

Baylor School Financial Aid Statement of Purpose

Mission

The mission of Baylor School is to foster in its students both the desire and ability to make a positive difference in the world.

Purpose

Baylor School offers need-based financial aid to competitive mission-appropriate students who could not otherwise afford or have access to an independent school education because of financial constraints. The assistance provided by Baylor makes our school more accessible and affordable, thus nurturing a more diverse and varied community. While recognizing the primary responsibility for financing an education rests with a family, Baylor strives to bridge the gap that might exist between what families can afford to pay and the actual cost of a Baylor education. Baylor School expects families to make significant adjustments in the use of discretionary resources, as well as accessing secondary resources through family, friends, or other organizations. Baylor's desire is to partner with families through honest and on-going dialogue in order to provide this education to worthy students.

Objectives

- To enroll students/families who have distinguishing academic talents, personal assets, and the potential to develop and contribute in a variety of ways to the Baylor community.
- To enroll students/families with varied backgrounds and experiences from an assortment of schools and programs.
- To provide financial assistance to currently funded students/families provided need continues to be demonstrated each year and to open the financial aid process to other currently enrolled students/families with limited resources as needed.
- To provide financial assistance to newly accepted students/families who help us meet our enrollment objectives.
