# DOUGLAS COUNTY SCHOOL DISTRICT

Douglas County School District Named 2023 #1 School District in State of Nevada by Niche.com

(This is the 2nd year in a row DCSD has been ranked #1)

**Our Mission:** We will continually grow as an innovative education community, committed to the learning of all.

**Our Vision:** We will inspire, empower, and prepare each learner to achieve his/her aspirations.

## 2021-22 STUDENT PERFORMANCE DATA

## DCSD STUDENT ASSESSMENT OVERVIEW

**American College Testing (ACT)** – Nevada requires all high school juniors to take the ACT assessment, which is typically administered in early spring. The ACT is an entrance exam used by most colleges and universities to make admissions decisions. It is a multiple-choice, pencil-and-paper test. In the state of Nevada, the ACT is used to determine High School Math and English Language Arts proficiency. The ACT is a graduation requirement in the state of Nevada. All students are required to take the test, but there is no minimum score they must achieve.

There are four sections on the ACT exam, which include English, Reading, Math, and Science. Nevada also requires a 40-minute writing test. The total assessment time for all five (5) sections is 3 hours and 35 minutes long. Each section of the ACT is scored on a 1 to 36 point scale. A student's composite ACT score is the average of your four section scores, also on a scale from 1 to 36. DCSD students receive a separate score on the Writing Test. Nevada is one of 8 states in the United States that requires all juniors to take the test with writing.

**Advanced Placement (AP) Exam** - AP Exams are standardized exams, given every year in May, designed to measure how well a student has mastered the content and skills of a specific AP course. Most AP courses have an end-of-year exam, but a few courses have different ways to assess what a student has learned—for example, AP Art and Design students submit a portfolio of work for scoring.

AP exams are created and scored by teams of AP teachers and college professors. Most U.S. colleges grant credit, advanced placement, or both for qualifying AP scores.

**Smarter Balanced Consortium (SBAC) Assessment** – The SBAC assessment is aligned to Nevada Academic Content Standards and is a summative assessment given each spring to all students in grades 3 through 8. The assessment cannot be administered until at least 66% of a school's instructional days have been completed, which is typically after the 120<sup>th</sup> day of instruction. Students are assessed in the area of English Language Arts (ELA) and Mathematics. Each SBAC Assessment has an approximate testing time of four hours.

The SBAC Summative Assessments consist of two parts: a computer adaptive test (CAT) and a performance task. The CAT adjusts the difficulty of questions throughout the assessment based on the student's response in order to identify a student's threshold of knowledge. If a student answers a question correctly, the next question will be more challenging; if a student answers incorrectly, the next question will be less challenging. Results are reported in two ways: scale scores and achievement levels. A scale score is a student's overall numerical score on the assessment. Based on their scale scores, students fall into one of four categories of performance called achievement levels.

**Measures of Academic Progress (MAP) Assessment** – MAP assessments are computer adaptive achievement tests in Mathematics and Reading. The assessment is a norm-referenced measure of student growth in Mathematics and Reading over time that informs instruction by being nationally normed. MAP data allows teachers to track student progress throughout a year and across school years.

The MAP assessment is required for all students in the Fall and Spring, with the Winter administration being optional. The Fall assessment gathers baseline. The Winter assessment measures progress. The Spring assessment measures the students' growth to that point. The scale used to measure a student's progress is called the RIT scale, short for Rasch Unit (Rasch unit). The RIT scale is an equal-interval scale much like inches on a yardstick. It is used to chart a student's academic growth from year to year. The RIT is not a measure of mastery or a grade, rather it provides information about what a student is ready to learn.

A student is absent if they are not physically on school grounds and are not participating in instruction or instruction-related activities at an approved off-grounds location for the school day. **Chronically Absent** students include students who are absent for any reason (e.g., illness, suspension, the need to care for a family member), regardless of whether absences are excused or unexcused. Students who are absent 10% or more of their enrolled school days are considered chronically absent. As a result of the pandemic, chronic absenteeism has been waived for NSPF reporting but will be reported for EDfacts and the Nevada Report Card.

## DOUGLAS COUNTY SCHOOL DISTRICT 2022 STRATEGIC PLAN DATA

### ACADEMIC DATA – NVSEL Climate Survey Data

#### Background

The Nevada School Climate/Social Emotional Learning (NV-SCSEL) Survey was initiated by the State in response to Senate Bill 515, which passed in 2015 and created the Social Workers in Schools (SWxS) state block grant to place social workers or other licensed mental health workers “in schools with identified needs” and its requirement to award funding from the SWxS grant based on the needs of schools (and in alignment with the intent of Senate Bill 504 regarding safe and respectful learning environments)

The NV-SCSEL surveys also are aligned to Goal 6 of Nevada’s Statewide Plan for the Improvement of Pupils (STIP), which states that: All students and adults learn and work together in safe schools where identities and relationships are valued and celebrated.

