Dear Parent/Carer,

### Year 7 Technology Materials Contribution

The Design and Technology Department at Southam College would like all students to be able to take home the products they make in practical lessons. During the year, students will be making products from textiles, resistant materials including electronics and graphic media. Instead of collecting money at the end of the respective modules, we are asking for a voluntary contribution of £7.50 towards the costs of the materials and components used.

This request does not apply to students entitled to the Pupil Premium. It is a voluntary one-off contribution and will cover all Year 7 practical projects listed above.

This does not cover the full cost of manufacturing all of the products made but will help us ensure that all of the students have appropriate materials and components for stimulating projects that they can take home and enjoy and use up to date processes in the workshop including CAD/CAM machinery.

Please make your voluntary payment through Parent Pay.

If you have any questions regarding this payment, then please do not hesitate to contact me.

Yours sincerely,

Mr K Storer  
Design & Technology Department
