund resources for future use.

**Board of Education of Vance County Schools
Management's Discussion and Analysis**

The net deficit of business-type activities decreased \$408 thousand from June 30, 2019 to June 30, 2020. This decrease is primarily related to a decrease in salaries and benefits expense of \$151 thousand and a decrease in food purchasing expense of \$107 thousand compared to the prior year.

The following table shows the revenues and expenses for the Board for the current fiscal year.

**Table 2
Condensed Statement of Activities
For the Fiscal Years Ended June 30, 2020 & 2019**

During the year ended June 30, 2020, governmental activities generated revenues of \$62.3 million and incurred expenses of \$60.1 million. Overall, revenues decreased by \$483 thousand when compared to the prior year, while expenses decreased \$693 thousand. The decrease in revenues is primarily the result of a decrease in county appropriations of \$530 thousand. Primary sources of revenue were funding from the State of North Carolina, Vance County, and the United States government, which respectively comprised 74.5%, 14.8%, and 8.2% of revenues. As would be expected, the major component of the Board's expenses was instructional services, which accounted for 73% of total expenses during the most recent fiscal year. Of the remaining expenses, 19% was attributable to system-wide support services. To assist the Board in mitigating the increased cost of education during the COVID-19 pandemic, the Board received and expended \$243 thousand in funding from the federal government through the

Board of Education of Vance County Schools Management's Discussion and Analysis

Coronavirus Relief Fund and \$229 thousand from the State of North Carolina through the State COVID-19 Supplemental Funds.

Business-type activities generated revenue of \$4.2 million and incurred expenses of \$3.8 million, resulting in a decrease in the net deficit of \$435 thousand. This represents an increase of \$351 thousand over the prior year decrease in net deficit of \$84 thousand. This change primarily related to a decrease in salaries and benefits expense of \$151 thousand and a decrease in food purchasing expense of \$107 thousand compared to the prior year.

Financial Analysis of the Board's Funds

Governmental Funds: The focus of the Board's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Board's financing requirements.

The Board's governmental funds reported a combined fund balance of \$4.7 million at June 30, 2020, a \$950 thousand increase compared to the prior year. Overall, total revenues decreased by \$560 thousand, or (0.9)%, compared to the prior year while total expenditures decreased by \$3.1 million, or (4.8)%. The decrease in revenues is attributable to a decrease in county revenues in the capital outlay fund of \$530 thousand. The decrease in expenditures primarily relates to decreases in debt services expenditures and capital outlay expenditures of \$523 thousand and \$1.5 million, respectively.

For the fiscal year ended June 30, 2020, the Board's General Fund and Other Restricted Fund experienced a net change in fund balance of \$291 thousand and \$363 thousand, respectively. Specifically related to the General Fund, fines and forfeitures revenues increased by \$107 thousand when compared to the prior year. Expenditures in the General Fund decreased by \$150 thousand due to decreases and reallocations of personnel costs. The Other Restricted Fund recognized decrease total revenues of \$221 thousand when compared to the prior year. During the same period, the Board experienced a decrease in expenditures of \$892 thousand.

The Board's State Public School Fund and Federal Grants Fund recognized changes in revenues of \$1 million or 2.4% and \$(723) thousand or (13%), respectively. The increases in the State Public School Fund are attributable to slight increases in the student population as well as increasing costs of education. The decreases in the Federal Grants Fund are related to decreases in the Title I and Special Education program.

The Board's Individual Schools Fund and Capital Outlay Fund had a net change in fund balance of \$17 thousand and \$280 thousand, respectively. In comparison to the prior year, the Individual Schools Fund and Capital Outlay Fund had a net change of \$4 thousand and \$(870) thousand, respectively. In March 2020, the Board closed all schools in response to the COVID-19 pandemic, which accounts for the decrease in revenues of \$161 thousand and expenditures of \$173 thousand in the Individual Schools Fund. County capital project revenues are dependent on the Board's ongoing construction activity, financing arrangements with the County, and the general availability of funds from the County. Capital Outlay Fund expenditures decreased by \$2.2 million in the current year primarily related to a decrease furnishings and equipment capital outlay expenditures.

Proprietary Funds: The School Food Service Fund incurred a change in net deficit of \$435 thousand during the year ended June 30, 2020 compared to a change of \$84 thousand during the prior year, an increase of approximately \$324 thousand. This change primarily related to a decrease in salaries and benefits expense of \$151 thousand and a decrease in food purchasing expense of \$107 thousand compared to the prior year.

General Fund Budgetary Highlights

Over the course of the year, the Board revised the General Fund budget several times to account for changes in expectations of expenditures. Total budgeted revenues and total budgeted expenditures remained relatively consistent with minor shifts between Instructional Services expenditures and System-Wide Support Services expenditures. The primary reason for these changes were to redistribute the use of County appropriations for current year activities of the Board.

**Board of Education of Vance County Schools
Management’s Discussion and Analysis**

Capital Assets

During the fiscal year ended June 30, 2020, capital assets, net of accumulated depreciation, decreased by \$1.5 million for governmental activities and increased by \$78 thousand for business-type activities, compared to the prior year. Total depreciation charges for the year ended June 30, 2020 was \$2.1 million for governmental activities. Total depreciation charges for the year ended June 30, 2020 was \$7 thousand for business-type activities. For more detailed information, please see Capital Assets in Note 3 in the accompanying notes to the financial statements.

**Table 3
Summary of Capital Assets
as of June 30, 2020 and 2019**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2020	2019	2020	2019	2020	2019

Vehicles	2,048,850	2,199,148	-	-	2,048,850	2,199,148
Total	\$ 40,161,971	\$ 41,678,268	\$ 178,316	\$ 100,345	\$ 40,340,287	\$ 41,778,613

Debt Outstanding

The Board is limited by North Carolina General Statutes with regards to the types of debt it can issue and for what purpose that debt can be used. The County holds virtually all debt issued for school capital construction. During the year ended June 30, 2020, the Board’s outstanding debt decreased by \$585 thousand due to made payments on installment purchase obligations for school buses and the energy savings obligation in the current year. For more detailed information, please see Long-Term Obligations in Note 3 in the accompanying notes to the financial statements.

Economic Factors

The Board experienced a 2.7% decrease in student average daily membership as compared to the previous fiscal year. As noted above the charter schools in the county continue to grow and as a result there is a shift in students. The Charter School portion of local funds as a result grew to 27.9% of the local appropriation which is an increase of 3.2% from the prior year. Likewise, local funds available for the Board of Education decreased by that same percentage. With that shift the Board continues to adjust resources so that they can remain steadfast in its commitment to provide 21st century education to all students and to prepare them for lifelong learning and productive citizenship.

Local funding is a major source of income for the Board; therefore Vance County’s economic outlook directly affects that of the schools. Vance County’s unemployment rate saw a very slight increase from the prior year June 2019 rate of 5.4% to the current rate for June 2020 of 10.10%. However, even with the increase attributable to the coronavirus pandemic it is still well above the state average of 7.6%. Annual taxable sales for the fiscal year totaled \$450.3 million compared to the prior year figure of \$427.6 million.

General Fund contains the majority of revenue and expenditures for operations of Vance County government. All general ad valorem tax proceeds are directed into this Fund. The county budget for fiscal year 2019-2020 was based on an ad valorem tax rate of \$0.89 per \$100 of value. The estimated tax base value is \$2,896,406,629 with an estimated collection rate of 96.07%. The Board and Vance County Board of Commissioners collaboratively work together in developing a plan to address the capital improvement and facility needs of the school system.

