

International Leadership of Texas Child Nutrition Department

Student Account Restriction Form

Request for Restricted Use of Student Account

Student's Name: _____

Grade: _____

ID number: _____

School: _____

Cafeteria accounts can be used for meals, and a la carte purchases. In addition, students who do not have money are allowed to charge up to \$11.00 for a reimbursable meal. If you wish to restrict any of these features on your student's account please complete the request below and indicate which applies. Return the signed form to your Cafeteria Manager or email it to: childnutrition@iltexas.org.

Please restrict my child's cafeteria account usage as follows:

- No a la carte or additional items other than meals can be purchased.
- No meals or ala carte can be purchased from his/her account. My student will pay cash for all transactions. However, if he does not have money, or a lunch from home I would like him/her to be able to charge and pay it tomorrow.
- My student should not be allowed to charge anything (meals or ala carte) to his account even when he does not have money, no exceptions. Please remove the restrictions from my child's account.

I understand my student's account in the Point of Sale System is set with the restriction indicated above. The restriction can only be removed by a written and signed request. The restrictions will carry over from year to year, unless removed by written request.
