

UTAH AEROSPACE PATHWAYS

Get your
career ready
for takeoff!

Take the class

To enroll in the UAP program, you'll need to register and complete Manufacturing Principles 1 and Composites 1 during your junior or senior year of high school. Your CTE coordinator will work with your teachers to ensure you're on the right track to earning your certificate.

Use the skills

Once you've enrolled in your UAP courses, you'll apply for the UAP externship. Your CTE coordinator will connect you with one of our partnered employers to complete your required externship, providing you with an opportunity to explore your career options and gain hands-on experience in the workplace.

Get the job

Now that you've explored your career options and completed your course requirements, you are on your way. As a UAP graduate, you've earned a guaranteed job interview. Take your skills, externship experience, and UAP certificate and apply with any UAP employer. Apply now or apply later; your UAP certificate never expires.

Roadshow

You are invited to attend an informative presentation!

Layton High, Room 176
Tuesday, October 31
9:45 a.m. - 10:15 a.m.