Impact of Coronavirus on School. During the fiscal year, the state and the nation were affected by the spread of a coronavirus (COVID-19). The Board’s response to the coronavirus included the immediate move to full remote learning for its students and staff under the North Carolina Governor’s directive on March 17, 2020. The district remained on full remote learning through the end of the school year FY 2019-2020. With the joint Board of

Board of Education of Vance County Schools Management's Discussion and Analysis

Educations' and County Commissioner's investment in technology over the years we were able to ensure all our students had computers to sustain instructional efforts remotely. We continued to provide meal service for our community under the emergency provisions, even using our buses to help deliver meals during those first few months. We implemented sanitization procedures and other safety protocols, following CDC (Center for Disease Control) and State guidelines. We were fortunate to receive some Federal COVID relief funds (CRF) and special State Education CRF funds from the North Carolina Governor's office to help mitigate those additional costs as we closed the school year.

Requests for Information

**Board of Education of Vance County Schools
 Reconciliation of the Statement of Revenues, Expenditures, and Changes
 in Fund Balances of Governmental Funds to the Statement of Activities
 For the Fiscal Year Ended June 30, 2020**

Exhibit 5

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 946,958
Adjustment due to the use of the consumption method of recording inventory in the government-wide statements	3,723
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(1,509,847)
Contributions to the pension plan in the current fiscal year are not included in the Statement of Activities	3,916,027
Contributions to the OPEB plans in the current fiscal year are not included on the Statement of Activities	1,995,753
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Net OPEB benefit	3,342,405
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	584,506
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Pension expense	(6,960,277)
Loss on disposal of assets	(6,450)
Compensated absences	(129,160)
	<hr/>
Change in net position (deficit) of governmental activities	<u><u>\$ 2,183,638</u></u>

NONCASH OPERATING AND NONCAPITAL FINANCING ACTIVITIES:

The School Food Service Fund received donated commodities with a value of \$287,006 during the fiscal year. The receipt of these commodities is reflected as a nonoperating revenue on Exhibit 8.

During the fiscal year, capital assets of \$23,371 were contributed to the School Food Service Fund. The receipt of these items is reflected as nonoperating revenue on Exhibit 8.

Notes to Financial Statements

1. Summary of Significant Accounting Policies

The accounting policies of the Board of Education of Vance County Schools (the "Board") conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Board is a Local Education Agency empowered by State law [Chapter 115C of the North Carolina General Statutes] with the responsibility to oversee and control all activities related to public school education in Vance County, North Carolina ("County"). The Board receives State, local, and federal government funding and must adhere to the legal requirements of each funding entity. The Board does not have any component units for which it is financially accountable, and as such, there are no component units included in the accompanying financial statements.

B. Basis of Presentation

Government-wide Statements: The Statement of Net Position (Deficit) and the Statement of Activities display information about the Board. These statements include the financial activities of the overall government. Eliminations have been made to minimize the effect of internal activities on revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. These statements distinguish between the *governmental* and *business-type activities* of the Board. Governmental activities generally are financed through intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Board and for each function of the Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Board's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

The Board reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Board. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. This fund is the "Local Current Expense Fund," which is mandated by State law [G.S. 115C-426].

State Public School Fund. The State Public School Fund includes appropriations from the Department of Public Instruction for the current operating expenditures of the public school system.

Capital Outlay Fund. The Capital Outlay Fund accounts for financial resources to be used for the acquisition and construction of major capital facilities (other than those financed by proprietary funds and trust funds). It is mandated by State law [G.S.115C-426]. Capital projects are funded by County appropriations, restricted sales tax moneys, proceeds of County bonds issued for public school construction, as well as certain State assistance.

Federal Grants Fund. The Federal Grants Fund is used to account for federal grant monies administered through the Department of Public Instruction.

Individual Schools Fund. The Individual Schools Fund includes revenues and expenditures of the activity funds of the individual schools. The primary revenue sources include funds held on the behalf of various clubs and organizations, receipts from athletic events, and proceeds from various fund raising activities. The primary expenditures are for athletic teams, club programs, activity buses, and instructional needs.

Other Restricted Fund. The Other Restricted Fund is used to account for activities designated for specific purposes and generally not intended for the general K-12 student population of the Board. Funding is primarily from local sources and the U.S. Government.

The Board reports the following major enterprise fund:

School Food Service Fund. The School Food Service Fund is used to account for the food service program within the school system.

C. Measurement Focus and Basis of Accounting

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Board gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Board considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. These could include federal, State, and county grants, and some charges for services. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the Board funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

and unrestricted net position available to finance the program. It is the Board's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

D. Budgetary Data

The Board's budgets are adopted as required by the North Carolina General Statutes. Annual budgets are adopted for all funds, except for the individual schools special revenue funds, as required by the North Carolina General Statutes. No budget is required by State law for individual school funds. All appropriations lapse at the fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the purpose level for all annually budgeted funds. The Board has authorized the superintendent to transfer appropriations within a fund between sub-functions and objects of expenditure within a function without limitations and without a report to the Board. Amounts may be transferred between purposes of the same fund or between funds with a report on such transfers being required at the next meeting of the Board. All amendments must be approved by the governing board. During the year, several amendments to the original budget were necessary. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Fund Equity

(1) Deposits and Investments

All deposits of the Board are made in board-designated official depositories and are secured as required by State law [G.S. 115C-444]. The Board may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Board may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit. The Board also has money credited in its name with the State Treasurer and may issue State warrants against these funds.

State law [G.S. 115C-443] authorizes the Board to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; The North Carolina Capital Management Trust (NCCMT) is a SEC registered money market mutual fund allowable by G.S. 159-30(c)(8). The NCCMT Government Portfolio is a 2a-7 fund maintaining an AAAM rating from S&P. The NCCMT Term Portfolio is a bond fund, has no rating and has a duration of .15 years. Both the NCCMT Government and Term Portfolios are reported at fair value.

The Short-Term Investment Fund (STIF) is managed by the staff of the Department of State Treasurer and operated in accordance with state laws and regulations. It is not registered with the SEC. It consists of an internal portion and an external portion in which the board participates. Investments are restricted to those enumerated in G.S. 147-69.1.

The Board's investments are reported at fair value determined by either quoted market prices or a matrix pricing model. Bank deposits are measured at amortized cost. Ownership of the STIF is determined on a fair market valuation basis as of fiscal year end in accordance with the STIF operating procedures. STIF investments are valued by the custodian using Level 2 inputs which in this case involves inputs—other than quoted prices—included within Level 1 that are either directly or indirectly observable for the asset or liability. The STIF is valued at \$1 per share. The STIF portfolio is unrated and had a weighted average maturity at June 30, 2020 of 1.3 years. Under the authority of G.S. 147-69.3, no unrealized gains or losses of the STIF are distributed to participants of the fund.

(2) Cash and Cash Equivalents

The Board pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents. Certain assets of the Capital Outlay Fund are classified as restricted assets because their use is restricted by the energy savings installment purchase obligation.

