Dawn K. Branch
President, Board of Education

Dear Students and Parents,

As we begin the 2016-2017 school year, I would like to provide you with a copy of our Student Rights and Responsibilities Handbook. This document contains a comprehensive reference of policies and procedures that address the expectations of students in Cecil County Public Schools. I encourage both students and parents to review its contents and use it as a reference as needed throughout the school year.

It is important that students understand the policies that are described in this handbook. The regulations pertaining to student conduct have been developed in order to maintain a safe, secure, and orderly school environment that is conducive to learning.

As our students go through this year, I would ask that they remember the words of Winston Churchill, "Attitude is a little thing that makes a big difference." Each child, whether in kindergarten or high school, should be encouraged by all of us to work hard and set goals. It is our responsibility as adults to foster their hopes for the future and support them in achieving them. Now more than ever it is critical that students make wise decisions and good choices today so that they will have access to the countless opportunities tomorrow. I wish both students and parents an enjoyable, safe, and productive school year.

Sincerely,

D'Ette W. Devine

STUDENTS' RIGHTS AND RESPONSIBILITIES

All students have the right to a free and unhindered opportunity to receive an education in a safe and secure environment. Except by means of due process, a student attending school may not be denied this right by other students or by school personnel. No student's behavior may be such that other students are denied the same right, nor may student behavior be such as to hinder members of the school staff from carrying out their responsibilities.

The Code of Maryland Regulations (13A.08.01.10) requires that each school system apprise students of their responsibilities and rights as school citizens. Due process directs that students be informed of rules and regulations prior to any enforcement of said rules and regulations.

The Board of Education of Cecil County empowers the Superintendent of Schools to publish annually a handbook for students. This handbook will be updated and revised as necessary to reflect changes in laws, bylaws, policies, and regulations. Distribution of this handbook will be according to a schedule determined by the Superintendent of Schools.

This handbook contains policies and regulations primarily related to students' rights and responsibilities. This handbook is limited to interventions and consequences for violations of the Code of Student Conduct, and does not include all policies and regulations of the Cecil County Public Schools Board of Education. Please refer to the Cecil County Public Schools website (www.ccps.org) for a complete listing of policies and regulations.

The Board of Education maintains that the purposes of discipline are primarily to maintain order, promote a safe school environment conducive to learning, and promote appropriate interaction and good citizenship. The Board asserts that, while there are many ways to affect good discipline, there may be occasion when, for serious acts of misbehavior or repeated disruptions, a student may be subject to a suspension from school.

The Board further recognizes that the safe and effective operation of a school is very much dependent upon discipline regulations that are administered fairly, consistently, and systematically. In addition, the Board recognizes that the responsibility for good discipline and good citizenship is shared by parents, students, and school staff.

Students will:

- Accept responsibility for their actions and their learning.
- Abide by laws, policies, school/class rules and regulations.

- Support and encourage student participation in academic and extra-curricular activities.
- Ensure that their children attend school regularly and on time.
- Model positive and appropriate means of problem solving.
- Model elements of good character.

School Staff will:

- Set and maintain high standards for student conduct and academic performance.
- Develop and implement curriculum with scope and sequence appropriate to the needs of the students and society.
- Develop and implement high quality, rigorous lessons that engage and challenge students.

STUDENTS' RIGHTS OF EXPRESSION

Students have the right to express opinions, take stands, submit complaints, seek changes in school policies and regulations, and support causes publicly and/or privately in an orderly manner. Students shall use channels provided for this purpose, such as the student council, advisors, counselors, teachers, and administrators. Students may not willfully disturb or prevent the orderly administration, instruction, or activities of any school.

STUDENTS' RIGHTS TO SPEECH

Students have the right to express their opinions verbally and/or symbolically so long as they do not interfere with the rights of others, and are in compliance with Cecil County Public Schools policies. Students' responsibilities must include concern for the effect of the spoken word or symbolic expression on the personal reputations of others and the orderly operation of the school. Conduct by students that disrupts instruction, creates disorder, or invades the rights of others is not protected by the constitutional guarantee of Freedom of Speech.

STUDENTS' RIGHTS TO PETITION

Students have the right to petition the school administration. The collection of signatures on petitions must not disrupt the orderly administration, instruction, or activities of any school. Students shall not be disciplined for initiating or signing a petition so long as the petition is free from personal attack, libelous statements, or obscenities.

STUDENTS' RIGHTS TO ASSEMBLY

Students have the right to assemble for discussion of issues and have the right to demonstrate peacefully at such times in the school building, or on the grounds as the principal of the school may designate. Students wishing to assemble must have prior approval from the principal and must not infringe on the rights of fellow students who do not wish to participate. The orderly administration, instruction, or activities of any school may not be willfully disturbed or prevented.

