REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Stevens Point Area Public School District, Stevens Point, Wisconsin (the "District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8 and the budgetary comparison information and the schedules relating to pensions and other postemployment benefits on pages 40 through 42 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The financial information listed in the table of contents as supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards and schedule of expenditures of state awards are presented for purposes of additional analysis, as required by Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration and are also not a required part of the basic financial statements.

The supplementary information and the schedules of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedules of expenditures of federal and state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

REPORT ON SUMMARIZED FINANCIAL INFORMATION

We have previously audited the District's 2017 financial statements, and our report dated November 9, 2017, expressed unmodified opinions on those respective financial statements of the governmental activities, each major fund and the aggregate remaining fund information. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2017, is consistent, in all material respects, with the audited financial statements from which it has been derived.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

June 30, 2018

As management of the Stevens Point Area Public School District, we offer readers of the District's basic financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2018.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources as of June 30, 2018 by \$57,361,033 (*net position*).
- As of June 30, 2018, the District's governmental funds reported combined ending fund balances of \$49,867,674 an increase of \$24,053,822 in comparison with the prior year. Approximately 47% of this total amount, \$23,329,605 is *available for spending* at the District's discretion (*unassigned fund balance*).
- The District's total general obligation debt increased \$24,890,000 during 2017-18.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

District-wide financial statements. The *district-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, liabilities and deferred inflows and outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. (e.g., earned but unused vacation leave.)

Both of the district-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the District include the District's basic services, such as regular and special education and various support services. The District has no business-type activities.

The district-wide financial statements can be found on pages 9 - 10 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the district-wide financial statements. However, unlike the district-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

It is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the district-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund and the Other Capital Projects Fund. Data from the other five governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for all its governmental funds. As part of the required supplementary information, budgetary comparison statements have been provided for the general fund to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 11 - 14 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the district-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The accounting used for fiduciary funds is much like that used for the district-wide statements.

The basic fiduciary fund financial statements can be found on pages 15 - 16 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the basic financial statements can be found on pages 17 - 37 of this report.

Other information. Required supplementary information and the combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the basic financial statements. These statements and schedules can be found on pages 38 - 49.

District-wide Financial Analysis

Net position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$57,361,033 at the close of 2018.

Stevens Point Area Public School District (in thousands of dollars)		
	Governmental Activities	
	2018	2017
Current and other assets	\$ 67,412	\$ 34,100

Restricted	3,086	1,719
Unrestricted	26,738	28,271
Total Net Position	\$ 57,361	\$ 60,158

The largest portion of the District's net position (48%) reflects its investment in capital assets (e.g. land, buildings, and machinery and equipment, etc.); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although, the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position (5%) represents resources that are subject to external restrictions on how they may be used.

Change in net position. Governmental activities decreased the District's net position by \$2,797,212. A summary of the statement of activities follows:

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of June 30, 2018, the District's governmental funds reported combined ending fund balances of \$49,867,674, an increase of \$24,053,822 in comparison with the prior year. Approximately 47% of this amount, \$23,329,605 constitutes *unassigned fund balance*, which is available for spending at the District's discretion. The remainder of fund balance is *nonspendable, assigned or restricted* to indicate that it is not available for new spending.

The general fund is the main operating fund of the District. At the end of the current year, unassigned fund balance of the general fund was \$23,329,605. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 27% of total general fund expenditures.

The fund balance of the District's general fund decreased \$716,924 during the current year.

General Fund Budgetary Highlights

Generally the original budget is rarely modified. Changes in budgeted revenues and expenditures can be briefly summarized as follows:

Revenues	\$ 51,241
Expenditures	(69,711)
Other financing sources (uses)	18,470
	<u>\$ -</u>

During the year, actual revenues were less than budgeted revenues by \$335,563 primarily in interdistrict sources, state sources, and federal sources, while other local sources were above budget. Actual expenditures exceeded budgeted expenditures by \$74,618 with non-program and instruction expenditures exceeding budget by \$299,820 and \$200,131, respectively, while support service functions were under budget by \$424,975.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of June 30, 2018 amounts to \$36,910,400 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, and machinery and equipment. The net increase in the District's investment in capital assets for the current year was \$1,318,624.