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

(3) Inventories

The inventories of the Board are valued at cost and the Board uses the first-in, first-out (FIFO) flow assumption in determining cost. The inventories of the Board's General Fund consist of expendable materials and supplies which are recorded as expenditures when purchased. The General Fund inventories do not reflect current appropriable resources and, thus, an equivalent portion of fund balance is reserved. Proprietary Fund inventories consist of food and supplies and are recorded as expenses when consumed.

(4) Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements and expensed when used.

(5) Capital Assets

Donated assets received prior to June 15, 2015 are recorded at their estimated fair value at the date of donation or forfeiture. Donated capital assets received after June 15, 2015 are recorded at acquisition value. All other capital assets are recorded at original cost. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets.

It is the policy of the Board to capitalize all capital assets costing more than \$5,000 with an estimated useful life of two or more years. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives is not capitalized. Vance County holds title to certain properties, which are reflected as capital assets in the financial statements of the Board. The properties have been deeded to the County to permit installment purchase financing of acquisition and construction costs and to permit the County to receive refunds of sales paid for construction costs. Agreements between the County and the Board gives the schools full use of the facilities, full responsibility for maintenance of the facilities, and provides that the County will convey title of the property back to the Board, once all restrictions of the financing agreements and all sales tax reimbursement requirements have been met.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings	30 to 50
Building improvements	10 to 25
Equipment and furniture	3 to 10
Vehicles	6

Depreciation for building and equipment that serve multiple purposes cannot be allocated ratably and is therefore reported as "unallocated depreciation" on the Statement of Activities.

(6) Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position (Deficit) will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position (deficit) that applies to a future period and so will not be recognized as an expense or expenditure until then. The Board has several items that meets this criterion – pension and OPEB related deferrals and contributions made to the plans subsequent to the measurement date. The Statement of Net Position (Deficit) also reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position (deficit) that applies to a future period and so will not be recognized as revenue until then. The Board has pension and OPEB related deferrals that meet this criterion.

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

(7) Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

(8) Compensated Absences

The Board follows the State's policy for vacation and sick leave. Employees may accumulate up to thirty (30) days earned vacation leave with such leave being fully vested when earned. For the Board, the current portion of the accumulated vacation pay is not considered to be material. The Board's liability for accumulated earned vacation and the salary-related payments as of June 30, 2020 is recorded in the government-wide and proprietary fund financial statements on a FIFO basis. An estimate has been made based on prior years' records of the current portion of compensated absences.

The sick leave policy of the Board provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the board has no obligation for accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

(9) Net Position (Deficit)

Net position (deficit) in the government-wide and proprietary fund financial statements are classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments, or imposed by law through State Statute. For purposes of net position classification, expenses are to be spent from restricted net position first, followed by unrestricted net position (deficit).

(10) Fund Balance

In the governmental fund financial statements, fund balance is composed of four classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance - This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories - portion of fund balance that is not an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

Prepays - portion of fund balance that is not an available resource because it represents the year-end balance of ending prepaids, which are not spendable resources.

Restricted Fund Balance - This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute - portion of fund balance that is restricted by State Statute [G.S. 115C-425(a)].

Restricted for School Capital Outlay - portion of fund balance that can only be used for School Capital Outlay [G.S. 159-18 through 22].

Restricted for Individual Schools - revenue sources restricted for expenditures for the various clubs and organizations, athletic events, and various fund raising activities for which they were collected.

Assigned Fund Balance - portion of fund balance that the Board intends to use for specific purposes.

Subsequent year's expenditures - portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed.

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

Other special programs – portion of fund balance that includes carry over funding for the applicable state and federal programs accounted for in the Other Restricted Fund activities as well as a portion of the fund balance that will be used by Other Restricted Fund activities, as determined by the governing body.

Unassigned fund balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds. The General Fund is the only fund that reports a positive unassigned fund balance. While governmental funds other than the General Fund do not report positive unassigned fund balance, they do report deficits, if any, in that category.

The Board has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, state funds, local non-board of education funds, board of education funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Board.

F. Reconciliation of Government-wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide Statement of Net Position (Deficit).

The governmental fund balance sheet includes a reconciliation between *fund balance - total governmental funds* and *net position (deficit) – governmental activities* as reported in the government-wide Statement of Net Position (Deficit). The net adjustment of \$(60,013,254) consists of several elements as follows:

<u>Description</u>	<u>Amount</u>
Capital assets used in governmental activities are not financial resources and are therefore not reported in the funds (total capital assets on government-wide statement in governmental activities column)	\$ 98,786,383
Less: accumulated depreciation	<u>(58,624,412)</u>
Net capital assets	40,161,971
Net OPEB asset	74,621
Pension related deferred outflows of resources	8,178,086
OPEB related deferred outflows of resources	4,707,158
Liabilities that, because they are not due and payable in the current period, do not require current resources to pay and are therefore not recorded in the fund statements:	
Installment financing	(5,114,092)
Compensated absences	(3,395,731)
Net pension liability	(20,483,347)
Net OPEB liability	(53,012,043)
Deferred inflows of resources related to pensions	(966,224)
Deferred inflows of resources related to OPEB	<u>(30,163,653)</u>
Total adjustment	<u>\$ (60,013,254)</u>

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position (deficit) of governmental activities* as reported in the government-wide statement of activities. There are several elements of that total adjustment of \$1,236,680 as follows:

<u>Description</u>	<u>Amount</u>
Capital outlay expenditures recorded in the fund statements but capitalized as assets in the Statement of Activities	\$ 610,553
Depreciation expense, the allocation of those assets over their useful lives that is recorded on the Statement of Activities but not in the fund statements.	(2,120,400)
Principal payments on debt owed are recorded as a use of funds on the fund statements but affect only the statement of Net Position (Deficit) in the government-wide statements	584,506
Contributions to the pension plan in the current fiscal year not included in the Statement of Activities	3,916,027
Contributions to the OPEB plans in the current fiscal year not included in the Statement of Activities	1,995,753
Net OPEB benefit	3,342,405
Expenses reported in the Statement of Activities that do not require the use of current resources to pay are not recorded as expenditures in the fund statements:	
Pension expense	(6,960,277)
Compensated absences are accrued in the government-wide statements but not in the fund statements because they do not use current resources	(129,160)
Loss on disposal of assets	(6,450)
Adjustment due to the use of the consumption method of recording inventory in the government-wide statements	<u>3,723</u>
Total adjustment	<u>\$ 1,236,680</u>

G. Defined Benefit Pension Plans and OPEB Plans

For purposes of measuring the net pension and OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of the Teachers' and State Employees' Retirement System (TSERS), the Retiree Health Benefit Fund (RHBF), and the Disability Income Plan of NC (DIPNC) and additions to/deductions from TSERS, RHBF, and

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

DIPNC's fiduciary net position have been determined on the same basis as they are reported by TSERS, RHBF, and DIPNC. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Board's employer contributions are recognized when due and the Board has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of TSERS, RHBF, and DIPNC. Investments are reported at fair value.

2. Stewardship, Compliance, and Accountability

(1) Excess of Expenditures over Appropriations

During the fiscal year ended June 30, 2020, the Board reported expenditures within various funds that violated State law [G.S. 115C-441] because they exceeded the amounts appropriated in the budget ordinance. At the legal level of budgetary control, the General Fund exceeded the amounts appropriated in the budget ordinance by \$394,568. The State Public School Fund exceeded the amounts appropriated in the budget ordinance by \$167,768. This violations occurred because the Board was not appropriately monitoring expenditures against the budget. See additional detail on Schedule 9 and 10.

