1	Student Achievement	Pharr-San Juan- Alamo provides the campus with a standards-aligned Guaranteed and Viable Curriculum (GVC) and scope and sequence. The district curriculum is developed and adjusted after the district content. based assessments and benchmark data are analyzed. The development and adjustment of the district curriculumis led by the C & I department and includes teachers, district content coordinators, and district Executive Officers for each level. The district also provides teachers and campus leaders access to assessments aligned to the standards and expected levels of rigor. A data assessment platform to capture immediate assessment data by item and student is inclusive as part of the curriculum practices and curriculum implementation. In addition:  Curriculums and assessments are aligned to Texas Essential Knowledge and Skills (TEKS) and included in a year-long scope and sequence.  The scope and sequence, units of study, and assessments are aligned to the standards for all state assessed subjects and grade levels in grades Pk-2nd, 3rd-5th, middle and high school.  Assessments that are aligned to state standards at the appropriate level of rigor are administered strategically throughout the year to determine student progress. Corrective instruction is built into the curriculums and scope and sequence.  Instructional materials with key ideas, essential questions, and recommended materials including content-rich texts, are used across classrooms. The instructional materials includeresources intentionally designed to meet the needs of students with disabilities and English learners among other student groups.  Professional development is provided throughout the year in response to classroom observations, formative assessments and campus performance.  A Comprehensive Student CCMR Advising Model is implemented for students in grades 8-12 that includes transition to Post-Secondary and Post-Secondary Year handoff to college/university faculty. As a result, there will be an increase of successful completion of CCMR stud	The area of literacy, specifically in reading comprehension and writing has been a challenge district-wide and great emphasis and resources are being dedicated to this area of need.  All students may not be able to engage effectively in remote learning. Teachers meeting students' academic and virtual needs  Student reading on level by third grade is an area that we as the district continue to work on and monitor.  Developmental writing must be taught at all grade levels whether it is assessed at the state level or not.  Professional development for teaching writing must be provided at all grade levels.  Campus schedules need to reflect a dedicated time for writing instruction at all campuses  Middle school blocked reading and writing instruction must be monitored each year for effective implementation.  Elementary, Middle and High School Reading, Writing and Mathematics curriculums must be monitored each year for alignment and effectiveness.  Train teachers on curriculum effectiveness.  CCMR dashboard needs to be monitored and utilized for successful CCMR Plan completion of ALL students in 9-12.  Students at the lower third quartile have not been strategically monitored to earn industry-based certificates and earn 9 hours in any subject.  The TSI Student Success Intervention Plan must be implemented with fidelity at all high schools with proper tutorials/interventions between assessment. Students being TSI ready requirements is a continued challenge.
