District Goals 2013-2014

1. The Tewksbury Township Board of Education is committed to improving the education of each student in the district. In support of improving student achievement, the district is embarking on a multi-year program of curriculum and instruction improvement.

The Board believes that improvement will occur first through having comprehensive, consistent data to measure student and organizational growth to improve instruction, revise curriculum, and guide professional development.

In the first year, the focus will be on inventorying the availability of assessment data and developing an appropriate new measurement framework. Future years will focus on using the framework to change instructional methods and enhance resources with the goal of improving the education of each student in the district.

2. The Tewksbury Township Board of Education is committed to open communication with parents, teachers and the community.

In support of this objective, the Board has established a goal of improving communication with all interested parties. This will include but is not limited to using technology to enhance communication, more consistent outreach to the community through press releases and district letters, and improving information available on the website.

Board of Education Goals 2013-2014

1. Improve communication between committees and the Board. Ensure that the website is appropriately updated for all meetings. Use technology to improve the communication with parents and the community about Board of Education activities.

2. Establish goals for all committees of the Board. Use these goals to improve the effectiveness of meetings and as a basis of communication with the Board about committee activities.