STUDENTS' RIGHTS REGARDING PATRIOTIC EXERCISES

The flag of the United States of America shall be displayed at each school site and in each classroom. It shall be the responsibility of the principal to provide for appropriate patriotic exercises in accordance with state law. Students are not required to participate in patriotic exercises, but they may not interfere with the participation of others.

STUDENTS' RIGHTS REGARDING RELIGIOUS EXERCISES

Students have the right to practice their own religious beliefs so long as said students do not violate the constitutional rights of others. Each student has the right to investigate, study, discuss and analyze religious ideas, beliefs, and customs in the same manner as any other subject in the curriculum.

THE RIGHTS OF STUDENTS WITH DISABILITIES

Section 504 of the Rehabilitation Act of 1973 provides that no individual will be discriminated against on the basis of his/her handicap. Students who are identified as being handicapped will receive specialized services and/or accommodations to his/her educational programs in accordance with procedures established for implementing Section 504 of the Rehabilitation Act of 1973 and the Individuals with Disabilities Education Act (IDEA). Students may be identified as having a disabling condition in accordance with either IDEA or Section 504. When students meet the specific eligibility criteria of IDEA, an Individualized Educational Program (IEP) will be developed in compliance with established state and federal standards. If a student meets

criteria for eligibility under Section 504, appropriate accommodations will be provided in accordance with procedures established under Section 504 and Cecil County School policy.

THE RIGHTS OF PREGNANT STUDENTS

A pregnant student has the right to an appropriate educational program. A pregnant student, 16 years or older, who has not completed her high school education, may elect to remain in the regular school program and may not be involuntarily excluded from any program.

A pregnant student under the compulsory school age may voluntarily withdraw from the regular school program provided that she enrolls in an appropriate alternative educational program. Such programs may include, but not be limited to:

- Modification of the regular school program.
- Enrollment in a special school or special class for pregnant students if available.
- Home teaching.
- On-line instruction.
- Programmed instruction.
- Admittance to a private maternity home.
- Parent home schooling.
- Combinations of above programs.

The school system will cooperate with the home and with state, county, and local agencies to assure proper medical, psychological, and social services are provided before and after the pregnancy as needed.

THE RIGHTS OF STUDENTS/FAMILIES IN TRANSITION

The school staff shall enroll homeless children immediately even if they have no immunization records, school records, or proof of residency. These records can be obtained after enrollment.

Homeless children have a right to continue in the school they attended before they became homeless if that is deemed to be in the child's best interest.

STUDENTS' RIGHTS TO SCHOOL FACILITIES

Each student or group of students may use school facilities in accordance with county-wide or local procedures. Arrangements for such use must be made through the office of the principal or his or her designated representative.

STUDENTS' RIGHTS TO EXTRA-CURRICULAR ACTIVITIES

Research has demonstrated that there is a positive relationship between participation in extra-curricular activities and academic success. Students have the opportunity to participate in extra-curricular activities sponsored by the school. A school organization has the right to establish criteria for membership provided such criteria are relevant to the purpose and activities of that group. Organizations sponsoring social activities, such as dances and parties, may charge admission. Any fees charged for student participation in optional social functions are the responsibility of the student.

Student participation in interscholastic sports is governed by the rules and regulations of the Maryland Public Secondary School Athletic Association and the Board of Education of Cecil County.

STUDENT ATTENDANCE AND PUNCTUALITY

A student shall not be absent from school in excess of five (5) days in any single marking period for absences which are coded Unlawful Causes. A half day attendance is defined as a student attending at least two (2) hours but less than four (4) hours on any school day.

A student who is absent from school in excess of five (5) days in any single marking period for absences which are coded as Unlawful Causes will receive a failing grade in all subjects for the marking period. Any absences that are properly certified as Lawful Causes will not count against the five (5) day limit. Parents will be notified when a student has accumulated absences coded Unlawful Causes.

A student who arrives after the official start of the school day shall be considered tardy. Each school shall develop and implement regulations to encourage punctual attendance. These regulations shall be disseminated to each student at the beginning of the school year or upon enrollment.

The parents or guardians of each student must provide the necessary certification for absences coded Lawful Causes on the day that the student returns to school following an absence. If the necessary certification is not received by the school within three (3) school days, the absence(s) may be coded as an Unlawful Cause. If excessive absences due to student illness are reported, principals and pupil personnel workers will still have the authority to require a doctor's note.

REINSTATEMENT OF GRADES FOR FAILURE DUE TO ATTENDANCE

A student who has failed all subjects due to exceeding the five (5) day absence limit in a marking period shall have the earned grades reinstated provided the student does not exceed the five (5) day limit in the next marking period. This provision may be utilized up to two (2) times during any school year and is not applicable to absences in excess of the five (5) day limit incurred during the fourth marking period. Secondary students failing the fourth marking period due only to attendance may restore an earned grade by successfully completing a program offered for at least five (5) days starting after the last day of school and ending on or before June 30.