Major capital assets acquired or constructed during the year include:

Building Improvements (ongoing projects)	\$ 2,438,588
Machinery and Equipment	1,844,922
	<u>\$ 4,283,510</u>

Stevens Point Area Public School District (net of accumulated depreciation)

Machinery and equipment	4,964,133	4,729,578
Total	<u>\$ 36,910,400</u>	<u>\$ 35,591,776</u>

Long-term debt. At the end of the current fiscal year, the District had total general obligation debt outstanding of \$29,475,000.

Stevens Point Area Public School District		
General Obligation Debt		
	Governmental Activities	
	2018	2017
General Obligation Debt		
Bonds	\$ 25,600,000	\$ -
Notes	3,875,000	4,585,000
Total General Obligation Debt	\$ 29,475,000	\$ 4,585,000

The District's total general obligation debt increased by \$24,890,000 during the current fiscal year.

State statutes limit the amount of general obligation debt the District may issue to 10% of its total equalized valuation. The current debt limitation for the District is \$439,547,930, which is significantly in excess of the District's \$29,475,000 in outstanding general obligation debt.

Factors Bearing on the District's Future

The District is seeking referendum approval of voters in the amount of \$75.9 million to address deferred maintenance and infrastructure needs.

The lack of financial support from the state via the revenue limit and other aid programs, and the inability of the Board to set the levy at the amount necessary to meet its needs, creates ongoing financial challenges that impede the educational mission of the District.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Director of Business Services, Stevens Point Area Public School District, 1900 Polk Street, Stevens Point, WI or by calling (715) 345-5432.

Stevens Point, Wisconsin

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Stevens Point Area Public School District, Stevens Point, Wisconsin (the "District"), have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below:

A. REPORTING ENTITY

The District is organized as a unified school district. The District, governed by an elected nine member board, operates grades 4K through 12 and is comprised of all or parts of eighteen taxing districts. In accordance with GAAP, the basic financial statements are required to include the District and any separate component units that have a significant operational or financial relationship with the District. The District has not identified any component units that are required to be included in the basic financial statements in accordance with standards established in GASB Statement No. 61.

B. DISTRICT-WIDE AND FUND FINANCIAL STATEMENTS

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for services. The District has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Governmental funds include general, special revenue, debt service and capital projects funds. The District has no proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund

This is the District's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

Other Capital Projects Fund

This fund accounts for the acquisition or construction of major capital facilities.

Additionally, the District reports the following fund types:

- ▶ The *employee benefit trust fund* is used to account for resources legally held in trust for other postemployment benefits.
- ▶ The District accounts for assets held as an agent for various student and parent organizations in an *agency fund*.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The district-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes are recognized as revenue in the fiscal year for which taxes have been levied. Tuition, grants, fees and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when the cash is received by the District.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, and fees and fines, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR FUND BALANCE

1. Cash and Investments

Cash and investments are combined in the financial statements. Cash deposits consist of demand and time deposits with financial institutions and are carried at cost. Investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

2. Property Taxes

The aggregate District tax levy is apportioned and certified in November of the current fiscal year for collection to comprising municipalities based on the immediate past October 1 full or "equalized" taxable property values. As permitted by a collecting municipality's ordinance, taxes must be paid in full or in two or more installments with the first installment payable the subsequent January 31 and a final payment no later than the following July 31. On or before January 15, and by the 20th of each subsequent month thereafter, the District is paid by the collecting municipalities its proportionate share of tax collections received through the last day of the preceding month. On or before August 20, the county treasurer makes full settlement to the District for any remaining balance.

Property taxes are recognized as revenue in the fiscal year levied as they are considered due as of January 1, the date from which interest and penalties accrue for non-payment of a scheduled installment, and full receipt of the entire levy is assured within sixty days of fiscal year end, meeting the availability criteria necessary for property tax revenue recognition by accounting principles generally accepted in the United States of America.

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

3. Accounts Receivable

Accounts receivable are recorded at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that the amount of such allowance would not be material to the basic financial statements.

4. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” and “due to other funds” in the fund financial statements.

