Math- Math activities for this week are posted on my webpage and were available as paper copies at the pick up on Monday. This is a review week and our activities focus on review of material we've covered throughout the year. Don't forget to send me your jelly bean estimate and if you make the salt dough, I'd love to see pictures of your creations to post on the "Brag Board" page of my webpage! Please feel free to contact me with questions. [Mrs. Householder's webpage](#)

Reading- This week and next we have a selection to read with a few questions each day. The story is the same each day, so students can use this selection to easily practice fluency. The story and questions are available in the packets picked up at school or students may do the assignments in google classroom. They can also be accessed through my web page. [Mrs. Jones](#)
****Students should be reading at least 75 minutes each week for homework. April reading logs are available on my web page.**

What can you do? Help your child practice their fluency this week. Time your child reading the reading selection for the week. Try this each day with a timer and see if they improve. Celebrate improvements with high fives!!

Writing- There is no extended response this week.

Mrs. Jones

no-cjones@seovec.org

Spelling- Students can choose the sort they want to do this week. They may do the regular sort, or if they feel up to it, the challenge sort. Both sorts are on my web page and in spelling city. Students may choose to do 2 activities in Spelling City or a sort and write this week. The test will be in Spelling City Apr 17. [Mrs. Jones's webpage](#)

Social Studies - This week and next, our focus is on learning about the Constitution and our national government. I have challenged students to memorize the preamble. They can let me know when they are ready and I will give them a call to hear them recite it. If they prefer, you can video them reciting it and send it to me. Paper packets for the week of April 13th can be picked up on Tuesday, April 14th 10-12. You can find copies of the packets on [Mrs. Snider's webpage](#).

Science - This week in Science students are learning about Electrical Circuits. Next week, the focus will be on the transfer of energy -- electricity and heat are two examples of energy transfer. If you are doing experiments or any of the activities, send us a video! We would love to see their learning in action. Paper packets for the week of April 13th can be picked up on Tuesday, April 14th 10-12. You can find copies of the packets on [Mrs. Snider's webpage](#).

Turning in Work -- Students do not need to worry about turning in paperwork at this time. Please keep a folder at home for their work or have them put it in their take home binder. *However, if you would like to turn in paperwork online, check out the How-To Video on Mrs. Snider's web page or in Classroom.*

Fun Friday! -- Since we are on spring break this Friday, there will be no 4th grade Fun Friday. But, you can make your own fun!!

To Join REMIND:

Text the following message for each teacher to the number 81010.

Mrs. Householder: @5e8e2

Mrs. Snider: @glenfor

Mrs. Jones: @89e8d

***TUESDAY, APRIL 14-** Food and Assignment Pick-up at Glenford 10:00-12:00

Thurs., April 9-Mon., April 13- Spring Break!

*Please continue to check our websites and Google Classroom for updated lessons and messages.

HAPPY BIRTHDAY!

Kelsey M.

Family Fun:

Ideas for Family Fun this week:

- Make salt dough together using the recipe in the Week 4 (April 6th) Math packet. Send pictures of your creations!
- Build a blanket fort and read a story together inside.
- Take a family walk with your pet.

We would love to see what you are doing during our time away from each other. Send us a video to keep in touch!
