Gliding swiftly by;
Then let us pledge in work and deed,
Our love for Charleroi High.

Attendance Policy (Policy 204) Revised 02/2023

Purpose

The Board recognizes that attendance is an important factor in educational success, and supports a comprehensive approach to identify and address attendance issues.[1]

Authority

The Board requires the attendance of all students during the days and hours that school is in session, except that temporary student absences may be excused by authorized district staff in accordance with applicable laws and regulations, Board policy and administrative regulations.[2][3][4][5][6][7]

Definitions

Compulsory school age shall mean the period of a student's life from the time the student's person in parental relation elects to have the student enter school, which shall be no later than six (6) years of age, until the student reaches eighteen (18) years of age. The term does not include a student who holds a certificate of graduation from a regularly accredited, licensed, registered or approved high school.[8][9]

Habitually truant shall mean six (6) or more school days of unexcused absences during the current school year by a student subject to compulsory school attendance.[8]

Truant shall mean having incurred three (3) or more school days of unexcused absences during the current school year by a student subject to compulsory school attendance.[8]

Person in parental relation shall mean a:[8]

1. Custodial biological or adoptive parent.
2. Noncustodial biological or adoptive parent.
3. Guardian of the person of a student.
4. Person with whom a student lives and who is acting in a parental role of a student.

This term shall not include any county agency or person acting as an agent of the county agency in the jurisdiction of a dependent child as defined by law.

School-based or community-based attendance improvement program shall mean a program designed to improve school attendance by seeking to identify and address the underlying reasons for a student's absences. The term may include an educational assignment in an alternative education program, provided the program does not include a program for disruptive youth established pursuant to Article XIX-C of the Pennsylvania Public School Code.[8]

Delegation of Responsibility

The Superintendent or designee shall annually notify students, persons in parental relation, staff, local children and youth agency and local magisterial district judges about the district's attendance policy by publishing such policy in student handbooks and newsletters, on the district website and through other efficient communication methods.[1][11] The Superintendent or designee, in coordination with the building principal and assistant principal, shall be responsible for the implementation and enforcement of this policy.

The Superintendent or designee shall develop administrative regulations for the attendance of students which:

1. Govern the maintenance of attendance records in accordance with law.[12][13]
2. Detail the process for submission of requests and excuses for student absences.
3. Detail the process for written notices, School Attendance Improvement Conferences, School Attendance Improvement Plans, and referrals to a school-based or community-based attendance improvement program, the local children and youth agency, or the appropriate magisterial district judge.
4. Clarify the district's responsibility for collaboration with nonpublic schools in the enforcement of compulsory school attendance requirements.
5. Ensure that students legally absent have an opportunity to make up work.

Guidelines

Compulsory School Attendance Requirements

All students of compulsory school age who reside in the district shall be subject to the compulsory school attendance requirements.[2]

A student shall be considered in attendance if present at any place where school is in session by authority of the Board; the student is receiving approved tutorial instruction, or health or therapeutic services; the student is engaged in an approved and properly supervised independent study, work-study or career education program; the student is receiving approved homebound instruction; or the student's placement is instruction in the home.[2][5][14][15][16][17][17][18][19]

The following students shall be excused from the requirements of attendance at district schools, upon request and with the required approval:

1. On certification by a physician or submission of other satisfactory evidence and on approval of the Department of Education, children who are unable to attend school or apply themselves to study for mental, physical or other reasons that preclude regular attendance.[3][4][20]
2. Students enrolled in nonpublic or private schools in which the subjects and activities prescribed by law are taught.[2][21]
3. Students attending college who are also enrolled part-time in district schools.[22]
4. Students attending a home education program or private tutoring in accordance with law.[2][17][23][24][25][26]
5. Students fifteen (15) or sixteen (16) years of age whose enrollment in private trade or business schools has been approved.[2]
6. Students fifteen (15) years of age, as well as students fourteen (14) years of age who have completed the highest elementary grade, engaged in farm work or private domestic service under duly issued permits.[4]

Excused/Lawful Absence

For purposes of this policy, the following conditions or situations constitute reasonable cause for absence from school:

1. Illness, including if a student is dismissed by designated district staff during school hours for health-related reasons.[3]
Obtaining professional health care or therapy service rendered by a licensed practitioner of the healing arts in any state, commonwealth or territory.[3]
2. Quarantine.
3. Family emergency.
4. Recovery from accident.

5. Required court attendance.
6. Death in family.
7. Participation in a project sponsored by a statewide or countywide 4-H, FFA or combined 4-H and FFA group, upon prior written request.[1][3]
8. Participation in a musical performance in conjunction with a national veterans' organization or incorporated unit, as defined in law, for an event or funeral.[3]
 - a. The national veterans' organization or incorporated unit must provide the student with a signed excuse, which shall include the date, location, and time of the event or funeral
 - b. The student shall furnish the signed excuse to the district prior to being excused from school.
9. Observance of a religious holiday observed by a bona fide religious group, upon prior written request from the person in parental relation.[27]
10. Nonschool-sponsored educational tours or trips, if the following conditions are met:[3][28]

 - b. The student's participation has been approved by the Superintendent or designee.
11. College or postsecondary institution visit, with prior approval.
12. Other urgent reasons that may reasonably cause a student's absence, as well as circumstances related to homelessness, foster care and other forms of educational instability.[3][6][29]

The district may limit the number and duration of nonschool-sponsored educational tours or trips and college or postsecondary institution visits for which excused absences may be granted to a student during the school year
Temporary Excusals

The following students may be temporarily excused from the requirements of attendance at district schools:

1. Students receiving tutorial instruction in a field not offered in the district's curricula from a properly qualified tutor approved by the Superintendent, when the excusal does not interfere with the student's regular program of studies.[2][14][17]
2. Students participating in a religious instruction program, if the following conditions are met:[27][30]
 - a. The person in parental relation submits a written request for excusal. The request shall identify and describe the instruction, and the dates and hours of instruction.

3. School age children unable to attend school upon recommendation of the school physician and a psychiatrist or school psychologist, or both, and with approval of the Secretary of Education.[20]

Parental Notice of Absence

Absences shall be treated as unexcused until the district receives a written excuse explaining the absence, to be submitted within three (3) days of the absence.