5. Inventories

Inventories are recorded at cost, which approximates market, using the first-in, first-out method. Inventories consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed rather than when purchased.

Inventories of governmental funds in the fund financial statements are offset by nonspendable fund balance to indicate that they do not represent spendable available financial resources.

6. Prepaid Items

Payments made to vendors that will benefit periods beyond the end of the current fiscal year are recorded as prepaid items and are accounted for on the consumption method.

Prepaid items of governmental funds in the fund financial statements are offset by nonspendable fund balance to indicate that they do not represent spendable available financial resources.

7. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the district-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or higher and an estimated useful life in excess of a year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

	Governmental Activities
Assets	Years
Land improvements	20 - 25
Buildings	40
Machinery and equipment	5 - 15

8. Compensated Absences

It is the District’s policy to permit employees to accumulate earned but unused vacation benefits in accordance with employee handbook policies and/or bargaining unit agreements. All vacation balances are accrued when incurred in the district-wide financial statements. A liability for these amounts is reported in the governmental funds in the fund financial statements only if they have matured, for example, as a result of employee resignations and retirements.

Stevens Point Area Public School District

Stevens Point, Wisconsin

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

9. Deferred Outflows/Inflows of Resources

Deferred outflows of resources are a consumption of net position by the government that is applicable to a future reporting period. Deferred inflows of resources are an acquisition of net position by the government that is applicable to a future reporting period. The recognition of those outflows and inflows as expenses or expenditures and revenues are deferred until the future periods to which the outflows and inflows are applicable.

10. Long-term Obligations

In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

11. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

12. Other Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Other Postemployment Benefit Plan (the "Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

13. Fund Equity

Governmental Fund Financial Statements

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- ▶ **Nonspendable fund balance.** Amounts that are not in spendable form (such as inventory, prepaid items, or long-term receivables) or are legally or contractually required to remain intact.
- ▶ **Restricted fund balance.** Amounts that are constrained for specific purposes by external parties (such as grantor or bondholders), through constitutional provisions, or by enabling legislation.
- ▶ **Committed fund balance.** Amounts that are constrained for specific purposes by action of the Board of Education. These constraints can only be removed or changed by the Board of Education using the same action that was used to create them.
- ▶ **Assigned fund balance.** Amounts that are constrained for specific purposes by action of District management. The Board of Education has authorized the Director of Business Services to assign fund balance. Residual amounts in any governmental fund, other than the General Fund, are also reported as assigned.

Stevens Point Area Public School District

Stevens Point, Wisconsin

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

- ▶ **Unassigned fund balance.** Amounts that are available for any purpose. Positive unassigned amounts are only reported in the General Fund.

The District has adopted a fund balance spend-down policy regarding the order in which fund balance will be utilized. Where applicable, the policy requires restricted funds to be spent first, followed by committed funds, and then assigned funds. Unassigned funds would be spent last.

District-wide Fund Statements

Equity is classified as net position and displayed in three components:

- ▶ **Net investment in capital assets.** Amount of capital assets, net of accumulated depreciation, and capital related deferred outflows of resources less outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets and any capital related deferred inflows of resources.
- ▶ **Restricted net position.** Amount of net position that is subject to restrictions that are imposed by 1) external groups, such as creditors, grantors, contributors or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- ▶ **Unrestricted net position.** Net position that is neither classified as restricted nor as net investment in capital assets.

E. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

F. PRIOR YEAR INFORMATION

Comparative amounts for the prior year have been presented in the basic financial statements to provide an understanding of changes in the District's financial position and operations. The comparative amounts may be summarized in total and not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended June 30, 2017, from which the summarized information was derived.

G. RECLASSIFICATIONS

Certain amounts in the prior year financial statements have been reclassified to conform with the presentation in the current year financial statements with no change in previously reported net position, changes in net position, fund balance or changes in fund balance.

NOTE 2: DETAILED NOTES ON ALL FUNDS

A. CASH AND INVESTMENTS

The debt service funds account for their transactions through separate and distinct bank and investment accounts as required by State Statutes. In addition, the agency fund uses separate and distinct accounts. All other funds share in common bank and investment accounts.

