### **Our Students Will Be:**

#### **Collaborators**

- Enrich the learning of self and others through teamwork.
- Solicit and respect diverse perspectives and contributions.
- Seek, contribute, and react to feedback to achieve shared outcomes.
- Recognize and leverage strengths to build collective commitment, action, and understanding.

#### **Critical and Creative Thinkers**

- Transfer and connect knowledge and skills to deepen understanding.
- Demonstrate thinking that is clear, rational, open-minded, and informed by evidence.
- Use disciplinary knowledge and skills in routine and innovative ways.
- Make informed decisions, solve problems, and use a variety of tools to deepen learning.

#### **Communicators**

- Articulate thoughts and ideas using oral, written, and non-verbal communication skills for a range of purposes and audiences.
- Listen to decipher meaning, including knowledge, values, attitudes, and intentions.
- Use technological skills and contemporary digital tools to explore and exchange ideas.

#### **Socially and Civically Engaged**

- Demonstrate personal, civic, and social integrity through ethical and empathetic behaviors.
- Recognize individual and communal impact on others and the natural world.
- Value and embrace diverse cultures and unique perspectives through mutual respect and open dialogue.

#### **Growth-Oriented**

- Cultivate positive attitudes and habits about learning.
- Pursue one's own interests and curiosity to experience new learning.
- Consistently improve the quality of one's own thinking by skillfully analyzing, assessing and reconstructing.
- Persist to accomplish difficult tasks and to overcome academic and personal barriers to meet goals.

#### **Healthy and Balanced**

- Develop and demonstrate awareness, sensitivity, concern, and respect to connect with self and others' feelings, opinions, experiences, and cultures.
- Use reflective practices to understand one's personal strengths, challenges, and passions.
- Make choices to support a lifestyle that is healthy, both physically and mentally.
- Demonstrate resilience through the ability to manage emotions, stress, and challenges.

## School Data Profile

### Theory of Action for 2023-2024

*If... All teachers develop a shared understanding of the MA DLCS standards and are coached and supported in integrating high-priority standards into existing disciplinary units*

*Then... Students will have relevant experiences that increase their digital literacy knowledge and skills*

*If... All educators develop a shared vision of equitable and inclusive communities/classrooms and have designated time to grapple with issues of unconscious bias and antiracist education*

*AND.. if educators consistently provide opportunities for students to see representations of individuals who are not like them and individuals who are like them in classrooms, content, and curriculum*

*Then... All students will feel connected, valued, welcome and contributing to our schools.*

*If ... Educators within and across schools develop a shared understanding of a common framework about how we support social and emotional learning and align curriculum and instruction to that framework through collaborative decisions about a District approach to SEL*

*Then.. Students will access strategies and skills to manage social and emotional challenges in support of their mental and physical wellbeing and learning.*