3. Detail Notes on all Funds

A. Assets

(1) Deposits

All of the Board's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the Board's agents in the unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Board, these deposits are considered to be held by the agent in the entity's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Board or with the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Board under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Board has no policy regarding custodial credit risk for deposits.

At June 30, 2020, the Board had deposits with banks and savings and loans with a carrying amount of \$5,450,280 and with the State Treasurer of \$0. The bank balances with the financial institutions and the State Treasurer were \$6,798,104 and \$3,060,650, respectively. Of these balances, \$500,000 was covered by federal depository insurance and \$9,358,754 was covered by collateral held by authorized escrow agents in the name of the State Treasurer. At June 30, 2020, the Board's petty cash totaled \$123.

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

(2) Investments

At June 30, 2020, the Board had \$66,379 invested with the State Treasurer in the Short Term Investment Fund (STIF). The STIF is classified as a Level 2 fair value investment.

Interest Rate Risk. The Board of Education does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The STIF had a weighted average maturity of 1.3 years as of June 30, 2020.

Credit Risk. The STIF is unrated and is authorized under NC General Statute 147-69.1. The State Treasurer's STIF is invested in highly liquid fixed income securities consisting primarily of short to intermediate treasuries and agencies, and money market instruments. The Board has no policy on credit risk.

Concentration of Credit Risk. The Board places no limit on the amount the Board may invest in any one issuer.

(3) Receivables

Receivables at the government-wide level at June 30, 2020, were as follows:

	Due from other governments	Other	Total
Governmental activities:			
General Fund	\$ 1,840	\$ 27,565	\$ 29,405
Other governmental activities	<u>895,057</u>	<u>42,023</u>	<u>937,080</u>
Total	<u>\$ 896,897</u>	<u>\$ 69,588</u>	<u>\$ 966,485</u>
Business-type activities:			
School Food Service	<u>\$ 185,064</u>	<u>\$ -</u>	<u>\$ 185,064</u>

Due from other governments consists of the following:

Governmental activities:		
General Fund	\$ 1,840	Local government fines and forfeitures

Total	<u>\$ 2,120,400</u>

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

B. Liabilities

(1) Pension Plan and Other Postemployment Obligations

(a) **Teachers' and State Employees' Retirement System**

Plan Description. The Board is a participating employer in the statewide Teachers' and State Employees' Retirement System (TSERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. TSERS membership is comprised of employees of the State (state agencies and institutions), universities, community colleges, and certain proprietary component units along with the employees of Local Education Agencies and charter schools. Article 1 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the TSERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the state Senate, one appointed by the state House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Teachers' and State Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for TSERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service. Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

TSERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer (or 10 years of creditable service for members joining TSERS on or after August 1, 2011), or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 135-8 and may be amended only by the North Carolina General Assembly. Board employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the TSERS Board of Trustees. The Board's contractually required contribution rate for the year ended June 30, 2020, was 12.97% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Board were \$4,071,639 for the year ended June 30, 2020.

Refunds of Contributions. Board employees who have terminated service as a contributing member of TSERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60-day waiting period after service termination before the refund

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by TSERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

At June 30, 2020, the Board reported a liability of \$21,377,702 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. The total pension liability was then rolled forward to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Board's proportion of the net pension liability was based on a projection of the Board's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating TSERS employers, actuarially determined. At June 30, 2020 and June 30, 2019, the Board's proportion was 0.2062% and 0.2194%, respectively.

For the year ended June 30, 2020, the Board recognized pension expense of \$7,236,857. At June 30, 2020, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 1,788,220	\$ 42,797
Changes of assumptions	2,277,878	-
Net difference between projected and actual earnings on pension plan investments	409,781	-
Changes in proportions and differences between Board contributions and proportionate share of contributions	-	965,401
Board contributions subsequent to the measurement date	<u>4,071,639</u>	<u>-</u>
Total	<u>\$ 8,547,518</u>	<u>\$ 1,008,198</u>

The Board reported \$4,071,639 as deferred outflows of resources related to pensions resulting from Board contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June 30:</u>	
2021	\$ 2,693,720
2022	415,764
2023	214,846
2024	<u>143,351</u>
	<u>\$ 3,467,681</u>

Actuarial Assumptions. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	3.5 % to 8.1%, including inflation and productivity factor
Investment rate of return	7.0%, net of pension plan investment expense, including inflation

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

The plan currently uses mortality tables (RP-2014 Total Data Set Mortality Table) that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The assumptions used for the December 31, 2018 actuarial valuation are based on the experience study prepared as of December 31, 2014 and adopted by the Board of Trustees on January 21, 2016, Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2019 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Totals	<u>100.0%</u>	

The information above is based on 30-year expectations developed with the consulting actuary for the 2018 asset, liability, and investment policy study for the North Carolina Retirement Systems, including TSERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Board's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the Board's proportionate share of the net pension liability calculated using the discount rate of 7.0%, as well as what the Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

For the Fiscal Year Ended June 30, 2020

	<u>1% Decrease (6.0%)</u>	<u>Discount Rate (7.0%)</u>	<u>1% Increase (8.0%)</u>
Board's proportionate share of the net pension liability	\$ 40,687,714	\$ 21,377,702	\$ 5,179,063

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the state of North Carolina.

(b) Other Postemployment Healthcare Benefits

1. Healthcare Benefits

Plan description. The Retiree Health Benefit Fund (RHBF) has been established as a fund to provide health benefits to retired and disabled employees and their applicable beneficiaries. RHBF is established by General Statute 135-7, Article 1. It is a cost-sharing, multiple-employer, defined benefit healthcare plan, exclusively for the benefit of former employees of the state, the University of North Carolina System, and community colleges. In addition, LEAs, charter schools, and some select local governments also participate.

Management of the plan is vested in the State Health Plan Board of Trustees, which consists of 13 members – eight appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer the State Superintendent and the Director of the Office of State Human Resources who serve as ex-officio members. RHBF is supported by a percent of payroll contribution from participating employing units. Each year the percentage is set in legislation, as are the maximum per retiree contributions from RHBF to the State Health Plan. The State Treasurer, with the approval of the State Health Plan Board of Trustees, then sets the employer contributions (subject to the legislative cap) and the premiums to be paid by retirees, as well as the health benefits to be provided through the State Health Plan.

The financial statements and other required disclosures for the plan are presented in the state of North Carolina's CAFR, which can be found at <https://www.osc.nc.gov/public-information/reports>.

Benefits provided. Plan benefits received by retired employees and disabled employees from RHBF are OPEB. The healthcare benefits for retired and disabled employees who are not eligible for Medicare are the same as for active employees. The plan options change when former employees become eligible for Medicare. Medicare retirees have the option of selecting one of two fully-insured Medicare Advantage/Prescription Drug Plan (MA-PDP) options of the self-funded Traditional 70/30 preferred Provider Organization plan option that is also offered to non-Medicare members. If the Traditional 70/30 Plan is selected by a Medicare retiree, the self-funded State Health Plan coverage is secondary to Medicare.

