

How do I get help in math?

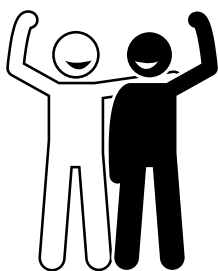

Talk to your teacher

Your teacher can provide you with additional support in class and also connect you with resources outside class.

Visit the Math Lab

The Math Lab (A263) is open before, during and after school for drop in support. This is a great place to bring specific questions from class or homework.

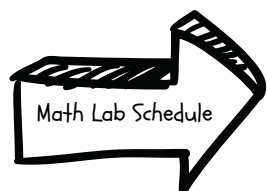

Request a Peer Tutor

If you'd like a little more one-on-one attention, a peer tutor is great option!

Algebra 1 drop in support is also available Monday-Thursday after school in A272

Ask About Math Support

Math Support is a class that meets during half of your lunch. It is available for students in Algebra 1, Geometry, Algebra 2 w/Trig, or Precalculus. Ask your math teacher if you'd like to learn more!