ACADEMIC ELIGIBILITY

A student who receives one or more failing grades shall be ineligible to participate in interscholastic athletic programs until grades are issued the following marking period. The student becomes ineligible the next school day following issuance of report cards.

Students entering grade 9 for the first time shall be eligible for participation regardless of grades received at the end of the previous year. However, if a ninth grade student receives two failing grades at the first interim report, he or she shall be ineligible to participate in interscholastic athletic programs until grades are issued at the end of the marking period.

If a student withdraws from a class and receives a WF (withdrawal failing), the application of the WF will be applied to the following marking period for semester and full-year courses. A withdrawal before the first interim report in a semester course will not result in ineligibility. A withdrawal from a full-year course before the end of the first marking period will not result in ineligibility.

Students who participate in an approved or alternative education program and receive a passing grade in the same subject(s) failed may have their eligibility status reinstated.

STUDENT RECORDS

A parent/guardian of a student who is under the age of 18 and a student who has reached the age of 18 have the following rights pertaining to school records:

- To know the records that are kept.
- To review the school record.
- To receive a copy of the record at a reasonable cost.
- To receive a response to a reasonable request of explanation and interpretation.
- To challenge a record claimed to be false or misleading and to receive a fair hearing if, after a review, no change is made.
- To place a statement or rebuttal in the challenged record if no change is made.
- To refuse to have any personally identifiable information designated as directory information.
- To file a complaint with the Superintendent of Schools or the Family Policy Compliance Office, U.S. Department of Education, if they believe any of these rights are violated.

In the case of separation or divorce, both the custodial and non-custodial parents have access to student records, unless the local school system has been provided a court order or other legally binding instrument which terminates parental rights.

RIGHT TO CONFIDENTIALITY – FERPA

The Family Educational Rights and Privacy Act (FERPA) guarantees to parents/guardians of students under age 18 and eligible students (18 and older) the right to:

- Inspect and review the educational records of the student.
- Request the district to disclose information in the educational records to persons/agencies outside the Cecil County Public School system.
- Request the amendment of the educational records to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student.
- File with the U.S. Department of Education a complaint concerning alleged failures by the district to comply with the requirements of FERPA.

Student records are maintained and kept by the school office in a secure location. They contain a list of credits, standardized test results, academic portfolios, grade point averages, behavioral and psychological evaluations, screening and health records, attendance and disciplinary records, directory information, and a list of activities associated with the student.

Under the provisions of FERPA, the district may release educational records to other school systems, colleges, and universities to which the student intends to enroll or transfer without written consent. The district may also release directory information including name, date of birth, dates of attendance, current school, participation in school activities and sports, degrees and awards received, and photographs without consent unless the eligible student and/or parent/guardian notifies the student's principal in writing not to release the information included as directory information in the student record.

Information relating to the discipline of a student, including information on an expulsion of a student is part of the student record and will be forwarded to another school system in which the student seeks to enroll upon request.

The General Education Provisions Act requires local educational agencies receiving assistance under this Act to provide, on a request made by military recruiters or an institution of higher education, access to secondary school students' names, addresses, and telephone listings. According to Senate Bill 740, "We may share your eligibility information with education, health, and nutrition programs to help them evaluate, fund or determine benefits for their programs; auditors for program reviews; and law enforcement officials to help them look into violations of program rules."

Parents/guardians may request that directory information and photographs of their child are not released by completing the Directory Information Form found in Appendix C of this handbook.

STUDENTS' RIGHTS REGARDING ADMINISTRATIVE SEARCH AND SEIZURE

Authority to Search Student:
A principal, an assistant principal, a principal designee (teacher-in-charge, teacher on school-sponsored activity if a principal or assistant principal is not available), may make a reasonable search of a student on the school premises or on a school-sponsored activity if there is a reasonable belief that the student has in the student's possession an item, the possession of which is a criminal offense under the laws of this state, or a violation of any other state law, or rule or regulation of the Board of Education. All student searches will be made in the presence of a third party.

Authority to Search School:
A principal or assistant principal of a public school may make a search of the physical plant of the school and its buildings/grounds including the lockers of students. The right of the school official to search grounds, buildings, and lockers is announced and published in this writing, and will be at schools. With reasonable suspicion, a school principal or an assistant principal may search an automobile on school property. All searches must be in accordance with current state and federal regulations and in the presence of a third party.

STUDENTS' RIGHTS REGARDING POLICE ARRESTS AND INVESTIGATIONS ON SCHOOL PREMISES

Arrests on School Premises:
When possible and appropriate, arrests by police should be made during non-school hours and away from the school premises. However, if an arrest on school premises during the school hours is necessary, the responsible school official shall ascertain the facts from the arresting officer

which will enable him to fully advise the parent or guardian and other school officials of the nature of the charge, the identity of the arresting officer, and location of the student.

When an arrest has taken place on school premises or during school hours, every effort shall be made by school officials to inform the parent or guardian immediately and thereafter promptly to advise the Superintendent's Office. Arrests on school premises during school hours shall be conducted in such a manner as to avoid both embarrassment to the student being arrested and jeopardizing the safety and welfare of other students.

