How to find and check out an audio or eBook from the Dickey Intermediate Library

We have about 300 audiobooks and 300 eBooks, and the collections are growing. All audiobooks and most eBooks are single-user (one user at a time). To build reading comprehension skills a student can listen to an audiobook while reading the paper book. All Intermediate students can use the guest login using a computer or web-enabled device (iPad, Android tablet, smartphone, etc.) in Destiny Discover. The books will stream live using the existing internet or wifi. The Destiny Discover guest login: *pembroke / hill*

- Go to pembrokehill.org
- Select Academics - then Libraries
- Select Wornall Libraries
- A box on the left has Dickey Library Destiny Discover
- To select an audio or eBook tap on the headphones and login with your PHS network login - upper right in the blue box.

  New: You may Sign in with Google (left side) OR enter your network username and password (right side).
  This database allows you to play and check out the books. Books are checked out for two weeks and automatically returned. Paper books are also listed in this catalog so remember to notice what format you are trying to open. Formats will be listed as Book (paper book), eBook, or audiobook.

- *Directions for download*

  You will want to download the book if you will be traveling and/or won't have a Wi-Fi connection.
  To download an audiobook into a device the student will need to get the free Destiny Read app. The new free app for eBooks is Destiny Discover.
  Both apps are already installed on your PHS iPad!

You will be asked to enter;

- Location - Missouri
- School - Dickey Intermediate Library (3rd - 5th grades)
- Sign in with Google OR your Network Username and password
- Books are checked out for 14 days and automatically returned

Should you have questions, please email me - baber@pembrokehill.org