Invested cash consists of deposits and investments that are restricted by Wisconsin Statutes to the following:

Time deposits; repurchase agreements; securities issued by federal, state and local governmental entities; statutorily authorized commercial paper and corporate securities; and the Wisconsin local government investment pool. Investments in the private-purpose and employee benefit trust fund may be invested in other types of investments as authorized under Wisconsin Statute 881.01, "Uniform Prudent Investor Act".

Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs. The District has the following fair value measurements as of June 30, 2018:

	Fair Value Measurements Using:		
	Level 1	Level 2	Level 3
Investments			
Exchange traded funds	<u>\$ 2,038,175</u>	<u>\$ -</u>	<u>\$ -</u>

Deposits and investments of the District are subject to various risks. Presented below is a discussion of the District's deposits and investments and the related risks.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Wisconsin statutes require repurchase agreements to be fully collateralized by bonds or securities issued or guaranteed by the federal government or its instrumentalities. The District does not have an additional custodial credit policy.

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

Deposits with financial institutions within the State of Wisconsin are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for the combined amount of all time and savings deposits and \$250,000 for interest-bearing and noninterest-bearing demand deposits per official custodian per insured depository institution. Deposits with financial institutions located outside the State of Wisconsin are insured by the FDIC in the amount of \$250,000 for the combined amount of all deposit accounts per official custodian per depository institution. Deposits with credit unions are insured by the National Credit Union Share Insurance Fund (NCUSIF) in the amount of \$250,000 per credit union member. Also, the State of Wisconsin has a State Guarantee Fund which provides a maximum of \$400,000 per public depository above the amount provided by an agency of the U.S. Government. However, due to the relatively small size of the State Guarantee Fund in relation to the Fund's total coverage, total recovery of insured losses may not be available. This coverage has been considered in determining custodial credit risk.

As of June 30, 2018, \$143,752 of the District's deposits with financial institutions were in excess of federal and state depository insurance limits. No amounts were collateralized.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Wisconsin statutes limit investment in securities to the top two ratings assigned by nationally recognized statistical rating organizations. Presented below is the actual rating as of the year-end for each investment type.

Investment Type	Amount	Exempt from Disclosure	AAA	Aa	Not Rated
Wisconsin Investment Series Cooperative					
Investment Series	\$ 37,803,220	\$ -	\$ -	\$ -	\$ 37,803,220
Cash Management Series	2,826,029	-	-	-	2,826,029
Totals	<u>\$ 40,629,249</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 40,629,249</u>

Exchange Traded Fund Transactions

Exchange traded funds (invested in the Employee Benefit Trust Fund) are considered equity investments not subject to credit risk.

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer. There were no investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District investments.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investment in Wisconsin Investment Series Cooperation

The District has investments in the Wisconsin Investment Series Cooperative (WISC) of \$48,707,649 at year-end consisting of \$37,803,220 invested in the Investment Series, \$2,826,029 invested in the Cash Management Series, and \$8,078,400 invested in certificates of deposit. The Cash Management Series has no minimum investment period, allows check writing privileges, and the average dollar weighted maturity is ninety (90) days or less. The Investment Series requires a 14 day minimum investment period and one business day withdrawal notice, and the average dollar weighted maturity is one hundred twenty (120) days or less.

WISC is organized by and operated exclusively for Wisconsin public schools, technical colleges, and municipal entities. WISC is not registered with the Securities and Exchange Commission, but operates under Wisconsin International Cooperative Statute, Wisconsin Statute, Section 66.031. WISC is governed by the Wisconsin Investment Series Cooperative Commission in accordance with the terms of the Intergovernmental Cooperation Agreement. WISC invests District funds in accordance with Wisconsin law. WISC investments are valued at amortized cost, which approximates market value.

F. PENSION PLAN

Plan Description

The WRS is a cost-sharing, multiple-employer, defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <http://etf.wi.gov/publications/cafr.htm>.

Stevens Point, Wisconsin

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and executive service retirement plan participants if hired on or before December 31, 2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service. The factors influencing the benefit are 1) final average earnings, 2) years of creditable service, and 3) a formula factor.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupation employees) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2007	3%	10%
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

Contributions

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and executives and elected officials. Starting on January 1, 2016, the executives and elected officials category was merged into the general employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period ending December 31, 2017, the WRS recognized \$3,156,201 in contributions from the District.