School officials may not permit questioning of the student under arrest on the school premises and shall request the arresting officer to remove the pupil from the school as soon as practicable.

Questioning on School Premises:
Police investigations involving the questioning of pupils may not be permitted on school premises unless in connection with a crime committed on the premises or in connection with an investigation which, if not immediately permitted, would compromise the success of that investigation or endanger the lives or safety of the students or other persons, provided, however, that a school official should be present throughout that questioning.

Cecil County Public Schools shall permit personnel from the local Department of Social Services or a police officer to question a student on school premises during the school day in an investigation involving suspected child neglect under Family Law Article, Subtitle 7, Annotated Code of Maryland, or suspected child abuse under Family Law Article, Subtitle 9, Annotated Code of Maryland.

The Superintendent or the Superintendent's designated representative shall determine, after consultation with the individual from the local Department of Social Services or the police officer, whether a school official shall be present during the questioning of a student. Whenever investigative questioning of students is permitted on the premises, the school official shall promptly advise the parent or guardian and the Superintendent's Office of the nature of the investigation.

School officials are not required to notify parents or guardians of investigations on school premises involving suspected child neglect under Family Law Article, Subtitle 7, Annotated Code of Maryland, and suspected child abuse under Family Law Article, Subtitle 9, Annotated Code of Maryland.

In the absence of an arrest, school officials may not authorize the removal of a student from school for the purpose of investigative questioning without the consent of the parent/guardian except as permitted below:

- A student may be removed from school premises if that student is a suspected victim of child abuse or neglect and the local Department of Social Services has guardianship of the child or a court order to remove the child.
- The Superintendent or the Superintendent's designated representative shall ensure that prompt notification of a student's removal from school under this section is made to the student's parent or guardian.

Search and Seizures by Police:
Police officers shall conduct searches of students and the school premises in accordance with their established policies and procedures. Every effort shall be made to conduct searches in a manner which will minimize a disruption of the normal school routine and minimize embarrassment to students affected.

A police officer may not search the person of a student not under arrest unless the police officer has a reasonable suspicion the student is concealing a weapon which poses a danger to others. A school official may not conduct a search of the person at the request of a police officer.

Drug Detection Dogs:
The Board of Education of Cecil County is committed to promoting and providing a drug free academic environment for all students. As one method of meeting this commitment, the Board of Education authorizes the use of drug detection dogs.

The initial use of drug detection dogs in any Cecil County Public School building will be announced over the public address system to the entire building. Any subsequent use of drug detection dogs can happen on a random basis.

USE OF TECHNOLOGY RESOURCES

The Board of Education acknowledges that technology enhances the educational setting, but also recognizes that the improper use of technology may disrupt the learning environment. It is the intent of the Board to ensure possession of portable electronic devices does not disrupt the learning environment, after-school activities, or school safety including the safe transportation of students. All individuals using Cecil County Public Schools technology devices and network are expected to abide by the general requirements and responsibilities outlined in the Responsible Use of Technology Policy (Policy IIBH).

General Provisions:

1. The use of any technology device, owned by CCPS or personal, on CCPS property means the user is knowingly and willingly participating in the use of CCPS technology resources and agrees to abide by this regulation and all referenced laws, policies, and regulations.
2. Users will have no expectation of privacy or ownership when using CCPS technology resources.
3. Use of CCPS technology resources is a privilege. Performing any prohibited activity as outlined in this regulation may result in the loss of that privilege and other disciplinary action.

2. The primary purpose of the CCPS electronic mail system is for students and staff to communicate with outside resources and collaborate on school related business. Personal business should not be conducted using school system e-mail accounts. **At the student level, only high school students will have an activated e-mail account.**
3. CCPS electronic mail accounts can be used to create appropriate online accounts in external systems or resources to facilitate instruction, learning, and school business. All students and employees must be aware of and comply with the terms of service for those resources.
4. Students and employees are expected to exercise digital citizenship and never disclose their telephone numbers or addresses or those of others in any e-mail correspondence. Account users are responsible for any messages sent from their account.
5. Users should never disclose or share their electronic mail credentials (username and password). As a matter of policy, CCPS staff will never request an individual's username and password via e-mail.
6. Students and employees are expected to report any unauthorized activities, such as SPAM communications or obscene e-mail, to school personnel and will not respond to or download files from unrecognized accounts.
7. E-mail messages should never cause a disruption to the school environment or normal school operations. Users will never use the CCPS e-mail system to mass notify or SPAM any group of people.
8. Electronic e-mail sent or received is not confidential. Although the Technology Services Office (TSO) of CCPS does not make a practice of monitoring electronic mail, the TSO reserves the right to retrieve the contents of user mailboxes for legitimate reasons: to conduct internal investigations, to comply with investigations of wrongful acts, or to recover from system failure.