A maximum of ten (10) days of cumulative lawful absences verified by parental notification shall be permitted during a school year. All absences beyond ten (10) cumulative days shall require an excuse from a licensed practitioner of the healing arts.

Unexcused/Unlawful Absence

For purposes of this policy, absences which do not meet the criteria indicated above shall be permanently considered unexcused.

An out-of-school suspension may not be considered an unexcused absence.[8]

Parental Notification –

District staff shall provide prompt notice to the person in parental relation upon each incident of unexcused absence

Enforcement of Compulsory Attendance Requirements

Student is Truant –

When a student has been absent for three (3) days during the current school year without a lawful excuse, district staff shall provide notice to the person in parental relation who resides in the same household as the student within ten (10) school days of the student's third unexcused absence.[31]

The notice shall:

1. Be in the mode and language of communication preferred by the person in parental relation;
2. Include a description of the consequences if the student becomes habitually truant; and
3. When transmitted to a person who is not the biological or adoptive parent, also be provided to the student's biological or adoptive parent, if the parent's mailing address is on file with the school and the parent is not precluded from receiving the information by court order.

The notice may include the offer of a School Attendance Improvement Conference

If the student incurs additional unexcused absences after issuance of the notice and a School Attendance Improvement Conference was not previously held, district staff shall offer a School Attendance Improvement Conference.[31]

School Attendance Improvement Conference (SAIC) –

District staff shall notify the person in parental relation in writing and by telephone of the date and time of the SAIC.[31]

The purpose of the SAIC is to examine the student's absences and reasons for the absences in an effort to improve attendance with or without additional services

The following individuals shall be invited to the SAIC:[8]

1. The student.
2. The student's person in parental relation.
3. Other individuals identified by the person in parental relation who may be a resource.
4. Appropriate school personnel.
5. Recommended service providers.

Neither the student nor the person in parental relation shall be required to participate, and the SAIC shall occur even if the person in parental relation declines to participate or fails to attend the scheduled conference.[31]

The outcome of the SAIC shall be documented in a written School Attendance Improvement Plan. The Plan shall be retained in the student's file. A copy of the Plan shall be provided to the person in parental relation, the student and appropriate district staff.[31]

The district may not take further legal action to address unexcused absences until the scheduled SAIC has been held and the student has incurred six (6) or more days of unexcused absences.[31]

Student is Habitually Truant –

When a student under fifteen (15) years of age is habitually truant, district staff:[32]

1. Shall refer the student to:
 - a. A school-based or community-based attendance improvement program; or
 - b. The local children and youth agency.
2. May file a citation in the office of the appropriate magisterial district judge against the person in parental relation who resides in the same household as the student.[32]

When a student fifteen (15) years of age or older is habitually truant, district staff shall:[32]

1. Refer the student to a school-based or community-based attendance improvement program; or
2. File a citation in the office of the appropriate magisterial district judge against the student or the person in parental relation who resides in the same household as the student.

District staff may refer a student who is fifteen (15) years of age or older to the local children and youth agency, if the student continues to incur additional unexcused absences after being referred to a school-based or community-based attendance improvement program, or if the student refuses to participate in such program.[32]

Regardless of age, when district staff refer a habitually truant student to the local children and youth agency or file a citation with the appropriate magisterial district judge, district staff shall provide verification that the school held a SAIC.[32]

Filing a Citation – A citation shall be filed in the office of the appropriate magisterial district judge whose jurisdiction includes the school in which the student is or should be enrolled, against the student or person in parental relation to the student.[33]

Additional citations for subsequent violations of the compulsory school attendance requirements may only be filed against a student or person in parental relation in accordance with the specific provisions of the law.[33]

Special Needs and Accommodations

If a truant or habitually truant student may qualify as a student with a disability, and require special education services or accommodations, the Director of Special Education shall be notified and shall take action to address the student's needs in accordance with applicable law, regulations and Board policy.[16][34][35][36]

For students with disabilities who are truant or habitually truant, the appropriate team shall be notified and shall address the student's needs in accordance with applicable law, regulations and Board policy.[16][34][36]

Discipline

The district shall not expel or impose out-of-school suspension, disciplinary reassignment or transfer for truant behavior.

Cumulative Absences (Unexcused and Excused)

1. After five (5) cumulative absences:
 - a. First notice for excessive absences letter will be sent home to parent(s) or guardian(s)
2. After ten (10) cumulative absences:
 - a. Second notice excessive absences a letter will be sent home to parent(s) or guardian(s)
 - b. Only doctor's excuses will be accepted for absences after the 10th absence
 - c. Driving and parking privileges will be revoked
3. After fifteen (15) cumulative absences:
 - a. Student attendance at school sponsored activities revoked.
 - b. Parent(s) or guardian(s) meeting scheduled.

The PA Department of Education considers a child habitually absent from school once they reach 18 total absences, excluding medicals. Please make every effort to stay under 18 days. Also, research indicates that there is a positive and statistically significant relationship between student attendance and academic performance and other student outcomes (Hein et al., 2013; Chang and Romero, 2008; Allensworth et al., 2014; Balfanz et al., 2007).

Additionally, no student vacation or field trip form will be approved if the days missed exceed the allowable number of parent excuses. This will also apply to vacation requests during PSSA/Keystone testing as the state expects every student to participate in the exams.

Tardies/Early Dismissals

Students are considered tardy if they arrive at homeroom after 7:33.

Tardiness to School

Tardies shall be treated as unlawful until the district receives a written excuse within three (3) days after the tardiness explaining the tardiness, to be submitted upon arrival to school.

A maximum of ten (10) cumulative lawful tardies verified by parental notification shall be permitted during a school year. All tardies beyond the ten (10) cumulative days shall require an excuse from a licensed physician.

