Jeff,

We received this quote today from Merritt, it is \$80.00 less then the next highest quote. Ralph had them give us a quote on removing a mixing valve that is not functioning and no longer needed while they were on site. Please tell me how you want to proceed.

V/R,

Lyle

RE: gas piping

Mr. Miller:

We have estimated the cost of installing your required underground gas piping.

Scope of Work:

- Install 1" tap in to existing field house gas system.
- Dig required trench between field house and new tank less water heaters.
- Install underground rated steel natural gas piping.
- Underground piping will be coated for use and all fittings wrapped with required tape.
- Install 1" shut off valve at gas meter for new piping.
- Install shutoff valve for both heaters.
- Install any necessary gas regulators.
- Install all required hangers and supports.
- Test piping for leaks.

Quote for above scope .....\$3,980.00

W.B. Guimarin & Company, Inc. thanks you for the opportunity to bid this project and would be happy to discuss this proposal in detail at your convenience.

Sincerely,

James Simpson