Social Media and Other Communication Technologies

CCPS provides a variety of preferred methods to communicate and connect with families for educational purposes, such as SchoolMessenger, PowerSchool, Blackboard, etc. Where appropriate, the district supports the use of social media by employees in pursuit of instructional and educational goals. The district may use social media to connect with students, parents, faculty, staff, alumni, colleagues, and other educators.

The following guidelines will be applied:

1. All third-party social media used will comply with the Children's Online Privacy Protection Act (COPPA).
2. Due to COPPA, an effort to protect children's privacy, elementary and middle school students should not have accounts on social media and communication sites; therefore, those levels will not communicate with students through social media sites.
3. Students and employees will abide by the published terms of service, licensing, fair use agreements, and privacy policy. If there is not a published term of service or privacy policy then the service cannot be used.
4. Prior to using a third-party social media for CCPS sanctioned activities, employees will create a plan of action for the use of the third-party social media site and submit to the school principal for approval.
5. The content owner will inform the parents of how the social media is being used, how their children are being contacted online, and the expectations for appropriate behavior.
6. The content owner will inform students of the expectations, appropriate use, and accountability of the social media site.
7. Employees using third-party social media professionally will create an account linked to their CCPS e-mail address and separate from any personal accounts. CCPS e-mail accounts cannot be used to create any personal social media accounts.
8. When using social media for a professional purpose, employees will identify themselves and CCPS as the employer.
9. Employees must comply with confidentiality obligations imposed by law, including HIPAA and FERPA.
10. Employees must adhere to privacy policies and exclude students who have declined to have their pictures used for any purpose by CCPS. Images of students will not be used in conjunction with the student's name.
11. Employees will configure privacy settings of the social media to limit visibility of the content to the intended audience.

BULLYING, HARASSMENT, AND INTIMIDATION OF STUDENTS

The Board of Education of Cecil County recognizes that all students have the right to learn in an atmosphere free from bullying, harassment, and intimidation. Regardless of medium, conduct that is harassing, bullying, or intimidating on school property, at school-sponsored events, or in direct connection to the school will not be tolerated and will be subject to disciplinary action. Students or other persons reporting such behavior in good faith have the right to be free of reprisal or retaliation. Regardless of the medium, retaliation or reprisals against persons reporting bullying, harassing, intimidating, or similar behaviors is prohibited.

In concurrence with the Safe Schools Reporting Act of 2005, and as amended in 2008, each school shall make available harassment/bullying reporting forms to students and staff. Reporting forms can be found in Appendix A of this handbook. School principals are responsible to investigate and resolve to the extent possible all reported instances of bullying, harassment, intimidation, or similar behaviors and maintain records of such in compliance with Board policy and state law.

Definitions:
Bullying, harassment, or intimidation means intentional conduct including verbal, physical, written or intentional electronic communication that creates a hostile educational environment by substantially interfering with a student's educational benefit, opportunity, performance, or a student's physical or psychological well-being and is motivated by an actual or perceived personal characteristic, including race, national origin, marital status, sex, sexual orientation, gender identity, religion, ancestry, physical attribute, socioeconomic status, familial status, or physical or mental ability.

Supports:
The Board also recognizes the need for support services for victims, witnesses, and perpetrators in order to bring instances of bullying to resolution. Consistent with state law and local policy, the Department of Student Services will produce and maintain a list of available community and internal resources and organizations that will be made available to all parents and children.

If you are being bullied:

- Tell someone – a parent, a teacher, a counselor.
- Try not to show anger or fear.
- Calmly tell the student to stop…or say nothing and walk away.
- Try to avoid situations where bullying is likely to occur.

If you know someone who is being bullied:

- If you feel safe, tell the bully to stop.
- If you do not feel safe:
  - ✓ say kind words to the student being bullied – *be a friend!*
  - ✓ do not encourage the bully by laughing or joining in.
  - ✓ tell other bystanders how to help stop bullying.
  - ✓ tell an adult.
  - ✓ encourage the student being bullied to talk to someone.

A Bullying, Harassment and Intimidation Reporting Form can be found in Appendix A of this handbook.

GANGS

The Board of Education recognizes the importance of providing a safe, secure learning environment that is free of fear from violence or intimidation. As such, it is the policy of Cecil County Public Schools to prohibit gang activity and similar destructive or illegal group behavior. Such conduct on school property, at school-sponsored events, or in direct connection to the school will not be tolerated and will be subject to disciplinary action. Students or other persons reporting such behavior in good faith have the right to be free of reprisal or retaliation. Regardless of the medium, retaliation or reprisals against persons reporting any gang-related activity or victims, witnesses, bystanders, or others with reliable information about an act of gang activity and similar destructive or illegal group behavior is prohibited.