Excused Tardies

The Board considers the following conditions to constitute reasonable cause for tardy from school:

1. Illness
2. Required court appearances
3. Medical and Dental appointments
4. Family emergencies approved by the building principal

4. Any excuse not approved by the building principal.

Suspensions/Expulsions *(Policy-233) Updated 02/2023*

Purpose

The Board recognizes that exclusion from the educational program of the schools, whether by suspension or expulsion, is the most severe sanction that can be imposed on a student and one that cannot be imposed without due process. The Board shall define and publish the types of offenses that would lead to exclusion from school. Exclusions affecting students with disabilities shall be governed by applicable state and federal law and regulations.[1][2][3][4][5]

Authority

The Board may, after a proper hearing, suspend or expel a student for such time as it deems necessary, or may permanently expel a student.[1][6][7]

Guidelines

Exclusion From School - Suspension

The principal or person in charge of the school may suspend any student for disobedience or misconduct for a period of one (1) to ten (10) consecutive school days and shall immediately notify the parent/guardian and the Superintendent in writing when the student is suspended.[1][7]

No student may be suspended without notice of the reasons for which the student is suspended and an opportunity to be heard on their own behalf before the school official who holds the authority to reinstate the student. Prior notice is not required where it is clear that the health, safety or welfare of the school population is threatened. Suspensions may not be made to run consecutively beyond the ten-school day period.[1]

When a suspension exceeds three (3) school days, the student and parent/guardian shall be given the opportunity for an informal hearing with the designated school official. Such hearing shall take place as soon as possible after the suspension, and the district shall offer to hold it within the first five (5) days of the suspension.[1][6]

Informal hearings under this provision shall be conducted by the building principal/assistant principal or person in charge of the school.

Purpose of Informal Hearing

The purpose of the informal hearing is to permit the student to explain the circumstances surrounding the event leading to the suspension, to show why the student should not be suspended, and to discuss ways to avoid future offenses.[6]

Due Process Requirements for Informal Hearing[6]

1. The student and parent/guardian shall be given written notice of the reasons for the suspension.
2. The student and parent/guardian shall receive sufficient notice of the time and place of the informal hearing.
3. The student may question any witnesses present at the informal hearing.
4. The student may speak and produce witnesses who may speak at the informal hearing.
5. The district shall offer to hold the informal hearing within five (5) days of the suspension.

Exclusion From Class - In-School Suspension

No student may receive an in-school suspension without notice of the reasons for which the student is suspended and an opportunity to be heard prior to the time the suspension becomes effective. The parent/guardian shall be informed of the suspension action taken by the school.[2]

Should the in-school suspension exceed ten (10) consecutive school days, the student and parent/guardian shall be offered an informal hearing with the building principal. Such hearing shall take place prior to the eleventh day of the in-school suspension. The procedure shall be the same as the procedure for informal hearings held in connection with out-of-school suspensions.[2][6]

The district shall provide for the student's education during the period of in-school suspension.[2]

Expulsion

Expulsion is exclusion from school by the Board for a period exceeding ten (10) consecutive school days. The Board may permanently expel from the district rolls any student whose misconduct or disobedience warrants this sanction. No student shall be expelled without an opportunity for a formal hearing before the Board, and upon action taken by the Board after the hearing.[1][6][7]

Expulsion Hearings

A formal hearing shall be required in all expulsion actions.[1][6][7][8]

The formal hearing shall observe the due process requirements of:[6]

Notification of the charges in writing by certified mail to the student's parent/guardian.

1. At least three (3) days' notice of the time and place of the hearing, which shall include a copy of this policy, hearing procedures and notice of the right to representation by legal counsel. A student may request the rescheduling of the hearing when the student demonstrates good cause for an extension.
2. The hearing shall be private unless the student or parent/guardian requests a public hearing.
3. Representation by counsel at the parent's/guardian's expense and parent/guardian may attend the hearing.
4. Disclosure of the names of witnesses against the student and copies of their written statements or affidavits.
5. The right to request that witnesses against the student appear in person and answer questions or be cross-examined.
6. The right to testify and present witnesses on the student's behalf.
7. A written or audio record shall be kept of the hearing and a copy made available to the student at the student's expense, or at no charge if the student is indigent.

8. The hearing shall be held within fifteen (15) school days of the notice of charges, unless a delay is mutually agreed to by both parties or is delayed by:
 - a. The need for laboratory reports from law enforcement agencies
 - b. Evaluations or other court or administrative proceedings are pending due to a student's invoking their rights under the Individuals with Disabilities Education Act (IDEA)
 - c. Delay is necessary due to the condition or best interests of the victim in cases of juvenile or criminal court involving sexual assault or serious bodily injury
9. Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

Adjudication

A written adjudication shall be issued after the Board has acted to expel a student. The adjudication may include additional conditions or sanctions.[9]

Attendance/School Work During Suspension and Prior to Expulsion

Students serving an out-of-school suspension must make up missed exams and work, and shall be permitted to complete assignments pursuant to established guidelines.[1][10]

Students who are facing an expulsion hearing must be placed in their normal classes if the formal hearing is not held within the ten-school day suspension.

If it is not possible to hold the formal hearing within the first ten (10) school days, the school district may exclude such a student from class for up to five (5) additional – fifteen (15) total – school days if, after an informal hearing, it is determined that the student's presence in their normal class would constitute a threat to the health, safety or welfare of others.

Any further exclusion prior to a formal hearing may be only by mutual agreement. Such students shall be given alternative education, which may include home study.

Attendance/School Work After Expulsion

Students who are under eighteen (18) years of age are still subject to compulsory school attendance even though expelled and shall be provided an education.[1][10][11]

The parent/guardian has the initial responsibility of providing the required education and shall, within thirty (30) days, submit written evidence to the school that the required education is being provided or that they are unable to do so. If the parent/guardian is unable to provide for the required education, the school district shall, within ten (10) days of receipt of the parent's/guardian's notification, make provision for the student's education.

The Board may provide an educational program to the student immediately upon expulsion and may waive the 30-day period, at its discretion.

Students With Disabilities

A student with a disability shall be provided educational services as required by state and federal laws and regulations and Board policies.[12][13]

Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations to implement this policy which include:

1. Publication of a Code of Student Conduct, in accordance with Board policy on student discipline.[14]
2. Procedures that ensure due process when a student is being deprived of the right to attend school
3. Regulations regarding student records which require that records of disciplinary suspension be maintained in accordance with Board policy on student records.[15][16]
4. The name of a student who has been disciplined shall not become part of the agenda or minutes of a public meeting, nor part of any public record of the Board. Such students may be designated by code.
5. Any student who has been expelled may apply for readmission to school upon such conditions as may be imposed by the Board.

The Board may require participation in drug counseling, rehabilitation, testing or other programs as a condition of reinstatement into the school's educational, extracurricular or athletic programs resulting from violations of this policy.