Additionally, NRS 385A.650 requires school principals to submit a plan to improve the achievement of pupils, known as School Performance Plans (see also the Redesigned Continuous Improvement Process beta). The plan must include “*methods for evaluating and improving the school climate*” with school climate categorized into the following topics:

- relationships between pupils and the parents or legal guardians of pupils and educational personnel,
- the cultural and linguistic competence of instructional materials and educational personnel,
- the emotional and physical safety of pupils and educational personnel, and the
- social, emotional and academic development of pupils and educational personnel

The Nevada School Climate/Social Emotional Learning Survey (NV-SCSEL) is administered to students in grades 5<sup>th</sup> – 12<sup>th</sup> grade across the state of Nevada each spring, and is used by schools to measure and understand their students’ perceptions of key school climate topic areas, including physical and emotional safety, relationships, and cultural and linguistic competence, as well as students’ perceptions of their social and emotional competencies. In addition, data from the NV-SCSEL are used by the Nevada Department of Education (NDE) to help understand student needs across the state.

The following report is from the Fall 2021 administration of the NV-SCSEL survey, which was conducted in Douglas County School District from November 1, 2021 through December 3, 2021. Of 3,234 eligible students, 2,777 completed the survey, for a participation rate of approximately 86%.

**Understanding the Report** – Survey results are presented in scale scores ranging from 100 (low) to 500 (high), which can be interpreted as:

- 100 – 299: Least Favorable Conditions
- 300 – 400: Favorable Conditions
- 401 – 500: Most Favorable Conditions

## Douglas County School District Results

**Engagement – Cultural and Linguistic Competence** – Measures perceptions of how students, their peers, and school staff demonstrate empathy, understanding, and respect for different cultures and ethnic groups.

### District Results = 359

SES	CCMES	GES	MES	PHES	JVES	ZCES	PWLMS	CVMS	AAHS	DHS	GWHS
389	395	431	402	401	417	451	357	361	356	343	369

**Engagement – Relationships** – Measures the links and interactions between and among students, adults and peers in the school setting; relationships foster positive social interaction and establish a nurturing environment of trust and support.

### District Results = 349

SES	CCMES	GES	MES	PHES	JVES	ZCES	PWLMS	CVMS	AAHS	DHS	GWHS
368	370	408	386	379	383	407	342	346	355	343	353

**Safety – Physical Safety** – Refers to the protection of all stakeholders – including families, caregivers, students, school staff, and the community – from fear of or actual exposure to physical violence, theft, intimidation, intruders, harsh punishment, and weapons.

### District Results = 373

SES	CCMES	GES	MES	PHES	JVES	ZCES	PWLMS	CVMS	AAHS	DHS	GWHS
399	415	500	448	473	409	464	370	368	395	350	418

**Safety – Emotional Safety** – Refers to the range of experiences in which an individual feels open to express emotions, trusts those around him, exhibits confidence, and feels excited to try something new.

### District Results = 337

SES	CCMES	GES	MES	PHES	JVES	ZCES	PWLMS	CVMS	AAHS	DHS	GWHS
360	360	404	371	393	373	404	331	336	347	325	342

**Social and Emotional Competence** – Refers to the process through which children and adults acquire and apply the knowledge, attitudes, and skills necessary to manage emotions, set and achieve positive goals, feel and exhibit empathy for others, maintain positive relationships, and make responsible decisions. Social Emotional Learning is fundamental not only to children’s social and emotional development, but also to their health, ethical development, citizenship, motivation to achieve, and academic learning.

**Note:** The scores below reflect the percentage of positive responses in student reports of their social and emotional competencies.

### District Results = 70

## 2021-22 EDUCATION RANKINGS

# DOUGLAS COUNTY SCHOOL DISTRICT

## QUALITY COUNTS - STATE EDUCATION RANKINGS

**Introduction:** Quality Counts is Education Week's annual report card grading the nation and the states on their performance in K-12 education. Since 1997, Quality Counts has provided the critical indicators that educators, policymakers, and the general public need to evaluate strengths and weaknesses in the education systems that serve our nation's students. Beginning in 2018, the report card has been published in three annual installments based on exclusive data from the EdWeek Research Center. The January installment features grades on the Chance-for-Success Index. In June, the report card examines state-by-state results in school finance. The September publication focuses on the K-12 Achievement Index and provides overall grades. Edweek will not be publishing a January 2022 installment due to the pandemic's impact on data collection for the federal databases on which the grading relies.