Participation in Gang-Related Activity
No student shall display clothing, accessories, or emblems that signify to another person that such student is a member of a gang. Any student wearing, carrying, or displaying gang-related apparel or exhibiting behavior or gestures which symbolize gang membership, or causing and/or participating in activities which intimidate or affect the attendance or learning environment of another student will be subject to disciplinary action.

Suspected gang activity or similar destructive or illegal group behavior will be promptly investigated by school administrators. Criminal activity will be reported to law enforcement. Students disciplined for gang-related or similar destructive or illegal group behavior may be subject to remedial action including community service, alternative education, and/or mental health counseling. Disciplinary action can include but may not be limited to suspension, referral for expulsion, criminal charges, or legal action.

A Gang-Related Incident Reporting Form can be found in Appendix B of this handbook.

WHERE TO GET HELP

School counselors understand the developmental needs of all students and identify the issues that impact on student learning and achievement. School counselors are an integral part of school planning, school programs, and the school environment. Cecil County Public Schools supports at least one school counselor in each building. The counselor will meet individually, in small groups, or in a classroom setting to address the needs of all stakeholders. Students may contact the counselor by completing a guidance pass or stopping by the office and requesting a meeting. Through counseling, coordination, and consultation, the counselor facilitates communication and establishes connections with school, home, and community resources for the benefit of students.

USE OF OR POSSESSION OF ANY TOBACCO PRODUCT

The use or possession of any tobacco product, including electronic cigarettes and any vapor devices, including by-products, by students will not be permitted on school property during the regular school day or at school-sponsored events. Students seventeen years of age or younger in violation of the policy will be referred to the appropriate law enforcement authority as required by Maryland law.

The prohibition of tobacco products is established on the grounds that research has consistently shown that the practice of smoking or the use of any tobacco product is detrimental to the health of the user and detrimental to the health of others.

DRUGS AND ALCOHOL

The possession, use, and/or distribution of alcoholic beverages, illegal drugs, or other intoxicants on school premises creates a reasonable likelihood of disruption to or interference with the academic process and constitutes a substantial danger to persons and property. Cecil County Public Schools is committed to providing a drug free, alcohol free and intoxicant free environment at all of its schools. Such an environment is conducive to learning and strives to maintain and promote the physical and mental health of students.

There is confirmed evidence that the use of alcohol, illegal drugs and intoxicants is disruptive to one's life and the lives of others. The Board believes that our schools should deal with this problem through education and counseling as well as through disciplinary action. This is accomplished through the curriculum and through individual counseling of students by teachers and other appropriate personnel.

The possession, use, distribution and/or conspiracy to distribute alcoholic beverages, illegal drugs, other intoxicants, or non-controlled drug look-alike substances in any quantity or drug paraphernalia is prohibited on property owned by the Board, on school buses or other vehicles utilized for school-sponsored transportation, or at off-site school-sponsored activities. The presence of any student on the school premises, on school buses or other vehicles utilized for school-sponsored transportation, or at off-site school-sponsored activities while under the influence or demonstrating other evidence of the use of alcoholic beverages, illegal drugs, or other intoxicants is also prohibited. Any violation of the Drug and Alcohol Policy (Policy JFCH)

will result in school based discipline and a mandatory drug and alcohol evaluation conducted by a licensed health care professional.

AUTHORIZED MEDICATIONS

Medications should be given at home if at all possible. Medications ordered three (3) or fewer times a day should be given before school, after school, and at bedtime. All medications administered during the school day must have a written doctor's order and parent/guardian's signature before medication will be administered. All medications must be in the original labeled container. The label on the bottle/container must match the doctor's order exactly before the medication can be given at school; this includes all prescription and over-the-counter medications. Medication order forms are available from the school nurse. Medications must be transported to school by a responsible adult. For prescription medications, please ask the pharmacist for a bottle for school and one for home. The first dose of medication must be given by the parent/guardian to be sure there is not an adverse/allergic reaction for the student. New order forms must be completed at the beginning of each school year and any time there is a change in dosage or time the medication is to be given. If a student is attending an overnight field trip, please be sure to obtain a written doctor's order for any medication he/she may take at home so that it can be given during the overnight school-sponsored event.

A Medical Authorization form is located in Appendix D of this handbook.

NON-DISCRIMINATION

Cecil County Public Schools does not discriminate in admissions, access, treatment or employment in its programs and activities on the basis of race, color, gender, age, national origin, religion, sexual orientation, or disabling condition.

CODE OF STUDENT CONDUCT

Cecil County Public Schools is committed to creating a school system where teaching and learning take place every day in safe, supportive, and respectful school environments, where students, school staff, and families are valued and have the opportunity to succeed. School safety and academic success are created and strengthened when students effectively and actively are engaged in their learning, and when positive relationships exist between students and school staff. Schools should provide behavioral expectations for all members of the school community that are fair and developmentally appropriate. Cecil County Public Schools understands no student comes to school "perfect," academically or behaviorally, and many face challenges in their homes and communities. All students, however, can succeed and deserve the opportunity to do so. Schools should provide the instruction and support necessary to address students' academic and behavioral needs. When student behavior becomes inappropriate students should be afforded the opportunity to learn from their mistakes. To do this Cecil County Public Schools believes in graduated consequences and interventions to teach students appropriate behavior. Removing a student from school through exclusionary discipline measures, such as out-of-school suspension, expulsion, or referral to an alternative educational setting should always be a last resort. Students who are removed should have the opportunity to make up work for credit, so that they may stay on pace with their classwork and on track to graduate.