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[8][9][10][11][12][13]

The building principal shall conduct a timely, impartial, and comprehensive investigation of the alleged dating violence. The building principal shall prepare a written report summarizing the investigation and recommending disposition of the complaint. The complainant and the accused shall be informed of the outcome of the investigation. If the investigation results in a substantiated finding of dating violence, the building principal shall recommend appropriate disciplinary action, as circumstances warrant, in accordance with the Student Conduct and Discipline Code. If a possible violation of the district's harassment policy is implicated, the building principal shall take additional action as necessary to comply with Board policy and state and federal law and regulations.

The district shall document the corrective action taken and, where not prohibited by law, inform the complainant.

Students should remain in class therefore if the gift can wait until the student gets home that would be greatly appreciated. Food deliveries are not permitted. If a student forgets his/her lunch and the parent delivers, it will be kept at the front desk until lunch time.

Dress Code (Policy 221)

Purpose

The Board recognizes that each student's mode of dress and grooming is a manifestation of personal style and individual preference.

Authority

The Board has the authority to impose limitations on students' dress in school. The Board will not interfere with the right of students and their parents/guardians to make decisions regarding their appearance, except when their choices disrupt the educational program of the schools or constitute a health or safety hazard.

Students may be required to wear certain types of clothing while participating in physical education classes, technical education, extracurricular activities, or other situations where special attire may be required to ensure the health or safety of the student.

Delegation of Responsibility

The building principal or designee shall be responsible to monitor student dress and grooming, and to enforce Board policy and school rules governing student dress and grooming.

The Superintendent or designee shall ensure that all school rules implementing this policy impose only the minimum necessary restrictions on the exercise of the student's taste and individuality.

Staff members shall be instructed to demonstrate, by example, positive attitudes toward neatness, cleanliness, propriety, modesty, and good sense in attire and appearance.

•Pursuant to Board Policy 221, no student shall wear any apparel or jewelry that by words, signs, pictures or any combination thereof appearing on said clothing or jewelry advocates or promotes sexual activity or violence, or the use of alcohol or drugs, constitutes hate speech, or demeans or degrades another because of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, genetic information, pregnancy, or handicap/disability.

Examples of Appropriate Attire:

- Tank tops, muscle shirts, halter tops, bare chests or midriffs, half shirts, spaghetti straps, or shirts and dresses without sleeves or that are backless are not permitted.

- Hoods, hats, bandanas or other head coverings are not permitted to be worn in the building and should be left in the student's locker. Students will be asked to change into proper attire. If no change of clothing is available, parents will be contacted to bring appropriate clothing. If parents cannot be reached, the student will need to obtain appropriate clothes from the Harvest Bounty room or spend the day in ISS. Additional consequences will be assigned for repeated dress code violations.

Electronic Devices (Policy 237) SC 13127.1

Purpose

The Board adopts this policy in order to support an educational environment that is orderly, safe and secure for district students and employees, while also recognizing that electronic devices may provide a positive contribution when used for educational purposes.

Definition

Electronic devices shall include all devices that can take photographs; record, play or edit audio or video data; store, transmit or receive calls, messages, text, data or images; operate online applications; or provide a wireless, unfiltered connection to the Internet.

Authority

Authorized Use of Electronic Devices

The Board authorizes silent use of electronic devices by district students during the school day in district buildings, on district property, while students are attending school-sponsored activities and during the times students are under the supervision of the district, when they are in compliance with this policy, other Board policies, administrative regulations and rules, so long as such use does not interfere with the students' educational requirements, responsibilities, duties, performance, the rights and education of others, and the operation and services of the district.[4][5][6]

Building principals, in consultation with the Superintendent and in compliance with Board policy, administrative regulations and rules, are authorized to determine the extent of the use of electronic devices within their buildings and programs, on district property, and/or while students are attending school-sponsored activities. Use of electronic devices at the elementary level may be different than at the middle school and/or high school levels or may be different between programs. Building principals shall establish rules and notify students, staff and parents/guardians of all applicable rules for use of electronic devices within their buildings and programs.

The Board directs that electronic devices may be used in authorized areas or as determined by the building principal as follows:

1. For educational or instructional purposes, as determined and supervised by the classroom teacher.

2. Before and after school, in the cafeteria at lunchtime, in the hallways during the passing of classes, on the bus or other vehicles if authorized by the driver, and in the library and study hall if authorized by the classroom teacher.
3. When the educational, safety, emergency, medical or security use of the electronic device is approved by the building principal or designee, or the student's Individualized Education Program (IEP) or Section 504 team. In such cases, the student's use must be supervised by a classroom teacher or district staff.[2][3]

The district shall not be liable for the loss, damage or misuse of any electronic device

Electronic Images and Photographs

The Board prohibits the taking, storing, disseminating, transferring, viewing, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or other means, including but not limited to texting and emailing.

Because such violations may constitute a crime under state and/or federal law, the district may report such conduct to state and/or federal law enforcement agencies.

Delegation of Responsibility

The Superintendent or designee shall annually notify students, parents/guardians and employees about the Board's electronic device policy.

The Superintendent or designee shall develop administrative regulations to implement this policy.

Guidelines

Violations of this policy by a student shall result in disciplinary action and may result in confiscation of the electronic device.[4][7][8]

The confiscated item shall not be returned until a conference has been held with a parent/guardian.

Electronic Images and Photographs

The Board prohibits the taking, storing, disseminating, transferring, viewing, or sharing of obscene pornographic, lewd, or otherwise illegal images or photographs whether by electronic data transfer or other means, including but not limited to sexting, texting and emailing. Consequences will occur depending on severity of offense up to and including suspension and local law enforcement referral.

Extracurricular Activities

The middle school has a number of clubs, organizations, and athletic teams. Students are encouraged to participate in one or more groups of interest. However, students must be aware that every club, team, and organization has specific rules, regulations, and by-laws that cover participation and membership. Whenever joining any team, club or organization, students should become very familiar with all aspects of the program's constitution and by-laws. Since specific rules and regulations are somewhat different for every group and team, rules of eligibility apply before any student can become a member. Excessive violations of the Charleroi Area School District policy and procedures may result in suspension or exclusion from extra-curricular activities (athletics, clubs and organizations, dances, etc.).