Those former employees who are eligible to receive medical benefits from RHBF are long-term disability beneficiaries of the Disability Income Plan of North Carolina (DIPNC) and retirees of the TSERS, the Consolidated Judicial Retirement System (CJRS), the Legislative Retirement System (LRS), the University Employees' Optional Retirement Program (ORP), and a small number of local governments, with five or more years of contributory membership service in their retirement system prior to disability or retirement, with the following exceptions: for employees first hired on or after October 1, 2006, and members of the General Assembly first taking office on or after February 1, 2007, future coverage as retired employees and retired members of the General Assembly is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on or after October 1, 2006 and members of the General Assembly first taking office on or after February 1, 2007 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's noncontributory premium.

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

Section 35.21 (c) and (d) of Session Law 2017-57 repeals retiree medical benefits for employees first hired January 1, 2021. The new legislation amends Article 3B of Chapter 135 of the General Statutes to require that retirees must earn contributory retirement service in TSERS (or in an allowed local system unit), CJRS, or LRS prior to January 1, 2021, and not withdraw that service, in order to be eligible for retiree medical benefits under the amended law. Consequently, members first hired on and after January 1, 2021 will not be eligible to receive retiree medical benefits.

RHBF's benefit and contribution provisions are established by Chapter 135-7, Article 1 and Chapter 135, Article 3B of the General Statutes and may be amended only by the North Carolina General Assembly. RHBF does not provide for automatic post-retirement benefit increases.

Contributions. By General Statute, accumulated contributions from employers to RHBF and any earnings on those contributions shall be used to provide health benefits to retired and disabled employees and their applicable beneficiaries. By statute, contributions to RHBF are irrevocable. Also by law, fund assets are dedicated to providing benefits to retired and disabled employees and their applicable beneficiaries and are not subject to the claims of creditors of the employers making contributions to RHBF. However, RHBF assets may be used for reasonable expenses to administer the RHBF, including costs to conduct required actuarial valuations of state-supported retired employees' health benefits. Contribution rates to RHBF, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis are determined by the General Assembly in the Appropriations Bill. For the fiscal year ended June 30, 2020, employers made a statutory contribution of 6.47% of covered payroll which was equal to the actuarially required contribution. Board contributions to the plan were \$2,031,110 for the year ended June 30, 2020.

OPEB Liability, OPEB Expense, and Deferred Outflows and Inflows of Resources of Related to OPEB

At June 30, 2020, the Board reported a liability of \$55,327,794 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2018. The total OPEB liability was then rolled forward to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Board's proportion of the net OPEB liability was based on a projection of the Board's present value of future salary, actuarially determined. At June 30, 2020 and 2019, the Board's proportion was 0.1749% and 0.1943%, respectively.

The Board report \$2,031,110 as deferred outflows of resources related to OPEB resulting from Board contributions subsequent to the measurement date will be recognized as a decrease of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2020	\$ (8,039,884)
2021	(8,039,884)
2022	(8,034,557)
2023	(3,794,714)
2024	<u>(874,627)</u>
	<u>\$ (28,783,666)</u>

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

Actuarial assumptions. Common actuarial assumptions for both OPEB plans follow individual note disclosures for each OPEB plan.

Inflation Salary increases based on service Investment rate of return Healthcare cost trend rates: Medical Prescription drug Administrative costs Post-Retirement Mortality Rates	3.0% Teachers: 7.55% grading down to 3.5% General Employees: 5.5% grading down to 3.5% 7.0%, 6.5% grading down to 5.0% by 2024 for non-MA and MA coverage 9.5% grading down to 5.0% by 2028 3.0% RP-2014 Healthy Annuitant Mortality Table for males and females, adjusted for Collar for some Participants, further adjusted with scaling factors varying before and after age 78, and projected for mortality improvement using Scale MP-2015
--	---

Discount rate. The discount rate used to measure the total OPEB liability for the RHBF was 3.5%. The projection of cash flow used to determine the discount rate assumed that contributions from employers would be made at the current statutorily determined contribution rate. Based on the above assumptions, the plan's fiduciary net position was not projected to be available to make projected future benefit payments of current plan members. As a result, a municipal bond rate of 3.5% was used as the discount rate used to measure the total OPEB liability. The 3.5% rate is based on the Bond Buyer 20-year General Obligation Index as of June 30, 2019.

Sensitivity of the Board's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the Board's proportionate share of the net OPEB liability, as well as what the Board's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.5 percent) or 1-percentage point higher (4.5 percent) than the current discount rate:

	<u>1% Decrease (2.5%)</u>	<u>Discount Rate (3.5%)</u>	<u>1% Increase (4.5%)</u>
Board's proportionate share of the net OPEB liability	\$65,749,660	\$ 55,327,794	\$ 46,983,312

Sensitivity of the Board's proportionate share of the net OPEB liability to changes in the healthcare trend rates. The following presents the Board's proportionate share of the net OPEB liability, as well as what the Board's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point

	<u>1% Decrease Medical - 4.0-5.5%, Pharmacy - 4.0-8.5%, Medicare Advantage - 4.0-5.5%, Administrative - 2.0%</u>	<u>Healthcare Trend Rates Medical - 5.0-6.5%, Pharmacy - 5.0-9.5%, Medicare Advantage - 5.0-6.5%, Administrative - 3.0%</u>	<u>1% Increase Medical - 6.0-7.5%, Pharmacy - 6.0-10.5% Medicare Advantage - 6.0-7.5%, Administrative - 4.0%</u>
Board's proportionate share of the net OPEB liability	\$ 45,558,418	\$ 55,327,794	\$ 68,173,457

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued CAFR for the state of North Carolina.

2. Disability Benefits

Plan description. Short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer defined benefit plan, to the eligible members of TSERS which includes employees of the state, the University of North Carolina System, community colleges, certain Local Education Agencies, and ORP.

Management of the plan is vested in the State Health Plan Board of Trustees, which consists of 13 members – eight appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer the State Superintendent and the Director of the Office of State Human Resources who serve as ex-officio members. Management of the plan is vested in the State Health Plan Board of Trustees, which consists of 13 members – eight appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer the State Superintendent and the Director of the Office of State Human Resources who serve as ex-officio members.

The financial statements and other required disclosures for the plan are presented in the state of North Carolina's CAFR, which can be found at <https://www.osc.nc.gov/public-information/reports>.

Benefits Provided. Long-term disability benefits are payable as an OPEB from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. An employee is eligible to receive long-term disability benefits provide the following requirements are met: (1) the employee has five or more years of contributing membership service in TSERS or ORP, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from TSERS after (1) reaching the age of 65 and completing 5 years of membership service, or (2) reaching the age of 60 and completing 25 years of creditable service, or (3) completing 30 years of service at any age.

Contributions. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The plan does not provide for automatic post-retirement benefit increases. Disability income benefits are funded by actuarially determined employer contributions that are established in the Appropriations Bill by the General Assembly and coincide with the State fiscal year. For the fiscal year ended June 30, 2020, employers made a statutory contribution of 0.10% of covered payroll which was equal to the actuarially required contribution. Board contributions to the plan were \$43,950 for the year ended June 30, 2020.

The contributions cannot be separated between the amounts that relate to other postemployment benefits and employment benefits for active employees. Those individuals who are receiving extended short-term disability benefit payments cannot be separated from the number of members currently eligible to receive disability benefits as an other postemployment benefit.

