

## Dr. McGloin's Goals (2023-24)

1. **Academic Achievement** – Dr. McGloin shall evaluate student achievement and growth using multiple data sources including standardized assessments and locally created measures. Both whole group and subgroup achievement and growth will be assessed to create a plan for continual progress.
2. **Instructional Coaching** – Dr. McGloin will work with technology integrator and interventionist to create a coaching model that focuses in improving Tier I instructional strategies and UDL in the classroom as well as building teaching capacity.
3. **MTSS Implementation** – Dr. McGloin will create a cohesive message for the MTSS implementation that includes continued professional development and a firmer understanding of MTSS behavioral matrix and tiers of intervention for both academics and behavior.