Field Trips/During the Day School Activity

Field trips, as permitted by school policy, can be a very beneficial part of a student's educational experience. School sponsored field trips will be noted for attendance purposes, but will not be counted as an absence towards denial of credit. Field trips are a privilege, therefore, the following guidelines are set forth:

Students must have field trip eligibility and parental permission form filled out, approved, and returned to the teacher prior to the field trip. The teacher or sponsor responsible for the trip will distribute these forms. All classroom teachers' signatures approving the student going on a field trip must be completed. Classroom teachers have the right to deny a student the privilege of going on a field trip if that student has excessive absences, or if the academic performance is not satisfactory at the time of the trip.

1. If the student is not eligible for a field trip for any of the above reasons then the student may not attend the event.
 - a. Attendance - Students absent from any class in excess of ten times per semester, regardless of reason, will be excluded from field trip participation.

- b. Academics - Students academically failing ANY class will not be permitted to attend any field trip during the time the grade remains failing.
- 2. Any student who goes on a field trip is responsible for getting the work ahead of time for classes he or she will miss.
- 3. The student is responsible for turning in all work on the same day as those who were in class on the day of the field trip. Also, any homework assigned for the day following the field trip should be prepared by the student and ready to turn in upon returning to class.

It is the student’s responsibility (not the teacher’s) to make sure that work is completed and turned in.

Fines

Fines are issued for various reasons and students should pay their fines as soon as possible. For example, fines are issued from the library, band, cafeteria, failure to return school locks or lost textbooks,, etc. Fines follow the students’ through their school career. A student may not receive a diploma upon graduation if there is an outstanding fine.

Fire Drills

A fire evacuation plan is posted in each room. Students should study the plan and become familiar with it. Students are to remain at least 50 feet away from the building until the signal is given to re-enter. No one is to return to the building until the principal or his authorized representative gives the signal.

Grading Scale

Grades will be determined according to the following percentages in all subject areas.

A.....	100% - 90%
B.....	89% - 80%
C.....	79% - 70%
D.....	69% - 60%
F.....	59% - 0
I.....	Incomplete

52% is the lowest grade reported on the report card for the first three grading periods, unless permission is obtained from the Building Principal and/or his designee. The Principal or his designee will contact the parent or guardian. During the fourth nine weeks students will receive the grade they earn (0-100). Each teacher has the opportunity to record up to three (3) comments for each student in each class.

An Incomplete (I) does not automatically result in an F, the student must make up the “I” in ten school days or the assignment will be converted to an F unless the “I” is for a medical.

Guidance

Guidance services are available for every student in the school. These services include assistance with educational planning, interpretation of test scores, occupational/career information, help with study and home, social concerns, or any question the student may feel like discussing with a counselor.

A student must first report to his assigned class and then receive a pass to the guidance office.

Hall Passes

No student shall be in the hall during regular class time without a hall pass. Passage shall be by the shortest and quickest route practicable without stopovers at other points or without bothering other classes in session. Failure to obtain a hall pass will result in disciplinary action up to and including suspension.

Homelessness

The term homeless children and youth is defined as individuals who lack a fixed, regular and adequate nighttime residence. This includes individuals:

- Sharing the housing of other persons due to loss of housing, economic hardship or a similar reason;

- Living in a motel, hotel, trailer park or campground due to lack of alternative adequate accommodations;
- Living in emergency or transitional shelters;

We will work with you so that your child(ren)'s education is disrupted as little as possible.

Homework and Assignments

Homework/assignments are an integral part of a student's learning experience. It is the responsibility of each teacher to establish rules and guidelines for homework. These rules and guidelines should be stated and consistent from the first day of school. Teachers are to have these guidelines written out and given to the students during the first week of classes. Students should take them home and have a parent sign a form stating they have read and discussed the policy with their child.

Honor Roll

Honor roll is based on an overall average of a student's 9 week grades received from all classes. There are three categories to the middle school honor roll. The categories and criteria are listed below:

Highest Honors	97%-100%. No individual grades below 90%
High Honors	94%-96%. No individual grades below 85%
Honors	90%-93%. No individual grades below 80%

Library/Media Center

You are encouraged to use the Library/Media Center for recreational reading and research. Occasionally, you may also need a quiet place to do homework independently. All these activities are welcome and encouraged as long as they are done in a quiet and orderly fashion. Remember that your activity should not affect any other library user.

You must arrive at the library within 3 minutes of the time that your teacher e-signs you in. When you arrive at the library, place your card on the circulation desk. When you are ready to return to your class or study hall, the librarian will e-sign you out. All students must return to their point of origin before the end of the period. During homeroom if you choose to report to the library, you must remain in the library until the bell rings to end the homeroom period. All materials borrowed from the library must be checked out at the circulation desk. All materials must be returned at the circulation desk. Materials will not be loaned to students with overdue materials or unpaid overdue fines.

The literacy café, located in the library, provides students with the opportunity to purchase snacks and drinks in a café setting. Students may visit the café during their study halls. Students must use the Inclusive pass in order to visit the café. The café will stop serving snacks/drinks with approximately 10 minutes left in each class period.

Lockers

Lockers are property of the CASD and are subject to periodic checks by the principal or his/her designee. Students who do not cooperate with school officials during locker checks are subject to appropriate school discipline. Students must not go to their lockers other than specified locker times, unless they have a written pass. **STUDENTS ARE RESPONSIBLE FOR THE CONTENTS WITHIN THEIR ASSIGNED LOCKERS. DO NOT SHARE LOCKERS.**

Students shall demonstrate a cooperative attitude in all aspects of self-administration of medication. Privileges for self-administration of medication will be revoked if school policies regarding self-administration are violated.

Administration of Medication During Field Trips and Other School-Sponsored Activities

The Board directs planning for field trips and other school-sponsored activities to start early in the school year and to include collaboration between administrators, teachers, nurses, appropriate parents/guardians and other designated health officials.[10]

Considerations when planning for administration of medication during field trips and other school-sponsored programs and activities shall be based on the student's individual needs and may include the following:

1. Asking parent/guardian to accompany the child on the field trip, with proper clearances.
2. Assigning school health staff to be available.
3. Utilizing a licensed person from the school district's substitute list.
4. Contracting with a credible agency which provides temporary nursing services.
5. Utilizing licensed volunteers via formal agreement that delineates responsibilities of both the school and the individual.
6. Addressing with parent/guardian the possibility of obtaining from the licensed prescriber a temporary order to change the time of the dose.