OPEB Assets, OPEB Expense, and Deferred Outflows and Inflows of Resources of Related to OPEB

At June 30, 2020, Board reported an asset of \$77,821 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2019, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2018. The total OPEB asset was then rolled forward

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Board's proportion of the net OPEB asset was based on a projection of the Board's present value of future salary, actuarially determined. At June 30, 2020 and 2019, the Board's proportion was 0.1804% and 0.1926%, respectively.

The Board reported \$43,950 as deferred outflows of resources related to OPEB resulting from Board contributions subsequent to the measurement date will be recognized as an increase of the net OPEB asset in the year ending June 30, 2021. Other amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year ended June 30:</u>		
2020	\$	40,204
2021		26,243
2022		20,210
2023		14,074
2024		17,984
Thereafter		<u>4,846</u>
	<u>\$</u>	<u>123,561</u>

Actuarial assumptions. Common actuarial assumptions for both OPEB plans follow individual note disclosures for each OPEB plan.

Inflation	3.0%
Salary increases	3.5% to 8.1%, including inflation and productivity factor
Investment rate of return	3.75%, net of OPEB plan expense, including inflation

Sensitivity of the Board's proportionate share of the net OPEB asset to changes in the discount rate. The following presents the Board's proportionate share of the net OPEB asset, as well as what the Board's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1 percentage point lower (2.75 percent) or 1 percentage point higher (4.75 percent) than the current discount rate:

	<u>1% Decrease (2.75%)</u>	<u>Discount Rate (3.75%)</u>	<u>1% Increase (4.75%)</u>
Board's proportionate share of the net OPEB asset	\$ 65,912	\$ 77,821	\$ 89,392

Common actuarial assumptions for both OPEB plans. The total OPEB liability was determined by an actuarial valuation performed as of December 31, 2018 using the following actuarial assumptions, applied to all periods in the measurement, unless otherwise specified. The total OPEB liability was calculated through the use of update procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2019. The update procedures incorporated the actuarial assumptions used in the valuation. The entry age normal cost method was utilized.

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer), and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions were based on the results of an actuarial experience review for the period January 1, 2010 through December 31, 2014.

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Totals	<u>100.0%</u>	

Total OPEB Expense, OPEB Liabilities, and Deferred Outflows and Inflows of Resources of Related to OPEB

Following is information related to the proportionate share and OPEB expense:

	<u>RHBF</u>	<u>DIPNC</u>	<u>Total</u>

(3) Deferred Outflows and Inflows of Resources

The balance in deferred outflows and inflows of resources at year-end is composed of the following:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience (Pension & OPEB)	\$ 1,867,720	\$ 2,832,015
Changes of assumptions (Pension & OPEB)	4,945,813	16,641,944
Difference between projected and actual earnings on plan investments (Pension & OPEB)	461,448	-
Change in proportion and differences between employer contributions and proportionate share of contributions (Pension & OPEB)	28,601	13,022,047
Board contributions subsequent to the measurement date (Pension & OPEB)	<u>6,146,699</u>	<u>-</u>
Totals	<u>\$ 13,450,281</u>	<u>\$ 32,496,006</u>

(4) Unearned Revenue

The balance in unearned revenue at year-end is composed of the following elements:

Prepayments of meals (School Food Service Fund)	<u>\$ 5,141</u>
---	-----------------

(5) Risk Management

The Board is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board participates in the North Carolina School Boards Trust (the Trust), a member funded risk management program administered by the North Carolina School Boards Association. Through the Trust, the Board maintains general liability and errors and omissions coverage of \$850,000 per claim, and workers' compensation coverage up to the statutory limits for employees to the extent they are paid from Federal and local funds. The State of North Carolina provides workers' compensation for employees to the extent they are paid from State funds. The Trust has an annual aggregate limit for general liability of

Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

\$2,550,000 and an annual aggregate limit of \$2,550,000 for errors and omissions claims. The Trust is reinsured through commercial companies for losses in excess of \$150,000 per claim for errors and omissions and general liability. Workers' compensation coverage provides employers' liability insurance of \$1 million per claim for bodily injury incurred in the course of employment. The Board also participates in the Public School Insurance Fund (the Fund), a voluntary, self-insured risk control and risk financing fund administered by the North Carolina Department of Public Instruction. The Fund insures the tangible property assets of the Board. Coverage is provided on an "all-risk" perils contract. Buildings and contents are insured on a replacement cost basis. The Fund purchases excess reinsurance to protect the assets of the Fund in the event of a catastrophic event. The Fund maintains a self-insured retention of \$10 million. Excess reinsurance is purchased through commercial insurers. A limit of \$5 million per occurrence is provided on Flood, Earthquake, Business Interruption, and Extra Expense. \$10 million per occurrence is provided on Increased Cost of Construction.

The Board does not carry supplemental flood insurance in case of natural disasters since there are no Board owned property in flood zones.

The Board also participates in the Teachers' and State Employees' Comprehensive Major Medical Plan, a self-funded risk financing pool of the State administered by Blue Cross and Blue Shield of North Carolina. Through the Plan, permanent full-time employees of the Board are eligible to receive health care benefits up to a \$5 million lifetime limit. The Board pays the full cost of coverage for employees enrolled in the Comprehensive Major Medical Plan.

In accordance with G.S. 115C-442, the Board's employees who have custody of the Board's monies at any given time are performance bonded through a commercial surety bond. The finance officer is bonded for \$100,000. The remaining employees that have access to funds are bonded under a blanket bond for \$25,000.

The Board carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year, and claims have not exceeded coverage in any of the past three fiscal years.

(6) Contingent Liabilities

At June 30, 2020, the Board was a defendant to various lawsuits. In the opinion of the Board's management and the Board's attorneys, the ultimate effect of these legal matters will not have a material adverse effect on the Board's financial position.

(7) Long-Term Obligations

(a) Installment Purchases

The Board is authorized to finance the purchase of school buses under G.S. 115C-528(a). Session law 2003-284, section 7.25 authorized the State Board of Education to allot monies for the payments on financing contracts entered into pursuant to G.S. 115C-528. The State has accepted the bid to purchase Thomas Built Buses through a special third party financing arrangement by Banc of America Public Capital Corp at total payments less than the purchase price. During the fiscal years ended June 30, 2019 and June 30, 2018, the Board entered into installment purchase contracts to finance the purchase of school buses. The buses are pledged as collateral for the debt while the debt is outstanding. The financing contracts require principal-only payments, due at the beginning of each contract year.

