

### Math Bug Free FREE

Math Bug teaches kids to count, add, and subtract. It has fun and entertaining animations to keep your child focused as they learn. Click on the right answer and the bird drops the apple to feed the "math bug." Ages 4-7.

### Khan Academy FREE

Khan Academy allows you to learn almost anything for free. It is the best way to view Khan Academy's complete library of over 4,200 videos. We cover a massive number of topics, including K-12 math, science topics such as biology, chemistry, and physics, and even the humanities with playlists on finance and history.

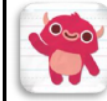

### Count Money FREE

Count Money is a great way to practice counting money. Select the difficulty level and number of problems in the "Settings" screen. Progress through the difficulty levels until you master counting money.

### Sock Puppets FREE

Sock Puppets lets you create your own lip-synched videos and share them on Facebook and YouTube. Add Puppets, props, scenery, and backgrounds and start creating. Hit the record button and the puppets automatically lip-synch to your voice.

### Endless Reader FREE

This app introduces "sight words", the most commonly used words in school, library, and children's books. Kids will have a blast learning sight words and their context and usage with the adorable Endless monsters. Each word features an interactive word puzzle with letters that come alive, and then a sentence puzzle with words that become what they describe.

### Storia FREE

This scholastic e-reader app is designed just for kids. Books are embedded with question, learning activities, and pop-up dictionary definitions. The app download comes with five free books; additional books can be purchased and added to a student's bookshelf.

### My Math Flash Cards FREE

There's no need for old-fashioned flash cards anymore. With My Math, students can practice addition, subtraction, multiplication, and division.

### Sushi Monster FREE

Meet Sushi Monster! Scholastic's new game to practice, reinforce, and extend math fact fluency is completely engaging and appropriately challenging. Strengthen reasoning strategies for whole number addition and multiplication by helping monsters make a target sum or product.

### Math Slicer FREE

It challenges the child to make that split second decision in a fun and intuitive way. The child will also be rewarded for getting the correct answers, making them want to continue playing. Slice the correct answer as it flies across the screen. Get 3 in a row to earn bonus eggs; then used the bonus eggs to unlock new levels, backgrounds, helpers and more.

### BrainPOP FREE

Bring learning to your fingertips with the BrainPOP Featured Movie app for the iPad, iPhone, and iPod touch. Watch a different animated movie every day, then test your knowledge with an interactive quiz. You will have to register for a password.

### bookabi FREE

Create your very own storybooks in 2D and 3D. Choose from bookabi's backgrounds, characters, objects and stickers or use your own photos and become part of the story! Easy enough for kids to use alone and a fun new way to share story time together.

### Addition Top It FREE

Players take turns drawing two cards, finding their sums, and then comparing the sums. Players score points for correctly finding their sum, identifying the greater sum, and for having the greater sum. The player with the most points at the end of 8 rounds wins! Visual and audio reinforcement of correct and incorrect answers help players master addition facts and comparison skills.

### PicCollage FREE

PicCollage allows you to create amazing collages using your photos, fun stickers, text with cool fonts and frames.

### Squeeze FREE

McGraw-Hill's Monster Squeeze game reinforces number recognition and offers a quick and easy way to practice number line concepts and number comparisons. This two-player game runs on the iPad, iPhone, and iPod Touch.

Players take turns finding the secret number on a number line. In each round, the monster designates a secret number on a number line. Players try to guess this number by clicking one of the numbers. If the number chosen is larger than the secret number, that number and all larger numbers on the number line are covered by the monster. If the number chosen is smaller than the secret number, that number and all smaller numbers on the number line are covered by the monster. Players take turns clicking numbers until one of them identifies the secret number and wins the round. There are a total of 5 rounds in a game.

### Endless Alphabet FREE

iOS and Android

Set the stage for reading success with this delightfully interactive educational app.

Kids will have a blast learning their ABC's and building vocabulary with the adorable monsters in Endless Alphabet. Each word features an interactive puzzle game with talking letters and a short animation illustrating the definition. Before you know it, your child will be using words like gargantuan and cooperate!

### Grammar Jammers FREE (primary version) iOS

If you thought grammar couldn't be fun, you've never tried Grammar Jammers. It's a series of three apps designed for different levels- primary, elementary, and middle- that teach grammar skills in a game format.

### ABC Magnetic Board: Alphabet FREE iOS

Fun and educational magnetic board with upper case English letters and alphabet shape puzzle. Several independent sets of bright toy magnets, some of them with magic effects of a gentle shine or funny sound, to purchase.

### Dino Dot to Dot FREE

iOS and android

Your kids will just love these wonderfully drawn pictures and will improve their skills while having fun!

Our educational games are specifically tailored to fit preschool-aged kids, and encourage them to learn from each activity. We specialize in fun educational games.

### Animoto FREE

iOS and android

Turn your camera roll into beautiful, pro-quality videos. Choose share your music, photos, and clips and amazing videos with your family and friends. Features include: Over 50 different video styles, hundreds of songs in our built-in music library, caption your photos, trim your video clips, and create title cards, share videos via email, messages, Facebook or Twitter, etc.
