Principal: Dan Hartman
School counselor: Brittany Shank

Cross Creek Elementary is a PK-4 school serving 490 students. Located in Eastern Ohio, our student population comes from several towns in Jefferson County.

As an elementary school, we strive to support the whole child through academics, service learning and community support. Our academics include an emphasis on reading and math. Licensed educators engage students in small groups, whole class and individualized instruction. The collaborative learning pod design allows teachers and students to learn in a brand new state of the art facility. Students at Cross Creek Elementary receive high quality instruction in technology, art, music, physical education. Our commitment to early childhood education has resulted in earning the highest recognition from the Ohio Department of Education. As a result, Cross Creek Elementary is a five star Step up to Quality award winner.

Students are encouraged to get involved in service learning fundraising for the United Way, preparing and distributing Valentines to a local nursing home and honoring law enforcement officers. Students support the community inside and outside the school through recycling and collecting food for needy families.

Our PTO (parent/teacher organization) is a vital part in connecting with the community. The PTO supports student success and our teacher efforts during the year through special events.

We are proud to partner with our local families in the education process. We continue to focus on the positive as we deliver solid instruction to our PK-4 students.