7. Arranging for medications to be provided in an original labeled container with only the amount of medication needed.

Security procedures shall be established for the handling of medication during field trips and other school-sponsored activities.

Parent/Teacher Conferences

A parent/teacher conference can be arranged anytime during the school year. There are also special conferences where all involved instructors may work together with parents to solve problems. These special conferences must occur at designated time periods due to scheduling commitments. Please phone the middle school office at 483-3509 to arrange an appointment.

Possession or Use of Weapons (*Policy 218.1*)

Purpose

The Board believes that the physical safety of students, employees and visitors is essential for the proper operation of the schools and for the establishment of a positive learning environment. The Board seeks to provide a safe environment free from weapons for students, school personnel, and persons using and visiting school property.

Definitions

Weapon - the term shall include but not be limited to any knife, cutting instrument, cutting tool, nunchaku, firearm, shotgun, rifle, replica of a weapon, and any other tool, instrument or implement capable of inflicting serious bodily injury.

Possession - a student is in possession of a weapon when the weapon is found on the person of the student; in the student's locker; and under the student's control while on school property, on property being used by the school, at any school function or activity, at any school event held away from the school, or while the student is coming to or from school.

Authority

The Board prohibits students from possessing and bringing weapons and replicas of weapons into any school district buildings, onto school property, to any school-sponsored activity, and onto any public vehicle providing transportation to school or a school-sponsored activity or while the student is coming to or from school.

The Board shall expel for a period of not less than one (1) year any student who violates this weapons policy. Such expulsion shall be given in conformance with formal due process proceedings required by law and Board policy. The Superintendent may recommend modifications of such expulsion requirements on a case-by-case basis.

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.

Delegation of Responsibility

The Superintendent or designee shall react promptly to information and knowledge concerning possession of a weapon. Such action shall be in compliance with state law and regulations and with the procedures set forth in the memorandum of understanding with local law enforcement officials and the district's emergency preparedness plan.

Guidelines

The Superintendent or designee shall immediately report incidents involving weapons on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.

The Superintendent or designee shall notify the parent/guardian of any student directly involved in an incident involving weapons as a victim or suspect immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian.

In accordance with state law, the Superintendent shall annually, by July 31, report all incidents involving possession of a weapon to the Office for Safe Schools on the required form

The building principal shall annually inform staff, students and parents/guardians about the Board policy prohibiting weapons and about their personal responsibility for the health, safety and welfare of the school community. An exception to this policy may be made by the Superintendent, who shall prescribe special conditions or administrative regulations to be followed.

Transfer Students

When the school district receives a student who transfers from a public or private school during an expulsion period for an offense involving a weapon, the district may assign that student to an alternative assignment or may provide alternative education, provided the assignment does not exceed the expulsion period.

Progress Reports

Students receive deficiency reports, if warranted, every nine weeks. Deficiency reports are mailed home midway through each nine weeks. These reports make students and parents aware when there is a danger of failing an individual subject. Parents may also request academic updates every few weeks or when needed through the guidance office. **Your child's Sapphire account is available to check your current grades.** Contact the guidance office secretary if you have misplaced your login information.

Report Cards

The school year is divided into four (4) nine-week grading periods. Every student will receive at least one report per nine weeks. This report is intended for both the students and parents to acknowledge the student's progress. Report cards are given to students after quarters 1,2 & 3, while report cards are mailed home after quarter 4. If a problem exists, students and parents are encouraged to contact the school to arrange a meeting with the teacher and/or guidance counselor. Students who are not doing well in their classes will be given a progress report at the four and one half (4 ½) mark for each nine-week grading period. Parents are encouraged to view their student's grades on a weekly basis on Sapphire. Parents will receive their log-ins and passwords the first month of school. If you have any questions regarding Sapphire please contact your student's school counselor.

School Guests

Students are not permitted to bring any visitors with them to school or their classroom without prior approval from the principal before arrival.

Searches (Policy 226)

Purpose

The Board acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the district's interest in protecting and preserving the health, safety and welfare of the school population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

Authority

School officials have the authority to lawfully search students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.[1][2][3][4]

The district has a compelling interest in protecting and preserving the health, safety and welfare of the school population, which under certain circumstances may warrant general or random searches of students and their lockers, vehicles or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto school property of controlled substances, weapons or other dangerous materials.[5][6][7]

Delegation of Responsibility

The Board authorizes the administration to conduct searches of students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy.

The Superintendent or designee, in consultation with the district solicitor, shall develop guidelines and procedures to implement this policy, and shall ensure that school staff who are involved in carrying out searches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.[3]

Students, parents/guardians and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy.

Guidelines

Individualized Suspicion Searches

Students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.[3]

In determining whether reasonable suspicion exists, the principal or designee always should be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be.

Examination by school staff of text messages, call logs, files, images or other data contained in a student's mobile telephone or other electronic device, without the student's consent, normally constitutes a search that must be justified by reasonable suspicion that material in violation of law, district policy or school rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.

Random or General Searches Without Individualized Suspicion

Under certain circumstances, random or general searches of students and their belongings, including student lockers or vehicles parked on school property, may be conducted during the school day or upon entry into school buildings or school activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto school property or activities of controlled substances, weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner using screening methods such as dogs or other animals trained to detect controlled substances, explosives or other harmful materials by smell, as well as metal detectors and other technology. When such screening methods provide a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, screening may be followed by physical searches of those particular students, items or places on an individualized basis.

Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior incident, in or out of school, which threatens to spill over into school, into a school-sponsored activity, or into other times and places that students are under school supervision.

Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession or trafficking among students in school.

