

South Carolina Uniform Grading Scale Conversions

The purpose of the grading policy is to standardize grading for all courses that earn Carnegie units in South Carolina middle and high schools. The South Carolina Uniform Grading Policy ensures that all students in the state meet the same standard.

- The State Board of Education adopted a uniform grading policy for South Carolina public schools.
- **Students in grades 9 through 12 may retake a course at the same level of difficulty if they have earned a D or an F in that course. The student's record will reflect all courses he or she has taken and the grades he or she has earned. The student may retake the course either during the current school year or during the next school year. This course should be taken no later than that second year. In addition, the student must retake the course before he or she has enrolled in the next sequential course (unless the student is granted approval by school administration to do so).**
- A student who has taken a course for a Carnegie unit prior to grade nine may retake that course regardless of the grade he or she has earned. The student must retake the course during the next school year. In such a case, only the retake grade will be used in figuring the student's GPA, and only the retake attempt will show on the transcript.
- All report cards and transcripts will use numerical grades for courses carrying Carnegie units.