In all Cecil County Public Schools, Positive Behavioral Interventions and Supports (PBIS) plays a critical role in supporting and defining a positive school climate. PBIS provides systems for schools to design, implement, and evaluate effective school-wide, classroom, non-classroom, and student specific discipline plans. When implemented with fidelity, school-wide PBIS aims to reduce disruptive behavior, enhance school climate, and create a safer, more effective school for all students. This is accomplished through applying teaching and learning practices to the prevention and promotion of positive behavior. This shift away from reactive, punitive responses is accomplished through collection and analysis of pertinent school data, teaching clear behavioral expectations for students, and establishing a system of appropriate staff responses to student behavior.

As students learn and adjust to the responsibilities and challenges of the school environment, there may be times their actions or behaviors violate a Board of Education policy or the Code of Student Conduct. Should this occur, school administrators are charged with the responsibility of investigating alleged incidents, providing due process, and making informed judgments as to whether specific student behavior violates the Code of Student Conduct. Once that determination has been made, the following range of interventions and consequences are used to guide the administrator in selecting and implementing interventions and/or consequences that will help change the student's behavior.

INTERVENTIONS & CONSEQUENCES

1	2	3	4	5	6	7
Classroom Interventions	**Conferences**	**Consequences**	**Alternative Placements**	**Short Term Suspension**	**Long Term Suspension**	**Referral**
Implemented by Classroom Teacher	Conference with Student	Time in Office	*MIP FULL	Suspension 1-3 days	Suspension 4-10 days	Referral to Superintendent
	Parent Contact	Loss of Privileges	*MIP FULL (multiple days)	Saturday School	Referral to **PAM	
	Bus Warning	Detention(s)	Saturday School	Referral to **PAM	Twilight Program	
	Referral to Support Staff	*MIP Partial	Other Alternative Placement	Twilight Program		
	Confiscation and Return	Bus Suspension	Twilight Program			

**MIP-Modified Instruction Program* ***PAM-Programming Assistance Meeting*

Administrators have the discretion to select interventions and consequences from the recommended range based on the circumstances resulting in the violation, the student's history of violations, and the risk the violation has to the safe and orderly operation of the school. Serious violations may require the implementation of interventions or consequences at the high end of the range for initial offenses. Repeated chronic or cumulative violations may require interventions or consequences beyond the recommended range. School administrators always have the discretion to use consequences at a lower range or utilize interventions, such as student

reflection, counseling, restitution, referral to outside agencies, etc., if they believe that the consequence or intervention is likely to change the student's behavior.

Violations of a Board of Education policy or the Code of Student Conduct that result in a criminal act will be reported to the appropriate law enforcement or social service agency as required by policy, regulation, or law.

Recommended ranges of interventions and consequences for elementary, middle, and high school levels can be found on the next three pages.

STUDENT SUSPENSION

A principal may suspend a student for cause for up to 10 consecutive school days. When a student is suspended, the student and/or the student's parent/guardian shall attend a conference with the principal and any other appropriate personnel. At or before the conference the student shall receive written or oral notice of the charges against him/her. The student has the right to an explanation of the evidence supporting the charges and an opportunity to present his/her account of the charges.

A student whose presence in the school poses a continuing danger to persons or property or an on-going threat of disrupting the academic process may be removed immediately from school, if the notice and conference required by this regulation is provided as soon as possible.

EXTENDED SUSPENSION AND EXPULSION

An extended suspension means the temporary removal of a student from school for a specified period of time longer than 10 school days but not to exceed 44 school days for disciplinary reasons by the Superintendent or designee. An extended suspension is warranted when a student's return to school would pose an eminent threat of serious harm to other students and staff or the student has engaged in the chronic disruption of the educational process that has created a substantial barrier to learning for other students across the school day and other available and appropriate behavioral and disciplinary interventions have been exhausted.

An expulsion means, at a minimum, the removal of a student from the student's regular school program for 45 school days or longer for disciplinary reasons by the Superintendent or designee. An expulsion is warranted when a student's return to school would pose an eminent threat of serious harm to other students and staff.

If a principal finds that an extended suspension or expulsion is warranted, the principal shall immediately report the matter in writing to the Superintendent. Upon the written report from the principal requesting a suspension longer than 10 school days, the Superintendent or designee shall arrange a conference with the student and the student's parent or guardian. If the Superintendent or designee finds that an extended suspension or expulsion is warranted, the Superintendent or designee may extend the suspension for up to 180 school days.