Random or general searches not based on individualized suspicion must be approved in advance by the Superintendent or designee, in consultation with the district solicitor. Coordination with law enforcement officials will be accomplished as provided in the memorandum of understanding with the applicable law enforcement agency.[8]

Searches Upon Consent

Searches may be conducted at any time, with or without reasonable suspicion, if the student has given knowing and voluntary consent specific to the place to be searched. The administration may establish rules and procedures governing certain privileges enjoyed by students, such as the privilege of parking a vehicle on school grounds, that make the student's consent to random searches or inspections a condition of access to the privilege.[6]

Searches by or at the Request of Law Enforcement Officials

The legal standards governing searches initiated by school officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings, vehicles or lockers are conducted by or at the request of law enforcement officials, with or without the involvement of school staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions. School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.[8]

Locker Inspections and Searches

Lockers are assigned to or otherwise made available to students as a convenience for the safe storage of books, clothing, school materials and limited personal property, and to facilitate movement between classes and activities and to and from school. Such lockers are and shall remain the property of the school district, and to the extent students have any expectation of privacy of lockers at all, it is very limited. No student may place or keep in a locker any substance or object that is prohibited by law, Board policy or school rules, or that constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors or cause unhealthy conditions. A student locker may be opened and inspected for cleanliness, with or without the consent of the student, whenever there are odors, pests or other indications that a locker contains spoiled food, soiled clothing in need of laundering or similarly unhealthy matter.

Students are exclusively responsible for locking their assigned lockers to ensure the security of their personal belongings and school property entrusted to them. Students are permitted to secure their assigned lockers only with locks provided by the district, or if the district does not provide locks, personal combination locks for which the combination has been provided to designated school staff.

Prior to an individual locker search or inspection, the student to whom the locker is assigned shall be notified and be given a reasonable opportunity to be present. However, when there is a reasonable suspicion that a locker contains materials which pose a threat to the health, welfare or safety of the school population, student lockers may be searched without prior notice to the student.

The principal or a designated staff person shall be present whenever a student locker is inspected for cleanliness or is searched. The principal or designee shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search, persons present, objects found and their disposition.

Searches Involving Removal of Clothing or Examination Beneath Clothing

Searches of students involving the removal of undergarments or examination beneath undergarments are subject to stricter standards than are required to justify other searches of a student's person or belongings. Such searches are permitted only when the basis for suspicion establishes either:

1. That the reasons for believing that the items being searched for are concealed specifically inside undergarments are stronger reasons than grounds that would support only a more general reasonable suspicion that the student is in possession of the items or has them somewhere on the student's person; or,
2. That the quantity or nature of the items being sought present a higher level of danger to the school population than other kinds of contraband.

Searches involving the removal of or examination beneath any clothing of a student, other than jackets, coats or other outerwear, shall be conducted only by a staff person of the same gender as the student, with at least one (1) other staff person of the same gender present as a witness, and in a location assuring privacy from observation by persons not involved in the search or of the opposite sex.

Searches involving the removal of undergarments or examination beneath undergarments will be conducted only after consultation with the district solicitor.

Handling and Disposal of Items Found in the Course of Searches

Any items or material found during a search or inspection, the student's possession of which is in violation of law, district policies or school rules, or otherwise is evidence of such a violation, may be confiscated, and may be used as evidence in student discipline proceedings or a criminal investigation, even if such items or material were not the original objective of the search or inspection.

The principal shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.

Special Education Services and Programs/Child Find

Each school district, along with other public agencies in the Commonwealth, must establish and implement procedures to identify, locate and evaluate all children who need special education programs and services because of the child's disability. This notice is to help find these children and to offer assistance to parents.

At the elementary and secondary level, screening information is used by the Building Principal to address the specific needs of the student and/or to document the need for further evaluation. If it is determined that the child may need additional services the child is referred to the Child Study Team. The team includes the guidance counselor, parent, teachers, principal and other professional staff as warranted. The Team will consult and the necessary adjustments relative to such areas as learning, behavior, and physical performance will be attempted to keep the child involved with traditional classroom experiences. If the student does not make progress, parents will be asked to give written permission for multidisciplinary evaluation.

Parents with concerns regarding their student may contact the Building Principal at any time to request a screening or evaluation. The request shall be in writing. If the request is made orally, the parent will be asked to make the request in writing and will be provided with the proper form. Communication with parents and students shall be in English or their native language. For parents with hearing impairment, the school district will provide a person to communicate in sign language.

After the evaluation is completed, and the Evaluation Report (ER) is compiled with parent input and determines if the student has a disability and is in need of special education and related services, an Individual Education Plan (IEP) is developed for those students qualifying the Building Principal/LEA, a special education teacher and a regular education teacher. Other team members may include: the student when appropriate, the school psychologist, public agency representative, other teachers or specialists, other administrative staff, etc. Parents are an integral part of the IEP Team and are encouraged to be physically present at the IEP meeting. The district makes every effort to ensure parent participation. The district notifies the parent in writing and makes documented phone calls to make parents aware of the IEP conference and the importance of parent participation. Parents are then presented with a Notice of Recommended Educational Placement (NOREP) with which they agree or disagree. If parents agree, the IEP is implemented. The content of this notice has been written in English. If a person does not understand any of this notice, or wants further information on screening or evaluation procedures and provision of services to protected handicapped students, he or she should contact the school district's Program Director, Mrs. Carla Hernberger by calling 724-483-3509, ext. 1217.

 - f. Deafness/hearing impairment

Student Expression/Dissemination of Materials

Purpose

The right of public school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board respects the right of students to express themselves in word or symbol and to disseminate nonschool materials to others as a part of that expression. The Board also recognizes that the exercise of that right is not unlimited and must be balanced with the district's responsibility to maintain a safe and orderly school environment and to protect the rights of all members of the school community.[1]

This policy addresses student expression in general as well as dissemination of expressive materials that are not part of district-sponsored activities (non school materials).

- This policy does not apply to materials sought to be disseminated as part of the curricular or extracurricular programs of the district, which shall be regulated separately as part of the school district's educational program.

Definition

For the purposes of this policy, **dissemination** shall mean students distributing or publicly displaying nonschool materials to others:

1. On school property or during school-sponsored activities by placing such materials upon desks, tables, on or in lockers, walls, doors, bulletin boards, or easels; by handing out such materials to other persons; or by any other manner of delivery to others; or
2. At any time or location when creating or sending information using email, websites, online platforms, social media channels or other technological means that are owned, provided or sponsored by the school district.

Expression means verbal, written, technological or symbolic representation or communication.

Non School materials means any printed, technological or written materials, regardless of form, source or authorship, that are not prepared as part of the curricular or approved extracurricular programs of the district. This includes, but is not limited to, fliers, invitations, announcements, pamphlets, posters, online discussion areas and digital bulletin boards, personal websites and the like.