Contribution rates for the reporting period are:

Employee Category	Employee	Employer
General (including teachers, executives and elected officials)	6.8%	6.8%
Protective with Social Security	6.8%	10.6%
Protective without Social Security	6.8%	14.9%

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the District reported an asset of \$9,049,129 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2017, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2016 rolled forward to December 31, 2017. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension asset was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2017, the District's proportion was 0.30477494%, which was an increase of 0.0090481% from its proportion measured as of December 31, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$3,897,594.

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 11,497,144	\$ 5,377,983
Net differences between projected and actual earnings on pension plan investments	-	12,437,186

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

The \$1,677,508 reported as deferred outflows related to pension resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended June 30,	Expense
2018	\$ 951,406
2019	(114,674)

Actuarial Assumptions

The total pension liability in the December 31, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial valuation date:	December 31, 2016
Measurement date of net pension liability (asset):	December 31, 2017
Actuarial cost method:	Entry Age
Asset valuation method:	Fair Value
Long-term expected rate of return:	7.2%
Discount rate:	7.2%
Salary increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.6%
Mortality	Wisconsin 2012 Mortality Table
Post-retirement adjustments*	2.1%

- * No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2015 using experience from 2012 - 2014. The total pension liability for December 31, 2017 is based upon a roll-forward of the liability calculated from the December 31, 2016 actuarial valuation.

Long-term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Single Discount Rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long-term bond rate of 3.31%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan members contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.2 percent, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	<u>1% Decrease to Discount Rate (6.20%)</u>	<u>Current Discount Rate (7.20%)</u>	<u>1% Increase to Discount Rate (8.20%)</u>
District's proportionate share of the net pension liability (asset)	\$ 23,413,187	\$ (9,049,129)	\$ (33,721,495)

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2018

Payable to the Pension Plan

At June 30, 2018, the District reported a payable of \$922,818 for the outstanding amount of contributions to the pension plan for the year ended June 30, 2018.

G. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The Plan is a single-employer defined benefit postemployment health plan that covers retired employees of the District. Eligible retired employees have access to group medical coverage through the District's group plan. District paid medical benefits are paid for as indicated below. The plan is closed and eligible retirees receive grandfathered benefits that are no longer offered by the District.

Benefits Provided

Eligible retirees received grandfathered benefits that are no longer offered by the District. These benefits include medical/dental contributions subsidized by the District. Benefit amount and duration differ based on classification.

Employees Covered by Benefit Terms

At June 30, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	102
Active employees	0
	102

Contributions

Certain retired plan members and beneficiaries currently receiving benefits are required to contribute specified amounts monthly towards the cost of insurance premiums based on the employee group and their retirement date. District paid medical and dental benefits are paid until the retiree or surviving spouse becomes eligible for Medicare.

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018.

Actuarial Assumptions. The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation:	3.0% included in health care cost trend
Salary increases:	3.0%
Investment rate of return:	3.0%
Healthcare cost trend rates:	Medical: 9.0% decreasing by 1.0% every other year down to 5.0%, and level thereafter
Dental cost trend rates:	level at 5.0%

Mortality rates are based on Wisconsin Retirement System (WRS) 2009-11 Experience Mortality Rates – Healthy Lives.

The actuarial assumptions used in the June 30, 2018 valuation were based on the "Wisconsin Retirement System 2009-11 Experience Study".

The long-term expected rate of return on OPEB plan investments was valued at 3.0%. The 20 year tax-exempt AA Municipal bond rate as of the measurement date was used for all years of benefit payments.

Discount Rate. The discount rate used to measure the total OPEB liability was 3.0%. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 3: OTHER INFORMATION

A. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. The District completes an annual review of its insurance coverage to ensure adequate coverage. A description of the District's risk management programs is presented below:

Property and Liability Insurance

The District purchases commercial insurance policies for various property and other liability risks. Payments of premiums for these policies are also recorded as expenditures or expenses in the General Fund.