The student or parent/guardian may appeal an extended suspension to the Board of Education within 10 days. The student or parent/guardian has the right to be heard before the Board of Education, its designated committee, or a hearing examiner, and bring counsel and witnesses to the hearing. Unless a public hearing is requested by the parent/guardian of the student, the hearing shall be held out of the presence of all individuals except those whose presence is considered necessary by the Board of Education. The appeal to the Board of Education does not stay the decision of the Superintendent, and the decision of the Board of Education is final.

A student on extended suspension may not enter onto school property for any reason during the extended suspension without the consent of the principal and, if a minor, must be accompanied by the parent/guardian.

A principal may deny the enrollment and attendance of any student from another school system who is currently under an expulsion from that system for the duration of that expulsion.

MAKE UP WORK FOR SUSPENDED STUDENTS

In order to establish accountability and keep students on track with classroom work, Cecil County Public Schools shall institute educational services for students who are suspended. To facilitate this process each principal shall assign a school staff person to be the liaison between the teachers and the various students serving out of school suspensions.

Short term suspensions (1-3 school days):
Students shall receive missed work while on suspension in an identical manner to that established policy and practice for makeup work in the event of any other excused absence.

Long term suspensions (4-10 school days), extended suspensions and expulsions:
At a minimum, schools will provide each student suspended or expelled out of school, who is not placed in an alternative educational program, daily classwork and assignments from each teacher which shall be reviewed and corrected by teachers on a weekly basis and returned to the student.

DISCIPLINE FOR STUDENT OFF-CAMPUS BEHAVIOR

Under certain circumstances students may be disciplined including suspension or expulsion for behavior which has taken place off-campus and/or beyond the school day. If the behavior of a student(s) is determined by the principal to be connected to the school so as to impact the educational environment of the school, the safety and/or welfare of other students and/or staff, and/or the maintenance of school order and discipline, the principal may suspend the student(s) for up to 10 school days. If the nature and severity of the off-campus behavior warrants, the principal may refer the student(s) to the office of the Superintendent of Schools with the recommendation for further disciplinary action. If the Superintendent concurs with the findings of the principal, a long term suspension or expulsion may be imposed.

BEHAVIOR ON THE BUS

The student's first responsibility while riding on a school bus is not to interfere with the driver's ability to safely operate the bus. Improper student behavior that distracts the driver jeopardizes the safety of all the students on the bus. The following safety rules apply to students:

- Follow the bus driver's instructions at all times for the safety of all students.
- Stay properly seated in a designated seat.
- Talk quietly with seatmates and act responsibly. Do not yell or scream or use improper language.
- Keep hands and feet inside the bus at all times.
- Respect the bus driver as the person in charge and respect other students and their property.
- Do not throw anything inside the bus or throw objects out of a window.
- Do not consume food or beverages on the bus.

Failure to follow these safety rules may result in reassignment of seat, loss of bus riding privileges, and/or suspension from school. Other rules as defined in the Code of Student Conduct also apply while students are on the school bus.

BULLYING, HARASSMENT OR INTIMIDATION REPORTING FORM

Directions: Bullying, harassment, and intimidation are serious and will not be tolerated. This is a form to report alleged bullying harassment, or intimidation that occurred during the current school year on school property, at a school-sponsored activity or event off school property, on a school bus, on the way to and/or from school*, or on the internet-sent on or off school property; or that substantially disrupted the orderly operation of the school. Bullying, harassment and intimidation mean any intentional conduct, including verbal, physical or written conduct, or an intentional electronic communication, that creates a hostile educational environment by substantially interfering with a student's educational benefits, opportunities or performance, or with a student's physical or psychological well-being. The conduct must (1) be motivated by an actual or a perceived personal characteristic including race, national origin, marital status, sex, sexual orientation, gender identity, religion, ancestry, physical attributes, socioeconomic status, familial status, or physical or mental ability or disability, or (2) be threatening or seriously intimidating. Electronic communication means communication transmitted by means of electronic device, including a telephone, cellular phone, computer and pager. Conduct that is of a sexual nature is the most commonly reported form of sexual harassment. This term is generally thought to mean actions, language or visual materials which specifically refer to, portray or involve sexual activity or language. Conduct of a sexual nature may include overt sexual solicitations, inappropriate touching, sexual jokes and inquiries about a person's sex life. Sexual harassment is the broader term that encompasses conducts of a sexual nature such as unwelcomed sexual advances, requests for sexual favors, and other verbal or physical contact of a sexual nature. Sexual harassment also includes acts that are not overtly sexual but rather are directed at individuals based on their gender such as profanity or rude behavior that is gender-specific.

If you are a student, the parent/guardian of a student, a close adult relative of a student, or a school staff member and wish to report an incident of alleged bullying harassment, or intimidation, complete this form and return it to the Principal at the student victim's school. You may contact the school for additional information or assistance at any time.