Authority

Limitations on Student Expression

Students have the right to express themselves unless such expression is likely to or does materially and substantially disrupt or interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights. Student expression is prohibited to the extent that it:[1]

1. Violates federal, state or local laws, Board policy or district rules or procedures;
2. Is defamatory, obscene, lewd, vulgar or profane:[2]

3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/vaping products, alcohol or illegal drugs;
4. Incites violence, advocates use of force or threatens serious harm to the school or community;
5. Materially and substantially disrupts or interferes with the educational process, such as school activities, school work, discipline, safety and order on school property or at school functions;
6. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the schools and their programs; or
7. Violates written district procedures on time, place and manner for dissemination of otherwise protected expression.

Student expression that occurs on school property or at school-sponsored events, or occurs at any time or place when created or communicated using district-provided equipment, email, websites or other technological resources, is subject to this policy. The limitations, prohibitions and requirements of this policy shall apply to expression that occurs outside the foregoing circumstances only when and to the extent that the out-of-school expression:[\[1\]](#)[\[2\]](#)[\[3\]](#)[\[4\]](#)

1. Incites violence, advocates use of force or otherwise threatens serious harm directed at students, staff or the school environment;
2. Materially and substantially disrupts or interferes with the educational process, such as school activities, school work, discipline, safety and order on school property or at school functions; or
3. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the schools and their programs.

Dissemination of Nonschool Materials

The Board requires that dissemination of non school materials shall occur only at the places and during the times set forth in written procedures. Such procedures shall be written to permit the safe and orderly operation of schools, while recognizing the rights of students to engage in protected expression.[\[1\]](#)

The Board requires that students who wish to disseminate nonschool materials on school property shall obtain approval by submitting them at least three (3) school day in advance to the building principal or designee, who shall forward a copy to the Superintendent.[\[1\]](#)

If the nonschool materials include matters prohibited by this policy, the building principal or designee shall promptly notify the students of the nature of the violation and that they may not disseminate the materials until the violation is corrected and the materials are resubmitted for approval.

If notice of disapproval is not given during the period between submission and the time for the planned dissemination, students may consider the request approved and proceed with dissemination as requested, subject to all other established procedures and requirements relating to time, place and manner of dissemination. Students may nonetheless be directed to cease or suspend dissemination if it is later determined that the materials or the dissemination of them are in violation of this policy or implementing rules and procedures.

Students who disseminate printed non-school materials shall be responsible for clearing any litter that results from their activity and shall schedule the event so that they do not miss instructional time themselves.

Printed non school materials displayed in a fixed location of a school building shall bear the date when placed in each location. The district may remove the materials within ten (10) days of the posting or other reasonable time as stated in applicable procedures.

Review of Student Expression

Review of nonschool materials proposed for dissemination shall be conducted promptly so as to avoid unreasonable delay in dissemination.

School officials shall not censor or restrict non-school materials or other student expression for the sole reason that it is critical of the school or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible, and apart from regarding time, place and manner, shall not be restricted unless the expression violates some other aspect of this policy, e.g., because it is independently determined to be in violation of this policy for reasons other than the religious nature of the content.

Appeal of the reviewer's decision may be made to the Superintendent and then to the Board, in accordance with Board policy and district procedures.[\[5\]](#)

Delegation of Responsibility

The Superintendent shall assist the building principal in determining the designation of the places and times non school materials may be disseminated in each school building. Such designations may take into account maintenance of the flow of student traffic throughout the school and shall limit dissemination of non-school materials to non instructional times.

When student dissemination of non school materials or other student expression violates this policy, the building principal may determine what if any disciplinary or other consequences should be imposed. Disciplinary actions shall be in accordance with applicable Board policy and the Code of Student Conduct.[6][7]

The Superintendent shall ensure that building principals and other staff involved in reviewing nonschool materials proposed for dissemination and evaluating whether violations of this policy have occurred receive training regarding applicable standards and procedures. Special emphasis shall be given to understanding the limitations on school officials' authority to regulate off-campus student expression, as well as the need to articulate in detail the nature and extent of disruption to or interference with the school environment thought to be caused by on or off-campus student expression and the specific manner by which the student expression involved is thought to have caused it. This Board policy and any procedures written to implement this policy shall be referenced in student handbooks so that students can access them for further information.

Students and School Property

Students, not the school, are responsible for their personal property. Therefore, you are cautioned not to bring large amounts of money, or valuables. Students are responsible for the proper care of all books, supplies, and furniture supplied by the school. If you disfigure property, break property, or do other damage to school property or equipment, you will be required to make restitution for the damages.

Student Meal Charge Accounts (Policy 808.1)

Pursuant to the National School Lunch Act and Child Nutrition Act of 1996 the Charleroi Area School District operates a school meal program for all of its students and wishes to engage in a computerized point-of-sale food system for the purchase of meals. The computerized point-of-sale debit system allows for the charging of a limited number of meals. Use of this system shall be in accordance with these guidelines:

1. Students may pay for meals or food items each day with cash.
2. Students may use the point-of-sale food system to purchase meals or food items.
3. In the event that the student does not have cash to pay for his/her lunch or sufficient funds in his/her account, students will be permitted to charge lunches only (no A La Carte food items) according to the following:
4. Students will not be permitted to charge breakfast to an account without sufficient funds.
5. Any student, requiring a lunch due to medical reasons, will not be denied access to a reimbursable lunch. The determination must be made and documented by a physician or school nurse.
6. Students cannot charge breakfast, snacks or A La Carte items if his/her account reflects a negative balance.
7. Elementary school parents/guardians will be contacted by phone after the student charges two (2) meals to an account with a negative balance.
8. A participation report will be sent to the parent/guardian upon parental request or in the event that the student exceeds charge limits.
9. Any family with a total balance over \$100 must have an approved payment plan established to avoid legal action. If a payment plan is not in place or adhered to, legal action will be taken by the school district.

Students receiving reduced priced meals shall be treated under this policy in the same fashion as those students who receive full price meals.

Nothing in this policy shall require the school district to replace stolen or lost student cash for meal purchases for reduced or full priced meals.

A thirty-five dollar (\$35) processing fee shall be charged against a student's account in the event a check is returned for non-sufficient funds. If a family issues more than one (1) check per year that is returned for insufficient funds, the Food Service Department will only accept payment in cash.