The Board is authorized by State law [G.S. 115C-47(28a)] to enter into installment purchase contracts to finance energy conservation measures that will reduce its operating costs. In July 2016, the Board entered into such a contract to reduce the energy costs throughout the school system. The financing contract requires payments for twenty years beginning in the fiscal year 2018 with an interest rate equal to 3.85%

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

The future minimum payments due under these installment purchase contracts as of June 30, 2020 are as follows:

Year Ending June 30	<u>Principal</u>	<u>Interest</u>
2021	\$ 490,920	\$ 182,068
2022	326,385	173,841
2023	228,215	165,426
2024	238,273	156,640
2025	248,740	147,466
2026-2030	1,326,728	588,448
2031-2035	1,546,517	319,545
2036-2037	<u>708,314</u>	<u>41,176</u>
	<u>\$ 5,114,092</u>	<u>\$ 1,774,610</u>

(8) Long-Term Obligation Activity

The following is a summary of changes in the Board's long-term obligations for the fiscal year ended June 30, 2020:

	<u>Beginning Balances</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balances</u>	<u>Current Portion</u>
Governmental activities:					
Compensated absences	\$ 3,266,571	\$ 2,333,949	\$ 2,204,789	\$ 3,395,731	\$ 1,688,687
Net pension liability	20,935,326	-	451,979	20,483,347	-
Net OPEB liability	53,038,707	-	26,664	53,012,043	-
Direct placement installment purchases	<u>5,698,598</u>	<u>-</u>	<u>584,506</u>	<u>5,114,092</u>	<u>490,920</u>
Total	<u>\$ 82,939,202</u>	<u>\$ 2,333,949</u>	<u>\$ 3,267,938</u>	<u>\$ 82,005,213</u>	<u>\$ 2,179,607</u>
Business-type activities:					
Compensated absences	\$ 111,950	\$ 115,710	\$ 109,066	\$ 118,594	\$ 76,173
Net pension liability	912,316	-	17,961	894,355	-
Net OPEB liability	<u>2,316,810</u>	<u>-</u>	<u>1,059</u>	<u>2,315,751</u>	<u>-</u>
Total	<u>\$ 3,341,076</u>	<u>\$ 115,710</u>	<u>\$ 128,086</u>	<u>\$ 3,328,700</u>	<u>\$ 76,173</u>

Compensated absences, pension liabilities, and OPEB liabilities for governmental activities are typically liquidated by the State Public School Fund.

C. Fund Balance

The Board has a revenue spending policy that provides policy for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: federal funds, State funds, local non-Board funds, Board funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Board.

Restrictions for the stabilization by state statute is required by the North Carolina General Statutes. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". The formula

Board of Education of Vance County Schools
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2020

is “appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget.

The following schedule provides management and citizens with information on the portion of General Fund balance that is available for appropriation.

Total fund balance – General Fund	\$ 1,123,668
Less:	
Prepays	428,695
Inventories	112,682
Stabilization by State Statute	29,405
Remaining Fund Balance	<u>\$ 552,886</u>

Encumbrances are amounts needed to pay any commitments related to purchase orders and contracts that remain unperformed at year-end.

<i>Encumbrances</i>	<i>General Fund</i>	<i>Capital Outlay Fund</i>
	\$0	\$0

4. Summary Disclosure of Significant Contingencies

Federal and State Assisted Programs

The Board has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant monies.

COVID-19

In March 2020, the World Health Organization declared the outbreak of a novel strain of the coronavirus (“COVID-19”) to be a pandemic. The COVID-19 pandemic is having widespread, rapidly evolving, and unpredictable impacts on global society, economies, and business practices. Federal and state governments have implemented measures in an effort to contain the virus, including social distancing, travel restrictions, border closures, limitations on public gatherings, work from home, supply chain logistical changes, and closure of non-essential businesses. The COVID-19 pandemic has impacted and may continue to impact our Board, including employees, partners, and communities, and there is substantial uncertainty in the nature and degree of its continued effects over time. The financial statements do not reflect any adjustments as a result of the subsequent increase in economic uncertainty.

Statistical Section

STATISTICAL SECTION (UNAUDITED)

This section of the Board's Comprehensive Annual Financial Report presents detailed information for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Board's overall financial health.

CONTENTS

Financial Trends

These schedules contain trend information to help the reader understand how the Board's financial position has changed over time.

Revenue Capacity

As the Board's revenues are derived primarily from property taxes assessed by Vance County, these schedules contain information to help the reader assess the underlying financial sources of revenues.

Debt Capacity

As the Board's school construction funding is derived from and is principally held by Vance County, these schedules present information to help the reader assess the affordability of Vance County's current levels of outstanding debt and their ability to issue additional debt.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment in which the Board's financial activities are conducted.

Operating Information

These schedules contain staffing, key operating statistics, and capital asset data to help the reader understand how the information in the Board's financial report relates to the services the Board provides and the activities it performs.

- Notes:
- (1) Public service companies' property includes real and personal property of utilities, railroad and buslines, etc. These assessments are made by the North Carolina Department of Revenue with no distinction between real and personal property.
 - (2) Includes Personal Property taxes at the prior year's tax rate due to grandfathering provisions.
 - (3) Per \$100 of value. A revaluation of real property is required by North Carolina General Statutes at least every eight years. Assessed valuations are established by the County's Board of Commissioners at 100% of market value as of the year of the revaluation. The last revaluation was effective January 1, 2016 and reflected in the 2017 fiscal year.
 - (4) Estimated actual taxable value reflects a decrease in real and exempt property. Estimated Actual Taxable Value was computed by using Real Estate Assessment Sales Ratio Study Percentages from the North Carolina Department of Revenue. Includes interest, penalties, discoveries, releases and abatements.
 - (5) Estimated actual values and the ratio of total assessed value to total estimated actual value have been adjusted to reflect updated sales assessment ratio percentages from the North Carolina Department of Revenue.

* Information not available

Notes: (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Vance County. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Legal Debt Margin Calculation for Fiscal Year 2020 - Information not available

* Information not available

Note: NC Statute G.S. 159-55 limits the County's outstanding debt to 8% of the appraised property value subject to taxation. The legal debt margin is the difference between the debt limit and the County's net debt outstanding to the limit and represents the County's legal borrowing authority.

Compliance Section

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards*

Board of Education
Vance County Schools
Henderson, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of Vance County Schools, North Carolina ("Board") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements and have issued our report thereon dated January 13, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be a material weakness and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency 2020-001, as described in the accompanying schedule of findings and questioned costs, to be a material weakness.

A significant deficiency is a deficiency or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies 2020-002 and 2020-003, as described in the accompanying schedule of findings and questioned costs, to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as items 2020-001 and 2020-002.

Response to Findings

The Board's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs and the corrective action plan. The Board's response was not subjected to the auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors’ Report on Compliance for Each Major Federal Program and on Internal Control over Compliance Required by the Uniform Guidance and the State Single Audit Implementation Act

Board of Education
Vance County Schools
Henderson, North Carolina

Report on Compliance for Each Major Program

We have audited the Board of Education of Vance County Schools, North Carolina (“Board”), compliance with the types of compliance requirements described in the OMB *Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of the Board’s major federal programs for the year ended June 30, 2020. The Board’s major federal programs are identified in the summary of auditors’ results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors’ Responsibility

Our responsibility is to express an opinion on compliance for each of the Board’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State Single Audit Implementation Act. Those standards, the Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Board’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Board’s compliance.

Opinion on Each Major Federal Program

In our opinion, the Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Board's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major State Program and on Internal Control Over Compliance Required by the Uniform Guidance and the State Single Audit Implementation Act

Board of Education
Vance County Schools
Henderson, North Carolina

Report on Compliance for Each Major State Program

We have audited the Board of Education of Vance County Schools, North Carolina ("Board"), compliance with the types of compliance requirements described in the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission that could have a direct and material effect on each of the Board's major state programs for the year ended June 30, 2020. The Board's major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with state statutes, regulations, and the terms and conditions of its state awards applicable to its state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Board's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State Single Audit Implementation Act. Those standards, Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Board's compliance.

Opinion on Each Major State Program

In our opinion, the Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with applicable sections of section the Uniform Guidance as described in the Audit Manual for Governmental Auditors in North Carolina and which is described in the accompanying schedule of findings and questioned costs as item 2020-002. Our opinion on each major state program is not modified with respect to this matter.

