

Mineral County School District Vision and Strategic Plan

2023-2029

Mineral County School District Vision and Strategic Plan

This new vision and strategic plan was developed in partnership with students, parents, staff, and community members throughout Mineral County from February through May of 2023. Mineral County School District leaders, community members, and members of the TNTP team listened to community members' hopes and dreams for students and developed a new vision to guide the work of the district. A core design team and advisory team reviewed data and reflected on our district's strength and areas to improve. The teams developed priorities, goals and actions to realize the new vision in the strategic planning documents below. These plans will go to the Mineral County School District Board of Trustees for approval in June, 2023. The Mineral County School District team will begin implementing these plans once they are approved.

Thank you for everyone's engagement in this process!
