We are almost 2 months into the 2023-2024 school year and your students are excelling well. Staff is continuously working overtime to make this the best year for your scholars. We have been and is continuing to dedicate character camp throughout the school year. We'll continue to instill into scholars classroom culture, classroom etiquette, and routines and procedures. Please encourage your children to stay positive as teachers will continue to be firm with rules and continue to reinforce the expectations of the classroom and academy!

We take safety and academics very serious at DEPSA. During the school year, we will continue practicing fire, tornado, and active shooting drills. Emergencies can happen at any time. These drills are to help prepare students to know what to do.

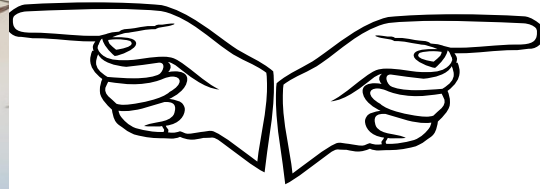

Please continue to instill into you children respect, active listening and keeping their hands to themselves at home. We all want to create healthy, respectful and safe environments for not only your children but also staff. Getting to know who they are and what triggers some of their behaviors help a lot. When having issues with the students during learning we will use the following tactics below:

- Teachers will follow the discipline progress plan
- Use teacher/buddy plan
- Provide points on deans list and
- Celebrate students when they meet expectations

Celebrating students will give them the motivation to continue to do better.
