Deeper Dives.
LRFP library of digital resources.

We love browsing libraries as much as we love the latest news! That's what inspired this digital collection. They're organized to help you dive deeper into each component of the plan, when you want to browse and in any order of interest.

Links to lookbooks #1-4

These first four lookbooks give you the broadest overview but with a high level of detail. They can be translated in time for the 10/26 publicly live website:

The audience for the rest of these lookbooks is more for the Architecture and Engineering Firms to use for projects to understand the background including technical information. They contain a lot of visuals. These are all covered on the website, the 01 Full Plan and the 02 Executive Summary for the broader community audience, therefore not translated into Spanish.
