

AMERICANS WITH DISABILITIES ACT (ADA) REASONABLE ACCOMMODATION REQUEST FORM

The purpose of this form is to assist Harrison School District Two in determining whether, or to what extent, a reasonable accommodation is required for an employee with a disability to perform one or more essential functions of their job safely and effectively. This form must be filed separately from the employee's personnel file and be treated confidentially.

Instructions/Process:

- The employee must first complete Page 2 of this packet.
- The employee will then submit this packet to their medical professional, who will complete the remainder of the pages. The packet should include a copy of the employee's job description, which can be obtained from the Human Resources Department.
- The medical professional must sign and date the last page of this form.
- Upon receiving the completed packet from their medical professional, the employee will submit the packet to the District's ADA Compliance Officer.
- The completed packet will be reviewed by the District's ADA Compliance Officer. The ADA Compliance Officer will contact the employee and/or medical professional for any additional information or documentation needed, and consult with the employee's supervising administrator to determine reasonable accommodations.
- The ADA Compliance Officer will inform the employee and the employee's supervising administrator of any findings and/or approved accommodations.
- Questions regarding this process should be addressed to the ADA Compliance Officer, Dr. Mike Claudio, at 719-579-2018 or mclaudio@hsd2.org.

Information Pertaining to Medical Documentation:

In the context of assessing an accommodation request, medical documentation may be needed. Medical documentation is often needed to determine if the employee has a disability covered by the ADA and is entitled to an accommodation (i.e., has a permanent disability, as distinguished from temporary disability, that substantially limits one or more major life activities, affects the employee's ability to perform essential job functions, and is of sufficient severity) and if so, to help identify an effective accommodation.

Generally, in the context of an accommodation, medical inquiries related to an employee's disability and functional limitations are permissible and may include consultations with knowledgeable professional sources, such as doctors, occupational and physical therapists, rehabilitation specialists, and organizations with expertise in adaptations for specific disabilities. The employee should submit this form to their medical professional to obtain the needed medical documentation. The employee has the responsibility to ensure that the medical professional follows through on requests for medical information.