Year	Chance of Success	School Finance	K-12 Achievement	Overall
2021	50th	49th	18th	50th
2020	50th	48th	18th	49th
2019	50th	48th	35th	50th
2018	50th	48th	40th	51st
2017	50th	47th	38th	51st
2016	51st	46th	38th	51st

The **Chance for Success** index combines information from 13 indicators that span a person's life from cradle to career. The Chance-for-Success framework allows states to identify strong and weak links in their residents' educational life course—their typical trajectory from childhood through adulthood. More importantly, the index also provides information that could be used to target the efforts of public education systems in ways that better serve students of all ages. The 13 indicators are broken into three groups: 1) Early Foundations, which includes Family Income, Parent Education, Parental Employment, Linguistic Integration, 2) School Years, which includes Preschool Enrollment, Kindergarten Enrollment, Elementary Reading, Middle School Mathematics, High School Graduation, Postsecondary Participation, and 3) Adult Outcomes, which includes Adult Educational Attainment, Annual Income, and Steady Employment.

The **School Finance** index combines information from 8 indicators, which include the following:

1. **Wealth-Neutrality Score** - Relationship between district funding and local property wealth
2. **McLoone Index** - Actual spending as percent of amount needed to bring all students to median level
3. **Coefficient of Variation** - Amount of disparity in spending across districts within a state
4. **Restricted Range** - Difference in per-pupil spending levels at the 9th and 5th percentiles
5. **Adjusted per-pupil expenditures (PPE)** - Analysis accounts for regional cost differences
6. **Students funded at or above national average** - Percent of students in districts with PPE at or above U.S. Average
7. **Spending Index** - Per-pupil spending levels weighted by the degree to which districts meet or approach the national average for expenditures
8. **Spending on Education** - State expenditures on K-12 schooling as a percent of state taxable resources

The **K-12 Achievement** index examines 18 distinct state achievement measures related to reading and math performance, high school graduation rates, and the results of Advanced Placement exams. The index assigns equal weight to current levels of performance and changes over time. It also places an emphasis on equity, by examining both poverty-based achievement gaps and progress in closing those gaps. The 18 achievement measures include 4th and 8th grade Math and Reading Achievement Levels, 4th and 8th grade Math and Reading Achievement Gains, Performance in closing the Poverty Gap, Achieving Excellence in Math, High School Graduate rates and changes in rates, and Advanced Placement test scores and changes in AP scores.

<sup>1</sup> In 2014-15, Nevada moved to the Smarter Balanced Assessment Consortium (SBAC) for grades 3-8 Math and ELA assessment. The SBAC was Nevada's first online standardized assessments. Due to software issues that prevented two-thirds of Nevada's students from being assessed, the State Board of Education waived accountability measures.

<sup>2</sup> The High School Proficiency Exam (HSPE) in Mathematics, Reading and Science and the Writing Assessment, given to 11th graders, was offered four (4) times throughout the year. Students were required to pass all sections of the HSPE as a requirement for graduation. Students were given multiple attempts to pass.

<sup>3</sup> In 2015-16, Nevada transitioned from the High School Proficiency Exam (HSPE) to an End of Course Exam (EOC) as a graduation requirement for a Nevada standard diploma. During the 2015-16 (Class of '17) and 2016-17 (Class of '18) academic years, juniors were only required to participate in four EOC examinations, and pass the associated aligned courses in order to be graduate eligible. The Nevada State Board of Education made this decision to provide two years of data for standard setting purposes. At the time, the Class of '19 (2017-18) was going to be required to pass the four EOC examinations and participate in the aligned courses. There is no EOC data for 2015-16, as students were only required to participate, not pass the assessment as part of norming the test. Students were given one (1) attempt to pass.

<sup>4</sup> In 2014-15 (Class of '16), Nevada began requiring all juniors to participate in the ACT assessment. In 2017-18 (Class of '19), Nevada began using the ACT assessment, instead of the EOC, as it's measure of high school proficiency in Math and English Language Arts. Students are only required to participate in the ACT to be eligible for graduation. Nevada is one of 7 states that require all high school juniors to take the ACT with the optional writing section. Students are given one (1) attempt to pass.

<sup>5</sup> In 2019-20, The United States Department of Education suspended all assessment due to the COVID-19 pandemic. As a result, no data is available.

<sup>6</sup> In 2020-21, and again as the result of the COVID-19 pandemic, the United States Department of Education only required students to participate in the SBAC and ACT assessment. Scores were not used for accountability purposes.