The Board's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs and the corrective action plan. The Board's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Board's internal control over compliance with the requirements that could have a direct and material effect on a major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major state program and to test and report on internal control over compliance with applicable sections of the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2020-002, that we consider to be a significant deficiency.

The Board's response to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs and the corrective action plan. The Board's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

1. Summary of Auditors' Results

Financial Statements

Type of auditors' report issued on whether the financial statements audited were prepared in accordance with GAAP: Unmodified

Internal control over financial reporting:

- Material weaknesses identified? yes no
- Significant deficiencies identified? yes none reported

Noncompliance material to financial statements noted yes no

Federal Awards

Internal control over major federal programs:

- Material weaknesses identified? yes no
- Significant deficiencies identified? yes none reported

Type of auditors' report issued on compliance for major federal programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a) yes no

Identification of major federal programs:

<u>CFDA Numbers</u>	<u>Names of Federal Program or Cluster</u>
84.010	Title 1 Grants to Local Education Agencies
84.027, 84.173	Special Education Cluster
21.019	Coronavirus Relief Fund

Dollar threshold used to distinguish between Type A and Type B Programs \$ 750,000

Auditee qualified as low-risk auditee? yes no

State Awards

Internal control over major state programs:

- Material weaknesses identified? yes no
- Significant deficiencies identified? yes none reported

Type of auditors' report issued on compliance for major state programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with the State Single Audit Implementation Act yes no

Identification of major state programs:

_____ Program Name
State Public School Fund
Textbooks and Digital Resources

2. Financial Statement Findings

Finding 2020-001

Expenditures in excess of budget for General Fund

MATERIAL WEAKNESS

Criteria: General statutes state that all monies received and expended by a local government or public authority should be included in the budget ordinance.

Condition: For the General Fund, the Board expended \$394,568 more for Debt Services than appropriated in the annual budget ordinance.

Effect: Monies were spent that had not been appropriated.

Identification of a repeat finding: This is a repeat finding from the immediate previous audit, 2019-001.

Cause: The Board received and expended appropriations in the General Fund that had not been budgeted for in the budget ordinance and a budget amendment was not adopted.

Recommendation: Budget amendments should be adopted when it is known that funds are going to be expended in a different budgetary control level than what was originally adopted prior to expending the funds.

Views of responsible officials and planned corrective actions: Management agrees with this finding. Please refer to Schedule 10 for the Corrective Action Plan.

Finding 2020-002

Expenditures in excess of budget for State Public School Fund

SIGNIFICANT DEFICIENCY

Criteria: General statutes state that all monies received and expended by a local government or public authority should be included in the budget ordinance.

Condition: For the State Public School Fund, the Board expended \$147,361 more for Instructional Services and \$20,407 more for System-wide Support Services than appropriated in the annual budget ordinance.

Effect: Monies were spent that had not been appropriated.

Cause: The Board received and expended appropriations in the State Public School Fund that had not been budgeted for in the budget ordinance and a budget amendment was not adopted.

Recommendation: Budget amendments should be adopted when it is known that funds are going to be expended in a different budgetary control level than what was originally adopted prior to expending the funds.

Views of responsible officials and planned corrective actions: Management agrees with this finding. Please refer to Schedule 10 for the Corrective Action Plan.

Finding 2020-003

Reconciliation and Proper Recording of Certain Balance Sheet Accounts

SIGNIFICANT DEFICIENCY

Criteria: Balance sheet accounts should be reconciled to underlying accounting records and subledgers on a periodic basis.

Condition: Account reconciliations and proper procedures for certain balance sheet accounts were not being performed accurately resulting in an initial misstatement in the accounts at June 30, 2020.

Effect: Several audit adjustments were required to adjust accounts to actual at June 30, 2020.

Identification of a repeat finding: This is a repeat finding from the immediate previous audit, 2019-002.

Cause: The Board did not have an appropriate closing process on a monthly or annual basis.

Recommendation: Employees responsible for account reconciliations should receive training how to perform the procedure appropriately. The Balance Sheet should also be examined on a periodic basis to ensure that accounts agree to their respective underlying records. The underlying records should also be investigated to ensure they are accurate.

Views of responsible officials and planned corrective actions: Management agrees with this finding. Please refer to Schedule 10 for the Corrective Action Plan.

3. Federal Award Findings and Questioned Costs

No findings and questioned costs related to the audit of federal awards aggregating \$25,000 or more were noted.

4. State Award Findings and Questioned Costs

State Public School Fund

2020-002 Noncompliance: Activities Allowed or Unallowed – Budget

Refer to finding 2020-002 under Section II – Financial Statement Findings.

1. Financial Statement Findings

Finding 2020-001

MATERIAL WEAKNESS

Name of contact person: Jennifer Bennett, Director of Finance

Corrective action: The debt service funds are coming from the budgetary/expenditure savings in the utility funds annually per the capital efficiency project that created the debt service. In the future, these funds will be officially budgeted and not treated as a contra-expenditure in the budget or financial transactions.

Proposed completion date: August 2020 with Initial Budget Resolution

Finding 2020-002

SIGNIFICANT DEFICIENCY

Name of contact person: Jennifer Bennett, Director of Finance

Corrective action: Management will strive to ensure the budget resolution adopted by the Board of Education provides enough flexibility that a 0.4% variance or a 0.31% variance do not become audit findings in the future. Since we are a low-wealth county we must have a very tight budget. With the way the state allocates certain categories of funds via positions and guarantees benefits for those same positions the Board often can be off slightly at the end of the year, however, there is no real overspend danger since the funds are 100% guaranteed by the State. Management will however ensure the Board's budget allows for this type of fluctuation in the future.

Proposed completion date: August 2020 with the Initial Budget Resolution and at the end of the Fiscal year with the final budget resolution.

Finding 2020-003

SIGNIFICANT DEFICIENCY

Name of contact person: Jennifer Bennett, Director of Finance

Corrective action: Management has provided training to the employees responsible, however, due to limited staff in Finance they were not completed before the end of the fiscal year. Management will reorganize these and other duties to ensure they are being completed in a timely manner.

Proposed completion date: January 31, 2021 to have all current and monthly thereafter.

Notes to the Schedule of Expenditures of Federal and State Awards:

Note 1: Basis of Presentation

The accompanying schedule of expenditures of federal and State awards (SEFSA) includes the federal and State grant activity of the Board of Education of Vance County Schools (the "Board") under the programs of the federal government and the State of North Carolina for the year ended June 30, 2020. The information in this SEFSA is presented in accordance with the requirements of Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the State Single Audit Implementation Act. Because the SEFSA presents only a selected portion of the operations of the Board, it is not intended to and does not present the financial position, changes in net assets or cash flows of the Board.

Note 2: Summary of Significant Account Policies

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Board has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3: Cluster of Programs

The following are clustered by the NC Department of Public Instruction and are treated separately for state audit requirement purposes: School Nutrition

Note 4: Non-cash Assistance

Included in the amounts reported on the SEFSA, the Board received non-cash assistance in the form of food commodities and school buses. Non-cash items with a fair value of \$666,890 were received during the year ended June 30, 2020. These non-cash items received were included in the determination of federal and State awards expended for the year ended June 30, 2020.