Self-funded Insurance Program

On July 1, 2014, the District established a self-funded dental benefit plan for its employees. The Plan Administrator, Delta Dental, is responsible for the approval, processing and payment of claims, after which they bill the District for reimbursement. The District is also responsible for a monthly administrative fee. The plan reports on a fiscal year ended June 30, 2018.

Accounting and budgeting requirements for the Plan are established by the Wisconsin Department of Public Instruction. Currently, the Plan is accounted for in the General Fund of the District.

The District has no stop-loss coverage for dental care coverage of the plan.

At June 30, 2018, the District has reported a liability of \$43,516 which represents reported and unreported claims which were incurred on or before June 30, 2018, but were not paid by the District as of that date. The amounts not reported to the District were determined by the Plan administrator. Changes in the claims liability for the years ended June 30, 2017 and June 30, 2018 are as follows:

	Liability July 1	Current Year Claims and Changes in Estimates	Claims Payments	Liability June 30
2017	\$ 43,351	\$ 559,219	\$ 559,274	\$ 43,296

B. CONTINGENCIES

The District participates in a number of federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Accordingly, the District's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

From time to time, the District is party to other various pending claims and legal proceedings. Although the outcome of such matters cannot be forecast with certainty, it is the opinion of management and legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the District's financial position or results of operations.

C. LIMITATION ON SCHOOL DISTRICT REVENUES

Wisconsin Statutes limit the amount of revenues a school district may derive from general school aids and property taxes unless a higher amount is approved by a referendum.

This limitation does not apply to revenue needed for payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- ▶ A resolution of the school board or by referendum prior to August 12, 1993.
- ▶ A referendum on or after August 12, 1993.

D. UPCOMING ACCOUNTING PRONOUNCEMENTS

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The statement establishes criteria for identifying fiduciary activities and addresses financial reporting for these activities. This statement is effective for reporting periods beginning after December 15, 2018. The District is currently evaluating the impact this standard will have on the financial statements when adopted.

In June 2017, the GASB issued Statement No. 87, *Leases*. The statement establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. This statement is effective for reporting periods beginning after December 15, 2019. The District is currently evaluating the impact this standard will have on the financial statements when adopted.

E. COMMITMENTS

The District has active construction projects as of June 30, 2018. Work that has been completed but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures. Estimated future costs to complete the construction projects is approximately \$23,000,000.

F. SUBSEQUENT EVENTS

The voters of the District approved two referendums. The first was in the amount of \$3,500,000 to exceed revenue limits for operating purposes. The second was in the amount of \$75,900,000 for capital improvements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

JUNE 30, 2018

A. WISCONSIN RETIREMENT SYSTEM

There were no changes of benefit terms for any participating employer in the WRS.

The amounts reported for each fiscal year were determined as of the calendar year-end that occurred within the fiscal year. The District is required to present the last ten fiscal years of data; however accounting standards allow the presentation of as many years as are available until ten fiscal years are presented.

B. BUDGETS AND BUDGETARY ACCOUNTING

Operating budgets are adopted each fiscal year for all governmental funds in accordance with Section 65.90 of the Wisconsin Statutes. Budgetary expenditure control is exercised at the function level. Reported budget amounts are as originally adopted or as amended by Board of Education resolution.

The District follows these procedures in establishing the budgetary data reflected in the basic financial statements.

- ▶ Based upon requests from District staff, District administration recommends budget proposals to the Board of Education.
- ▶ The Board of Education prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 fiscal year.
- ▶ A public notice is published containing a summary of the budget and identifying the time and place where a public hearing will be held on the proposed budget.
- ▶ Pursuant to the public budget hearing, the Board of Education may make alterations to the proposed budget.
- ▶ Once the Board of Education (following the public hearing) adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire Board of Education.
- ▶ Appropriations lapse at year end unless authorized as a carryover by the Board of Education. The portion of fund balance representing carryover appropriations is reported as a committed or assigned fund balance in the fund financial statements.
- ▶ Encumbrance accounting is used by the District as an extension of formal budgetary control during the year.
- ▶ The DPI requires the District to separate special education revenues and expenditures from other General Fund amounts.

The District did not have any material violation of legal or contractual provisions for the fiscal year ended June 30, 2018.

