eBook Delivery Preference

Choose one of the following Follett eBook delivery methods:
This will apply to all eBooks in this order and all future eBook orders.

- Deliver my eBooks in the FollettShelf
  - FollettShelf is a virtual bookshelf, accessed via the Web from any computer, in school or at home, using a secure password.
  - FollettShelf is automatically populated with MARC data for Follett eBooks and eliminates the need for you to import records.
  - You will receive an email containing the link to your FollettShelf along with your username and password within a few days.

My library uses Destiny Library Manager

- Destiny Library Manager is the library software that manages your eBooks and I want to continue to manage my eBooks within Destiny.
- You will receive your MARC records to import into Destiny Library Manager.
- For questions on record importing and eBook setup within Destiny, please visit www.aboutfollettebooks.com/setup/destiny.cfm.

Deliver my eBooks in FollettShelf and send me MARC records

- You want your patrons to experience FollettShelf via the custom URL and also load MARC records into your Library System (OPAC).
- You understand that there is no communication between FollettShelf and the MARC records, so patrons should be directed to the URL.
- You also understand that in situations where students access the eBooks via the Library System (OPAC) FollettShelf will not be aware the title is unavailable.