ADDITIONAL INDEPENDENT AUDITORS' REPORT
FOR BASIC FINANCIAL STATEMENTS

Independent auditors' report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*

To the Board of Education
Stevens Point Area Public School District
Stevens Point, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Stevens Point Area Public School District, Stevens Point, Wisconsin (the "District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 21, 2018.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2018-001 that we consider to be a significant deficiency.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

STEVENS POINT AREA PUBLIC SCHOOL DISTRICT'S RESPONSE TO FINDING

The District's response to the finding identified in our audit is described in the accompanying schedule of prior year audit findings and corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FEDERAL AND STATE AWARDS

Independent auditors' report on compliance for each major federal and state program and on internal control over compliance required by the Uniform Guidance and the *State Single Audit Guidelines*

To the School Board
Stevens Point Area Public School District
Stevens Point, Wisconsin

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM

We have audited Stevens Point Area Public School District, Stevens Point, Wisconsin's (the "District's") compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2018. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

MANAGEMENT'S RESPONSIBILITY

Management is responsible for compliance with the requirements of federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration. Those standards, Uniform Guidance and the *State Single Audit Guidelines* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

OPINION ON EACH MAJOR FEDERAL AND STATE PROGRAM

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2018.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS FOR THE YEAR ENDED JUNE 30, 2018

NOTE 1: BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal and state awards for the Stevens Point Area Public School District are presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration.

The schedules of expenditures of federal and state awards include all federal and state awards of the District. Because the schedules present only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Revenues and expenditures in the schedules are presented in accordance with the modified accrual basis of accounting and are generally in agreement with revenues and expenditures reported in the District's 2018 fund financial statements. Accrued revenue at year-end consists of federal and state program expenditures scheduled for reimbursement to the District in the succeeding year while unearned revenue represents advances for federal and state programs that exceed recorded District expenditures. Because of subsequent program adjustments, these amounts may differ from the prior year's ending balances.

The District has not elected to charge a de minimis rate of 10% of modified total costs.

NOTE 3: SPECIAL EDUCATION AND SCHOOL AGE PARENTS PROGRAM

The 2017 - 2018 eligible costs under the State Special Education Program as reported by the District are \$13,128,438. Compiled information required by compliance requirement 1-1 of the Special Education Audit Program was reported to the Wisconsin Department of Public Instruction.

NOTE 4: FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule of expenditures of federal awards at the fair market value of the commodities received and disbursed.

NOTE 5: OVERSIGHT AGENCIES

The federal and state oversight agencies for the District are as follows:

Federal - U.S. Department of Education

State - Wisconsin Department of Public Instruction

NOTE 6: PASS THROUGH ENTITIES

Federal awards have been passed through the following entities:

SECTION II: FINANCIAL STATEMENT FINDINGS

FINDING NO.	CONTROL DEFICIENCIES
2018-001	Preparation of Annual Financial Report Repeat of Finding 2017-001
Condition:	Current District staff maintains accounting records which reflect the District's financial transactions; however, preparing the District's annual financial report, including note disclosures, involves the selection and application of specific accounting principles which would require additional experience and knowledge. The District contracts with us and our knowledge of applicable accounting principles, financial statement format, and note disclosures to assist in the preparation of the annual financial report in an efficient manner.
Criteria:	The preparation and review of the annual financial report by staff with expertise in financial reporting is an internal control intended to prevent, detect and correct a potential omission or misstatement in the financial statements or notes or other required state financial reports.
Cause:	District management has determined that the additional costs associated with training staff to become experienced in applicable accounting principles and note disclosures outweigh the derived benefits.
Effect:	Without our involvement, the District may not be able to completely prepare an annual financial report in accordance with accounting principles generally accepted in the United States of America.
Recommendation:	We recommend the District continue reviewing the annual financial report. While it may not be cost beneficial to train additional staff to completely prepare the report, a thorough review of this information by appropriate staff of the District is necessary to obtain a complete and adequate understanding of the District's annual financial report.

SECTION III: FEDERAL AND STATE AWARD FINDINGS AND QUESTIONED COSTS

There are no audit findings and questioned costs required to be reported under the Uniform Guidance and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration for the year ended June 30, 2018.
